NOTICE OF PROPOSED RULEMAKING

CHAPTER 345

DEPARTMENT OF ENERGY, ENERGY FACILITY SITING COUNCIL

FILING CAPTION: Updating Energy Facility Siting Council's Contested Case rules for greater efficiency, clarity, and consistency.

LAST DAY AND TIME TO OFFER COMMENT TO AGENCY: TBD

NEED FOR THE RULE(S):

The legislature established the Energy Facility Siting Council (EFSC) to oversee a comprehensive program for the siting, monitoring and regulation of energy facilities in Oregon. To this end, the Council must establish rules and standards to ensure that the siting, construction and operation of energy facilities is accomplished in a manner consistent with the protection of public health and safety and in compliance with Oregon's energy, land use, and environmental protection policies.

This rulemaking is being done to increase the clarity and efficiency of EFSC's contested case process, by, among other items, updating language to add additional detail where needed, reordering the rules so they track the sequence of a contested case, moving the rules to a later block of Division 15 of OAR 345, and reducing the extent of interlocutory appeals that may be brought to EFSC during a contested case. Updated rules also reflect the adoption by the Council of the Attorney General's Office of Administrative Hearings model rules for contested cases.

STATEMENT IDENTIFYING HOW ADOPTION OF RULE(S) WILL AFFECT RACIAL EQUITY IN THIS STATE:

The adoption and amendment of the rules herein are intended to increase the clarity and readability of the energy siting process related rules. It is not clear that this rulemaking would have a direct impact on racial equity in this state.

Energy facilities subject to the Council's jurisdiction are typically located in rural areas east of the Cascade Mountain Range. While these areas generally have similar demographics as the statewide population, some Counties that have seen significant levels of energy development, such as Wasco, Jefferson, Umatilla, and Klamath Counties also contain tribal lands and, according to 2021 data from

the US Census Bureau Population Estimates Program, have higher percentages of people who identify as American Indian than the statewide population. Some counties which contain numerous energy facilities, including Morrow and Umatilla Counties, also have a higher percentage of people that identify as Hispanic or Latino than the statewide population.

FISCAL AND ECONOMIC IMPACT:

Stakeholders (energy developers, prospective site certificate applicants, and members of the public) consulted agreed there would be no fiscal impact as these changes are designed to be non-substantive in nature. These changes are primarily about making the rules that govern the contested case process for the Energy Facility Siting Council clearer. The rules are thus not expected to create additional expenditures or revenues for state agencies or units of local government. Efficiencies created by these changes could reduce application costs for some applicants, but these reduced costs are hard to estimate at this time.

COST OF COMPLIANCE:

(1) Identify any state agencies, units of local government, and members of the public likely to be economically affected by the rule(s). (2) Effect on Small Businesses: (a) Estimate the number and type of small businesses subject to the rule(s); (b) Describe the expected reporting, recordkeeping and administrative activities and cost required to comply with the rule(s); (c) Estimate the cost of professional services, equipment supplies, labor and increased administration required to comply with the rule(s).

These rules will apply to persons applying for an energy facility site certificate. Typically, applicants and certificate holders include electric and natural gas utilities, independent power producers, and energy developers. Because the analysis under the proposed rules is substantively the same as that required under the current rules, there is no anticipated cost increase, and indeed there is potentially a cost savings as a result of having rules that are easier to follow.

No direct fiscal impacts or administrative costs to state agencies or units of local government are expected to result from these rules.

Based on comments made by the Fiscal Impact Advisory Committee appointed for this rulemaking, we estimate that there may be approximately 12-15 energy developers operating in Oregon that have 50 or fewer employees, although to our understanding, many of these companies utilize parent companies or affiliates as a core part of their business model and thus may not qualify as small businesses. However, assuming they all qualify as small businesses, and assuming all were to apply for a site certificate in the future (which is not expected), our best estimate is that there are potentially 12-15 small businesses that could be affected by the proposed rules.

