State Integrated Preparedness Plan

July 1, 2023, to June 30, 2026

Version 1.2 | 2024 Update

Table of Contents

PURPOSE

The Integrated Preparedness Plan (IPP) documents the planning, organizational, equipment, training and exercise (POETE) priorities for a multi-year period – this version outlines priorities over a three-year period from July 2023 through June 2026. This product is a living document, updated and refined annually via regional, state government, and internal Oregon Department of Emergency Management (OEM) Integrated Preparedness Planning Workshops (IPPWs).

The priorities identified in this document are separated by core capabilities and derived from analysis of existing strategic guidance, threat assessments, and previous exercise and incident corrective action findings. A progressive, multi-year program enables organizations and jurisdictions to develop planning documentation related to the priority areas, train personnel on its content, and exercise those documents to validate and/or implement the product in a no-fault environment. There is no one set of preparedness priorities that will support the needs of every community in Oregon, the statewide priorities are broad enough to allow all jurisdictions and state agencies to plan activities that align with their individual priorities and requirements as well as support the priorities of the state.

The IPP combines POETE activities that develop or maintain capabilities in support of the established priorities. These activities were identified and confirmed in regional, state government, and internal Oregon Department of Emergency Management IPPWs. Local and tribal emergency management agencies, as well as all state agencies identified in the state's Comprehensive Emergency Management Plan (CEMP), were invited to participate in and provide their perspective and inputs during the IPPWs.

Included in this IPP is a schedule, which provides a graphic illustration of the proposed activities for the identified priorities, scheduled for July 1, 2024, through June 30, 2026.

2024 Update Process – V1.2

The Oregon Department of Emergency Management engaged statewide City, County, Tribal, and State Department partners in the 2024 Annual Update Process to receive updated data regarding their planning, training, and exercise activities for the remaining period of the IPP to ensure this update best reflects the preparedness activities occurring across the state of Oregon.

The IPP Update Process is outlined in detail below:

A. **Organizational-Jurisdictional IPP Development:** The 2024 process will support partners developing their own IPP products to help inform future decision-making and actively participate in the State IPP process. The more organizations and jurisdictions that have active IPP products, the easier it will be to develop a collaborative IPP product during both annual update and multi-year development processes.

B. **Improved Statewide Forecast Awareness:** The 2024 process will build an improved statewide awareness to the ongoing planning, training, and exercise processes and events for the next 12-24 months through the revision of data and/or information. Through item "A" above, and a general revision of the 2024 IPP product, statewide partners will collectively have an improved awareness of what activities are up ahead.

C. **Inform Local and State Needs:** This process will review the submitted Core Capability Assessment data and the updated forecast schedules to inform local and statewide needs within the areas of planning activities, training, and exercise. The forecast schedule will share what is already being planned, the 2024 process will also identify the needs locally and statewide to meet the existing priorities listed in the 2024 State of Oregon IPP.

Statewide partners will use the final two years of the 2024 State of Oregon IPP to develop and implement identified IPP products. Oregon will enter a more informed and collaborative process in 2026 to create Version 2 of the State of Oregon IPP (July 1, 2026-June 30, 2029).

Development Phases

Phase	Scope	Schedule
Phase 1	Data Request & Development	December 2023 -February 2024
Phase 2	Regional & State Government IPPWs	February-March 2024
Phase 3	Data Collation & IPP Draft	March-April 2024
Phase 4	Statewide IPPW & IPP Finalization	April-May 2024
Phase 5	IPP Rollout & 2025 Vision	June 2024

Phase 1 | Data Request & Development (December 2023 – February 2024)

OEM distributed materials to support partners update or develop forecast(s) and provide awareness to the 2024 IPP process. The development of a local, tribal, or organizational IPP includes engagement from critical internal and external partners that influence the 1-3 year forecast.

