MEMORANDUM

To: Kris Mitchell, Chief Planning & Programming Branch, Oregon Military

Department (OMD)

From: Bill Foster, Chair, Capital Planning Advisory Board (CPAB/Board)

Date: August 20, 2024

Subject: OMD's 2025-27 Agency Facilities Plan Acceptance

Kris,

The Capital Projects Advisory Board (CPAB/Board) has reviewed OMD's 2025-27 facilities plan in accordance with ORS 276.227. Following your Board presentation on August 9th, the Board has **accepted** your plan with the following comments:

• *CPAB* appreciates your thorough presentation and the agency's excellent stewardship in addressing deferred maintenance through the ASLEP program.

Sincerely,

Bill Foster, Chair

Capital Projects Advisory Board (CPAB)

Bill Foster

OREGON MILITARY DEPARTMENT

JOINT FORCE HEADQUARTERS, OREGON NATIONAL GUARD INSTALLATIONS DIVISION 1776 MILITIA WAY P.O. BOX 14350 SALEM, OREGON 97309-5047

July 26, 2024

Subject: 2025-2027 Biennium CPAB Memorandum

Mr. Daniel Christensen Capital Planning, Enterprise Asset Management Department of Administrative Services 155 Cottage Street NE Salem, Oregon 97301

Dear Mr. Christensen:

The purpose of this letter is to convey the enclosed Oregon Military Department (OMD) Agency Facility Plan for the 2025-2027 biennium, in accordance with ORS 276.227 and OAR 125-125-0150. Our facility inventory, 10-year priority maintenance needs, Facility Condition Index (Building Condition Index (BCI) in the Builder™ system that we use), Legislative Narrative, and Facility Plan Presentation will all be included in the same email of this Cover Memorandum.

The Facility Plan Presentation enclosed includes a list of projects that were completed or are ongoing for the 2021-2023 and 2023-2025 biennia (slides 9&10). As you know these are the first two biennia that the OMD has received substantial Deferred Maintenance funding, and we are proud of all the work we have been able to accomplish! Anticipating a continuation of base deferred maintenance funding for 2025-2027, we are planning potential projects that are listed on slide 11 of the presentation.

You may also be aware that as of November 2023, we are under the new leadership of Brigadier General Alan Gronewold. BG Gronewold is a long-time Oregon Guardsman and is well known to the Installations Division and we look forward to his exceptional leadership for this organization.

In addition to the anticipated Deferred Maintenance projects for 2025-2027, we are also proposing to the Legislature several bond-funded projects that are described in more detail in the attached Legislative Narratives. Federal funding in the amount of \$28M is already secured for the Linn County Readiness Center project and we are seeking additional federal funding to augment the proposed Armory Service Life Extension Project (ASLEP) and Regional Emergency Enhancement Project (REEP) at Woodburn Armory, the Salem 17th Street Armory and Auditorium, and the Bend Armory. Also, on the list for OMD is a small detachment-sized new Armory for the unit stationed

at Kingsley Field in Klamath Falls, Oregon and who are currently training in a small storage building. The Oregon Youth Challenge Program is proposing an athletic field and running track project to support the many Oregon youth that they positively impact daily. The Multipurpose Machinegun Range described in the Legislative Narratives is 100% federally funded and we are not seeking state funding for this project.

OMD looks forward to our presentation to the CPAB on August 9, 2024, should you have questions in the interim please contact me at james.g.arnold22.nfg@army.mil or 971-355-4114.

Sincerely,

James G. Arnold Deputy Director Installations Division

Oregon Military Department

2025-27 Agency Facility Plan

Capital Projects Advisory Board

Agency Overview

OMD Mission

- The Oregon National Guard will provide the citizens of the <u>State of Oregon</u> and the <u>United States</u> with a ready force of citizen soldiers and airmen, equipped and trained to respond to any contingency, natural or manmade. When we are needed, we are there.
- ORS 399.105 "...The State <u>Shall Provide</u> Adequate Armory Accommodations, Bases, Camps, Target Ranges and Other Facilities and <u>Shall Maintain</u> Such Facilities for Units of the Oregon National Guard..."

