## Process & Strategy

The Recruitment & Selection Policy stipulates the following order of applicant lists to review during a recruitment:

1. Injured Worker List
  2. Agency Layoff List
  3. Statewide Layoff List
  4. Transfer List – if applicable
- Candidate Pools should only be used after #1 - #4 above have been exhausted and you have opened a competitive recruitment.
  - Once a job is posted, conduct a search via Candidate Pools and invite applicants to apply.
  - Not necessary for every job posting; useful for hard-to-fill positions.