1. **IPP Process Awareness Notice | December:** OEM distributed a notice to all IPP participants in early December 2023 to share specific process schedule, requests, and expectations.
2. **IPP Educational Session | January 30th:** OEM hosted a 90-minute education seminar that provided guidance and resources to support internal IPP updates or development. The educational seminar was hosted virtually and recorded.
3. **IPP Data Request | January:** OEM requested preparedness activity data in preparation of the regional and state IPPWs. The following data points were requested:
    a. Planning Activities: A 1-3 year forecast of the intended development of or updates to plans, processes, procedures, and policies. Participants were asked to consider current and expected grant projects that include planning, training, or exercise events during this step.
    b. Special Events: Special events that may require build-up planning, training, or exercise activities.
    c. Training Events: Planned trainings based on the planning activities and special events identified. Consider trainings hosted by local and regional jurisdictional partners. And,

       d. <u>Exercise Events</u>: Planned exercises based on the planning activities and special events identified.

4. **OEM Data Collation | February-March:** OEM collated and presented the data at the regional and state IPPWs.

Phase 2 | Regional & State Integrated Preparedness Planning Workshops (IPPWs) (February-March 2024)

The regional and state government IPPWs built off the Phase 1 data request and development to present the findings to workshop participants.

- <u>Intended Audience</u>: Primary audience for the regional IPPWs were County and Tribal emergency management agencies, additional key stakeholders were invited upon request by the emergency managers. The primary audience for the State IPPW were member agencies of the Oregon Emergency Response System (OERS) Council.

IPPW 2024 Schedule

Region	Date	Location
Southwest	Wednesday, February 14	Seven Feathers Resort & Casino
Willamette	Monday, February 26	OEM Offices
Eastern	Wednesday, February 28	Grant County EOC
Cascades	Thursday, February 29	Deschutes County EOC
OEM	Tuesday, March 12	OEM Offices
Northwest	Wednesday, March 20	Yamhill County
OERS Council	Thursday, March 25	OEM Offices
Portland Metro	Thursday, April 4	Hillsboro EOC
Statewide	Tuesday, May 28	Virtual

Phase 3 | Data Collation & IPP Draft (March-April 2024)

OEM developed a draft 2024 State of Oregon IPP Version 1.2 (V1.2), shared virtually with all IPP participants at the Statewide IPPW.

Phase 4 | Draft Statewide IPPW & IPP Finalization (June 11th)

OEM hosted a 2-hour Statewide IPPW to formally present the draft IPP V1.2 to all IPP participants to confirm:

- Identified statewide priorities,
- State-level planning activities and special event planning expectations,
- Training vision and requests, and
- State-level exercise expectations.

OEM distributed the IPP V1.2 to all local, tribal, state, and federal partners.

2025 Update Process Overview – V1.3

The 2025 IPP Update Process will develop V1.3 and will follow a similar phased approach to 2024. The priority areas for 2025 are outlined below and intended to progress the IPP effort in preparation for the 2026 full revision and development of Version 2 (July 1, 2026-June 30, 2029).

A. **Using the 2024 Data:** The data collected for V1.2 in 2024 offers a roadmap for preparedness activities taking place in the coming 12-24 months but is likely to change. OEM will facilitate regular opportunities to check-in on upcoming activities and revise the existing data to provide more in-depth discussions about needs and gaps during Phase 3 IPPWs. These regular opportunities include:
   o Quarterly Check-Ins with local-tribal partners and their OEM Regional Coordinator during routine regional meetings, and
   o Quarterly Check-ins during OERS Council Meeting.

B. **Organizational-Jurisdictional IPPW Support:** The 2025 process will increase the support offered to local and tribal partners in hosting jurisdictional IPPWs by offering more direct technical assistance, early capability strength and gap analysis, and identifying community-specific needs. The more organizations and jurisdictions that host an IPPW, the more effective the regional IPPWs. This effort will provide additional guidance and direct support to County and Tribal Emergency Management agencies.

C. **Improved Use of Data & Existing Preparedness Activities:** Using the 2024 IPP Update Process as a foundation, the 2025 process will seek to expand the use of risk assessment data to encourage and inform the preparedness activities planned in jurisdictions. This process will utilize the existing preparedness activities submitted in 2024 to inform the subsequent training and exercise activities to implement those efforts.

