

SEED SURVEY DATA USE Professional Learning Series

The Oregon Department of Education (ODE) is offering a monthly drop-in professional learning series designed to support Oregon school districts to effectively use and interpret data from the Student Educational Equity Development (SEED) Survey.

Participants will:

- **Receive information about SEED data and how to interpret such data**
- **Develop equity-centered explorations of SEED data**
- **Identify practical applications and questions that can be asked of SEED data**
- **Collaborate with other district personnel on problems of practice**

The sessions are for people working directly with SEED data. Each session will begin with a brief presentation by ODE on a data use topic. Participants will have the opportunity to engage in a community of practice focused on their own experience using and interpreting SEED data.

Click on a date to register for a session:
