October Report

Date: Progress Report- 10/24/16

Title: Oregon State University North Willamette Research and Extension Center Nursery Production Internship

Progress to date- Two summer interns, Harley Sikes from Chemeketa Community College and Grant McKinney from Chaminade University of Honolulu have completed their summer intern projects and are back to school/work.

Judy Kowalski has coordinated their work schedules and the interns have been working with Luisa Santamaria, Chal Landgren, Gilbert Uribe and Joe DeFrancesco.

Both interns are now considering completing undergraduate degrees in Horticulture at OSU.

Each intern completed a final project report. Harley worked on a research project in a noble fir seed orchard. Grant worked on an aphid control project utilizing "softer" insecticides. Their reports will be attached to the final report.