Development Phases
2025 IPP Update Process will use a similar phased approach outlined below:

Phase	Scope	Schedule
Phase 1	IPPW Education & Guidance	November'24-December'24
Phase 2	Data Request & Development	January-February'25
Phase 3	Regional & State Government IPPWs	March-April'25
Phase 4	Data Collation & IPP Draft	April-May'25
Phase 5	Statewide IPPW & IPP Finalization	May'25
Phase 6	IPP Rollout & 2026 Vision	June'25

PREPAREDNESS ACTIVITY CONSIDERATIONS

Threats, Hazards and Risks

Oregon faces several threats, hazards and risks, as listed in the Hazard Categories section in the State of Oregon Emergency Operations Plan (EOP) on pages 16 and 17. The primary threats, hazards and risks that informed the preparedness priorities were the capabilities compared to either a Cascadia Subduction Zone earthquake and tsunami, cyber-attack or explosive devices incident.

Capability Assessments

The State of the State Capability Assessment is an annual assessment of Oregon counties, select cities, tribal partners and state agencies. Information collected in this assessment is used to identify the progress of emergency management initiatives and support prioritization of future Planning, Organization, Equipment, Training and Exercise (POETE) efforts. This data is also used to inform the annual Threat and Hazard Identification and Risk Assessment (THIRA) and Stakeholder Preparedness Review (SPR) update to FEMA.

The capabilities are assessed through five categories: Planning, Organization, Equipment, Training and Exercise (POETE) for capability lost, sustained or built, and to determine if an overall gap remained in the core capability. Overall gaps indicate that despite efforts and resources, there's still a challenge in fully performing the core capability as needed based on Oregon's potential threats and hazards. Following the identification of gaps, strategies to address those gaps were identified. Core capabilities are further broken down into their component functional areas and ranked within the POETE to highlight which areas had the highest and lowest capacity. Functional area rankings were based on a 0-5 scale rubric, with 0 indicating no capacity and 5 indicating the highest capacity. Core capabilities rated as high by a majority of respondents were selected as the high priorities overall for Oregon. Medium- and low-priority capabilities were similarly selected.

The compiled and analyzed data from the Capability Assessment is used to create the annual State of the State Report. Based on the State of the State Report, THIRA/SPR and the National Exercise Program Priorities, the top eight priorities with gaps were chosen to focus on during this IPP cycle.

PREPAREDNESS PRIORITIES

Based on the above-mentioned considerations, Oregon determined the following priorities will be the focus for this multi-year preparedness cycle (in alphabetical order):

Continuity of Operations

Fire Management & Suppression

Mass Care Services

Operational Communications

Operational Coordination*

Planning*

Public Health, Healthcare and EMS*

Public Information and Warning *

Denotes an overlap to the National Exercise Program Priorities as well.

Continuity of Operations is a functional area within the Planning core capability identified as a top priority by many local, tribal and state information gathered through the IPPW process.

The following pages outline the anticipated preparedness activities that will support closing gaps within the provided priorities. If a priority is not described any further below with corresponding activities, there are no identified activities for the period covered in this IPP.

Continuity of Operations

Continuity of Operations is the ability to provide uninterrupted critical services, essential functions and support – while maintaining organizational viability – before, during and after an event that disrupts normal operations.

Corresponding FEMA Core Capabilities

- Planning, Operational Coordination

Planning Activities

- Continuity of Operations Plan Updates Local and Tribal Partners
- Continuity of Operations Plan Updates State agency partners

Supporting Training Courses

- IS-1300: Introduction to Continuity of Operations
- IS-545: Reconstitution Planning & Implementation
- E/L/K 0103: Planning: Emergency Operations
- E/L/K 0550: Continuity of operations Planning
- E/L/K 1301: Continuity Planning
- E/L/K 1302: Continuity Program Management
- PER-336: Protective Measures Course
- MGT-414: Advanced Critical Infrastructure Protection

Supporting Exercises

Of the submitted exercise data, Continuity of Operations was the fourth most common focus area with 9 events identified. Those events include:

- Deschutes County Continuity of Operations Tabletop | January/February 2025
- Jefferson County Continuity of Operations Tabletop | July 2025
- DCBS Internal Continuity of Operations Workshop | October 2025
- ODHS-OREM Continuity of Operations Exercise Series | October 2025 and 2026
- Jackson County Continuity of Operations Drill | April-June 2026
- OEM Continuity of Government Tabletop | April – June 2026
- OJD Continuity of Operations Exercise Series TBD
- Clackamas County Continuity of Operations TBD

Fire Management and Suppression

Fire Management and Suppression provides structural, wildland, and specialized firefighting capabilities to manage and suppress fires of all types, kinds, and complexities while protecting the lives, property, and the environment in the affected area. Due to fire management and suppression being carried out by local fire agencies independently of local emergency managers, much of the ongoing efforts across the state are not effectively captured by this document.

