2023 State Capability Assessment

The State of the State Capability Assessment is an annual assessment of Oregon counties, select cities, tribal partners and state agencies. Information collected in this assessment is used to complete the annual FEMA Threat Hazard Identification Risk Analysis (THIRA) and Stakeholder Preparedness Review (SPR). The results from this assessment identify the progress of emergency management initiatives and support prioritization of future planning, organization, equipment, training, and exercise efforts(POETE).

The following 12 core capabilities will be reviewed in 2023. Please use this document to assist with data collection in preparation of the 2023 assessment in September.

Contents

Planning

Description: Conduct a systematic process engaging the whole community as appropriate in the development of executable strategic, operational, and/or tactical-level approaches to meet defined objectives.

The below state capability targets will be displayed to state agencies only during the assessment.

Local and Tribal partners please provide data based on your jurisdiction's overall capacity for each core capability.

State Capability Target: Within every 2 year(s), update all emergency operations plans that define the roles and responsibilities of 33 partner organizations involved in incident management across 36 jurisdictions affected, and the sequence and scope of tasks needed to prevent, protect, mitigate, respond to, and recover from events.

Scenario: 9.0 Cascadia Subduction Zone earthquake event

Have you updated your organization's Emergency Operations Plan/ESF annex(s) within the last 2 years using training, exercise and real world events to make improvements?

○ Yes

○ No

If no, what impeded your ability to make updates to your Emergency Operations Plan/ESF annex(s)?

_____

_____

_____

_____

_____

Please select where there was capability lost, sustained, built and/or there exists an overall capability gap towards achieving this target:

| | Capability | | | Overall gap in capability? | |
	Lost in:	Sustained In:	Built in:	Gap	No Gap
Equipment	○	○	○	○	○
Exercise	○	○	○	○	○

Public Information and Warning

Description: Deliver coordinated, prompt, reliable and actionable information to the whole community using clear, consistent, accessible and culturally and linguistically appropriate methods to effectively relay information regarding any threat or hazard, as well as the actions being taken and the assistance being made available, as appropriate.

The below state capability target/s will be displayed to state agencies only during the assessment.

Local and Tribal partners please provide data based on your jurisdiction's overall capacity for each core capability.

State Capability Target: Within 6-hour(s) notice of an incident, deliver reliable and actionable information to 2,548,000 people affected, including 290,000 people with access and functional needs (affected) and 66,400 people with limited English proficiency affected.

Scenario: 9.0 Cascadia Subduction Zone earthquake event

Please select where there was capability lost, sustained, built and/or there exists an overall capability gap towards achieving this target:

Operational Coordination

Description: Establish and maintain a unified and coordinated operational structure and process that appropriately integrates all critical stakeholders and supports the execution of Core Capabilities.

The below state capability target/s will be displayed to state agencies only during the assessment.

Local and Tribal partners please provide data based on your jurisdiction's overall capacity for each core capability.

State Capability Target: Within 6 hours of a potential or actual incident, establish and maintain a unified command and coordinated operational structure and process across 36 jurisdictions affected with 29 partner organizations involved in incident management. Maintain for 18 months.

Scenario: 9.0 Cascadia Subduction Zone earthquake event

Please select where there was capability lost, sustained, built and/or there exists an overall capability gap towards achieving this target:

Forensics and Attribution

Description: Conduct forensic analysis and attribute terrorist acts (including the means and methods of terrorism) to their source, to include forensic analysis as well as attribution for an attack and for the preparation for an attack, to prevent initial or follow-on acts and/or swiftly develop counter-options.

The below state capability target/s will be displayed to state agencies only during the assessment.

Local and Tribal partners please provide data based on your jurisdiction's overall capacity for each core capability.

State Capability Target: Within (2) hours of a suspected terrorist attack, conduct outreach to including, but not limited to the fusion center and Joint Terrorism Task Force (JTTF) in the community and identify (1) personnel assigned to support follow up information sharing, intelligence analysis, and/or investigative actions associated with the collection, examination and analysis of evidence as well as the identification of perpetrators.

	Additional Source (less than 50%)	Primary Source (50% or more)
State	○	○
Private-Sector or Non-Profit	○	○
Local, Tribal	○	○
State Homeland Security (SHSP)	○	○
Urban Area Security Initiative (UASI)	○	○
Emergency Management Performance (EMPG)	○	○
Tribal Homeland Security (THSGP)	○	○
Other : _____	○	○

Did you use grant-funded capabilities this year in a real-world incident? Tell us about it!

_____

_____

_____

_____

On a scale of 0-5, rate the current capability in the functional areas below:

See POETE Rubric for additional context on rating scale Functional Areas. Average and total over all will be displayed in the survey platform when entering your data. See FEMA THIRA SPR Functional Area Definitions.

	Equipment	Exercise	Organization	Planning	Training	Average
Debris Removal						
Decontamination						
Environmental Impact Analysis						
Hazardous Material Clean Up						
Health and Safety Monitoring and assessment						
Predictive Modeling						
Responder Safety						
Survivor Safety and Assistance						
					TOTAL	

What POETE elements do you need to address the functional area gaps?

○ Equipment _____

○ Exercise _____

○ Organization _____

○ Planning _____

○ Training _____

Fire Management and Suppression

Description: Provide structural, wildland, and specialized firefighting capabilities to manage and suppress fires of all types, kinds, and complexities while protecting the lives, property, and the environment in the affected area.

The below state capability target/s will be displayed to state agencies only during the assessment.

Local and Tribal partners please provide data based on your jurisdiction's overall capacity for each core capability.

State Capability Target: Within 72 hours of an incident, conduct firefighting operations to suppress and extinguish 250 structure fires.

Scenario: 9.0 Cascadia Subduction Zone Earthquake

Please select where there was capability lost, sustained, built and/or there exists an overall capability gap towards achieving this target:

	Capability			Overall gap in capability?	
	Lost in:	Sustained In:	Built in:	Gap	No Gap

Equipment	○	○	○	○	○
Exercise	○	○	○	○	○
Organization	○	○	○	○	○
