I. Executive Summary

MED-Project USA (“MED-Project”) operates a Product Stewardship Plan for Covered Drugs from Households in the State of Oregon, under the Oregon Revised Statutes 459A.200 to 459A.266, approved by the Oregon Department of Environmental Quality (the “Department”) on May 20, 2021 (“Approved Plan”). MED-Project is submitting this revised 2021-2022 State of Oregon Annual Report (“Report”) with revisions requested by the Department in a letter from Cheryl Grabham, dated January 30, 2023, for the period between July 1, 2021, and June 30, 2022 (the “Reporting Period”) as described in Approved Plan Section III.C: Reporting. All capitalized terms used but not otherwise defined herein shall have their respective meaning set forth in the Approved Plan.

- Throughout the Reporting Period, MED-Project submitted monthly reports listing the active Mail-Back Distribution Locations in the State and a report listing the active Secure Repositories in the State for the preceding month.
- Throughout the Reporting Period, MED-Project submitted monthly reports listing the scheduled installations of Secure Repositories in the State.
- MED-Project submitted producer list updates, as required, during the Reporting Period.

B. Reporting Period Operations Overview

MED-Project operated 251 Secure Repositories at participating Drop-Off Sites in the State during the Reporting Period. In addition, MED-Project distributed Mail-Back

Packages to 136 Mail-Back Distribution Locations during the Reporting Period. Secure Repositories were installed in pharmacies, hospitals/clinics, and LEAs that meet all state, and federal requirements and that executed agreements with MED-Project. In addition, outreach and educational materials, including signage and/or brochures, were distributed to all new Drop-Off Sites and offered to Mail-Back Distribution Locations and to those that requested promotional materials. All promotional material included in this Report are representative examples from the Reporting Period.

As outlined in the Approved Plan, the goal of the Program is to provide Covered Entities with convenient, safe, and accessible methods to dispose of Covered Drugs. MED-Project anticipates an increase in Drop-Off Sites through 2022, as a result of outreach and Program activities, especially if there is increased retail chain pharmacy participation in the Program.

MED-Project continues to communicate with Collection Sites to distribute outreach materials and review procedures as needed, and improve the overall Program design.

The following sections of the Report respond to specific reporting requirements either in the Act or the Approved Plan. Each section of the Report restates the corresponding Act or Approved Plan requirement and provides the required information. All figures are rounded to the nearest tenth place.

A. Public Education Activities

During the Reporting Period, MED-Project promoted the safe and secure storage of Covered Drugs by Covered Entities by providing disposal instructions for Kiosk Drop-Off Sites through the Approved Plan, providing information through the MED-Project Website and Call Center, and distribution of promotional materials such as brochures and posters. MED-Project established the MED-Project Website and Call Center prior to the Reporting Period. The MED-Project Website, Call Center, and promotional materials were available in: English, Spanish, Russian, Somali, Vietnamese, and Chinese during

the Reporting Period. The MED-Project Website lists all Kiosk Drop-Off Sites and Mail-Back Distribution Locations. MED-Project Website pages and statistics are provided in this Annual Report. See Appendices H and I, respectively. See Appendix J for examples of promotional materials such as brochures or posters available during the Reporting Period. A list of sites that received promotional materials during the Reporting Period is provided in this Report. See Appendix K; Promotional Material Distribution.

Since 2015, MED-Project and its subsidiaries have worked with pharmacies, law enforcement agencies, vendors, regulators, and others across jurisdictions to develop a readily recognizable and consistent design for Secure Repositories and to develop clear, standardized instructions on how to use those repositories. In Oregon, Authorized Collectors were able to provide feedback on MED-Project's Program, including on the design of secure repositories and on its instructions for their use, through the Help Desk. MED-Project did not receive feedback on the design and consistency of its secure repositories during the Reporting Period and did not revise the designs and instructions.