Corresponding FEMA Core Capabilities

- Planning, Operational Coordination, Public Information and Warning, Situational Assessment

Planning Activities

- Local and Tribal Community Wildfire Protection Program Updates
- Local Fire Mobilization Plan Update
- State Fire Mobilization Plan Update
- State Mobilization Action Plan Update

Supporting Training Courses

- G0191: Emergency Operations Center/Incident Command System Interface
- G2300: Intermediate Emergency Operations Center Functions
- MGT-360 IC: Capabilities, Planning and Response Actions for All Hazards
- MGT-346: EOC Operations for All Hazard Events

Supporting Exercises

- Local Fire Agency Drills | Ongoing
- OSFM Fire Defense Board Drill | May 2025 & 2026
- OSFM Hazardous Materials Technician Training | October 2024
- Hazardous Materials Response Drills | Monthly
- Wildland Fire Schools | Spring 2025 & 2026
- Local Fire Agency Drills | Ongoing
- OSFM Fire Defense Board Drill | May 2025 & 2026
- OSFM Hazardous Materials Technician Training | October 2024
- Hazardous Materials Response Drills | Monthly
- Wildland Fire Schools | Spring 2025 & 2026

Mass Care Services

Provide life-sustaining and human services to the affected population, including hydration, feeding, sheltering, temporary housing, evacuee support, reunification and distribution of emergency supplies.

Corresponding capabilities:

- Planning, Operational Coordination, Situational Assessment, Mass Search and Rescue Operations, Health and Social Services

Planning activities:

- Mass Care and Sheltering Plan Development

- Mass Care THIRA

- Mass Care MYTEP

- Food and Water Lifelines Assessment

- EOP Shelter Annex Development

- Repatriation Plan Update

- Mass Sheltering Plan Update

Supporting training courses:

- G0108: Community Mass Care and Emergency Assistance

- L0418: Mass Care – Emergency Assistance Planning and Operations

- L0419: Mass Care – Emergency Assistance Shelter Field Guide Training for States and Local Communities

- AWR-232: Mass Care/Emergency Assistance Planning and Operations

Supporting Exercises

Of the submitted exercise data, Mass Care Services fit into the fourth most common focus area with 5% of the total events identified, and 13 specific exercises. Those events include:

- Jackson County Mass Care and Shelter Plan Tabletop | July 2024

- ODHS-OREM Able Readiness 4 Exercise Series | July 2024, June 2025, July 2026

- IronOR 24 State-Level Exercise | October 2024

- Linn County Shelter and Evacuation Drill | January-March 2025

- City of Bend Reunification Tabletop | April 2025

- Douglas County Pre-Fire Season Evacuation Shelter Functional | April 2025

- Jackson County Volunteer and Donations Management Tabletop TBD

- Multnomah County Mass Casualty and Family Reunification Tabletop | April-June 2026

Operational Communications

Ensure the capacity for timely communications in support of security, situational awareness, and operations by all means available, among and between affected communities in the impact area and all response forces.

Corresponding capabilities:

- Planning, Operational Coordination, Public Information and Warning, Situational Assessment

Planning activities:

- Community Response Plan (DEQ Smoke Management)

Supporting training courses:

- IS-100.c Introduction to ICS

- IS-200.c: Basic ICS for Initial Response

- MGT-475: Crowd Management for Sports and Special Events

- E/L/K 0930: IEMC/Community-Specific

Supporting Exercises

Of the submitted exercise data, Operational Communications was the second most common focus area with 12% of the exercise events identified with 32 specific exercises noted (these exercises will not be listed due to the large number). Of these 32 exercises submitted, 65% (21 of 32) are operations-based exercises demonstrating routine offerings for individuals, equipment, and processes to be tested.

