If no such written notice is given, this Agreement shall continue in full force and effect from year to year. It is agreed that in the event that either party should exercise its rights under this paragraph to amend or modify, the parties will, for a period of ninety (90) days prior to the expiration of the Agreement, bargain exclusively with each other with respect to all wage rates, working conditions and hours of employment for the work herein covered.

If no Agreement has been entered into at the expiration of said ninety (90) day period, this Agreement shall continue in full force and effect until a new Agreement is reached or either party notifies the other by Certified or Express Mail of termination. If such termination notice is given, its effective date must be more than twenty-four (24) hours after the other party receives such notification.

5.3. The parties further agree that during any contract year when this Agreement is opened for the sole purpose of negotiating wages and fringe benefits, all of the other provisions of this Agreement, including specifically the "no strike, no lock-out" provision shall remain in full force and effect. ARTICLE 6
CRAFT JURISDICTION

The work covered by this Agreement shall be that which is recognized as properly coming under the jurisdiction of the Laborers' International Union of North America. (See Article 30 - Jurisdictional Disputes).

ARTICLE 7
SUBCONTRACTORS AND OTHER EMPLOYERS

7.1a. A subcontractor is one who takes over any part or a complete section of a general contract, including both the furnishing of materials for and the performance of labor on the job,

or the performance of labor only. No Employer or joint venture covered by the terms and conditions of this Agreement shall subcontract any job-site work to a subcontractor or employer who is not signatory to this Labor Agreement except as provided below. The Employer or joint venture shall be held responsible for the payment of Wages, Travel Pay, Pension, Health and Welfare, Dues Deduction, Training, and Union Contractor Group incurred by the subcontractor and shall see that the subcontractor adheres to the working conditions, except as provided below.

7.1b. Section 7.1a shall not be operative when potential union subcontractors are not available. When a subcontractor is not signatory to a labor agreement, there shall be a pre-job conference between the Local Union, a representative of the District Council, the Contractor, the subcontractor and the Association if affected. The parties will attempt to reach agreement regarding this section before the subcontractor performs any work on the project.

7.1c. In order to comply with this Article, the Union may make available an agreement for the duration of the project or subcontract to cover only the subcontracted work.

7.2. In the event an Employer is unable to find qualified competitive union Minority Business Enterprises-Woman Business Enterprises (MBE-WBE) subcontractors when the Employer is obligated to satisfy MBE-WBE recruiting requirements, the Union and the Employer shall waive this Article provided the applicable portions of Sections 7.1b, 7.1c, or 7.3 are complied with by the Employer and the Union.

7.3. Where the general contractor receives bids that show the non-union subcontractor five percent (5%) or more below the union subcontractor, the Employer and the Union shall waive this Article, provided however the pre-job conference referred to in 7.1b above is utilized. The Union and the Employer shall review the prices submitted before signing the non-signatory subcontractor.

7.4. A vendor, who makes delivery of materials, supplies or equipment and who, incidental to or as part of the furnishing or delivery of material, supplies, or equipment, does any work at the jobsite, shall be a party to a collective bargaining agreement with the Union, containing the full terms of this Agreement. In the event a vendor is not a party to such an agreement, they shall not perform any job-site work except that, deliveries may be made by such vendor to jobsite.

ARTICLE 8 MUTUAL RECOGNITION AND UNION MEMBERSHIP

8.1. The Association recognizes the Union as the sole collective bargaining agent for all workers and employees falling within the jurisdiction of this Agreement and the Union recognizes the Association as the sole bargaining agent for its members as listed on Schedule "B" hereof and supplements thereto. The jurisdiction of this Agreement shall not include employees of the Employer as defined and excluded by the Labor Management Relations Act of 1947, as amended, or their transportation (it is further understood that the employees so

listed as excluded from this Agreement shall not be employed to use the tools of the craft or to perform the work covered by this Agreement).