B. Outreach Activities

To promote the Program during the Reporting Period, MED-Project: provided print, digital, radio, and television campaigns; provided information through the MED-Project Website; and posted information on social media sites. MED-Project publicized information on the location of drop-off sites, collection processes, and collection events through social media posts. A list of the social media activities is provided in Appendix L. MED-Project initiated outreach campaigns during the Reporting Period. The outreach campaigns ran for the duration of one month three times during the Reporting Period and were designed to be viewed by 50% of State residents over age 18 through broadcast television, broadcast radio, print media, and digital media. The reach percentage for the State during the Reporting Period was 83%, exceeding the target of 50% reach. The reach percentage for each media activity is provided in the multimedia outreach summary detailed in Appendix M.

C. Evaluation Activities

As required by ORS 459A.227 (1)(h) MED-Project conducted a biennial survey of covered entities and of pharmacists and health care providers who interact with Covered Entities. The first biennial survey was performed in July and August of 2022 ("MED-Project Survey"). The MED-Project Survey results were posted on March 1, 2023, to the MED-Project website at <https://med-project.org/locations/oregon/learn/>.

The MED-Project Survey's primary design was to measure if State residents over the age of 18 were "aware of a program to dispose of unwanted medications" and determine the effectiveness of MED-Project's outreach among health care providers and State residents over the age of 18. The MED-Project Survey was conducted via

phone and the web, resulting in a total of 1,272 surveys collected. Sampling was done at random throughout the population. The MED-Project Survey reported 40% awareness among State residents over the age of 18, with 37% awareness in urban areas and 45% awareness in rural areas.

The MED-Project Survey reported that 49% of Oregon State healthcare providers have been exposed to messaging in the past year on safely storing/disposing of expired and/or unwanted medicine in Oregon State. Additionally, 33% of residents who have been exposed to messaging in the past year received it through pharmacies, hospitals, or other healthcare providers.

MED-Project is aware that the MED-Project Survey was not the only survey performed to evaluate awareness of Drug Take-Back Programs in the State. Based on information provided by the Department, MED-Project's Survey appears to have used similar methodology to and appears to have a larger sample size than the other survey MED-Project is aware of. The other survey reported 47.2% awareness among respondents.

Because a Covered Entity could utilize more than one Drug Take-Back Program during the reporting period and outreach, education, and surveying cannot distinguish between which Drug Take-Back Program a Covered Entity may have seen or utilized, it can be assumed with reasonable confidence that either survey's results are accurate, and that awareness is somewhere between the upper and lower margins of error for both surveys, which indicates that the goal to achieve 50% awareness was generally met.

Marketing industry best practices call for a 60% or greater campaign reach to drive an increase in awareness, and MED-Project exceeded this benchmark during the Reporting Period. MED-Project plans to continue to adhere to best practices for awareness for future campaigns to deliver 75% reach against the target audience of State residents over the age of 18, and when planning campaign activity targeted towards Historically Underserved Communities. It is anticipated that the continued delivery of greater than 60% reach will drive increased awareness over time.

MED-Project plans to use this best practice as a benchmark, pending the results of future biennial surveys and any Department program modifications.

The following are highlights from the MED-Project Survey:

- 49% of State healthcare providers have been exposed to messaging in the past year on safely storing/disposing of expired and/or unwanted medicine in the State.
- 40% of respondents were aware of the Drug Take-Back Program.
- 78% of respondents who have used the Drug Take-Back Program indicated the services are easy to use, and 71% of respondents believe they are easy to locate.
- 85% of respondents who indicated they used Drug Take-Back Program services indicated they used drop-off sites.

IX. Annual Expenditures

ORS 459A.230 (1)(I): “A summary of the annual expenditures of the drug take-back program, aggregated by category;”

A summary of the annual expenditures of the Take-Back Program, aggregated by category, are provided in this Annual Report. See Appendix N; Annual Expenditures. MED-Project maintained a six-month balance during the Reporting Period.

