SUSPENSION CONCENTRATE**

OREGON PRODUCT ID NO. 2008OR008

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR CONTROL OF GRASSHOPPERS IN BLUEGRASS, FINE FESCUE AND OTHER SPECIALIZED GRASSES GROWN FOR SEED

SITES AND ACREAGE TO BE TREATED: Maximum of 1500 acres

COUNTIES: Baker and Union

EFFECTIVE DATES: June 30, 2008 TO July 14, 2008

BLUEGRASS, FINE FESCUE AND OTHER SPECIALIZED GRASSES GROWN FOR SEED

GRASSHOPPERS AND MORMON CRICKETS: Apply DIMILIN[®] 2L in a broadcast spray at 2 fl. oz. per acre. Use a minimum of 5 gallons of water per acre if applied by air; use a minimum of 20 gallons of water per acre if applied by ground. Include 1 pint to 2 quarts per acre of emulsified vegetable or paraffinic oil to aid canopy penetration and minimize water evaporation. Do not exceed 2 fl. oz. per acre. Maximum control of the grasshopper populations may take 10 to 14 days. For optimum results, apply DIMILIN 2L when grasshoppers have reached the 2nd to 3rd instar stage of development. DIMILIN will not effectively control grasshoppers and Mormon crickets once they reach the adult stage.

Do not apply closer than 14 days prior to harvest.

Do not apply DIMILIN directly to or allow to drift to water or wetlands. When disposing of equipment wash water or rinsate, do not contaminate water.

Do not plant food or feed crops in DIMILIN treated soils within 1 month following last application, unless DIMILIN is authorized for use on these crops.

Do not enter or allow workers into treated area during the restricted entry interval (REI) of 12 hours.

Do not apply within 25 feet by ground or within 150 feet by air of bodies of water such as lakes, reservoirs, rivers, permanent streams, natural ponds, marshes or estuaries. All applications must include a 25 foot buffer vegetative strip within the buffer zone to decrease runoff.

DIMILIN[®] is a Registered Trademark of Chemtura Corporation, 199 Benson Road, Middlebury, CT 06749

All applicable directions, restrictions, and precautions on the registered product label for Dimilin 2L (400-461) are to be followed.

These Use Directions must be in the possession of the user at the time of the pesticide application. 001