8.2. All employees employed by the Employer to perform work within the properly determined craft jurisdiction of the Union involved shall become members of such Union not later than the eighth day following the beginning of such employment or since the inception of this Agreement, and thereafter shall maintain membership in good standing in said Union as a condition of employment subject, however, to the provisions of Sections 8.3 and 8.4 of this Article.

8.3. The Union accepts all obligations for the continued membership of its members as provided in Section 8.2 of this Article, and for the collection of their initiation fees and dues. There shall be no stoppage or slow-up of work because of disciplinary action on the part of the Union, except that the Union shall have the right to require the removal of employees for failure to pay or tender initiation fees and dues as required by this Agreement.

8.4. All requests by the Union for removal of an employee for non-payment of or failure to tender initiation fees and dues shall be made to the contractor in writing, in which event, the Employer agrees to remove the employee involved at the end of the shift providing a replacement is available.

ARTICLE 9 HIRING

9.1a. There shall be no unlawful discrimination by the Employer or the Union with respect to the hiring, tenure, or discharge of any worker or employee, and any requirements as to membership or non-membership in any union shall be in accordance with the National Labor Relations Act of 1935 as amended, and the appropriate Executive Orders.

9.1b. The Employer and the Union recognize that they are required by law not to discriminate against any person with regards to employment or Union membership because of age, race, religion, color, sex, national origin, gender identity, sexual orientation, or ancestry and hereby declare their acceptance and support of such laws. This shall apply to hiring, registration for employment, placement for employment, rates of pay or other forms of compensation, layoff or termination, and application for admission to Union membership.

9.1c. The Employer and the Union recognize that an Employer should not lose jobs because of Government requirements which conflict with the hiring hall. Therefore, when a government contract or Government Agency requires a different hiring hall arrangement to meet Federal or State requirements, the hiring hall arrangement will be modified to meet the demands of those requirements. It is understood that the hiring hall will be followed as closely as possible without conflicting with the Government requirements.

9.1d. The Employer will notify the Union in advance of the commencement of the job of the Government requirements, and upon request will provide the Union with a copy of pertinent provisions.

9.1e. Americans with Disabilities Act (ADA). The parties to this Agreement recognize the mandate to accommodate the disabled and agree that other provisions of the Agreement notwithstanding, the Contractor may take reasonable actions as necessary to accommodate an individual who is or may be disabled. The Union agrees that it will conduct the affairs of its operations consistent with the requirements of the Americans with Disabilities Act.

It is also further understood and agreed that this section is not intended to create jobs where none exist.

9.2. Employees covered by this Agreement have certain accrued rights or benefits for themselves and their dependents under Health and Welfare and Pension plans which accrue to them by virtue of length of employment with Employers party to this Agreement, and such rights are generally continuous while under employment and remain effective until a certain period of time after lay-off or discharge.

9.3a. It is recognized within the construction industry that the Union affords the prime source of qualified Laborers. The Employer must hire qualified Laborers by calling the Union and receive a dispatch from the hall in the jurisdiction where the work is performed. Whenever the Employer requires Laborers on any job, they must notify the Local Union office by telephone stating the location, starting time, approximate duration of the job, the type of equipment to be operated and the work to be performed and the number of Laborers required.

9.3b. Pre-Job Conference. Upon request by the union or employer a pre-job conference shall be held regarding any project on which the employer anticipates one (1) or more employees will be employed. However, if an employer conducts a pre-job conference with any other craft on work that will employ one (1) or more employees the union will be notified. Such pre-job conference shall be held at AGC or at a location on or near the project.

9.3c. Composite Crew. Employers may establish for a project or job a crew or crews known as a "composite" which shall consist of the required crafts in such proportions as are respective to the type of work to be performed. In performing work, the "composite crew" shall be allowed relaxation from strict craft jurisdiction, provided the employees from each craft are assigned to their crafts jurisdiction as far as practical and possible, but not inconsistent with the provision of this agreement.

