NOTICE OF PROPOSED RULEMAKING
INCLUDING STATEMENT OF NEED & FISCAL IMPACT

CHAPTER 603
DEPARTMENT OF AGRICULTURE

FILED

11/20/2024 3:14 PM
ARCHIVES DIVISION
SECRETARY OF STATE

FILING CAPTION: Updating reportable disease list for veterinarians practicing in Oregon.

LAST DAY AND TIME TO OFFER COMMENT TO AGENCY: 12/31/2024 5:00 PM

The Agency requests public comment on whether other options should be considered for achieving the rule's substantive goals while reducing negative economic impact of the rule on business.

CONTACT: Ryan Scholz

Filed By:
Sunny Summers
Rules Coordinator

HEARING(S)

Auxiliary aids for persons with disabilities are available upon advance request. Notify the contact listed above.

DATE: 12/17/2024

TIME: 9:00 AM - 9:45 AM

OFFICER: Sunny Summers

Meeting URL: https://teams.microsoft.com/l/meetup-join/19:meeting_YTY1NjlmMDEtMmRmNC00MjI4LTg4OGQtNmlyNThiMjZkNGVI%40thread.v2/0?context=%7b%22Tid%22:%22aa3f6932-fa7c-47b4-a0ce-a598cad161cf%22%2c%22Oid%22:%22b088d4af-1b3c-428d-963c-f0663f0ab8e4%22%7d

Meeting ID: 220 384 648 360
Passcode: Lk7i4RD6

Dial-in by phone: +1 503-446-4951,,30546110#

NEED FOR THE RULE(S)

Updates to reportable diseases list to include additional diseases that are newly emerging or that have been requested by associated livestock industries to be tracked.

DOCUMENTS RELIED UPON, AND WHERE THEY ARE AVAILABLE

ORS 596 - Oregon Legislative Information System website

STATEMENT IDENTIFYING HOW ADOPTION OF RULE(S) WILL AFFECT RACIAL EQUITY IN THIS STATE

These changes are not expected to have any impact on racial equity in this state.

FISCAL AND ECONOMIC IMPACT:

Increased reporting may have a negligible impact on the Animal Health Program, but is not anticipated to have a significant fiscal impact. Failure to report/control diseases would potentially have a significant economic impact on

livestock producers throughout Oregon and neighboring states.

COST OF COMPLIANCE:

(1) Identify any state agencies, units of local government, and members of the public likely to be economically affected by the rule(s). (2) Effect on Small Businesses: (a) Estimate the number and type of small businesses subject to the rule(s); (b) Describe the expected reporting, recordkeeping and administrative activities and cost required to comply with the rule(s); (c) Estimate the cost of professional services, equipment supplies, labor and increased administration required to comply with the rule(s).

(1) Identify any state agencies, units of local government, and members of the public likely to be economically affected by the rule(s):

Oregon Department of Agriculture – negligible increase in workload/staff time to record, track, and respond to additional disease reports

(2) Effect on small businesses: (a) estimate the number and type of small businesses subject to the rule(s); (b) Describe the expected reporting, recordkeeping and administrative activities and cost required to comply with the rule(s); (c) Estimate the cost of professional services, equipment supplies, labor and increased administration required to comply with the rule(s).

(A) ~1500 veterinary practices in Oregon

(B) Veterinarians (and clinics) would be expected to report confirmed cases of monitored diseases within 15 days of laboratory confirmation, which is already required. This update is only adding a few very uncommon diseases to the list of reportable diseases and altering the reporting timeframe for several rare diseases.

(C) Compliance with these rules is expected to have negligible to no increased cost to comply beyond existing levels.

DESCRIBE HOW SMALL BUSINESSES WERE INVOLVED IN THE DEVELOPMENT OF THESE RULE(S):

A survey was sent to every licensed veterinarian and veterinary technician throughout Oregon last spring, seeking feedback on the current disease reporting system and ways to improve the system. This rule change represents changes that were repeatedly requested by participants in that survey and further discussed in focus groups after the survey.

