

2023 Oregon Inspector Code Change Training Deadline is **September 30, 2024**

For the following codes

Oregon Electrical Specialty Code

Oregon Plumbing Specialty Code

Oregon Residential Specialty Code

All BCD inspector certification holders must complete code change classes provided by the division to maintain their active certification. Continuing education must be taken in a timely manner in each area that you perform inspections or plan reviews in order to remain certified. Certificate holders must self-certify that they have completed all required code update training and continuing education requirements for the 2023 code update cycle by **September 30, 2024**.

The division has prepared online training videos and supplemental materials showing the substantial changes to each newly adopted code. There is no fee for viewing the virtual classes. Online code change classes are available at:

<https://www.oregon.gov/bcd/inspector-training/Pages/code-change-reg.aspx>

To maintain your inspector certification you must self-certify to BCD that you have in fact viewed the applicable training or documents no later than September 30, 2024. A self-certification document can be found at the code change website listed above.

If you fail to complete and self-certify the required code change training by September 30, 2024, your certification will expire.

Please view the posted tracking sheet to see if your code change self-certification form has been received. Pursuant to OAR 918-098-1028, individuals with expired certifications are not allowed to conduct inspections pertaining to certifications that are expired. If you do not complete your training and self-certify by September 30, 2024, you may not conduct inspections until you have obtained new certifications.
