Subject: Copy of Email to LCDC Commissioners - Vote NO on CFEC Rules
Date: Tuesday, March 15, 2022 9:10:20 AM

Dear Assist to Deputy Director Taylor,

Please see the following email that I sent to the LCDC Commissioners regarding the Climate-Friendly and Equitable Communities Rulemaking.

Slow down on your effort to pass the CFEC rules. We understand the importance of reducing greenhouse gas emissions and increasing housing density in urban areas. But these rules go too far and could inadvertently hurt the production of needed housing.

Minimum density requirements should be eliminated or set based on each city's unique circumstances. Requiring unachievable minimum density standards will lead to less, rather than more, development in Climate Friendly Areas. And the rules as drafted will limit homeownership opportunities in Climate Friendly Areas.

Oregon is well down the road of revamping its planning system for housing with the passage of HB 2001 and 2003 in 2019. We need to let those efforts play out before adding more, and potentially contradictory, requirements on our local governments.

The Commission should take a pause and study the impacts of the proposed rules on housing production, affordability, and homeownership.

Oregon's current housing crisis is a result, in part, of land use planning that did not appropriately account for its impacts on housing supply, affordability and equity. Let's not make the same mistake again.

Please do not pass these rules as currently drafted.

Sincerely,

Jana Fogg