The aforementioned provision shall first be arranged at a pre-job conference or subsequent meetings of the employer and crafts involved. Any disagreement over this provision may be appealed to the chief representatives of the respective five crafts and AGC. If a pre-job conference is not held between the employer and the involved crafts, the "composite crew" provisions will not exist.

9.4a. Key Workers. Any Joint Venture shall have the rights of any of its component individual Employers, and any reorganized company shall retain the privileges of its former position under this Section.

The individual Employer shall have the right to request key workers on specialty crews (such as tunnel, fencing, guard rail, paving, concrete laborer, flagging, demolition, pipelaying) and other workers represented by this Agreement by name who have been previously employed by said Employer as a Laborer within the last forty-eight (48) months under the jurisdictional territory of the District Council of Laborers provided said worker is registered at the Union hall and not on the payroll of another Employer. Workers hired under this 9.4a, except specialty crews as noted above, shall not constitute more than fifty percent (50%) of the Laborers employed on each project.

9.4b. The Employer and the Union shall mutually agree on a reasonable number of workers to be brought into the territorial jurisdiction of the Local Union for each job and such workers may be employed without reference to the hiring provisions of Article 9 and such workers shall register with the Local Union.

9.4c. Notwithstanding 9.4a above, the individual Employer shall have the right to request any laborer who was employed by said Employer as a laborer on work within the jurisdiction of a Local Union.

9.4d. In addition, the Employer may request fifty percent (50%) of their Journey Person crew by name from the "A" list regardless of their position. This must be confirmed in writing, prior to any dispatching in order to verify percentage of crew.

9.4e. In addition, by mutual consent of the Employer and the Local Union representative, the Employer shall have the right to select a limited number (up to three) of Laborers from any work list (including the apprentice list) per calendar year and stated as a result of a pre-job conference. The Employer will be required to provide a written request from the principal of the company to the Local Union. Additional requests may be honored by mutual agreement between the Employer and the Business Manager of the Local Union.

9.5. All Laborers, except as noted in Section 9.4 of this Article, shall be hired and/or rehired in accordance with the following four (4) groups/lists:

"A" List. Laborers who have been employed by an Employer or Employers, party or parties to this agreement or under the terms of construction agreements of the Oregon and Southern Idaho District Council of Laborers (as hereinafter defined), who have worked for any such Employer or Employers for an aggregate time of at least four thousand (4,000) hours during the period of eight (8) years immediately preceding the registration date on the out-of-work list. In order to maintain "A" List status, all Laborers must meet the following criteria:

The above requirement will become effective on January 1, 2025, and will continue for the duration of this agreement.**

Laborers on the "B" List shall only be employed when there are no more qualified "A" List members and/or apprentices available, except as provided in Article 9.4(a), 9.4(b), 9.4(c), 9.4(d) and 9.4(e)

"C" List. All other applicant Laborers for employment. The Employers and the Union shall make up and prepare the roster for preference of rehire by grouping all Laborers who come within the above groups and shall utilize the Health and Welfare and Pension records in establishing these accrued rights based on length of employment. The registrant shall have the burden of providing their past experience and skills to the hiring hall.

“Apprentice” List. The parties agree that the employment of apprentices is necessary for the growth of the industry and will work together to increase the usage of the apprenticeship program. With this goal in mind, employers may hire apprentice in a 1:1 ratio.

The apprentice list shall consist of individuals who are seeking employment, are physically fit, are registered with and have been qualified by the JATC and are signatory to a training agreement with the JATC. All applicants shall be registered in the order of time and date of registration. To remain on the registration list, an applicant for referral must renew their registration not later than thirty (30) days from the date of their last registration or re-registration. Applicants who do not re-register within thirty (30) days shall be dropped from the out-of-work list and, at such time they do re-register, must do so at the bottom of the appropriate list. There shall be four (4) groupings of the out-of-work list. All Laborers with accrued rights and qualifications shall be registered in either "A" List or "B" List, Apprentice List, all other Laborers without accrued rights shall be registered in "C" List. Each applicant for employment shall be required to furnish such data, records, names of Employers and length

9.7a. Upon the request of an Employer for employees, the Union shall refer qualified Laborers, based on job skills and job requirements, to that Employer in sufficient number required by the Employer in the manner and under the conditions specified below:

- 1) "A" List in successive order.
- 2) "B" List in successive order.

