

ECHO PREPAREDNESS SUMMIT 2015

Creating a Culture of Preparedness

WEDNESDAY, OCTOBER 7

HPP and You: What is HPP and How Do You Use It?

BETH DEPEW, BS, EMT-I, HSPR HEALTHCARE LIAISON, REGIONS 3 & 5

1:00 – 3:00 P.M.
CASCADE C

This session will provide the attendee with an overview of the Hospital Preparedness Program. We will specifically focus on the requirements for the State of Oregon as outlined in the Federal grant guidance and generally touch upon region specific items. Tools will be provided to help guide members new to HPP through the annual processes as well as provide refresher and helpful tips to those who have been with the program for a while.

Following the presentation, participants will:

- Learn about what the Hospital Preparedness Program is and how it works in Oregon
- Receive take away tools to help guide attendees through the HPP processes
- Learn about existing tools and programs that support HPP work.

Fundamentals of Public Health Emergency Preparedness

KRIS HANSEN, BS, LMP, HSPR PUBLIC HEALTH LIAISON

1:00 – 4:00 P.M.
CASCADE ABJ

The Fundamentals of Public Health Emergency Preparedness (PHEP) session will explore the foundational elements of emergency preparedness/management and highlight the responsibilities to perform the PHEP Coordinator position in Oregon. There will be opportunities to discuss best practices, connect with colleagues, and obtain perspectives to the overall concept of preparedness. This course is for people working in and with the Public Health Emergency Preparedness and for those who are new to the field and those who are well-seasoned.

Following the presentation, participants will:

- Describe potential role and responsibilities a Public Health Agency may undertake during an incident response.
- Compare and contrast the concepts between Public Health Emergency Preparedness and Emergency Management.
- Identify opportunities, programs, and best practices in the Emergency Preparedness and Management fields to utilize in local jurisdictions.

4:00 – 5:00 P.M.
BOARDROOM

CLHO PHEP Subcommittee Meeting

THURSDAY, OCTOBER 8

Breakfast on your own

8:30 – 9:00 A.M.
CASCADE ABJ.

Opening Ceremonies: Honor Guard and Blessing

CONFEDERATED TRIBES OF WARM SPRINGS

9:00 – 9:15 A.M.
CASCADE ABJ

Welcome: Creating a Culture of Preparedness

JULIE BLACK, ED.M., ALL HAZARDS PLANNER, HSPR

Opening Plenary
9:15 – 10:45 A.M.
CASCADE ABJ

The Oregon Resilience Plan: Challenges and Opportunities for Implementation

JAY WILSON, CHAIR, OREGON SEISMIC SAFETY POLICY ADVISORY COMMISSION

The 2013 Oregon Resilience Plan (ORP) is a 50-year trajectory to protect lives and keep commerce flowing following a Cascadia earthquake and tsunami. With recommendations from the 2014 Oregon Resilience Task Force and 18 resilience-related Bills in the 2015 Legislature, the ORP is having an impact and framing the discussion

locally and across the State on how prepared we need to be. What remains to be established is a holistic approach to community resilience as it translates into day-to-day human services and social networks that will become even more critical during and after a disaster. We need to recognize our Cascadia catastrophe as a “mass displacement” event that will require sustained investments for mass care, shelter and transitional housing for tens of thousands of Oregonians.

Following the presentation, participants will:

- Understand the purpose, goals and objectives of the Oregon Resilience Plan.
- Better appreciate the vulnerable interdependencies between buildings and infrastructure that our communities rely on.
- Have a better understanding of the role of public health and healthcare in planning for a Cascadia event.

10:45 – 11:00 A.M. **Break**

Meeting Human Needs through Collaboration: The Role of Public Health and Health Care in ESF-6 Mass Care (CASCADE E)

CURTIS PEETZ, DIRECT SERVICES SUPPORT MANAGER, OREGON ESF-6

STAN THOMAS, OR EMERGENCY PREPAREDNESS AND BUSINESS CONTINUITY PROGRAM MANAGER

Meeting human needs – through collaboration. Presentation attendees will be provided with an overview of the role, responsibilities of Emergency Support Function 6 (ESF-6) at the state level. ESF-6 and ESF-8 focus to ensure that human needs are identified and addressed when an emergency occurs. Learn about the interconnected relationships between these two support functions and how public health and health care organizations can collaborate with ESF-6 agencies to address human needs. Participants are encouraged to come prepared with questions about how ESF-6 agencies may be able to support their operations; and to share information about their capabilities to support ESF-6 needs.

Following the presentation, participants will:

- Have a greater understanding how ESF-6 at the state level is organized and the resources and support ESF-6 agencies can provide to public health and health care agencies.
- Have a greater understanding about the support ESF-6 will need from public health and health care facilities.
- Be better prepared to partner and collaborate with ESF-6 agencies as they are preparing to update local preparedness/response/recovery plans, identifying exercise opportunities, or responding to an emergency.