If a small business were to apply for a site certificate in the future, the impacts would be identical to those experienced by other applicants and certificate holders. Such impacts are not expected to be significant nor disproportionately affect small businesses as compared to other businesses because the impact of the rules is not related to the size of the business proposing a project but to the size and location of the project being proposed.

The expected reporting, recordkeeping and administrative activities and other costs required to comply

with the rules would be similar to those required under the current rules. We note that as part of the siting process, applicants must demonstrate that they have the ability to design, construct and operate the proposed facility in compliance with site certificate conditions and in a manner that protects public health and safety as well as the ability to restore the site to a useful, non-hazardous condition. We note that a business that has this ability, or access to the technical expertise needed to demonstrate this ability, should not be disproportionately burdened by this rule regardless of its size. Because the proposed rules would only potentially affect a small number of small businesses, would only result in relatively small changes in costs of compliance, and would affect large and small energy developers equally, we do not expect the proposed rules to have an adverse impact on small businesses.

DESCRIBE HOW SMALL BUSINESSES WERE INVOLVED IN THE DEVELOPMENT OF THESE RULE(S):

Small businesses were not specifically consulted during the development of these rules.

RULE TITLE: Requests for Party or Limited Party Status

RULE SUMMARY: Formerly OAR 345-015-0016. Updating rule for clarity. Specifying that the Department and applicant or certificate holder are full parties to a contested case proceeding.

Clarifying and calling out definition of "sufficient specificity" re: adequately raising an issue in the draft proposed order phase of an application for a site certificate. Noting that as defined in statute there are times when a party need not raise an issue with sufficient specificity during the draft proposed order to participate in a contested case proceeding.

Clarifying what the difference is between a party and a limited party.

RULE TEXT:

(1) The Department and applicant or certificate holder are parties to the contested case proceeding, with the right to participate on all issues in the contested case proceeding. Notwithstanding OAR 137-003-0535(2) and (3), other persons requesting to participate as a party or limited party in a contested case proceeding must submit a petition to the hearing officer and provide copies to the agency and the site certificate applicant by the date specified in the Department's notice issued under OAR 345-015-0230 and OAR 345-015-0014. Petitions received after the deadline will not be considered unless the hearing officer determines that good cause has been shown for failure to submit the petition by the required date.

(2) Except as described in sections (3) and (4) of this rule, only those persons who have commented in person or in writing on the record of the public hearing described in OAR 345-015-0220 may request to participate as a party or limited party in a contested case proceeding on an application for a site certificate. To raise an issue in a contested case proceeding, the issue must be within the jurisdiction of the Energy Facility Siting Council, and the person must have raised the issue in person or in writing on the record of the public hearing, unless the Department did not follow the requirements of ORS 469.370(2) or (3) or unless the action recommended in the proposed order described in OAR 345-015-230, including any recommended conditions of approval, differs materially from the action recommended in the draft proposed order, in which case the person may raise only new issues within the jurisdiction of the Council that are related to such differences.

(3) Subject to the exceptions in ORS 469.370(5), if a person has not raised an issue at the public hearing with sufficient specificity to afford the Council, the Department and the applicant an adequate opportunity to respond to the issue, the hearing officer may not consider the issue in the contested case proceeding.

(4) To have raised an issue with sufficient specificity, the person must have:

(a) identified the recommended findings of fact, conclusions of law, or conditions of approval to which they object;

(b) specified the Council standard or other applicable state and local requirements on which their objection is based; and

(c) presented facts or statements supporting that objection on the record of the draft proposed order.

(5) The requirements in (2), (3), and (4) also apply to a Council decision to grant a contested case proceeding under OAR 345-015-0310 (Request for Expedited Review of Special Criteria Facilities), with the exception that a person must have commented in person or on the record of the public hearing described in OAR 345-015-320 as opposed to the public hearing described in OAR 345-015-0220.

