

Resources

A resource packet for yellow floating heart and water primrose management is available here:

<http://www.oregon.gov/ODA/programs/Weeds/Meetings/Pages/WeedForums.aspx>

Research:

Yellow Floating Heart

- 1) Shaker, R.R., Yakubov, A.D., Nick, S.M., Vennie-Vollrath, E., Ehlinger, T.J., Forsythe, K.W. ***Predicting aquatic invasion in Adirondack lakes: A spatial analysis of lake and landscape characteristics*** (2017) *Ecosphere*, 8 (3), art. no. e01723,
- 2) Tippery, N.P., Les, D.H., Peredo, E.L. ***Nymphoides grayana (Menyanthaceae) in Florida verified by DNA and morphological data*** (2015) *Journal of the Torrey Botanical Society*, 142 (4), pp. 325-330.
- 3) Darbyshire, S.J., Francis, A. ***The biology of invasive alien plants in Canada. 10. Nymphoides peltata (S. G. Gmel.) Kuntze*** (2008) *Canadian Journal of Plant Science*, 88 (4), pp. 811-829.
- 4) Carlsson, F., Kataria, M. ***Assessing management options for weed control with demanders and non-demanders in a choice experiment*** (2008) *Land Economics*, 84 (3), pp. 517-528.

Water Primrose

- 1) Gillard, M.a , Thiébaud, G.a , Rossignol, N.a , Berardocco, S.b , Deleu, C.b ***Impact of climate warming on carbon metabolism and on morphology of invasive and native aquatic plant species varies between spring and summer*** (2017) *Environmental and Experimental Botany*, 144, pp. 1-10.
- 2) Nicol, J.M.a c , Ganf, G.G.a , Walker, K.F.a , Gawne, B.b ***Response of three arid zone floodplain plant species to inundation*** (2017) *Plant Ecology*, pp. 1-11. Article in Press.
- 3) Gillard, M.a , Grewell, B.J.b , Futrell, C.J.b , Deleu, C.c , Thiébaud, G.a ***Germination and seedling growth of water primroses: A cross experiment between two invaded ranges with contrasting climates*** (2017) *Frontiers in Plant Science*, 8, art. no. 1677
- 4) Enloe, S.F.a , Lauer, D.K.b

Uruguay waterprimrose control with herbicides (2017) Journal of Aquatic Plant Management, 55 (July), pp. 71-75.

- 5) Harms, N.E.a , Shearer, J.F.a , Grodowitz, M.J.b
Folivory and disease occurrence on *Ludwigia hexapetala* in Guntersville Reservoir, Alabama (2017) Journal of Aquatic Plant Management, 55 (January), pp. 19-25.
- 6) Pérez, D.J.a b , Okada, E.a b , Menone, M.L.c , Costa, J.L.b
Can an aquatic macrophyte bioaccumulate glyphosate? Development of a new method of glyphosate extraction in *Ludwigia peploides* and watershed scale validation (2017) Chemosphere, 185, pp. 975-982
- 7) Pérez, D.J.a b , Okada, E.a b , Menone, M.L.c , Costa, J.L.b
Can an aquatic macrophyte bioaccumulate glyphosate? Development of a new method of glyphosate extraction in *Ludwigia peploides* and watershed scale validation (2017) Chemosphere, 185, pp. 975-982
- 8) Pérez, D.J.a b , Okada, E.a b , Menone, M.L.c , Costa, J.L.b
Can an aquatic macrophyte bioaccumulate glyphosate? Development of a new method of glyphosate extraction in *Ludwigia peploides* and watershed scale validation (2017) Chemosphere, 185, pp. 975-982
- 9) Haury, J., Druel, A., Cabral, T., Paulet, Y., Bozec, M., Coudreuse, J.
Which adaptations of some invasive *Ludwigia* spp. (*Rosidae*, *Onagraceae*) populations occur in contrasting hydrological conditions in Western France? (2014) Hydrobiologia, 737 (1), pp. 45-56.
- 10) Hernández, M.C., Walsh, G.C.
Insect Herbivores Associated with *Ludwigia* Species, *Oligospermum* Section, in Their Argentine Distribution (2014) Journal of Insect Science, 14 (1), art. no. ieu063
- 11) Hernández, M.C.a , Cabrera Walsh, G.b
Insect herbivores associated with *Ludwigia* species, *Oligospermum* section, in their Argentine distribution (2014) Journal of insect science (Online), 14
- 12) Saunders, L.E., Pezeshki, R.
Sublethal effects of environmentally relevant run-off concentrations of glyphosate in the root zone of *Ludwigia peploides* (creeping water primrose) and *Polygonum hydropiperoides* (smartweed) (2014) Weed Biology and Management, 14 (4), pp. 242-250.
- 13) Gérard, J.a , Brion, N.b , Triest, L.a
Effect of water column phosphorus reduction on competitive outcome and traits of *Ludwigia grandiflora* and *L. peploides*, invasive species in Europe (2014) Aquatic Invasions, 9 (2), pp. 157-166.
- 14) Ji, F.Q., Wang, W.

