Form Information:

- (1) ODOT issues checks in January for refunds accrued during the previous calendar year. Forms for the previous year's refunds are **due by January 15**.
- (2) ODOT must receive each form within 15 months of the payment date for the miles related to the refund.
- (3) Out of state miles are not subject to road usage charge, but they are subject to fuels tax. If you use a non-GPS device, your account manager will not be able to determine when to withhold fuels tax credits. If fuels tax credits were applied to your account for the out of state miles listed on this form, ODOT must re-apply the fuels tax for those miles on this form.