Morning Breakout

11:00 A.M. – 12:30 P.M.

Cascadia Earthquake – Are We Ready Yet? (CASCADE G)

LARRY TORRIS, MBA, LP, ALL HAZARDS PLANNER, HSPR

Following the presentation, participants will:

- Understand the Cascadia ESF 8 Planning to date and the work still to do.
- Understand the federal resources available for the ESF 8 response.
- Understand what/when assistance/resources will be coming and expectation management.

Active Shooters: Pre-Attack Behaviors and Indicators (CASCADE D)

MARK MCBRYDE, FBI SPECIAL AGENT

Active shooters engage in behaviors and exhibit specific, identifiable characteristics that precede and are related to their attacks. Frequently these factors have been noted by others, often by those closest to the shooter, however aren't recognized as the serious clues that they are. Detection of these behaviors, coupled with a multidisciplinary approach which includes law enforcement and medical clinicians, provides for varied opportunities for management of the threat and disruption of the intended violence.

Following the presentation, participants will:

- Gain insight into noted pre-attack indicators.
- Recognize common myths and misperceptions regarding active shooters.
- Identify threat management strategies.

Preparing and Planning for an Alternate Care Facility (CASCADE C)

APRIL BROCK, INCIDENT PREPAREDNESS COORDINATOR, GRANDE RONDE HOSPITAL
HALEIGH LESLIE, MPH, YAMHILL COUNTY PUBLIC HEALTH PHEP COORDINATOR
ED FLICK, MARION COUNTY EMERGENCY MANAGER

In this breakout session, participants will partake in discussions with presenters on developing, implementing and exercising an Alternate Care Facility and the plans that are required. The presentation will also include discussion on trainings available.

Following the presentation, participants will:

- Differentiate between Alternate Care Facilities and Shelters.
- Identify two community partners that can assist with Alternate Care Facility planning.
- Recognize the steps to developing an Alternate Care Facility in a community.

Local Experiences in Public Health Preparedness and Response I: Addressing Life-Critical and Essential Psychotropic Medications for Emergency Preparedness in Coos County (CASCADE F)

NICOLE BOWMAN, AMERICORPS VISTA ALUMNI, AMERICORPS VISTA/OHA PARTNERSHIP; COOS HEALTH & WELLNESS

The mission of this project was to develop a comprehensive list of life-critical and psychotropic medications used in Coos County, in order to establish an initial request for medication supply after a major event that interrupts the normal pharmaceutical supply chain for greater than 72 hours. Obtaining this information is important due to the increased morbidity and mortality rates that follow such events due to the lack of access to life-critical medications. In this presentation, we will review the process we used to obtain this type of data, as well as provide recommendations for any future corresponding projects.

Following the presentation, participants will:

- Have an increased understanding of the importance in addressing preparedness with pharmaceutical usage in the community
- Comprehend the basic steps taken and resources that were used within Coos County's pilot project of Emergency Pharmaceutical Preparedness
- Have an understanding of what additional steps and considerations should be taken in future corresponding projects

Local Experiences in Public Health Preparedness and Response II: Water, Water Everywhere... (CASCADE F)

SUE MOHNKERN, PUBLIC HEALTH EMERGENCY PREPAREDNESS PROGRAM SUPERVISOR, WASHINGTON COUNTY PUBLIC HEALTH

...but not a drop to drink. Have you developed a partnership between your county water provider(s), emergency management, and public health for those Boil Water Notice or Do Not Use water events? Washington County, with thirteen large water providers (and over 100 water providers in total) has been collaborating over the past few years to develop procedures, protocols and a close collaboration between water providers, public health, and emergency management in order to respond to water events. Participants will take away the procedures and algorithms that have been developed and tested in Washington County, as well as some thoughts and ideas for use in their own jurisdictions.

Following the presentation, participants will:

- Identify some of the challenges that may be faced in dealing with water events.
- Have tested procedures and algorithms to adapt for use in their own jurisdictions.
- Identify future steps

Lunch / State of the HSPR / Creating a Culture of Preparedness (CASCADE ABJ)

12:30 – 1:30 P.M. MIKE HARRYMAN, MA, DIRECTOR OF EMERGENCY OPERATIONS, OREGON HEALTH SECURITY PREPAREDNESS AND RESPONSE
JULIE BLACK, ED.M., ALL HAZARDS PLANNER, HSPR

1:30 – 1:45 P.M. **Break**

The Connected Community: The Key to Resilience and Brilliance (CASCADE ABJ)

Afternoon Plenary ANA-MARIE JONES, EXECUTIVE DIRECTOR, COLLABORATING AGENCIES RESPONDING TO DISASTERS

1:45 – 3:15 P.M. This talk will underscore how community connectedness is the true key to building communities where all people can thrive in the face of both challenges and opportunities. Leveraging lessons learned from across the country, as well as research from different fields — including advertising and marketing, optimism, brain function, etc. This

presentation is designed to help all summit participants embrace the important role they can play in creating resilient, brilliant, and connected communities.

