

Oregon Breast and Cervical Cancer Program Enrollment Allotment Award

July 1, 2009-June 30, 2010

Agency Name: «Agency_Name»

Current demand for program services has exceeded the funding levels to provide services for all eligible women. As a result, the Breast and Cervical Cancer Program (BCCP) has had to limit the number of women providers can serve during the grant period.

Total Allotment	Quarter-based Allotments			
	1 quarter July – September	2 quarter October - December	3 rd quarter January – March	4 quarter April - June
«Adjusted_Total»	«Q1»	«Q2»	«Q3»	«Q4»

How do Quarter-Based Allotments Work?

This year BCCP is awarding allotments quarterly to ensure all year availability of BCCP services. Each quarter your agency will receive enrollment slots to be used for that time period. Each quarter, the BCCP Web Data System will allow your agency to enroll women up to your agency’s allotments for the quarter.

What Counts as an Enrollment?

Regardless of the services a client may receive, from screening to a full diagnostic work-up, each client counts as one enrollment per year. The clients can be new clients or clients whose eligibility period has expired that are returning from last year. The BCCP fiscal year is July 1 through June 30. It is very important for providers to stay within the allotted enrollment number awarded during the fiscal year. **BCCP will not be able to reimburse for enrollments beyond the allotment numbers.**

Can We Increase Our Agency’s Allotment Numbers?

BCCP does not have enough funds to serve all the women who need these services. All enrollment slots for June 2009-July 2010 have been awarded.

What about Symptomatic Clients?

BCCP will continue to provide services for clients who are symptomatic for breast and/or cervical cancer. If a women presents with symptoms of breast and/or cervical cancer and your agency has allotments, one of the allotted enrollment slots must be used. If your agency has used all of the slots for that quarter, the client can still be enrolled, but the provider must call or email BCCP for prior approval before enrollment.

Which Ancillary Service Providers Are Approved by BCCP?

BCCP must have a Medical Service Agreement with ancillary providers **PRIOR** to them providing BCCP services. Please review the approved BCCP ancillary provider list before referring a client to help ensure that the client is not billed for services. If your ancillary service is not on this list, please contact BCCP. The list is continually being updated, so please check online periodically to look for changes in your area.

Please also refer to the *New Mammogram Payment Policy* and *Priority Population Guidance for Providers*. More information for providers can be found on the BCCP website: <http://www.oregon.gov/DHS/ph/bcc/>