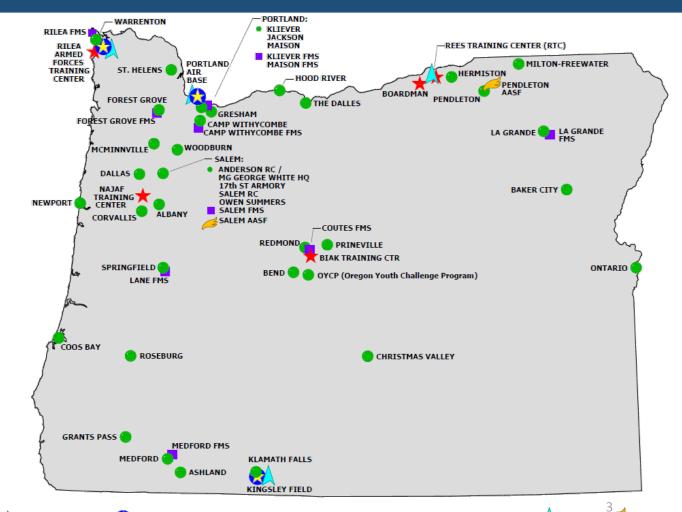

Agency Overview

STARBASE ARMY AVIATION

OMD Portfolio

- 37 Armories, 4 Training Sites, 12 maintenance/logistics facilities dispersed throughout 27 counties
- Total of 493 facilities with over 3.55 million square feet of useable space
- 203 facilities with a replacement value over \$1 million
- Total replacement value is \$1,798,744,437

ARMY GUARD INSTALLATION MAINTENANCE FACILITY (FMS)

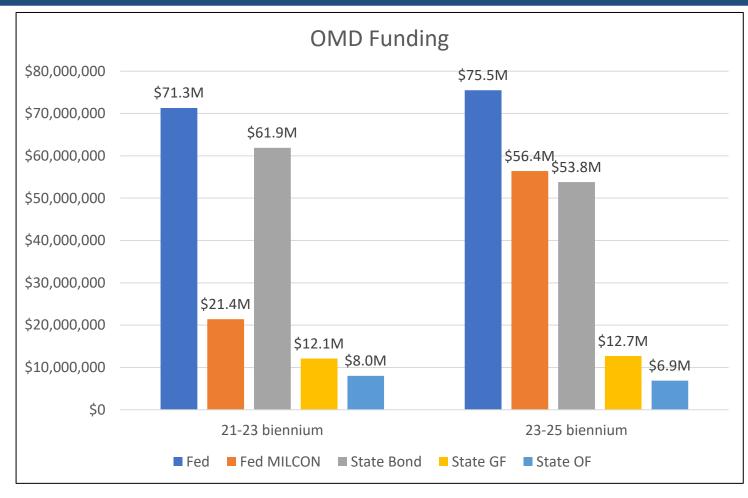

🌟 UNIT TRAINING AREA 🚺 AIR GUARD INSTALLATION

Agency Overview

Funding Type

- Federal Funds, including sustainment
- Federal MILCON
- State Bonds
- State General Funds
- State Other Funds (Rental Revenue)

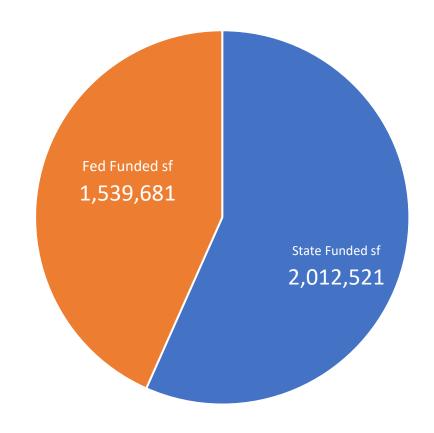

Planning Factors

OMD Manages 3,552,202 Square Feet

- Federal square footage is 100% supported with Federal funding
- State square footage requires 50%
 State match in order to receive Federal matching funds

