Training and Education

How to Get the Most Out of a Webinar

Center for Health Training is the agency that does many training events for Family Planning Program/Clinic staff. Please try to attend this FREE Webinar event to learn how to access future training events that will be provided through Webinar. This is your opportunity to learn how to use the technology before you try/fail during an actual training event.

This will be a webinar to train participants from Region X to be more proficient with our webinar program. We plan to schedule several webinars this coming year, and we want our participants to be able to utilize all the various aspects that allow for learning. This includes use of polls, Q&A, chat with our expert consultants, use of blackboard, and document sharing.

DATE: OCTOBER 30th, 2008

Resources

Looking for Written Client Education Resources?

Make It Work!

The updated Physical Activity Guidelines for Americans are now available from DHHS. There are various resources, including a free client-oriented booklet that can be downloaded.

The website is:

Don't Forget OPA!

Many of materials available through Office of Population Affairs have been recently updated. Most can be downloaded for free. Many are in Spanish.

The website is:

Be sure to check out the pamphlets with the high quality graphic versions. Here is a link to this version of the Pap information sheet. FYI-- it looks good in black and white, too.