It shall be the applicant's responsibility to maintain a current telephone number and contact information with the Local Union dispatch office. In the event of non-contact or a bad phone number, the Local Union reserves the right to make written contact with the applicant and if there is no response within five (5) working days, the applicant shall be removed from the list.

9.7c. Any applicant who is dispatched from the hiring hall in which work is provided must re-register at the bottom of the appropriate list, for their group, unless Employer submits request as a "short call" work order request for up to five (5) days (consecutive or nonconsecutively only. If the applicant takes any action within the first five (5) days of employment designed to manipulate this provision of the job rules, such as a voluntary quitting or requesting to be laid off or discharged from the job to which they have been dispatched, they will be placed at the bottom of that list.

9.7d. Any applicant who turns down or is unavailable by telephone for two (2) consecutive job referrals, for which such applicant is qualified, shall be automatically reregistered at the bottom of the appropriate list for their group. It shall be the applicant's responsibility to maintain a current list of job classifications and skills for which they are qualified.

If an applicant accepts a job referral from the Union and does not accept the job, they shall be re-registered at the bottom of the appropriate list.

9.7e. Should the Union be unable to refer qualified workers for employment to the Employer within twenty-four (24) hours from the time of receiving the Employer's request (Saturdays, Sundays and Holidays excepted) or at the time mutually agreed upon at time of request, or if a worker fails to report to the job site in the agreed time, the Employer shall be free to secure the workers from any source. The Employer shall notify the Local Union promptly of the names, social security numbers and the date of hire of such employees.

9.7f. Any employee employed by the Employer in violation of this Article shall forfeit all priority rights, including Section 9.4 of this Article, shall be removed from the job and re-registered at the bottom of the appropriate list for their group. Should the Employer fail to terminate such employee after receipt of written notice, the Union may take any economic action against the Employer and shall not be in violation of this Agreement.

9.8. The Employer shall be the sole judge of a worker's qualifications and may discharge any employee for cause, which shall be stated on the standard separation slip (attached to this Agreement). Whenever an employee is discharged and is not eligible for rehire, it shall be so stated on the standard separation slip.

9.9. Whenever an employee is discharged for cause, including failure to pass a substance abuse test, not able to perform the assigned work due to lack of skills or as unsatisfactory, the Employer agrees to send a separation slip to the Union stating the reasons for termination. If no notice of cause is provided, the individual shall be eligible for rehire without exception.

9.10. When a registrant has been terminated as unsatisfactory or has been discharged for cause by at least three (3) employers within a twenty-four (24) month period, they shall be denied further use of all hiring halls covered by the District Council provided the employers have furnished the District Council in writing the reasons for such termination or discharge. Members may appeal to the Joint Hiring Committee.

9.11. When a registrant has been terminated for lack of possessing the necessary skills to perform the assigned duties, by at least three (3) employers within a twenty-four (24) month period, satisfactory completion of additional training will be required before hiring hall privileges are restored in the classification in question.

ARTICLE 10 SHIFTS - HOURS OF WORK - OVERTIME

(The official time for the purposes of this Agreement shall be applicable legal time).

10.1. The hours of work per week or month shall be as regulated by particular contract which the Employer has to perform and shall be arranged to meet the requirements of the Employer as best suits the calendar time allowed by the contract for completion.

10.2a. The workweek shall be forty (40) hours, Monday through Friday, and the workday shall not exceed eight (8) hours per day. All time worked in excess of **eight (8) hours (but not more than twelve (12) hours) of continuous shift work** shall be paid for at the rate of time and one-half (1.5X). **All hours worked after twelve (12) hours of continuous shift work shall be paid for at the rate of two times (2X) the proper hourly rate of pay.** Work performed on Saturdays shall be paid for at the rate of time and one-half (1.5X) **up to ten (10) hours. All additional hours worked shall be paid for at the rate of double time (2X).** Sunday and Holiday work shall be paid for at the rate of double time (2X).