Federal Funded Square Feet vs State Funded Square Feet

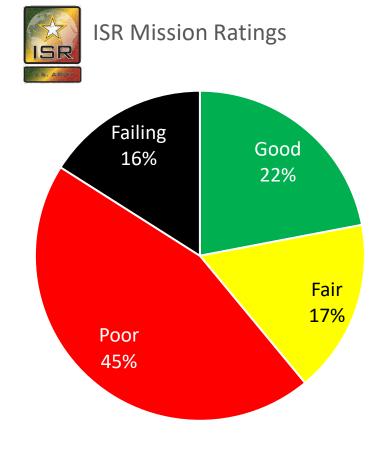

Planning Factors

National Guard Facility Mission Requirements

- Facility mission requirements consider the <u>functionality</u> of buildings, addressing how well the building works for the Soldiers, such as adequate space, modern features, seismic, and resiliency.
- OMD must maintain facilities that meet Federal mission requirements in order to keep the State's National Guard force structure and equipment

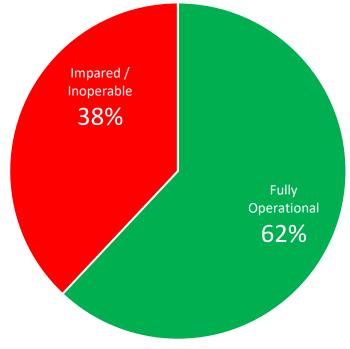

Facility Condition—BUILDER™

- OMD measures **building** condition using BUILDER™
- OMD measures non-building facilities using Installation Status Report (ISR)

Facility Strategies

OMD Issue

• \$190M in back-logged Deferred Maintenance

OMD Strategies

- Base budget Deferred Maintenance (initiated 21-23 biennium)
- MILCON new construction
- ASLEP / REEP (Armory Service Life Extension Program / Regional Emergency Enhancements Program)

Base Budget Deferred Maintenance Execution: 21-23

 OMD received deferred maintenance funding in 21-23. With this funding OMD has been able to work on the backlog of deferred maintenance projects. Here is a list of major completed projects in 21-23 biennia, thanks to State contributions and federal match.

Avoided Electrical Cost by using Solar PV Production

New Linn County Readiness Center

- Replacing old 1950s Armory, 15,600 SF
 - Outdated Roof, windows, kitchen, latrines and other major areas.
 - Undersized Lack of adequate space to perform mission.
 - Street parking only
- New Readiness Center, 44,125 SF
 - Authorized space.
 - Conformance with current building code.
 - Seismic code and resiliency capability.
- State share requested \$7M
- Fed share \$28M
- 2026 2029

New Southern Oregon Micro-Armory – Klamath Falls

- Replacing the disposed Klamath Falls Armory
 - Unit is currently housed in a temporary 1,900 sf storage building.
 - Lack of authorized space to perform mission.
- New 7,500 sf facility
 - Conformance with current building code.
 - Additional space and resiliency upgrades.
 - Facilitate underserved community.
- State share requested \$2M
- Fed share requested \$3.75M
- 2025 2028

Salem Armory & Auditorium Armory Service Life Extension Program (ASLEP) and Regional Emergency Enhancements Program (REEP)

- Salem Armory & Auditorium, built in 1961, approximately 55,501 square feet.
- Conformance with current building code.
- Repair failing Mechanical, Electrical, Plumbing & Structural components.
- Remodel assembly hall, kitchen, and expand latrines.
- Add resiliency & seismic upgrades.
- State funds request \$6.3M
- 2026 2029

Woodburn Armory Service Life Extension Program (ASLEP) and Regional Emergency Enhancements Program (REEP)

- Woodburn Armory, built in 1957, approximately 23,033 square feet.
- Conformance with current building code.
- Replace outdated, inefficient, or defective building systems.
- Repair failing Mechanical, Electrical, and Plumbing.
- Remodel assembly hall, kitchen, and expand latrines.
- Improve failed parking areas and landscaping.
- Add resiliency & seismic upgrades.
- State share requested \$3.1M
- Fed share requested \$3.1M
- 2027 2029

Bend Armory Service Life Extension Program (ASLEP)

- Bend Armory, built in 1993, approximately 40,460 square feet.
- Conformance with current building code
- Replace outdated, inefficient, or defective building systems
- Repair failing Mechanical, Electrical, and Plumbing.
- Remodel assembly hall, kitchen, latrines, and other vital areas.
- Improve landscaping.
- Add resiliency upgrades.
- State funds requested \$9.4M
- 2026 2029