Operational Coordination

Establish and maintain a unified and coordinated operational structure and process that appropriately integrates all critical stakeholders and supports the execution of core capabilities.

Corresponding capability:

- Planning, Situational Assessment, Mass Care Serves, Mass Search and Rescue, Critical Transportation, Operational Communications, Public information and warning

Planning activities:

- Emergency Operations Plan Updates, including annexes such as extreme heat and emergency volunteer
- Evacuation Plan Update
- Tsunami Response Plan
- Earthquake Plan
- Winter Weather Preparedness Planning

Supporting training courses:

- G0191: Emergency Operations Center/Incident Command System Interface
- E/L/K 0202: Debris Management for Local, State, Tribal and Territorial Officials
- G0300: ICS-300: Intermediate Incident Command System for Expanding Incidents
- G0400: ICS-400: Advanced Incident Command System for Command and General Staff-Complex Incidents
- G0402: National Incident Command System Overview for Senior Officials (Executives, Elected & Appointed)
- G2300: Intermediate Emergency Operations Center Functions
- G2302: EOC Leaders Skillsets
- L0956: NIMS ICS All-Hazards Liaison Officer
- MGT-414: Advanced Critical Infrastructure Protection
- E/L 0930: IEMC Community Specific

Supporting Exercises

Of the submitted exercise data, Operational Coordination was the most common focus area with 41% of the total events identified, and 108 specific exercises (these exercises will not be listed due to the large number).Of the 108, participants had a equal split between discussion- and operaions-based exercises, demontrating an impressive width of exercise types to either educate, develop, validate, or implement focus areas related to this Core Capability.

Planning

Conduct a systematic process engaging the whole community as appropriate in the development of executable strategic, operational and tactical-level approaches to meet defined objectives.

Corresponding capabilities:

- Operational Coordination, Operational Communication, Situational Assessment Public Information and Warning, Critical Transportation, Logistics and Supply Chain Management, Threats and Hazards Identification, Risk and Disaster Resilience Assessment, Economic Recovery, Infrastructure Systems, Fire Management and Suppression.

Planning activities:

- State Emergency Operations Plan Update and Annexes
- State Recovery Plan Update
- Evacuation Plan
- County EOP Update and Annexes
- Crisis Communication Plan
- Fuel Management Plan
- Natural Hazard Mitigation Plan
- Community Wildfire Protection Plan Update
- County Recovery Framework

Supporting training courses:

- L0146: Homeland Security Exercise and Evaluation Program Training
- G0402: NIMS Overview for Senior Officials (Executives, Elected, & Appointed)
- E/L/K 0103: Planning Emergency Operations
- E/L/K 0202: Debris Management Planning for State, Tribal, Territorial and Local Officials
- L0962: NIMS ICS All-Hazards Planning Section Chief
- MGT-312: Senior Officials Workshop for All-Hazard Preparedness
- MGT-458: Building Whole Community Engagement through Local Emergency Planning Committees

Supporting Exercises

Of the submitted exercise data, Planning totaled 4% of the exercise events identified with 11 specific exercises noted. Those events include:

- OEM Homeland Security Strategy Seminar | August 2024
- OEM Preparedness Plan Seminar | April-June 2026
- OEM IPPWs | February/March 2025, February/March 2026

Public Health, Healthcare, and EMS

Public Health, Healthcare and EMS provide lifesaving medical treatment via Emergency Medical Services and related operations and avoid additional disease and injury by providing targeted public health, medical and behavioral health support and products to all affected populations.