On Heavy Highway, only work performed on Sunday and Holidays shall be paid for at the rate of double time (2X).

10.2b. Notwithstanding the above, the Employer may, at their option, establish ten (10) hour shifts for a minimum of any four (4) consecutive scheduled workdays, Monday through Thursday, or Tuesday through Friday, on some or all operations on a project, without being required to pay overtime. Anything over ten (10) hours shall be subject to the provisions above. Failure to work the four (4) day minimum shall require overtime unless such failure is caused by actual inclement weather, holiday or other conditions beyond the control of the Employer.

10.2c. Four-ten (4-10) hour shifts at the straight time rate may be established Monday through Thursday or Tuesday through Friday. In the event the job is down due to equipment breakdown, weather conditions or other conditions beyond the control of the Employer, then Friday on a Monday through Thursday schedule or Saturday on a Tuesday through Friday schedule on a voluntary basis may be worked as a MAKE-UP DAY at the STRAIGHT TIME RATE. In the event Friday make-up day cannot be worked due to conditions beyond the control of the Employer, then Saturday on a voluntary basis may be worked as a make-up day at the straight time rate. Make-up day applies to the crew so affected. Make-up days shall not be used to make-up time lost due to a holiday.

On work that is entirely federally funded, the workweek shall be forty (40) hours, Monday through Friday. All work in excess of forty (40) hours in one (1) week, or ten (10) hours in one (1) day shall be paid for at the rate of time and one-half (1.5X). The Contractor shall not employ a second crew to circumvent overtime pay after forty (40) hours. This shall not prohibit the Employer and the Union from negotiating "rolling" four-ten (4-10) hour shifts on a project-by-project basis. The workweek may include a Saturday make-up day at straight time rate.

10.2d. Notwithstanding the language in Section 10.2.a, if a particular public works contract which the Employer has to perform causes a normal shift to begin Sunday night after 6 PM, the work shall be paid for at the rate of time and one-half (1.5X) until 12:00 midnight and at the straight time rate for the following eight (8) hours thereafter.

10.2e. All applicable state laws will apply to break times.

(1) **SINGLE SHIFT: HEAVY HIGHWAY**

Eight (8) hours work per day between the hours of 5:00 a.m. to 7:00 p.m. and five (5) days per week, Monday through Friday, shall be the normal working time of all employees covered by this Agreement. Starting and quitting time may be expanded by mutual consent of the Employer and the Union.

BUILDING:

Eight (8) hours work per day between the hours of 6:00 a.m. to 6:00 p.m. and five (5) days per week, Monday through Friday, shall be the normal working time of all employees covered by this Agreement. Starting and quitting time may be expanded by mutual consent of the Employer and the Union.

MINIMUM TIME BETWEEN SHIFTS: When an employee has worked the regular shift and then is required by the Employer to work at the overtime rate, the Employee shall not go to work again for the regular rate until the employee is relieved for a period of at least eight (8) hours.