Oregon Youth Challenge Program Athletic Field

- Construction of new multi-purpose outdoor athletic field
- Improve physical and mental health of at-risk youth
- Eliminate the need & cost to transport students to Bend's public parks
- Athletic field will consist of outdoor running track and soccer/football field.
- State funds requested \$5M
- 2025 2026

Current Replacement Value	3	Current Replacement Value Reported to Risk Management or Calculated Replacement Value Reported from Facility Conditions Assessment (FCA)
Priority One: Currently Critical	4	From the Budget Instruction: Priority One projects are conditions that require immediate action in order to address code and accessibility violations that affect life safety. Building envelope issues (roof, sides, windows and doors) that pose immediate safety concerns should be included in this category.
Priority Two: Potentially Critical	5	From the Budget Instruction: Priority Two projects are to be undertaken in the near future to maintain the integrity of the facility and accommodate current agency program requirements. Included are systems that are functioning improperly or at limited capacity, and if not addressed, will cause additional system deterioration and added repair costs. Also included are significant building emelopies issues (orc.) sides, windows and doors) that, if not addressed, will cause additional system deterioration and added repair costs.
Priority Three: Necessary - Not yet Critical	6	From the Budget Instructions: Priority Three projects could be undertaken in the near to mid-term future to maintain the integrity of a building and to address building systems, building components and sits work that have reached or exceeded their useful life based on industry standards, but are still functioning in some capacity. These projects may require attention, currently to avoid deterrioration, potential downtime and consequently higher costs if forerective action is deferred.
Priority Four: Seismic and Natural Hazard Remediation		From the Budget Instructions: Priority Four projects improve seismic performance of buildings constructed prior to 1995 building code changes to protect occupants, minimize building damage and speed recovery after a major earthquake. Projects also include those that mitigate significant flood hazards.
Facility Condition Index	8	A calculated measure of facility condition relative to its current replacement value (expressed as a percentage)

Definitions		
Current Maintenance Priority 1-4	1	Current costs for all facility maintenance and deferred maintenance except those that are covered in operations and maintenance budgets (routine maintenance).
Construction Year	2	Original Construction Year
Current Replacement Value	3	Current Replacement Value Reported to Risk Management or Calculated Replacement Value Reported from Facility Conditions Assessment (FCA)
Priority One: Currently Critical	4	From the Budget Instruction: Priority One projects are conditions that require immediate action in order to address code and accessibility violations that affect life safety. Building envelope issues (roof, sides, windows and doors) that pose immediate safety concerns should be included in this category.
Priority Two: Potentially Critical	5	From the Budget Instruction: Priority Two projects are to be undertaken in the near future to maintain the integrity of the facility and accommodate current agency program requirements. Included are systems that a enfunctioning improperly or at limited capacity, and if not addressed, will cause address, will cause address a grain costs. Also included are significant building envelope issues (not, sides, windows and doors) that, if not addressed, will cause additional system deterioration and added repair costs. Also included are significant building envelope issues (not, sides, windows and doors) that, if not addressed, will cause additional system deterioration and added repair costs.
Priority Three: Necessary - Not yet Critical	6	From the Budget Instructions: Priority Three projects could be undertaken in the near to mid-term future to maintain the integrity of a building and to address building systems, building components and site work that have reached or exceeded their useful life based on industry standards, but are still functioning in some capacity. These projects may require attention currently to avoid deterioration, potential downtime and consequently higher costs forcretive action is deferred.
Priority Four: Seismic and Natural Hazard Remediation		From the Budget Instructions: Priority Four projects improve seismic performance of buildings constructed prior to 1995 building code changes to protect occupants, minimize building damage and speed recovery after a major earthquake. Projects also include those that mitigate significant flood hazards.
Facility Condition Index	8	A calculated measure of facility condition relative to its current replacement value (expressed as a percentage)