Corresponding capabilities:

- Operational Coordination, Health and Social Services, Operation Communication, Public Information and Warning

Planning activities:

- Community Response Plan (DEQ Smoke Management)

Supporting training courses:

- IS-100.c Introduction to ICS

- IS-200.c: Basic ICS for Initial Response

- MGT-475: Crowd Management for Sports and Special Events

- AWR-111: Basic Emergency Medical Services (EMS) Concepts for Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) Events

- AWR-314-W: Medical Countermeasures Awareness for Public Health Emergencies

- AWR-900: Framework for Healthcare Emergency Management

- E/L/K 0418: Mass Care—Emergency Assistance Planning and Operations

Supporting Exercises

Of the submitted exercise data, Public Health, Healthcare, and EMS totaled 2% of the exercise events identified with 5 specific exercises noted. Those events include:

- Douglas County Lower Umpqua Health Mass Casualty Incident Functional | November 2024

- Josephine County Mass Casualty Incident Full-Scale | April 2025

- City of Redmond Airport Mass Casualty Incident Full-Scale | October 2025

- Lane County Mass Casualty TBD

- Gillam County Mass Casualty Incident Functional TBD

Public Information and Warning

Public Information and Warning delivers prompt, reliable and actionable information to the whole community using clear, consistent, accessible, and culturally and linguistically appropriate methods to effectively relay information regarding any threat or hazard, as well as the actions being taken and the assistance being made available, as appropriate.

Corresponding capabilities:

- Operational Communications, Operational Coordination, Planning, Situational Assessment

Planning activities:

- Alert and Warning Standard Operating Procedure
- EOP Annex for Alert and Warning

Supporting training courses:

- E/L/K 0105: Public Information Basics
- MGT-318: Public Information in All-Hazards Event
- L0388: Advanced Public Information Officer
- E/L/K 0952: NIMS ICS All-Hazards Public Information Officer Course

Supporting Exercises

Of the submitted exercise data, Public Information and Warning totaled 3% of the exercise events identified with 9 specific exercises noted. Those events include:

- Coos County Evacuation Notification Drill | July 2024
- Crook County Public Communications Functional | August/September 2024
- Linn County Mass Notification Drill | October 2024, January-March 2025, July-September 2025
- Marion County Flood Notification Tabletop | February/March 2025
- Coquille Tribe Tsunami Evacuation Notification Drill | November 2024
- Deschutes County Alert and Warning/Joint Information Center Functional | May 2025
- Union County IPAWS Functional | May 2025
- Curry County Evacuation Plan Tabletop | May 2025
- Clatsop County Call Center TBD

PROGRAM REPORTING

The Oregon Department of Emergency Management submits annual reports to FEMA as a recipient of federal preparedness grant funds. The THIRA/SPR and Integrated Preparedness Plan are all required. Through these processes, OEM confirms if capability gaps are closing by completing preparedness activities and therefore improving Oregon's overall preparedness and resilience in support of the National Preparedness Goal. To support these reporting requirements and goal, grant-funded jurisdictions report planning, training and exercise activities that occur.

In 2022, House Bill 4068 passed in Oregon Legislature amending ORS 401 to including additional exercise conduct and reporting requirements for OEM and state agencies. Each state agency will conduct an internal exercise that tests at least one element of the state agency's emergency preparedness and submit a written report to OEM via the [Emergency Management Exercise Reporting (EMER)](#) tool. These reports provide a snapshot of work accomplished but may not indicate the ultimate closing of a gap. All the reports are collected and aggregated in the State of the State capability assessment to highlight trends statewide and identify gaps and opportunities for future improvement.

DOCUMENT MAINTENANCE

This product is a living document updated and refined annually by the OEM Preparedness Section via regional, state government, and internal Oregon Department of Emergency Management Integrated Preparedness Planning Workshops (IPPWs).

MULTI-YEAR SCHEDULE OF PREPAREDNESS ACTIVITIES

The multi-year schedule of preparedness activities is listed by planning, training and exercise activity. It is then subdivided by Tribes, Counties, and State of Oregon Departments, any entities existing within a county geographically are represented under that county. The schedule indicates the core capability for each activity and type for exercises. The first 12 months of the schedule are broken down by month, then by quarter as further out activities are still in the planning stages.

Activities listed in the schedule are for the identified priorities and are projected during the multi-year cycle. There are many more activities that agencies and jurisdictions conduct to increase their capabilities during the multi-year cycle that may not be captured below.

Training activities are regularly updated. Most current training courses will be available by [signing up](#) to receive training email updates through GovDelivery or by visiting the [State Preparedness Calendar](#) on the OEM website.