WAS AN ADMINISTRATIVE RULE ADVISORY COMMITTEE CONSULTED? YES

AMEND: 603-011-0212

RULE SUMMARY: Update to list of reportable diseases in livestock. Reorganized list to group by causative agent rather than primary species affected.

CHANGES TO RULE:

603-011-0212

Diseases Reportable by Veterinarians ¶¶

(1) Any person practicing veterinary medicine in this state shall immediately notify the department by telephone upon observing any of the following abnormalities in any species of livestock:¶¶

(a) Any unidentified vesicular disease;¶¶

(b) Any exotic disease or foreign animal disease, even if only suspected;¶¶

(c) Any disease of unknown etiology exhibiting highly pathogenic or lethal effect; or¶¶

(d) Any exotic vector (flies and fly larvae, mites, and ticks); or¶¶

(e) Any disease, infection, or infestation in domestic or wild animals that is a threat to terrestrial animals, aquatic animals, or humans, and meets any one of the following criteria:¶¶

(A) An unknown agent is causing disease in a herd, flock, or premises and has the potential to result in a significant

animal or public health impact, and applied diagnostic tests have yielded negative or non-definitive results; or

(B) A newly identified agent is causing disease in a herd, flock, or premises and has the potential to cause significant animal or public health impact, or is occurring in multiple herds, flocks, or premises; or

(C) A previously identified or known pathogenic agent that has a change in epidemiology, such as:

(i) Unexpected production impacts or morbidity/mortality over a previously defined range for the agent;

(ii) Expanded host range; or

(iii) Change in geography of an agent with the potential to cause a significant animal or public health impact.

(2) Any person practicing veterinary medicine in this state shall immediately notify the department by telephone upon observing clinical evidence of any of the following diseases:

(a) Multiple-Species in any species of livestock.

(a) Bacterial Diseases:

(A) Akbane;

(B) Anthrax (*Bacillus anthracis*);

(B) Avian chlamydiosis/psittacosis (*Chlamydia psittaci*);

(C) Bovine Tuberculosis (*Mycobacterium bovis*);

(D) Bluetongue (serotype 8);

(E) Brucellosis (*Brucella abortus*);

(F) Brucellosis (*Brucella mellitensis*);

(G) Brucellosis (*a suis*, *Brucella sucanis*);

(H) Crimean-Congo hemorrhagic fever;

(I) Epizootic hemorrhagic disease/contagious bovine pleuropneumonia (*Mycoplasma mycoides subsp. mycoides*);

(J) Equine encephalomyelitis (Eastern/Contagious caprine pleuropneumonia (*Mycoplasma capricolum subsp. capripneumoniae*);

(K) Equine encephalomyelitis (Western);

(L) Equine encephalomyelitis (Venezuelan/Contagious equine metritis (*Taylorella equigenitalis*);

(M) Foot and mouth disease/w typhoid (*Salmonella enterica serovar Gallinarum*);

(N) Glanders (*Burkholderia mallei*);

(O) Heartwater (*Cowdria Ehrlichia ruminantium*);

(P) Japanese encephalitis/Hemorrhagic septicemia (*Pasteurella multocida*, serotypes B or E);

(Q) Melioidosis (*Burkholderia pseudomallei*);

(R) New World screwworm (*Cochliomyia hominivorax*);

(S) Old World screwworm (*Chrysomya bezziana*);

(T) Pseudorabies (Aujeszky's disease/Pigeon fever/Ulcerative lymphangitis (*Corynebacterium pseudotuberculosis*);

(U) Rabies; and

(V) Rift Valley fever;

(W) Rinderpest;

(X) SARS-CoV-2/Plague (*Yersinia pestis*);

(Y) Surra (*Trypanosoma evansi*);

(Z) Trichinellosis (*Trichinella spp.*);

(AA) Vesicular Stomatitis; and

(BB) West Nile virus.

