†Proportion of funds available to an applicant that is a federally recognized tribal government determined by the Improving People’s Access to Community-based Treatment, Supports and Services Grant Review Committee on April 2, 2024, as instructed by HB 4002 (2024).

††Determined by the Improving People’s Access to Community-based Treatment, Supports and Services Grant Review Committee on April 2, 2024. This committee may allocate up to three percent of program funds to support grantee data collection and analysis or evaluation of outcome measures, per HB 4002 (2024).

\*The Tribes represented here are those that opted in for Oregon Behavioral Health Deflection Program funding for the the 2023-25 biennium.

\*\*Per HB 4002 (2024), applicants may not receive less than \$150,000 (base amount). A formula based on the 2023 Indian Health Services user population was then added to the base amount as decided by a majority consensus of the Federally Recognized Tribal Governments in Oregon.