- (2) **TWO SHIFT OPERATIONS:** On a two (2) daylight and consecutive shift operation, no shift penalty is involved for work performed in either of these two (2) shifts. Each shift must be scheduled for at least eight (8) hours except as provided for in the Reporting Pay/Minimum Pay requirements of this Agreement.
- (3) As an exception to the provisions of paragraphs (a) and (b) above, a starting time earlier than 5:00 a.m. may be established by mutual Agreement between the Employer and the Union, which shall be confirmed in writing and copies filed with representatives of both parties.
- (4) **THREE-SHIFT OPERATIONS:** On a three (3) shift operation, the first shift of eight (8) hours (exclusive of meal period) shall start between the hours of 6:00 a.m. and 8:00 a.m., and eight (8) hours work shall constitute the first shift for which eight (8) hours will be paid. The second shift shall consist of seven and one-half (7.5) hours for heavy-highway-utility work and seven (7) hours for building work (exclusive of meal period) for which eight (8) hours at the straight time rate shall be paid. The third shift shall be seven (7) hours (exclusive of meal period) for which eight- (8) hours at the straight time rate shall be paid. Thirty-five (35) hours shall constitute a week's work on the third shift.
- (5) **SPECIAL SHIFT:** A special shift may be established at any time, at the option of the Employer, on any job or project. Said shift shall not be started until the Union has been notified **and with the mutual consent of the normal crew.** There shall be no premium or penalty for working a special shift.
- (6) On new building construction there shall be three (3) or more consecutive days work (exclusive of Saturdays, Sundays and Holidays) for each shift, provided, however, that in the event of any emergency where an extra single shift is necessary to prevent delay in the scheduled progress of work, such as the completion of forms for pouring concrete or the completion of a concrete pour, such single shifts will be permitted upon prior notice to the Union, and providing such shift must be worked the full shift time of seven and one-half (7.5) hours for eight (8) hours pay.
- (7) For the purposes of this Article, a full shift shall be considered the regularly scheduled hours of work established for each shift, and the second and third shifts shall be considered as a part of the working day on which the first shift started. The total allowable time for a two (2) or three (3) shift operation shall not be in excess of twenty-four (24) hours from the regular starting time of the first shift. The regularly scheduled shift hours shall not be changed during the workweek without two (2) days prior notice and not more than once during the workweek.

- (8) Should an Employer elect to start a shift before the regular starting time, the Applicable overtime rate shall be paid until the regular starting time, and the eight (8) hours of continuous employment (exclusive of meal period) following the regular starting time shall be at the regular straight time rate and/or in accordance with Section 10.2 of this Article. Should an Employer elect to start an employee prior to their regularly scheduled hours of work, such employee shall receive the applicable overtime rate up to their regularly scheduled hours.
- (9) **LUNCH PERIOD:** A regular lunch period of not less than one half (0.5) hour or more than one (1) hour shall be established within one (1) hour of mid-shift but in no event longer than five (5) hours from the beginning of the shift. If an employee is required to work more than five (5) hours from the beginning of the shift without a lunch period, they shall be paid a half (0.5) hour at the applicable overtime rate and in addition given no less than thirty minutes to eat their lunch. If the employee is not given a minimum of thirty minutes to eat, they shall then receive an additional one half (0.5) hour at the applicable overtime rate. Employees will be given a lunch period after each work period of not more than five (5) hours. Employees requested and/or notified of working twelve (12) hour shifts will be required to bring a second meal and be given adequate paid time to eat such meal.

Employees who have been given sufficient time to eat during the regular shift may be allowed to work twelve (12) hours without a second lunch period penalty. If the employee works over twelve (12) hours, they shall be paid one half (0.5) hour penalty at the applicable overtime rate. If the employee is not given sufficient time to eat their lunch during their regular shift, an additional one half (0.5) hour penalty shall be paid if required to work longer than ten (10) hours.

- (10) **REST PERIODS:** Paid rest periods of ten (10) minutes shall be provided during each work period (four (4) hours) or major part thereof. The rest period may not be added to the usual meal period or deducted from the beginning or end of the work period to reduce the overall length of the total work period. The ordinary nature and circumstances of construction work may not allow for a fixed regular schedule. However, effort shall be made to have rest periods taken approximately in the middle of each work period.

10.3. The Employer shall furnish when necessary heated change rooms of ample size equipped for drying clothes and with benches. They will be situated as close as practical to the work area and will not be used for storage of material or equipment. The determination as to necessity shall be made by Agreement of the Employer and the business representative of the Local Union concerned. In the event the works of one of the other 5-craft unions are provided facilities for eating, the Laborers shall be entitled to the same.

