

Immature to Vegetative – Plant Tag Assignment

This worksheet is provided by the OLCC as a tool for collecting information for entering tagging and tracking of immature plants at or before the time they reach 24" in height. Once all information is collected on this worksheet, enter the tracking data into the cannabis tracking system (CTS) before starting operation the next day to meet daily reconciliation requirements. **Use of this worksheet is not required. Completing this worksheet does not meet necessary tracking requirements.** All information must be entered into CTS.
