# Definitions

- **Abated:** An account that has been determined not to be owed.
  - Example 1: During an *offer in compromise* a portion of the account is paid and the remaining portion is waived. The portion that is waived is abated.
  - Example 2: If an account is discharged in bankruptcy, it has been abated.
  - Note: Accounts that have been written off are still fully collectible, therefore an account written off has not been abated.
- **Account:** The debt relationship between a state agency and an individual or entity, which may include multiple obligations and time periods. (OAM 35.40.10).
- **Adjustments:** Entries to increase or decrease debt. Adjustments may be required to correct an administrative error or when the debt is abated (legally determined not to be owed such as in bankruptcy or an offer of compromise). Adjustments do not include Write-offs.

# Definitions

- **Delinquent account:** An account receivable for which payment was not received by the original due date.
- **DOR Program codes:**
  - **Restricted program code:** When accounts assigned to the Department of Revenue for collection are subject to Offset Only (intercepting tax refunds).
  - **Unrestricted program code:** When accounts assigned to the Department of Revenue for collection are subject to full collection services, which may include letters, phone calls, garnishments, skip tracing, asset location, and offset.
- **Fiscal year (FY):** July 1 of one year to June 30 of the next.

# Definitions

## Fund Types

- **Federal Funds:** Money a state agency receives directly from the federal government.
- **General Fund:** Money appropriated by the legislature to a state agency or statutorily designated as General Fund.
- **Lottery Funds:** Money received by a state agency from Lottery proceeds.
- **Other Funds:** Money received by a state agency from sources other than the General Fund, Federal funds, or Lottery funds.
- **Other Funds Pass Through:** Other funds collected by a state agency and remitted directly to another entity.

# Definitions

- **Liquidated account:** In general, an account where the exact past due amount is known, the debtor has been notified of the debt, and the debtor has been given the opportunity to dispute the debt (refer to OAM 35.30.30 for the complete definition).
- **OAM:** Oregon Accounting Manual  
(<https://www.oregon.gov/das/Financial/Acctng/Pages/OAM.aspx>)
- **Receivables:** Amounts owing to the State including accounts receivable, loans, notes receivable, and interest. Receivables can be due from private persons, firms, corporations, other agencies, employees, and the federal government. (OAM 65.00.00)
- **Reversals:** Any account (and the associated debt) previously reported as Liquidated and Delinquent (L&D), that no longer met the definition of L&D as of June 30. For example, if the debtor disputes the debt, while the account is under review, it is not considered L&D.

- This measurement should only reflect the time frame for initial assignment. Do not include accounts that were previously assigned and returned and later reassigned.
- Be sure to review the data and adjust targets as needed for the next fiscal year, do NOT change current year targets from what was reported last year.

# LFO Reporting Worksheet

# Year End Reporting - LFO Reporting Worksheet

- The [LFO Reporting Worksheet](#) is a resource developed to assist agencies to identify some common reporting errors as well as aggregating their data in a way that will aid with the entry to the LFO reporting system. Use of the worksheet is not required but highly encouraged.
- The LFO Reporting worksheet contains built in formulas that will highlight cells red and show “error” if the condition is not true. Once all entries are made if these are still red, review the condition and look for an entry error.
- Enter activity for each fund type, the worksheet automatically calculates the agency total.
  - “**General Funds**” is for reporting receivables that create revenue in the General Fund. (For example, a tax receivable to the General Fund per statute should be reported as General Funds.)
  - For purposes of reporting L&D account activity to LFO, receivables related to General Fund reduction of expense, (established under the provisions of [OAM 20.40.00](#)) should be reported to LFO as Other Funds.

# Agency Year-End Checklist

# Year End Reporting - Agency Year-End Checklist

- Applicability:
  - All agencies subject to the LFO reporting requirement (ORS 293.229 (5)) must submit a completed checklist to [SWARM@DAS.Oregon.gov](mailto:SWARM@DAS.Oregon.gov) no later than October 1, 2024 to be eligible for the Accounts Receivable Honor Roll.

# Year End Reporting - Agency Checklist

- Use the agency checklist after completing the Reporting Worksheet and before entering data to the LFO website.
- The checklist will help identify if there any data issues between the different reports that should be corrected before making the LFO entry.

This worksheet is for agency use to verify that the data reported to DAS and LFO is consistent within the format of the specific reporting and assist in identifying potential reporting errors. A completed checklist must be submitted to [SWARM@oregon.gov](mailto:SWARM@oregon.gov) no later than October 1, with each state agency's year-end Accounts Receivable Reporting.

Answer to each question must be "Yes", unless the agency has a statutory exception from completing at least one of the reports in which case "N/A" should be marked. Any item marked "No" must also include a comment in the "No" box explaining why "No" is the correct response.

# Year End Reporting - Agency Year-End Checklist

- For convenience, items in the questions are color coded to reference the report where the data is to be found.
- Items 1-19 in the checklist should be marked yes, unless the agency is exempt from completing one of the reports for a specific question in which case the correct answer would be “N/A”.
- Any item answered no, must include a comment that explains why that is the correct response. Although typically a no response means that there is a problem with one of the data elements in a report. For example, question 5 asks if the ARPM value of A/R accounts outstanding is greater than or equal to the LFO reporting worksheet Total- Section II Ending Balance. Since the ARPM is asking for ALL agency A/R outstanding and the LFO report is only the liquidated and delinquent accounts the LFO report cannot be more than the ARPM.
- Review the questions in items 20-22 to ensure the proper notes have been identified for the LFO entry.
- Verify the data from each of the respective reports when completing the year end checklist.