(b) Avian Diseases:

(A) Duck viral hepatitis (duck hepatitis A virus) (domestic poultry/Pullorum disease (*Salmonella enterica serovar Pullorum*);

(P) Q fever (*Coxiella burnetii*);

(Q) Salmonella Enteritidis (*Salmonella enterica serovar Enteritidis*);

(R) Fowl typhoid/*Salmonella* Typhimurium (*Salmonella enterica serovar Typhimurium*);

(S) Highly pathogenic avian influenza (all birds/Strangles (*Streptococcus equi equi*);

(D) Low pathogenic avian influenza (H5 or H7 subtypes) (domestic poultry);*Streptococcus equi subspecies zooepidemicus*; and

(E) Pullorum disease (*Salmonella enterica serovar Pullorum*);

(F) Salmonella enteritidis/emia (*Francisella tularensis*);

(G) Turkey rhinotracheitis (avian metapneumovirus) (domestic poultry); and

(H) Virulent Newcastle disease (domestic poultry).

(c) Bovine Fungal Diseases: Systemic fungal diseases

(c) Parasitic Diseases:

(A) Babesiosis (*Babesia bovis*, *B. bigemina*);

(B) Bovine spongiform encephalopathy;

(C) Contagious bovine pleuropneumonia (*Mycoplasma mycoides mycoides*);¶
(D) Hemorrhagic septicemia (*Pasteurella multocida*, serotypes B/Asian or E/African) Dourine (*Trypanosoma equiperdum*);¶
(C) Equine piroplasmiasis (*Theileria equi*, *Babesia caballi*);¶
(D) Leishmaniasis (*Leishmania* spp.);¶
(E) Mange (*Sarcoptes scabiei* var *ovis*, *Choriptes bovis*, *Psoroptes ovis*, *Psoroptes cuniculi*, *Psoregates ovis*);¶
(EF) Lumpy skin disease New World screwworm (*Cochliomyia hominivorax*);¶
(G) Old World screwworm (*Chrysomya bezziana*);¶
(FH) Malignant catarrhal fever; and Surra (*Trypanosoma evansi*);¶
(GI) Theileriosis (*Theileria annulata*, *T. parva*);¶
(HJ) Trichinellosis (*Trichinella* spp.);¶
(K) Trichomoniasis. (*Tritrichomonas foetus*); and¶
(HL) Trypanosomiasis (Tsetse-transmitted) (*Trypanosoma congolense*, *T. vivax*, *T. brucei brucei*).¶
(d) Caprine and Ovine Prion Diseases:¶
(A) Contagious caprine pleuropneumonia (*Mycoplasma capricolum capripneumoniae*); Bovine spongiform encephalopathy (BSE);¶
(B) Chronic wasting disease (CWD); and¶
(BC) Mange (*Sarcoptes scabiei* var *ovis*, *Choriptes bovis*, *Psoroptes ovis*, *Psoroptes cuniculi*, *Psoregates ovis*);¶
(C) Nairobi sheep disease;¶
(D) Peste des petits ruminants Scrapie.¶
(e) Viral Diseases:¶
(A) African Horse Sickness;¶
(B) African swine fever;¶
(C) Akabane;¶
(D) Bluetongue;¶
(E) Camel pox;¶
(EF) Scrapie; and Classical swine fever;¶
(FG) Sheeppox and goat pox; Crimean-Congo hemorrhagic fever;¶
(eH) Equine Diseases:¶
(A) African Horse Sickness;¶
(B) Contagious equine metritis (*Taylorella equigenitalis*) Duck viral hepatitis (duck hepatitis A virus, duck astrovirus type 1, duck astrovirus type 2) (domestic poultry);¶
(I) Epizootic hemorrhagic disease;¶
(CJ) Dourine (*Trypanosoma equiperdum*) Equine encephalomyelitis (Eastern);¶
(DK) Equine infectious anemia encephalomyelitis (Venezuelan);¶
(EL) Equine piroplasmiasis (*Theileria equi*, *Babesia caballi*) encephalomyelitis (Western);¶
(M) Equine infectious anemia;¶
(FN) Equine rhinopneumonitis/ (Equine Herpesvirus, EHV-1) and equine herpesvirus-1 myeloencephalopathy (EHV1-EHM); and¶
(O) Foot and mouth disease (FMD);¶
(GP) Hendra virus;¶
(fQ) Farmed Cervid Diseases: Chronic wasting Influenza (Influenza A virus);¶
(R) Japanese encephalitis;¶
(S) Lumpy skin disease;¶
(gT) Lagomorph (Rabbits & Hares) Diseases: Malignant catarrhal fever (Ovine herpesvirus 2, alcelaphine herpesvirus 1);¶
(AU) Myxomatosis; and¶
(V) Nairobi sheep disease;¶
(BW) Rabbit hemorrhagic disease; Newcastle disease (Avian paramyxovirus-1, APMV-1) (domestic poultry);¶
(X) Nipah virus;¶
(Y) Peste des petits ruminants;¶
(hZ) Porcine Pseudorabies (Aujeszky's diseases);¶
(AA) African swine fever Rabbit hemorrhagic disease;¶
(BB) Classical swine Rabies;¶
(CC) Rift Valley fever;¶
(C) Nipah virus DD) Rinderpest;¶
(EE) SARS-CoV-2;¶
(FF) Sheep pox and goat pox;¶
(DGG) Swine vesicular disease; and¶