(6) In a petition to request party or limited party status, the person requesting such status must include:

(a) The information required under OAR 137-003-0535(4);

(b) A short and plain statement for each issue that the person desires to raise in the contested case proceeding; the statement should be worded the way the person requests the issue be worded for the contested case proceeding; and

(c) A reference to the person's comments on the record of the draft proposed order showing that the person raised the issue or issues on the record of the draft proposed order.

(7) The applicant, the Department, or the certificate holder may submit written responses to petitions to request party or limited party status to the hearing officer by the date specified for such responses in the Department's notice issued under OAR 345-015-0230, providing copies to one another and the person who submitted the petition for party or limited party status.

(8) In ruling on petitions to participate as a party or a limited party, the Hearing Officer shall consider the criteria described in OAR 137-003-0535(8). A limited party is a person, other than the Department, an applicant, or the certificate holder, who requests to participate in the contested case and who the hearing officer determines raised one or more issues with sufficient specificity as described in subsections (3) and (4), but did not raise all the issues to be addressed in the contested case, as established by the hearing officer in the prehearing order on party status described in OAR 345-015-0430.

(9) Subject to the exceptions in ORS 469.370(5) and OAR 345-015-0445(3), a limited party may participate in the contested case only on the issues they raised with sufficient specificity, including related proposed site certificate conditions.

RULE SUMMARY: Formerly OAR 345-015-0022. Updating rule language for greater clarity by defining what "indigent" means.

RULE TEXT:

(1) By petition to the hearing officer in a contested case submitted before the time of the prehearing conference, a party or limited party may request to be treated as an indigent. In the petition, the petitioner shall state in detail the facts demonstrating that the petitioner is indigent in the context of the financial burdens associated with full participation as a party or limited party in the contested case and the reasons why the petitioner would be prejudiced if indigent status were not granted.

(2) "Indigent" means the person has an income level at or below 125 percent of the United States poverty level as defined by the most recently revised poverty income guidelines published by the U.S. Department of Health and Human Services for the person's household/family size, unless the hearing officer makes a determination as to the person's ability to pay for the cost to participate in the pending case based on other factors. In making the determination as to a person's ability to pay costs to participate in the case, the hearing officer shall consider not only the person's income, but also the availability of any assets, including, but not limited to, cash, stocks, bonds, and any other property that may be applied to the satisfaction of judgments, other financial obligations the person bears, and the nature and complexity of the case.

(3) The hearing officer shall issue a determination on a petition for indigent status in writing and shall state the grounds for the determination. The hearing officer's determination is final unless the petitioner submits an appeal to the Energy Facility Siting Council within seven days after the date of service of the determination.

(4) The hearing officer may excuse a person granted indigent status from such requirements of the rules of this division as the hearing officer determines appropriate. As determined by the hearing officer, the Council may provide for the cost of service of pleadings and other documents, reasonable travel expenses of witnesses and copies of the record necessary to enable a person granted indigent status to participate fully in the contested case.

Making it clear that an amended order is required if party status is granted as the result of an appeal of party status.

Making it clear how waiver of an issue occurs.

RULE TEXT:

- (1) The hearing officer may hold one or more prehearing conferences to address petitions for party or limited party status and issues. - (4) The hearing officer's order on a request to participate as a party or limited party is final and may not be appealed to Energy Facility Siting Council unless the ruling would terminate the petitioner's ability to participate in the contested case proceeding.
- (5) The hearing officer may cancel or reschedule any previously noticed prehearing conference.
- (6) If an appeal to Council of a hearing officer's ruling on party status described in subsection (1) results in the granting of party status, the hearing officer shall issue an amended order.
- (7) Failure to raise an objection regarding suggested procedures to be followed in the contested case or a proposed description of an issue during the prehearing conference when such procedures and issues are being discussed and established by the hearing officer constitutes waiver of that issue.

(8) Failure to raise an issue in the prehearing conferences for the contested case hearing on an application for a site certificate constitutes a waiver of that issue.
