

OEM Mitigation Non-Disaster FY2024 BRIC/FMA Subrecipient Management Costs & Cost Share

February 13th, 2025

Jon Wiebe Non-Disaster Team Lead

Subrecipient Management Costs (SRMC)

- Subrecipient management costs cannot exceed 5% of the total project cost estimate and are 100% federally funded.
- Subrecipient management costs are calculated separately from project management costs, using a separate tab of the BRIC Budget document, entered in its own sections of the SF-424A/C, and separately listed in FEMAGO.
- When developing consider this an activity within the activity; it requires a separate SOW section, budget narrative section in addition to a budget calculated outside of the main project direct costs.

Subrecipient Management Costs (SRMC) continued

- Subrecipient management costs are any indirect costs, any direct administrative costs, and any other *administrative* expenses associated with the development of the subgrant.
- Indirect costs are *only* eligible to be submitted under subrecipient management costs.
- When a project cost estimate reaches the federally funded ceiling of \$50 million, subrecipient management costs are no longer eligible. As an example, if a subapplicant wishes to apply for subrecipient management costs, the total federal share would be a maximum amount of \$47,500,000 with a management cost request of \$2,500,000.

Page 535 in the HMA Guidance

Page 12 in the FY24 BRIC NOFO

Ineligible Activities:

- Any activities that are directly related to a project are not eligible under management costs.
- For example, architectural, engineering, and design services are project costs and cannot be included under management costs.
- Similarly, construction management activities that manage, coordinate, and supervise the construction process from project scoping to project completion are project costs. These activities cannot be included under management costs.

Subrecipient Management Costs (SRMC) Budget

Similar to project costs, subrecipient management costs can include the following cost categories, if applicable:

- **Personnel (labor) and fringe:** Provide the number of personnel, number of hours per quarter, average pay rate and fringe benefit rates.
- **Travel:** Provide a breakdown of travel costs: the type of transportation, lodging, mileage and per diem rates, and estimated description of travel needs. The budget narrative should describe the travel involved and its purpose and explain how the proposed travel is necessary for the project. If travel details are unknown, the basis for proposed costs should be explained. Lump sums will not be accepted.
- **Training/Education:** costs associated with building capability and capacity of the subapplicant's organization.
- Indirect Costs: Overhead costs, use NICRA if available, if not use deminimus costs of 15%

Subrecipient Management Costs (SRMC) Budget

Administrative costs are expenses incurred by a recipient or a subrecipient in managing and administering the federal award to ensure that federal, state, or tribal requirements are met including:

- quarterly progress and fiscal reporting;
- compliance activities associated with federal procurement requirements;
- documentation of quality of work verification for quarterly reports and closeout;
- payment of claims;
- closeout review and liquidation; and
- records retention.

Costs incurred for overhead expenses are typically covered via indirect costs rates.

Management Cost Total \$0.00

FEMAGO Budget

FEMA will RFI lump sum entries, they will want to see MC reflecting what is provided in the BRIC budget template

FEMAGO Budget

The grant total includes the federal and local shares and subrecipient management costs (if applicable)

			Grand	total: \$312,486.00
Budget type: Non construction				
Cost type: Cost estimate				Edited \$297,636.00
Cost type: Management cost				Added \$14,850.00
Program income (optional)				
\$	The SRMC cost e	estimate	is 100% federall	v funded
Cost share	1110 3111110 0031	350	.5 25575 .646.41.	, idiided
Cost share or matching means the portion of project costs not paid by federal funds.				
Proposed federal vs. non-federal funding shares Hazard miltigation assistance (HMA) funds may be used to pay up to 75% federal share of the eligible acti properties may be eligible for up to 100% federal share. Repetitive loss (RL) properties may be eligible for Cost estimate		ommunities may be eligible for u	p to 90% federal share. Flood Mitigation Assistance (FMA) ar	nd severe repetitive loss (SRL)
		% Percentage	\$ Dollar amount	
Is this an Economically Disadvantaged Rural Community. This determines your federal/non-federal share ratio.	Proposed federal share	75.00	223227.00	
No	Proposed non-federal share	25.00	74409.00 Based on total budget cost: \$297,536.0	00
Management cost				
	% Percentage	\$ Dollar amount		
Proposed federal share	100.00	14850.00		
Proposed non-federal share	0.00	0.00	Based on total budget cost: \$14,850.00	

Non-federal funding sources here

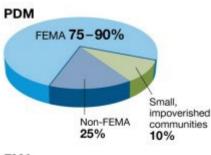

That portion of the total costs of the program provided by the non-federal entity in the form of in-kind donations or cash match received from third parties or contributed by the agency. In-kind contributions must be provided and cash expended during the project period along with federal funds to satisfy the matching requirements

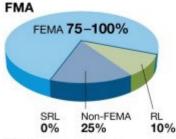

Funding source	% Non-federal share by source	Funding amount
Funding source:	100.00%	\$74,409.00

Cost Share

- HMA funds may be used to pay up to 75 percent of eligible costs. The remaining 25 percent of eligible costs is derived from non-Federal sources.
- The non-Federal contribution must be used for an eligible cost in direct support of eligible mitigation activities under the applicable regulations
- Title 44 of the Code of Federal Regulations [CFR] Sections 79.6 and 206.434, HMA Guidance, and the Federal award.

FEMA pays 100% for SRL properties

Cost Share

- When developing HMA applications, the identification of a cost share source is a major consideration
- A potentially eligible project deemed to meet programmatic requirements may not be viable if the cost share requirement cannot be met
- Funds or commitment of funds must be available at the time of submittal

Cost Share

A common form of non-Federal cost share is **<u>cash</u>**. The cash contributions may come from:

- Property owners' savings or loans. Additionally, a property owner participating in an acquisition project may accept a portion of the appraised value of the house and apply the rest of the appraised value to the non-Federal cost share
- The Applicant, subapplicant, or local communities, including funding from tax revenues, bonds, or other sources.
- Costs incurred after the HMA application period has opened, but prior to the date of the Federal award or final approval, are identified as pre-award costs
- The Applicant, subapplicant, or local communities' grants, provided the funds are from the State, tribe, territory, or local institution's own resources.

Cost Share

Although an Applicant or subapplicant must meet the cost-share requirement, the cost share does not have to be cash; it can be donated resources. These resources may include the donation of cash, land (i.e. development rights for community safe room sites), material, labor, or services from any non-Federal source and can be used as a match for the non-Federal cost-share requirement.

Generally, the non-Federal cost share may not include funds from other Federal agencies in order to avoid Duplication of Benefit (DOB). However, some Federal awards have an authorizing statute that explicitly allows funds to be used as a match for other Federal grants in certain situations
