A FREE AND EASY WAY TO LEARN HOW TO SHARE THE ROAD WITH PEOPLE WALKING AND BIKING

BECOME AN OREGON FRIENDLY DRIVER!

The Oregon Friendly Driver Course is an easy, free way for Oregon drivers to create safer streets for everyone. It takes about 60-90 minutes to complete and helps drivers better understand the rights and responsibilities of people using our streets.

Laws and infrastructure designed for people walking and riding bikes can be confusing for drivers. Scenarios included in the course will help take the confusion out of why these laws exist and how this infrastructure should be used. As a result, you'll learn how you can be a safer, more friendly driver on Oregon roads.

WHAT'S COVERED

- The safest ways to utilize your roadway network.

- What traffic laws apply to people driving, people riding bicycles and people walking.

- Common crashes and how to avoid them.

- Why people riding bikes leave the bike lane and how people driving can respond.

- How to use roadway features such as sharrows, bike lanes, rapid flashing beacons and more.
