GUNAANAD: YAAN QOFNA MEEL LAGAGA TAGIN

Dadka waaweyn ee LGB ee ku nool Oregon waa dad aan si fican adeega u helin haddana ah dad adkeysi leh. Natijjooyinkani daraasadda ayaa sharraxaad cusub ka bixinaysa kala duwanaanshaha iyo halisaha isbiirsaday ee ay wajahayaan dadkan waayeelka noqonaya. Hab dhammeystiran ayaa muhiim u ah wax ka beddelka siyaasadaha bulshada, adeegyada, waxbarashada, iyo cilmi baarista si wax looga qabto dadka sii kordhaya ee ah dadka waaweyn ee LGBTQ+.

Si hore loogu socdo, waxay noqon doontaa muhiim in la kordhiyo shaqadii bilawga ahayd iyo u doodida ururuda LGBTQ+ si loo dhiirigeliyo iskaashiga ka dhexeyya bulshooyinkan, hay'adaha dadka waayeelka noqonaya, iyo siyaasad dejiyayaasha gobolka iyo degaanka si loo dejiyo hab dhammeystiran oo wax lagaga qabanayo baahiyaha da' noqoshada iyo caafimaadka ee dadka waaweyn ee LGBTQ+. Ra'yi ururintani waxa leedahay heerar la dejiyay oo loogu tagalay hay'adaha gobolka si loo dhageyso codadka waayo-aragnimada ka jirta bulshada iyo in la wada shaqeeyo si loo ogaado caqabadaha iyo awoodaha si loo dejiyo istiraatijiyo, barnaamijyo, adeegyo, iyo ilo saameyn leh si loo buuxiyo baahiyahaasa. Iyada oo iskaashiyadan la dejiyay, waa muhiim in ay matalaan kala duwanaanshaha bulshooyinkani, sifooyinka qaab-dhismeed ahaaneed iyo taariikheed labadoodaba iyo sidoo kale degaanada gaarka ah.

Sida lagu muujiyey natijjooyinka warbixintan, waxaa jira baahiyoo sare oo ka jira guud ahaan bulshooyinkaasi iyo sidoo kale halis kala duwan oo ka dhex jirta dad-hoose oo gaar ah oo u baahan in wax laga qabto, oo ay ku jiraan iyada oo la eegayo dookha galmo iyo aqoonsiga, jinsiga, aqoonsiga jinsi ahaaneed iyo is cabirka, jinsiyada/qoymiyadda, da'da, HIV, xaalada, degaan gaar ah, iyo xaalada dhaqan- dhaqaale.

Si loo yareeyo loogana hortago go'doonsanaanta bulshada waa sidoo kale waa lama huraan in muhiimada la siiyo adeegyada dadka waaweyn ee LGBTQ+ ee keligood nool iyaga oo aan haysan adeegyo iyo taageero aan ku filnayn. Intaasi waxaa dheer, taageerada dhanka farsamada ayaa lagama maarnaan u ah bixinta helitaanka dhanka internet-ka iyo aalado si loo yareeyo go'doonsanaanta bulshada, loo taageero isku xirnaanta, loona xaqijiyo in aan qofna meel lagaga tagin iyada oo adeegyada iyo taageerooyinka oo dheeraad ah lagu bixiyo iyada oo meel fog la joogo.

Waxay noqon doontaa mid muhiim ah in la aqoonsado barnaamijyada dhaqan ahaan loo wada dhan yahay, adeegyada, iyo siyaasadaha ahaa kuwo

ku guuleystay buuxinta baahiyaha dadka waaweyn ee LGBTQ+ ee degaanada kale ee ku baahsan dalka. Ka faa'iideysiga casharradani oo kale waxay gacan ka geysan doonaan horumarinta noocyoo iyo barnaamijyo laga hirgelin karo meelaha magaalada ah, miyiga, iyo bulshooyinka magaalada ee ku nool Oregon halkaasi oo adeegyada LGBTQ+ oo loo dhan yahay looga baahan yahay. Ka qayb qaatayaal badan, tusaale, ayaa soo sheega in ay dareemayaan soo dhaweyn la'aan iyo ammaan la'aan helitaanka adeegyada dadka waayeelka noqonaya, caafimaadka, iyo dadweynaha, iyada oo qaar badanina ay la kulmeen takoor iyo eex sanadkii la soo dhaafay. Si loo yareeyo caqabahani oo kale ee daryeelka, tababarka ka mid noqoshada dhaqan ee loogu talagalay dadka waayeelka noqonaya, daryeelka caafimaad, iyo adeeg bixiyayaasha kale iyo xirfadlayaasha dhanka sharcigu waa muhiim. Waxay sidoo kale noqon doontaa mid muhiim ah in la shabaho/lagu soo celiyo ra'yi ururinta marka muddo la joogaba si loola socda isbeddelada oo loo qiimeeyo horumarka la sameynayo ee yareynta kala duwanaanshaha dadka waayeelka noqonaya, caafimaad, dhaqaale, iyo bulsho.

Waa muhiim in mudnaanta la siiyo baahiyaha dadka waaweyn ee ka tirsan ururada LGBTQ+ iyo bulshooyinka iyo in laga qayb qaato nidaamyada qorsheynta degaanka, gobolka, iyo federaalka si loo helo horumarinta adeegyada ee sida aadka ah loogu baahnaa, oo ay ku jiraan guryaha, gaadiidka, iyo barnaamijyada taageerada. Waa mid aasaasi ah in siyaasad dejiyayayaasha iyo daneenayaasha muhiimka ah ay bilaabaan oo taageeraan siyaasadaha barnaamijyada taageerada iyo dadaalada cilmi-baariseed si hab fiican wax looga qabto baahiyaha dadka waaweyn ee LGBTQ+ ee aan sida fiican adeega u helin iyo qoysaskooda,
