Decedent's Information

First: Jane Last: Jc Date of Death: MAY-15-2007

Gender: Female SSN: Date of Birth: JAN-01-1978

Case Id: ME Case Number: Medical Record Number:

Place of Death Location Type: County Place of Death: Multnomah

Search Clear

Tip You can either type in the county or select it from the list in the drop down box (recommended method).

There are two additional required fields when starting a new record in EDRS: Date of Birth and County of Death.

Requiring County of Death helps ensure that the county is included on the disposition permit as well as associating the proper registrar with the record.

Additionally, these fields will be needed for a future upgrade when starting a case in EDRS replaces and eliminates the need to submit the 24-hour death abstract cards.
