

Public Charter Schools Eligible to Apply Directly for Student Investment Account Grants

Non-virtual public charter schools that meet specific criteria are eligible to apply for Student Investment Account (SIA) funding under the Student Success Act (SSA). These public charter schools must have a student population of which at least 35% is composed from the following student groups:

1. “Economically Disadvantaged Students”¹ means students who meet one or more of the following qualifications:
 - a. are participating in the Supplemental Nutrition Assistance Program funded by the United States Department of Agriculture;
 - b. are participating in the Temporary Assistance for Needy Families program as defined in Title IV of the Social Security Act;
 - c. are foster students; or
 - d. are migratory students; or
 - e. are students who are homeless.
2. “Students from Racial or Ethnic Groups that Have Historically Experienced Academic Disparities” includes but is not limited to American Indian and Alaska Native (AI/AN and AI/AN+) students, Black and African American students, Hispanic and Latino students, Asian students, Native Hawaiian and Pacific Islander students, and multiracial students, and any other racial or ethnic group identified by the school district as historically experienced academic disparities²; or
3. Students with disabilities who have an Individualized Education Program (IEP)³.

In addition to the public charter school having at least 35% of their student population made up of one or more categories of the above student groups, for any percentage used to calculate the charter school’s qualifying percentage, the charter school’s percentage must be **greater** than

¹ [ORS 327.180\(2\)\(b\)\(A\)](#)

² [OAR 581-014-0001\(4\)](#)

³ [OAR 581-014-0001\(7\)](#) [ORS 343.035\(1\)](#)

the district’s percentage in the same category. This also applies to state-sponsored charter schools qualifying to apply independently where the charter school’s percentage must be greater than the resident district’s percentage in the same category.

Data used to determine which public charter schools are eligible to apply for funds independently for the 2025-27 biennium are based on the 2024 Spring Membership report derived from the 3rd period cumulative average daily membership collection as this is the most recent available data source.

Note: A charter school that is eligible to apply independently is not required to do so and could still choose to join within the application of their sponsoring district, if that sponsoring district is inviting all charter schools they sponsor to join the application.

Public Charter Schools Eligible to Apply Independently for the SIA for the 25-27 Biennium

School District	Public Charter School	Charter EcoDis 23-24	SD EcoDis 23-24	Charter SpEd 23-24	SD SpEd 23-24	Charter Rac/Eth 23-24	SD Rac/Eth 23-24