X. Goals

ORS 459A.230 (1)(m): “Whether service was provided in compliance with the program operator’s description pursuant to ORS 459A.209 (2)(i) and whether the public awareness goals have been met, including a summary of strategies and surveys used, and copies of any promotional materials developed by, the drug take-back program; and”.

A. Convenience Standard Results

Figure 1 provides a visual representation of how MED-Project met this collection goal with active Drop-Off Sites as well as the location of Mail-Back Distribution Locations.

B. Collection Goals

During the Reporting Period, MED-Project met the July 1, 2021, goal of locating Drop-Off Sites so that that 90% of Covered Entities live within a 20-minute drive of a Drop-Off Site, as described in the Approved Plan. By July 1, 2021, 92% of Covered Entities lived within a 20-minute drive of a Drop-Off Site.

MED-Project also met the July 1, 2022, collection goal of collecting approximately 16,000 pounds of Covered Drugs by July 1, 2022, as described in the Approved Plan. During the Reporting Period MED-Project collected 56,839.3 pounds of Covered Drugs, exceeding the collection goal.

C. Public Outreach and Education Goals

During the Reporting Period, MED-Project performed against the following outreach and education goals by July 1, 2022:

- Achieve 50% awareness in both urban areas and rural areas, based on the biennial survey results and other methods used to evaluate awareness.

- Implement an outreach and education program that addresses the needs and interests of Historically Underserved Communities, based on Oregon’s Kitchen Table’s analysis.

MED-Project conducted a biennial survey of Covered Entities and of pharmacists and health care providers who interact with Covered Entities. For additional information about the biennial survey, see Section VIII.C of this Report.

Between May 1 and June 24, 2021, MED-Project contracted with Oregon’s Kitchen Table to conduct a statewide public engagement process focused on Historically Underserved Communities. Pursuant to the Approved Plan, MED-Project provided a report to the Department on July 16, 2021, describing the outcomes of the engagement with Historically Underserved Communities.

During the Reporting Period, MED-Project conducted print, digital, radio, and television campaigns that resulted in over 15 million impressions. Understanding that traditional media outlets and general market media targeting may not reach Historically Underserved Communities, MED-Project deployed a print media campaign across numerous publications to reach a wide variety audiences identified by Oregon’s Kitchen Table. MED-Project advertising ran in the following publications:

- Asian Reporter
- Confederated Umatilla Journal
- El Centinela
- Lincoln City News Guard
- Tillamook Headlight Herald
- Eagle News
- Columbia Gorge News
- El Latino De Hoy
- Heppner Gazette-Times
- Skanner Portland
- Wallowa County Chieftan
- Clatskanie Chief
- Coos Bay World
- Curry Coastal Pilot
- Portland Chinese Times
- Roseburg News Review
- Pendleton East Oregonian
- Baker City Herald
- Herald and News
- La Grande Observer

Where appropriate, MED-Project advertising was translated.

MED-Project will continue to evaluate outreach to Historically Underserved Communities in future years' campaign activity, including running translated media in targeted media channels where appropriate.

See Section I.E.1 of the Additional Services Proposal, submitted to the Department on June 1st, 2022, and approved by the Department on June 29, 2022, for additional information about how MED-Project implemented an outreach and education program for Historically Underserved Communities.

MED-Project has included representative promotional materials in the Specified Languages: English, Spanish, Russian, Somali, Vietnamese, and Chinese, during the Reporting Period. See Appendix J; MED-Project Promotional Materials.

XI. Additional Services Metrics

Plan Section III.C: “For additional services provided during the reporting period, MED-Project’s annual report will include relevant metrics for the additional services, which will include the number of Mail-Back Packages provided to additional Mail-Back Distribution Locations, the weight collected through returned Mail-Back Packages Distributed by each additional Mail-Back Package Distribution Location, the number of households receiving direct mailers sent by zip code, the amount of Covered Drugs collected through additional Drop-Off Sites, and changes to outreach and educational materials, including the provision of materials in additional languages.”

