쑴 Contacts	* List of the problem(s) impacted	
	This project was intended to increase public awareness of the dangers of driving under the influence, as well as to create reminders about alternatives to driving under the influence. Although US society has advanced significantly in its overall disapproval of drunk driving, the continued existence, and even rise, of DUII fatalities in Oregon	JUMP TO
	* Project's major activities	Final Evaluation
	The project began with a series of strategy meetings between the TSO program manager and Gard Communications . Once a media plan was developed, Gard worked internally and with media partners to create and distribute media materials consistent with that plan.	
	* Accomplishments as they relate to the objectives	
	This project allowed for the release of NHTSA media materials related to high DUII periods, which typically accompanied law enforcements' high visibility efforts undertaken simultaneously. By combining targeted media efforts in conjunction with planned enforcement activities, the credible deterrent effect was enhanced to reduce	
	* Strengths and weaknesses of the implementation process	
	This project was undertaken in partnership with TSO's media contractor, Gard Communications. The longstanding relationship between the two entities made for a seamless project rollout/implementation. The primary weakness in this project is that NHTSA messaging for the affected time periods are typically enforcement -based, which	

6) In the Cost Summary section, enter the total amount of the ODOT grant you requested reimbursement for (and submitted receipts for purchases with your payments) – this is the "Amount paid by TSO." Then, enter the amount your organization contributed toward the grant as matching funds (not reimbursed). And the Final Evaluation question(s) is from your original application request- please fill that out as well.
