## System Overview

The Oregon Department of Environmental Quality has instituted the use of a modernized, cloud-based tool for a selection of compliance programs within the agency and several business processes that involve the public and regulated entities.

[Your DEQ Online](#) is an Environmental Data Management System designed to combine current DEQ processes across air, land and water divisions in one convenient and easily accessible portal. The system enables users to submit applications, upload reports, enter data, check the status of applications, pay fees or fines, and manage account activity. In addition, the system allows for greater public access to environmental data without the need to request this information from DEQ staff.

## 1. Introduction

This document provides information to the owner/operator of a facility submitting a Short Term Activity Permit Application in [Your DEQ Online](#). The information is grouped by:

- i. Overview of Short Term Activities
- ii. Accessing the ACDP – Short Term Activity Permit Application new submittal
- iii. Basic Information

## 2. Overview of Short Term Activity ACDPs

Short Term Activity ACDPs are defined in OAR 340-216-0054. A Short Term Activity ACDP is a letter permit that authorizes the activity and includes any conditions placed upon the method or methods of operation of the activity. A Short Term Activity ACDP automatically terminates 60 days from the date of issuance and may be renewed for an additional 60 days once upon request. DEQ may issue a Short Term Activity ACDP for:

- Activities that do not require a Title V permit under OAR chapter 340, division 218
- Unexpected or emergency activities
- Operation of a pilot or an exploratory emissions unit.

Fees are required for Short Term Activity ACDPs in accordance with OAR 340-216-8020, Table 2, Part 1.

## 4. Confidential Business Information (CBI)

All information submitted to DEQ is subject to inspection by any member of the public upon request, unless the information is determined to be exempt from disclosure under the Oregon Public Records law. If you are submitting materials that you believe to contain confidential business information or information containing trade secrets, carefully review the requirements in [OAR 340-214-0130](#), including the criteria for trade secret information in section 3 of the rule. Note that emissions data is **not** exempt from disclosure.

### 4.1. Submit Confidential Business Information using file attachment

If you are submitting information using the file attachment tool that is believed to be confidential, trade secret, or otherwise exempt from disclosure, please follow these steps:

1. State the specific statutory provision under which you claim exemption and explain why the information in your submittal meets the requirements of that provision.

2. Include the word “CONFIDENTIAL” in the filename.
3. Ensure that the claimed exempt material is clearly distinguishable from non-exempt material by clearly marking the relevant file names and relevant pages of your submittal with annotation such as “CONTAINS CONFIDENTIAL BUSINESS INFORMATION”.
4. For each confidential information attachment uploaded, the equivalent redacted (all CBI removed) attachment must also be uploaded. Ensure that the word ‘REDACTED’ is included in the file name to distinguish it from the CBI containing equivalent.
5. When you are ready to complete the submittal on the ‘Submission’ tab, make sure to select ‘YES’ on the confidential business information question at the bottom of the form prior to submitting.
