

Overview

We are creating safer and more accessible highway connections for all sidewalk users on U.S. 26 (SE Powell Boulevard). We are bringing sidewalk curb ramps into compliance with Americans with Disabilities Act (ADA) standards on highways throughout Oregon including U.S. 26 (SE Powell Boulevard) at SE 92nd Avenue.

This improvement allows all users, including people using wheelchairs and mobility aids, to make a smooth transition from the street to the sidewalk.

Work includes:

Upgrading existing sidewalk curb ramps

- We will install ADA accessible sidewalk curb ramps at all corners of the intersection at Powell Boulevard and 92nd Avenue.

Lowering crosswalk buttons and installing audible pedestrian signals

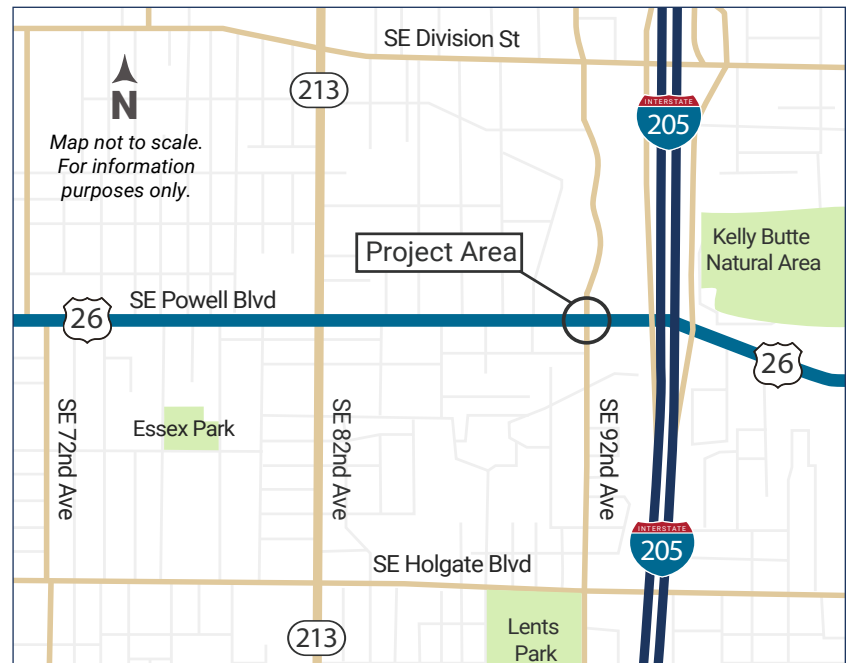

- These upgrades help all pedestrians cross the street safely by making the crosswalk buttons more reachable and providing an audible cue for the crosswalk signal.

Restriping and realigning crosswalks

- This will improve visibility and create a direct path from curb to curb, increasing pedestrian safety while crossing the street.

Replacing vehicle detectors at the intersection.

- This improves vehicle detection when approaching the traffic signal for efficient signal operations.

Construction Impacts

- Periodic daytime and nighttime lane closures. Daytime lane closures will be outside standard commute hours.
- Temporary sidewalk and bicycle lane closures in construction areas. We will provide signed ADA-accessible pedestrian detours around work zones. Travelers on bikes will use the road during construction.
- Travelers should expect short delays in the area during construction activities.
- Each intersection corner will take approximately one month to complete. We will work on one corner at a time. *The project schedule is subject to change.*

Nighttime Noise Impacts

To minimize traffic impacts during the day, some night work may be required. Those working or living in the area may hear the noise from heavy equipment, construction trucks, beeping noise when vehicles are in reverse (required by the Occupational Safety and Health Administration), and equipment such as concrete saws, drills and jackhammers, air compressors and generators. For concerns about nighttime noise, contact the noise hotline at: **503-412-2350**.

**Construction Schedule:
October 2024 – August 2025**

U.S. 26 (SE Powell Boulevard) and 92nd Avenue Curb Ramps Improvement Project

Fall 2024

Overview

We're upgrading curb ramps at all corners of the intersection of U.S. 26 (SE Powell Boulevard) and 92nd Avenue.

ODOT ADA Program

ODOT is bringing more than 25,000 curb ramps throughout Oregon into compliance with Americans with Disabilities Act (ADA) standards.

We are committed to new standards for accessible routes through work zones, outreach and addressing public concerns. Everyone who uses sidewalks along our highways will benefit from this commitment and the improvements we make to the curb ramps.