10.4. (Applies to heavy-highway-utility work only). Moving of all equipment from job to job, set-up and tear-down work, and servicing and repair work done by operating crews on Sundays and Holidays shall be paid for at one and one-half times (1.5X) the straight time rate provided for the classification concerned.

10.5. (Applies to heavy-highway-utility work only). When it is necessary to keep flaggers or other non-production or non-operating employees on duty on Saturdays and Sundays when no other activities (other than such maintenance work which is being done by other crafts) are in progress, such employees shall be paid at the overtime rate of one and one-half times (1.5X) the basic rate of wages.

10.6. **EMERGENCY STARTING TIME:** When it is mutually agreed that an emergency exists, such as earthquakes, floods or fires, starting time for the shift may be made to fit the emergency and eight (8) hours in any twenty-four (24) hour period may be worked at straight time when mutual agreement with the Union shall be received in writing.

10.7. Foremen or employees from other crews cannot be used to complete a job or work assignment which continues or requires overtime work. Nothing in this section shall prevent the expansion or reduction of a work crew by the Employer.

ARTICLE 11 REPORTING PAY, MINIMUM PAY AND STANDBY PAY

11.1. Immigration Reform and Control Act (IRCA). Any referral who is unable to qualify for employment under the provisions of the IRCA shall not be eligible for employment and the attendant benefits therein.

Employees who work less than four (4) hours shall be paid for four (4) hours and if worked more than four (4) hours shall receive pay for the actual time worked unless they are working directly with Cement Masons, and they will receive eight (8) hours of pay if worked in excess of four (4) hours.

If an employee leaves or quits of their own volition, they shall be paid for actual time worked at applicable straight and overtime rates. If a new hire is put to work and judged by the Employer to be unsatisfactory, that person shall be paid only for the actual time worked.

11.4. Stand by. On rain sensitive work such as Dirt Work, Slab Work, and Asphalt Work or in such cases as equipment breakdown, the Employer may request the employees to remain on the job for up to two (2) hours on a standby basis. If not put to work during this two (2) hour period, the employee shall receive two (2) hours wages but shall not receive the forty dollars

(\$40.00) reporting expense. If put to work, employees shall receive pay for actual hours worked in accordance with the minimum pay requirement of this article.

11.5. Call Back. When employees have completed their scheduled shift; and have left the jobsite; and are "called back" to perform work of a casual, incidental or irregular nature, they shall receive a minimum of two (2) hours pay at the applicable daily overtime rate.

12.3. In no event, will the above conditions be permitted beyond one (1) day, nor will the temporary assignment be considered as a permanent assignment of work. 20.4. After due notice to the individual Employer involved (and if a member of the Association also to the Association) by the Union it shall not be deemed a violation of this Agreement for employees covered by this Agreement to refuse to work for and to take economic action against the individual Employer who has failed to make proper contributions to the Laborers Training Trust Fund in accordance with this Agreement.

20.5a. The Parties will design procedures to identify and set three (3) year goals to continually improve all Journeyman Upgrade and Apprenticeship Training Programs; and work on the development of Safety Training Program(s) etc.

This joint endeavor is conditional upon available training resources and is intended to be attained without unreasonable cost burdens to the Training Trust. These Training goals are categorized as follows:

20.5c. Specialized Training: When the Employer has a need for Specialized Journeyman training, consistent with the semi-annually published Laborers Program schedule of classes, training will be provided at no cost to the Employer when a sufficient number of employees

are available for classes and a program curriculum exists. In those circumstances where a program curriculum does not exist, the employer may request through the Training Board of Trustees (Laborers-Employers Training Trust), that consideration be given to the development of an industry program.

APPRENTICESHIP:

20.6a. The term "Apprentice" as used herein, shall mean any person who is actively enrolled in a state-approved joint apprenticeship program designed to achieve off-site proficiency and on-site productivity so as to permit a person to meet the minimum uniform competency standards of a qualified Journeyman Laborer. Shall consist of individuals who are registered with the Oregon and Southern Idaho Laborers joint apprenticeship training subcommittee (JATC) and have been qualified by the JATC. Such individuals shall register at the training office and be approved by the subcommittee.