Comparison of the aquatic plants' purification effects on eutrophic water from Chaohu Lake area (2013) Applied Mechanics and Materials, 368-370 (1), pp. 282-285.

15) Thouvenot, L.a b , Haury, J.b , Thiebaut, G.a
A success story: Water primroses, aquatic plant pests (2013) Aquatic Conservation: Marine and Freshwater Ecosystems, 23 (5), pp. 790-803

16) Delbart, E., Mahy, G., Monty, A.
Effectiveness of techniques used to control the development of five invasive amphibious plant species: Crassula helmsii, Hydrocotyle ranunculoides, Ludwigia grandiflora, Ludwigia peploides and Myriophyllum aquaticum. A review. (2013) Biotechnology, Agronomy and Society and Environment, 17 (1), pp. 87-102.

17) Harms, N.E.a , Grodowitz, M.J.b
Herbivorous insects associated with Ludwigia peploides (Onagraceae) in the southern United States (2012) Southwestern Naturalist, 57 (1), pp. 123-127.

18) Carruthers, R.I.b , Franc, M.K.b , Gee, W.S.a , Cossé, A.A.c , Grewell, B.J.d , Beck, J.J.a
Volatile emissions from the flea beetle Altica litigata (Coleoptera: Chrysomelidae) associated with invasive Ludwigia hexapetala (2011) Chemoecology, 21 (4), pp. 253-259.

19) Lambert, E.a , Dutartre, A.c , Coudreuse, J.b , Haury, J.b
Relationships between the biomass production of invasive Ludwigia species and physical properties of habitats in France (2010) Hydrobiologia, 656 (1), pp. 173-186.

20) Hussner, A.
Growth response and root system development of the invasive Ludwigia grandiflora and Ludwigia peploides to nutrient availability and water level (2010) Fundamental and Applied Limnology, 177 (3), pp. 189-196.

21) Okada, M.a , Grewell, B.J.b , Jasieniuk, M.a
Clonal spread of invasive Ludwigia hexapetala and L. grandiflora in freshwater wetlands of California (2009) Aquatic Botany, 91 (3), pp. 123-129.

22) Ruaux, B.a , Greulich, S.a , Haury, J.b , Berton, J.-P.a
Sexual reproduction of two alien invasive Ludwigia (Onagraceae) on the middle Loire River, France (2009) Aquatic Botany, 90 (2), pp. 143-148.

23) Richardson, R.J., Roten, R.L., West, A.M., True, S.L., Gardner, A.P.
Response of selected aquatic invasive weeds to flumioxazin and carfentrazone-ethyl (2008) Journal of Aquatic Plant Management, 46 (2), pp. 154-158.

24) Champion, P.D.a , James, T.K.b , Carney, E.G.b
Evaluation of triclopyr triethylamine for the control of wetland weeds (2008) New Zealand Plant Protection, 61, pp. 374-377

25) Dandelot, S.a , Robles, C.b , Pech, N.c , Cazaubon, A.a , Verlaque, R.b

Allelopathic potential of two invasive alien Ludwigia spp. (2008) Aquatic Botany, 88 (4), pp. 311-316.

26) Dandelot, S.a , Verlaque, R.b , Dutartre, A.c , Cazaubon, A.a
Ecological, dynamic and taxonomic problems due to Ludwigia (Onagraceae) in France (2005) Hydrobiologia, 551 (1), pp. 131-136.

27) Deaver, E.a , Moor, M.T.b , Cooper, C.M.b , Knight, S.S.b
Efficiency of three aquatic macrophytes in mitigating nutrient run-off (2005) International Journal of Ecology and Environmental Sciences, 31 (1), pp. 1-7.

28) Aznar, J.-C.a , Dervieux, A.a , Grillas, P.b
Association between aquatic vegetation and landscape indicators of human pressure (2003) Wetlands, 23 (1), pp. 149-160.

29) Rejmánková, E.
Ecology of creeping macrophytes with special reference to Ludwigia peploides (H.B.K.) Raven (1992) Aquatic Botany, 43 (3), pp. 283-299.

30) Yen S., Myerscough, P.J.
Co-existence of three species of amphibious plants in relation to spatial and temporal variation: Field evidence (1989) Australian Journal of Ecology, 14 (3), pp. 291-303.

31) Yen S., Myerscough, P.J.
Co-existence of three species of amphibious plants in relation to spatial and temporal variation: Investigation of plant responses (1989) Australian Journal of Ecology, 14 (3), pp. 305-318.

32) Ellmore, G.S.
Root dimorphism in Ludwigia peploides (Onagraceae): development of two root types from similar primordia. (1981) Botanical Gazette, 142 (4), pp. 525-533.