Facility Plan - Facilities Planning Narrative 107BF02 2025-27 Biennium

Agency Name	Oregon Military Department
The ability of the facilit	drivers for your agency's facility needs, and how do you measure space/facility demand? y to support the attached military units as they conduct their assigned missions. Army regulations es) prescribe facility authorizations and requirements based on the type of military units and equipment ty.
1) Budgeting for requir matching funds in the	acility-related challenges over the next 10-years? (Please answer in order of priority) ed state match funds to combine with federal maintenance funds. 2) Coordinating required state year that federal construction funds are received. 3) Securing state funding to provide property for y construction. 4) Changes to the organization, units, or agencies assigned missions.
_	to meet these challenge Executive and legislative support of our requested budgets. A consistent note budget to match with available federal maintenance funding. A completed facility conditions is).

Facilities Summary Report 2025-27 Biennium

Agency Name:	Oregon Military Department

funding source for the full project cost.			\$ 7,000,000	\$ 28,000,000

Description of Agency Business/Master Plan and Project Purpose/Problem to be Corrected

The new Linn County Readiness Center will replace both the Lebanon and Albany armories, both of which are undersized and in poor condition. At the Lebanon Armory (which was sold in 2023), no military vehicle parking was available on site requiring the vehicles to be parked at the old FMS site (which was sold in 2022). Due to a lack of POV parking on the site, unit members were required to park POVs on the street during drill weekend presenting a significant safety issue. Housing has encroached to within 10 feet of the building on the west side and the city motor pool on the east side severely hampering anti-terrorism force protection (ATFP) space. Built in 1950, the facility was extremely outdated. The roof, windows, and kitchen needed to be replaced. The ISR Rating was black across the board for over a decade. Due to its poor condition, this armory posed significant challenges to unit readiness. While waiting for construction funding, the unit was relocated to the Albany Armory which was built in 1975 and though better than the Lebanon Armory, is also undersized and does not adequately serve the needs of the unit. The new site for this project is in the possession of the state of Oregon.

Project Scope and Alternatives Considered

A specially designed National Guard Readiness Center of permanent construction. The National Guard Readiness Center 44,125 square foot building includes the following items that are integral to the facility; Backup/Emergency Generator, and Organizational Vehicle Parking (Paved). Comprehensive interior design services are requested. This facility will be designed to meet Industry Standards as well as all local, State, and Federal building codes and as per 42 U.S.C. 4154. Construction will include all utility services, information systems, fire detection and alarm systems, roads, walks, curbs, gutters, storm drainage, parking areas, and site improvements. Facilities will be designed to a minimum life of 50 years in accordance with DoDs Unified Facilities Code (UFC 1-200-02) including energy efficiencies, building envelope and integrated building systems performance as per ASA(IE&E) Sustainable Design and Development Policy Update 2017. Access for individuals with disabilities will be provided. Antiterrorism measures in accordance with the DOD Minimum Antiterrorism for building standards will be provided.

Funding Source(s) : Show the distribution of dollars by	General Fund	Lottery	Other	Federal
funding source for the full project cost.			\$ 2,000,000	\$ 3,750,000

Description of Agency Business/Master Plan and Project Purpose/Problem to be Corrected

The ORNG has had an Armory in Klamath Falls since 1935. The next nearest armory is the Ashland Armory at approximately 1 hour and 20 minutes to the west and over the Siskiyou Mountain range. In 2006 the unit vacated the Klamath Falls Armory and moved to a facility on Kingsley Air National Guard (ANG) Base. In 2009 the Oregon Military Department disposed of the Klamath Falls Armory and acquired land adjacent to the Kingsley Air National Guard Base with the intent of building the new Readiness Center there. Through a state facilities board planning action, the new ARNG Readiness Center and a new Security Forces building were to be co-located on the ANG Base. Currently the unit assigned to this location has a 1993 SF storage building and an outdoor mobile weapons vault. The unit still has access to the ANG dining facility, fitness center, and classroom space. However, this leaves the program with a severe deficiency of authorized space and no longer has adequate readiness center space. Bond funding in this request could potentially be utilized to purchase additional land for this project.

The proposed solution is to construct a new readiness center on the adjacent state-owned property. This proposed facility is targeted at approximately 7500 square feet. It would still utilize the outdoor mobile weapons vault and have access to the ANG dining facility, fitness center, and classroom spaces. The new building would hook up to the existing ANG Base infrastructure of water, wastewater, and electrical.