APPRENTICESHIP TRAINING PROGRAM:

20.7. Recognizing the need for an adequate supply of qualified Laborers, the Association and the Union mutually agree to actively promote and participate in a joint training program designed to meet this need. 20.8b. **When apprentices are available**, a contractor shall employ at least one (1) apprentice on any job site on which five (5) or more journey workers are employed and at least the equivalent of one (1) apprentice for every five (5) journey workers. The Joint Apprenticeship and Training Committee (JATC) shall permit enrollment sufficient to satisfy this minimum ratio.

20.8c. The same ratios will be maintained when reductions in work force occur.

20.8d. Apprentices, who register with the Oregon JATC and do not complete the program, will be denied the use of hiring halls within the District Council for a period of 12 months from the date of their termination from the program. Hours worked during their apprenticeship will not count towards any list status with the union.

APPRENTICE WAGE RATES:

20.9. The parties signatory hereto agree to establish an indentured training program. This would be accomplished by enlarging the existing training program into a full indentured training program. The rate of pay shall have increments as a percentage rate of journeyman scale, as listed below. Apprentice fringe benefits are one hundred percent (100%) of the applicable job rate.

Wages will be provided as follows as a percent of **the appropriate classification** for the **work being performed not to exceed journeyman scale in that Group**:

ZONE PAY DIFFERENTIAL

(A) The parties to the Agreement recognize that because of remoteness of area and other reasons, there is a great inequity between the living expenses of an employee providing for themselves and their family in the major metropolitan areas and those of an employee working in the remote areas within the large geographical area of this Agreement, and therefore, adopt the following provisions for wage scales.

FOR THE FOLLOWING CITIES:

Albany	Hermiston
Astoria	Klamath Falls
Baker City	Medford
Bend	Portland
Burns	Roseburg
Coos Bay	Salem
Eugene	The Dalles
Grants Pass	

1. All jobs or projects located WITHIN 30 MILES of the respective city hall of the above mentioned cities shall receive the basic rate of pay for all classifications (Zone A) as listed in Schedule "A".
2. All jobs or projects located MORE THAN 30 MILES and less than 40 miles from the respective city hall of the above-mentioned cities shall receive Zone "B" allowance. The basic rate of pay shall be increased by Eighty-Five Cents (0.85) per hour.
3. All jobs or projects located MORE THAN 40 MILES or less than 50 miles from the respective city hall of the above-mentioned cities shall receive Zone "C" allowance. The basic rate of pay shall be increased by One Dollar and Twenty-Five Cents (\$1.25) per hour.
4. All jobs or projects located MORE THAN 50 MILES and less than 80 miles from the respective city of the above-mentioned cities shall receive Zone "D" allowance. The basic rate of pay shall be increased by Two Dollars (\$2.00) per hour.

If the employee is required to remain overnight, the Employer and the Union shall meet. When transportation or overnight accommodations of equal or greater value are provided by the Employer, the five-dollar (\$5.00) requirement may be waived.

Note: When suitable arrangements for daily transportation of an employee are made by the Employer, at no cost to the employee and the employee avails themselves of this opportunity, no zone pay shall be paid.

(B) It is agreed that for the purpose of determining the proper wage scale under this Agreement:

1. All job or project locations shall be computed (determined) based on road miles and in the following manner. A mileage measurement will start at the entrance to the respective city hall, facing the project (if possible), and shall proceed by the normal route (shortest time, best road) to the geographical center on highway, railroad, and street construction projects (end of measurement). On all other project contracts, the geographical center where the major portion of the construction work is located, shall be considered the center of the project (end of measurement).
2. All related jobs or projects (such as a crusher's location) shall, for the purpose of determining the proper pay zone rates, be considered as a part of the prime job, with the exception of jetties which, for the purpose of this Agreement, will have separate locations and may, therefore, have a different pay zone for the quarry and jetty sites.