Pursuant to Section III.C; Reporting, in the Approved Plan, MED-Project is providing a summary of relevant metrics for additional services. A list of Mail-Back Distribution Locations including the number of Mail-Back Packages distributed to each site is provided in Appendix B; Mail-Back Distribution Locations. The amount of weight collected from each Drop-Off Site is provided in an attachment to the Annual Report. See Attachment A; Drop-Off Site Collection Weights, Sheet: Drop-Off Site Collection. Representative promotional materials, including brochures and posters in additional languages are provided in Appendix J; MED-Project Promotional Materials. See Appendix O; Additional Services Metrics for:

Safety and Security Report

Event 1

Date: February 14, 2022

Description: MED-Project was notified by its Vendor on February 14, 2022, of an apparent shipping discrepancy for a box and liner originating from a Host Site in the State of Oregon. The Carrier declared that the box and liner was lost in transit on February 14, 2022. MED-Project understands that there have been rare exceptions in which the Carrier cannot deliver a package to its destination or return it to the shipper for reasons including, but not limited to, the loss of shipping information, such as a damaged shipping label. MED-Project understands that the Carrier has policies and procedures for managing such packages, including destruction at a permitted medical waste incinerator.

Corrective Action Taken: MED-Project notified the Host Site of the apparent shipping discrepancy, including information on Host Site potential reporting obligations under the Drug Enforcement Administration and Oregon State Board of Pharmacy regulations. MED-Project also requested that the Vendor provide a detailed report of its investigation and findings including any information on the whereabouts of the box and liner. In addition, MED-Project requested: (1) any other outcomes from investigations into the apparent box and liner shipping discrepancy; (2) any reports Vendor makes regarding this apparent discrepancy to law enforcement or government agencies; (3) any law enforcement or government agency involvement with this apparent discrepancy; (4) any legal proceedings involving this apparent discrepancy, and (5) any changes in policy or procedure that Vendor has or is planning to make as a result of the apparent discrepancy.

Event 2

Date: May 31, 2022

Description: On May 31, 2022, MED-Project's reverse distributor Vendor informed MED-Project of an event that occurred with a Covered Drugs shipment (the "Shipment") originating from a Host Site in Deschutes County, Oregon on May 24, 2022. As detailed by the Vendor, the Shipment was received from the Carrier without the exterior shipping container and was observed by the Vendor to be damaged upon arrival.

Corrective Action Taken: Upon investigation, Host Site staff provided statements and evidence supporting that the Shipment was shipped intact with both the inner liner and exterior shipping container.

MED-Project requested that the Vendor investigate this incident and provide MED-Project a detailed report of the Vendor's investigation and findings regarding the Shipment. MED-Project has requested that the Vendor keep MED-Project apprised of: (1) any other outcomes from investigations into the event; (2) any reports the Vendor makes regarding the event to government agencies; (3) any government agency involvement with the event; and (4) any changes in policy or procedure that the Vendor has or is planning to make as a result of this event.

The Vendor subsequently reported receiving the Shipment, confirmed that the inner liner weight received was as expected and destroyed it in accordance with state and federal regulations. The Vendor also reported that it reiterated delivery instructions to the Carrier.

Event 3

Date: January 28, 2022

Description: During a routine review, MED-Project determined that a total of five Injector Mail-Back Packages originating from the State of Oregon were incorrectly returned for treatment to Healthwise Services ("HealthWise"), a permitted autoclave facility in Fowler, California. The Injector Mail-Back Packages were reported treated at HealthWise between November 17, 2021 and January 28, 2022.

Corrective Action Taken: MED-Project's investigation determined that Injector Mail-Back Packages sent to residents and distribution sites in the State of Oregon were labeled incorrectly to be returned to HealthWise. MED-Project's Vendor has made arrangements to have any Injector Mail-Back Packages which are received at HealthWise in the future to be re-routed from that facility and to a permitted hazardous waste incinerator facility.