Description of Agency Business/Master Plan and Project Purpose/Problem to be Corrected

This request is part of the Oregon Military Department's Armory Service Life Extension Program (ASLEP) and Regional Emergency Enhancements Program (REEP). By combining the request for these programs, the department will be able to implement both programs simultaneously and effectively address maintenance issues while improving the State's planning and response in the event of a disaster for those sites that would benefit from both programs. The ASLEP program is intended to address severe deficiencies at facilities that are essential to conduct the Oregon Military Department's missions, extending their useful lifespan by 25 years. The REEP program ensures that essential and critical facilities have the capability to serve as staging areas through seismic retrofits, emergency power, water, fuel and storage of supplies for the purpose of disaster response. The Oregon Military Department has conducted several successful ASLEP projects over the last decade, and considers the program to be crucial to our facility management plans. The department's REEP program includes a review of disaster response plans, such as the Cascadia Subduction Zone Catastrophic Disaster Response Plan, and has identified critical facilities that require improvements to effectively serve as regional hubs in the event of a disaster or emergency. This request provides funding for the design and construction of additions and alterations and improvements to the Salem Armory and Auditorium in Marion County. The existing armory was constructed in 1961 and is in a state of significant decline. Severe deficiencies in the electrical, mechanical, and structural components of this facility threaten its continued use for its intended purpose. The facility is 55,501 square feet. The deferred maintenance issues and building condition resulted in an unproductive training environment, improper storage of sensitive items, premature aging of mission essential equipment, overcrowding and a limited ability to provide the necessary resiliency in times of disaster

Project Scope and Alternatives Considered

The ASLEP portion of the project will bring the facility into conformance with current building code, will replace outdated, inefficient, or defective building systems (to include mechanical, electrical and plumbing), will remodel the existing classrooms, administrative space, latrines and showers, equipment storage areas, kitchen, and assembly hall areas. Other areas the ASLEP will address include repair or replace failed paving areas, and will repair or replace existing site lighting, landscaping and fencing. The Salem Armory and Auditorium is strategically located within the Willamette Valley such that it could serve the region during a Cascadia event. The REEP will provide the 'Emergency Operations Center' facility with structural improvements and upgrades, 24/7 emergency backup power through the use of diesel or dual fuel generator sets with automatic transfer switches. These emergency response materials would be cached and staged at this site for use during a disaster, or distribution to other facilities depending on the planned response and recovery mission. These 'Emergency Operations Centers' can also serve as supply depot's to provide assistance and support as needed to the nearby and surrounding areas and public gathering locations outside of the Cascadia Subduction Zone Tsunami Inundation Plan. The Oregon Military Department anticipates an increase in rental activity as a result of this project. Funds from rental activities are used to partially offset facility operations and maintenance costs. A review of the long range federal funding forecast indicates that no federal funds will be available to replace this facility in the foreseeable future. State funds required for construction are not available in the Major Construction Other Funds Account. The combination of the ASLEP and REEP will allow the department to address severe deferred maintenance deficiencies and enhance resiliency and disaster response.

Description of Agency Business/Master Plan and Project Purpose/Problem to be Corrected

This request is part of the Oregon Military Department's Armory Service Life Extension Program (ASLEP). The ASLEP program is intended to address severe deficiencies at facilities that are essential to conduct the Oregon Military Department's missions while extending their useful lifespan by 25 years. The Oregon Military Department has conducted several successful ASLEP projects over the last decade, and considers the program to be crucial to our facility management plans. This request provides funding for the design and construction of additions, alterations and improvements of the Bend Armory located in Deschutes County. The existing armory was constructed in 1993 and is in a state of significant decline. Severe deficiencies in the electrical, mechanical, and structural components of this facility threaten its continued use for its intended purpose. The facility is 40,460 square feet in size. The deferred maintenance issues and building condition have resulted in an unproductive training environment, improper storage of sensitive items, premature aging of mission essential equipment, and limited ability to provide the necessary resiliency in times of disaster. The Oregon Military Department currently calculates Bend Armory deferred maintenance at \$9.4M. This project would alleviate much of that deferred maintenance liability and provide the added benefit of resiliency in times of disaster. Bond funding in this request could potentially be utilized to purchase additional land for this project.

