

Oregon
Commission
for Child Care

Community Forum on Preschool Program Legislation

The Commission would like your input to assist the Child Care Division in developing rules that will implement the 2009 legislation impacting preschools that operate four or fewer hours per day and are not currently licensed by the Child Care Division. The legislation that passed in 2009 will require these preschool program staff and volunteers to obtain a background check, become recorded with the Child Care Division and inform parents they are not licensed by the Child Care Division.

Preschool staff and owners, child care providers, parents, employers, business and community leaders and all individuals who care about children are welcome!