MED-Project confirmed that Healthwise has all required permits, and that the treatment of the waste is performed in accordance with state and federal regulations.

Event 4

Date: March 14, 2022

Description: MED-Project identified that a box and liner was apparently incorrectly returned for destruction to Stericycle Inc.'s fully permitted medical waste incinerator, located in Warren, Ohio on March 14, 2022 (the "Warren Facility").

Corrective Actions Taken: MED-Project instructed the Vendor to immediately stop using any disposal facilities for destruction of unwanted medicine that are not approved in writing by MED-Project.

MED-Project also requested that the Vendor conduct an investigation to confirm that the box and liner was in fact sent to the Warren Facility and requested that the Vendor keep MED-Project apprised of: (1) any other outcomes from investigations into this apparent discrepancy; and (2) any changes in policy or procedure that Vendor has or is planning to make as a result of this apparent discrepancy.

The Vendor subsequently confirmed the box and liner were destroyed at the Warren facility and confirmed that the Warren Facility has all required permits and that the treatment of the waste is performed in accordance with state and federal regulations.

ELIMINACIÓN SEGURA DE MEDICAMENTOS CADUCADOS O NO DESEADOS

¿Qué se debe hacer con los medicamentos caducados o no deseados?

Es importante que los pacientes tomen sus medicamentos según lo prescrito por su proveedor de atención médica y según lo indicado en la etiqueta o el envase. Los opiáceos y los opiáceos son medicamentos potentes y, al igual que otros medicamentos, pueden ser peligrosos cuando se utilizan para otros fines.

También es importante asegurarse de almacenar los medicamentos de manera segura para evitar la ingestión accidental o el uso indebido por parte de otras personas, especialmente por parte de los niños. Sin embargo, si tiene medicamentos caducados o no deseados, la almacenamiento y eliminación adecuada son importantes.

ПРОСРОЧЕННЫХ ИЛИ НЕНУЖНЫХ
ЛЕКАРСТВ**

Для получения дополнительной информации о программе MED-Project посетите веб-сайт www.medtakebackoregon.org или позвоните по телефону 1 (844) 4-TAKE-BACK или 1 (844) 482-5322 (TTY: 711)

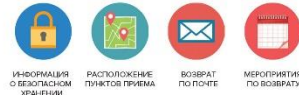

Что следует делать с просроченными или ненужными лекарствами?

Важно, чтобы пациенты принимали лекарства в соответствии с предписанием лечащего врача и инструкциями, указанными на этикетке или упаковке. Опиоиды и опиаты — сильнодействующие лекарства и, как и другие лекарства, могут быть опасны, если используются не по назначению.

Также важно хранить все лекарства в безопасном месте, чтобы предотвратить их случайное проглатывание или использование не по назначению другими лицами, особенно детьми. Если у вас имеются просроченные или ненужные лекарства, важны правильное хранение и утилизация.

Данный материал был подготовлен в целях соблюдения законодательства и не обязательно отражает мнение организаторов программы MED-Project или производителей лекарственных средств, участвующих в плане управления продукцией MED-Project.

Việc bệnh nhân sử dụng thuốc theo chỉ định của nhà cung cấp dịch vụ sức khỏe và như chỉ dẫn trên nhãn dán hoặc bao bì là rất quan trọng. Thuốc giảm đau nhóm opioid và thuốc có thuốc phiện là những thuốc có tác dụng mạnh và, giống như các loại thuốc khác, có thể gây nguy hiểm khi được sử dụng sai mục đích.

Việc bảo đảm bảo quản thuốc một cách an toàn để ngăn ngừa người khác, đặc biệt là trẻ em, vô tình nuốt phải hoặc dùng sai cũng rất quan trọng. Nếu quý vị có thuốc hết hạn hoặc không dùng đến, việc bảo quản và tiêu hủy đúng cách là rất quan trọng.
