STATE TRAINING COORDINATOR: If this student should not be in this course, please reach out to the organization above and reply to this confirmation email if you wish to cancel this registration. We will assume that this student is confirmed to attend this course if we do not hear otherwise.

How to Create a CVSA User Account

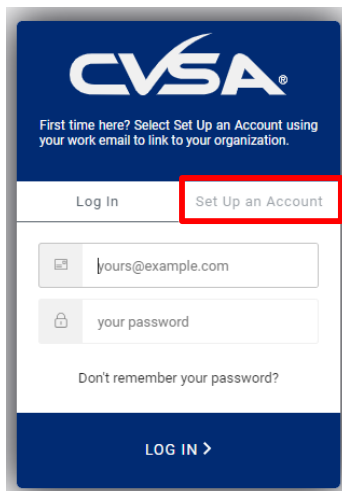

- 1) Visit www.cvsa.org. Click "Member Login" at the top right. This will take you to the [CVSA Member Portal](#).

- 2) Select Log In

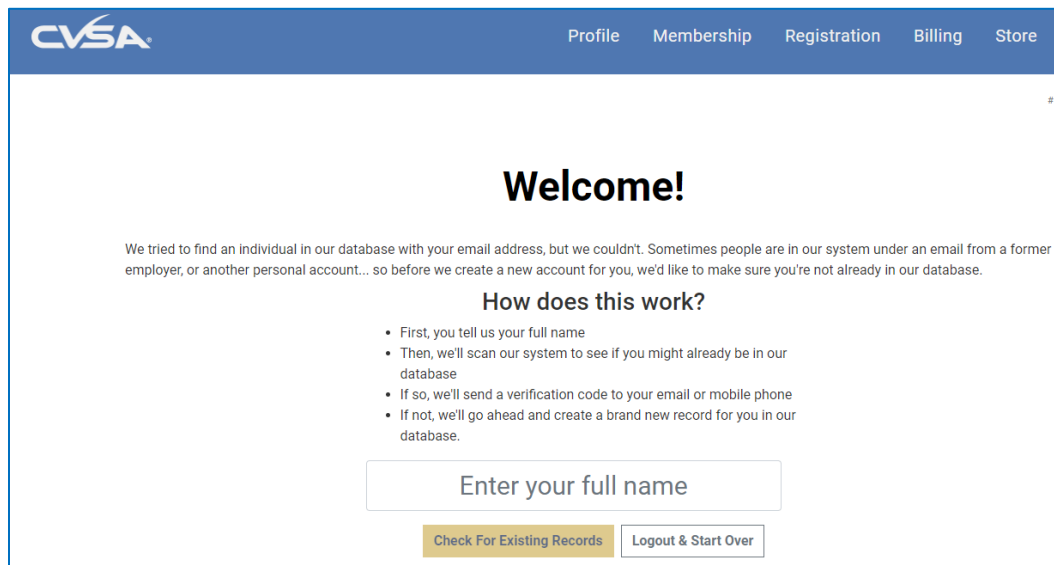

- 3) A box will pop up. Select Set Up an Account

- 4) You must use your work email address, not personal, as this is how the system will link you to your organization.
- 5) Follow the prompts to complete setting up your account.

- 6) If you get the following message, it means that your organization is not set up through CVSA. Please contact Abe Dunivin and he will assist in getting your organization listed with the CVSA.

The screenshot shows a web page with a blue header containing the CVSA logo and navigation links: Profile, Membership, Registration, Billing, and Store. The main content area has a white background with a blue border. At the top center, it says "Welcome!". Below that, a paragraph explains that the system couldn't find the user's email address and suggests checking for existing records. A section titled "How does this work?" lists four steps: 1. Tell us your full name. 2. Scan the system to see if you're already in the database. 3. If so, a verification code will be sent to your email or mobile phone. 4. If not, a new record will be created. At the bottom, there is a text input field labeled "Enter your full name" and two buttons: "Check For Existing Records" (highlighted in orange) and "Logout & Start Over".

Welcome!

We tried to find an individual in our database with your email address, but we couldn't. Sometimes people are in our system under an email from a former employer, or another personal account... so before we create a new account for you, we'd like to make sure you're not already in our database.

How does this work?

- First, you tell us your full name
- Then, we'll scan our system to see if you might already be in our database
- If so, we'll send a verification code to your email or mobile phone
- If not, we'll go ahead and create a brand new record for you in our database.

Enter your full name
