State and local government (OWN 20, 30)	-	-	2	2
Total	7	7	8	8

¹Compensable fatalities are claims, accepted by insurers, arising from a fatal occupational injury or disease that entitle workers and/or their survivors to compensation.

² North American Industry Classification System (NAICS), 2002 Edition

³ Year-to-date total includes first quarter only.

⁴ "OWN 20, 30" refers to employers that have an Ownership Code of 20 or 30, indicating state or local government agencies, respectively.

Note: Dashes indicate no claims were received.

Data exclude worker deaths not subject to Oregon workers' compensation coverage, such as self-employed workers, employees of out-of-state employers, federal employees, or city of Portland police and fire employees.

Quarterly counts are preliminary and subject to change as source data for fatalities are received throughout the year.

Data are based on the date the Department of Consumer and Business Services received notification that the fatality claim was accepted, which may be different than the date of injury or the date of death.

Information Technology and Research Section, Oregon Department of Consumer and Business Services, May 13th, 2024 (CCRA064)