Project Scope and Alternatives Considered

The Armory Service Life Extension Program (ASLEP) will bring the facility into conformance with current building code, will replace outdated, inefficient, or defective building systems (to include mechanical, electrical and plumbing), will remodel the existing classrooms, administrative space, latrines and showers, equipment storage areas, kitchen, and assembly hall areas. Other areas the ASLEP will address include repair or replace failed paved areas, and will repair or replace existing site lighting, landscaping and fencing. The Bend Armory is located in Eastern Oregon and could serve the region during an emergency event. This project will provide the 'Emergency Operations Center' facility with structural improvements and upgrades, 24/7 emergency backup power through the use of diesel or dual fuel generator sets with automatic transfer switches. The Oregon Military Department anticipates an increase in rental activity as a result of this project. Funds from rental activities are used to partially offset facility operations and maintenance costs. A review of the long range federal funding forecast indicates that no federal funds will be available to replace this facility in the foreseeable future. State funds required for construction are not available in the Major Construction Other Funds Account. The ASLEP will allow the department to address severe deferred maintenance deficiencies. the 'Emergency Operations Center' facility with structural improvements and upgrades, 24/7 emergency backup power through the use of diesel or dual fuel generator sets with automatic transfer switches.

Description of Agency Business/Master Plan and Project Purpose/Problem to be Corrected

This request is for the construction of an athletic field at the Senator Jackie Winters Oregon National Guard Youth Challenge Campus, to improve the academic curriculum and improve the overall learning experience for young men and women, as they prepare for a successful future. It is proven that physical fitness provides a student many positive outcomes physically and mentally, improving classroom performance by clearing a student's mind to improve thinking, learning and judgement abilities. An athletic field at the Oregon Youth Challenge Program (OYCP) would provide these benefits to OYCP students, better preparing them to enter into today's workforce or advanced educational institutions. Bond funds in this request could potentially be utilized to purchase land for the project.

OYCP is an alternative high school without an outdoor field to conduct physical education. Constructing an athletic field will improve student health and wellness, allow students to meet National Guard Bureau (NGB) graduation requirements and participate in daily physical education classes on-site, eliminating the need to transport students to Bend's public fields.

OYCP is an NGB sponsored program serving at-risk students, ages 16, 17 and 18 years old, who are failing in the traditional educational environment. Students who complete the program receive either a high school diploma, a General Educational Development (GED) certificate, or certified credits to take back to their hometown high school. OYCP offers two sessions per year, which are each 22 weeks in length. This is a residential program with a military model; students live and study on campus for the duration of the course.

Additionally, OYCP has been fortunate to also receive widely held support from the Oregon Legislature for past projects and operational General Fund in the OMD budget.

Project Scope and Alternatives Considered

OYCP remains committed to prioritizing equity and addressing racial disparities by engaging our under-served and under-resourced communities throughout the state. OYCP offers high school dropouts and students failing traditional high schools the opportunity to build a better future. OYCP prides itself on being an inclusive and welcoming educational opportunity for all at-risk youth, regardless of race, ethnicity, culture, color, disability, gender, religion, economic status and national origin.

Constructing an athletic field at OYCP will have an immediate positive outcome for the students. Providing a safe environment to conduct physical education classes, leading to improved fitness and performance in the classroom.

ESTIMATED PROJECT COST

DIRECT CONSTRUCTION COSTS					
		\$	% Project Cost	\$/GSF	
1 Building Cost Estimate/Seismic 85680	\$	3,886,714	77%	\$ 45	
2 Structural Seismic Retrofit Cost Estimate 85680			0%	\$ 99	
3 Life and Health Safety, mandated code compliance modifications.			0%	\$ 9	
4 Latrine modifications/improvements to meet needs.	\$	-	0%	\$ 90	
5 Upgrade/update kitchen to meet needs.			0%	\$ 283	
6 TOTAL DIRECT CONSTRUCTION COSTS	\$	3,886,714	77%	\$ 45