(E) Turkey rhinotracheitis (avian metapneumovirus) (domestic poultry);

(H) Vesicular exanthema;

(i) Other Diseases:

(A) Camel pox of swine;

(J) Vesicular Stomatitis; and

(B) Leishmaniasis (*Leishmania* spp.);

(K) West Nile virus.

(3) Any person practicing veterinary medicine in this state shall notify the department on forms provided by it, within 15 days of laboratory confirmation of any of the following monitored diseases. Automatic reporting by diagnostic laboratories may fulfill a veterinarian's reporting requirement:

(a) Multiple-Species Diseases:

(A) Bluetongue (serotypes other than 8);

(B) Echinococcosis/hydatidosis (*Echinococcus granulosus*);

(A) Anaplasmosis (*Anaplasma marginale*, *A. centrale*);

(B) Avian mycoplasmosis (*Mycoplasma gallisepticum*, *M. multilocularis*);

(C) Paratuberculosis (Johne's disease) (*Mycobacterium avium paratuberculosis*);

(D) Q fever (*Coxiella burnetii*); and

(E) Tularemia (*Francisella tularensis*);

(b) Avian Diseases: *Bartonella* spp.);

(D) Bovine genital campylobacteriosis (*Campylobacter fetus venerealis*);

(A) Avian chlamydiosis (psittacosis and ornithosis) (*Chlamydia psittaci*);

(B) Campylobacter-associated abortion (*Campylobacter* spp.);

(B) Avian Infectious bronchitis;

(C) Avian infectious laryngotracheitis; Contagious agalactia (*Mycoplasma agalactiae*, *M. capricolum* subsp. *capricolum*, *M. mycoides* subsp. *capri*, *M. putrefaciens*);

(D) Avian mycoplasmosis (*Mycoplasma gallisepticum*);

(E) Enzootic abortion of ewes (*Chlamydia abortus*);

(E) Avian mycoplasmosis (*Mycoplasma synoviae*);

(F) Infectious bursal disease (gumboro disease); and

(F) Foothill abortion in cattle/Epizootic bovine abortion (*Pajaroellobacter abortibovis*);

(G) Infectious coryza (*Avibacterium paragallinarum*);

(e) Bovine Diseases: *Leptospira* spp.);

(A) Anaplasmosis (*Anaplasma marginale*, *A. centrale*);

(L) Lyme disease (*Borrelia burgdorferi*);

(B) Bovine genital campylobacteriosis (*Campylobacter fetus venerealis*);