3:15 – 3:30 P.M.

Break

Meeting Human Needs through Collaboration: The Role of Public Health and Health Care in ESF-6 Mass Care (CASCADE E)

CURTIS PEETZ, DIRECT SERVICES SUPPORT MANAGER, OREGON ESF-6

STAN THOMAS, OREGON EMERGENCY PREPAREDNESS AND BUSINESS CONTINUITY PROGRAM MANAGER

*See morning breakout for description

Resource Ordering and Logistics Coordination Workshop (CASCADE C)

BILL MARTIN, PROGRAM ANALYST TEAM LEAD, OREGON OFFICE OF EMERGENCY MANAGEMENT

The intended presentation is focused on discussion of how and why logistics works the way that it does between local emergency management, the state, and federal partners. Information about pre-scripted missions, requirements for effective ordering, and W's and H of accomplishing the tasks needed to support each other.

Following the presentation, participants will:

- Increase understanding of logistics requirements.
- Review basic information on OpsCenter
- Work through a logistics request scenario

Cascadia Earthquake – Are We Ready Yet? (CASCADE G)

LARRY TORRIS, MBA, LP, ALL HAZARDS PLANNER, HSPR

Afternoon Breakout

3:30 – 5:00 P.M.

Active Shooters: Pre-Attack Behaviors and Indicators (CASCADE D)

MARK MCBRYDE, FBI SPECIAL AGENT

*See morning breakout for description

Local Experiences in Public Health Preparedness and Response III: Measles Protocol in the Portland-Metro Area (CASCADE F)

ROBIN HOLM, BS, CEM, ME, MULTNOMAH COUNTY HEALTH DEPARTMENT

LAURA REYNOLDS, RN, BSN, MPH, MULTNOMAH COUNTY HEALTH DEPARTMENT

The Disneyland measles outbreak of 2014-15 emphasized the importance of controlling highly communicable diseases in our communities. The Portland metro area started working with community partners and schools before the outbreak started with the goal of creating a measles protocol for schools and daycares. During this session, we will discuss the public health significance of a measles case in a school, identify key steps and stakeholders needed to coordinate a measles investigation and explain the overall protocol we created in the Portland metro-area. Key topics include: medical assessment, exclusion, contact management, post-exposure prophylaxis and communication.

Following the presentation, participants will:

- Understand the public health significance of a measles case in a school
- Identify key steps and stakeholders needed to coordinate a measles investigation
- Become familiar with the measles protocol process developed in the Portland metro-area

5:00 – 5:30 P.M.

Break

Social night - (Crossings Restaurant and Bar)

Come join your conference planning team and fellow attendees for this opportunity to connect, converse and have a good time.

Networking Event

5:30 – 6:30 P.M.

- No host bar.
- Games will be available.

FRIDAY, OCTOBER 9

Breakfast on your own

8:30 – 8:45 A.M. **Welcome: Creating a Culture of Preparedness (CASCADE ABJ)**
JULIE BLACK, ED.M., ALL HAZARDS PLANNER, HSPR

Essential Public Health Services and the Modernization of Public Health (CASCADE ABJ)
THOMAS G. EVERSOLE, DVM, MS, ADMINISTRATOR, CENTER FOR PUBLIC HEALTH PRACTICE, OREGON PUBLIC HEALTH DIVISION

Oregon's Modernization of Public Health will provide new opportunities to apply the 10 Essential Services of Public Health to emergency preparedness and response. Expanding the health system could increase community resiliency through Win/Win approaches with new partners.

Plenary 3

8:45 – 10:15 A.M. Following the presentation, participants will:

- Be able to identify 10 essential public health services as they apply to public health emergency preparedness
 - Describe how essential services could operate in a modernized public health system
 - Provide examples of new partnerships that could be leveraged for community resiliency in a transformed health and public health system.
-

10:15 – 10:30 A.M. Break

Ebola Experience: From Liberia to Oregon (CASCADE ABJ)

CHRISTINA Z SHEPPARD, RN, TILLAMOOK COUNTY HEALTH DEPARTMENT

10:30 – 12:00 P.M. MARY GOODWIN, PREPAREDNESS COORDINATOR, DESCHUTES COUNTY HEALTH SERVICES

MICHAEL KUBLER, M.S., EMERGENCY MANAGER, PROVIDENCE HEALTH & SERVICES

FACILITATED BY JULIE BLACK

Closing Remarks (CASCADE ABJ)

12:00 – 12:15 P.M. THOMAS G. EVERSOLE, DVM, MS, ADMINISTRATOR, CENTER FOR PUBLIC HEALTH PRACTICE, OREGON PUBLIC HEALTH DIVISION