(B) Epididymitis/Bruceellosis in sheep (*Brucella ovis*);

(M) Paratuberculosis (Johne's disease) (*Mycobacterium avium paratuberculosis*);

(N) Bovine viral diarrhoea; Rocky Mountain spotted fever (*Rickettsia rickettsii*);

(D) Enzootic bovine leukosis; Salmon poisoning disease (*Neorickettsia helminthoeca*);

(E) Infectious bovine rhinotracheitis/infectious pustular vulvovaginitis; and

(E) *Salmonella enterica* serovar *Abortusovis*; and

(Q) Yersiniosis (*Yersinia enterocolitica*; *Y. pseudotuberculosis*);

(F) Malignant catarrhal fever (Ovine herpesvirus 2, alcelaphine herpesvirus 1);

(F) Fungal Diseases:

(A) Coccidioidomycosis/Valley fever (*Coccidioides immitis*; *C. posadasii*);

(B) Cryptococcosis (*Cryptococcus* spp.); and

(C) Canine and Feline Histoplasmosis (*Histoplasma capsulatum*);

(c) Parasitic Diseases:

(A) Canine Distemper Virus;

(B) Canine Parvovirus;

(C) Feline Panleukopenia;

(D) Heartworm disease; and

(E) Virulent Feline Calicivirus; Baylisascariasis (*Baylisascaris* spp.);

(B) Cryptosporidiosis (*Cryptosporidium* spp.);

(C) Cysticercosis (*Taenia solium*, *T. saginata*);

(D) Echinococcosis/Hydatidosis (*Echinococcus granulosus*, *E. multilocularis*);

(E) Giardiasis (*Giardia* spp.);

(e) Caprine and Ovine Diseases:

(A) Caprine arthritis and encephalitis; Heartworm disease (*Dirofilaria immitis*); and

(G) Mange (*Sarcoptes scabiei*, all other variants that are not listed as immediately reportable);

(B) Contagious agalactia (*Mycoplasma agalactiae*, *M. capricolum capricolum*, *M. putrefaciens*, *M. mycoides capri*);

(B) Toxoplasmosis (*Toxoplasma gondii*);

(d) Viral Diseases:

(A) Avian infectious bronchitis;

(CB) Enzootic abortion of ewes (Chlamydia abortus);

(D) Maedi-visna/ovine progressive pneumonia/Avian infectious laryngotracheitis;

(C) Bovine viral diarrhea;

(D) Canine distemper virus;

(E) Canine parvovirus;

(EF) Ovine epididymitis (Brucella ovis); and Caprine arthritis and encephalitis;

(FG) Salmonellosis (Salmonella abortus-ovis); Enzootic bovine leukosis;

(H) Equine enteric coronavirus;

(f) Equine Diseases: viral arteritis;

(AJ) Equine Feline influenza (virus type A immunodeficiency virus (FIV));

(BK) Equine Feline rhinopneumonitis EHV-1 (non-EHM) infectious peritonitis (FIP);

(CL) Equine Feline viral arteritis/leukemia virus disease complex (FeLV);

(DM) Pigeon fever (Corynebacterium pseudotuberculosis, ulcerative lymphangitis); and Feline panleukopenia;

(N) Infectious bovine rhinotracheitis/Infectious pustular vulvovaginitis;

(EO) Strangles (Streptococcus equi equi);

(g) Porcine Infectious bursal disease/Gumboro diseases;

(AP) Cysticercosis (Taenia solium, T. saginata) Lymphocytic choriomeningitis;

(Q) Maedi-visna/Ovine progressive pneumonia;

(BR) Porcine reproductive and respiratory syndrome (PRRS);

(CS) Swine Enteric Coronavirus Diseases (SECD) (Porcine Epidemic Diarrhea Virus (PEDv), Porcine Delta Coronavirus (PDCoV));

(D) Swine Influenza; and

(ET) Transmissible gastroenteritis virus; and

(U) Virulent systemic feline calicivirus.
