For further information specific to Oregon, the Health Evidence Review Commission (HERC) has provided this [guideline](#) on telehealth services.

Changes in specifications from MY2024 to MY2025:

- Added clarification for the providers eligible to perform mental health assessment and CANS in the same visit to bill H2000-TG.

Member type: CCOA CCOB CCOE CCOF CCOG

- Starting MY2024, CCO members under the Basic Health Plan (BHP) anytime during the required continuous enrollment period are excluded from the incentive quality rates. Note that the Cover

All Kids (CAK) and Healthier Oregon Program (HOP) recipients have also been excluded from the incentive quality rates.

Measure Details

Data elements required denominator: Identified children/adolescents 0 – 17 years of age as of the first date of DHS/OHA notification and remained in custody for at least 60 days. Only children/adolescents that DHS/OHA notified CCOs about will be included in the denominator. Include cases notified from November 1 of the year prior to the measurement year, to October 31 of the measurement year.

Whether a child ‘remained in custody’ is determined by Child Welfare discharge date or transfer of custody (such as OYA) in the OR-Kids data. If a CCO received information from DHS for change of custody, the CCO should preserve communication records; OHA will review these records and determine exclusions from the metric on a case-by-case basis.

Note: OHA and DHS launched a new weekly notification data layout on January 13, 2021 which included the key improvements:

- An ‘Episode Start Date’ (also known as the Foster Care Entry date, or DHS Custody Entry Date) is provided in the notification file for the CCO to determine whether a new round of assessments is needed.
- Notified cases stay in the weekly files for 90 days so the CCO can receive updates on placement status changes through the assessment period.
- A ‘First Notification Date’ remains constant with the unique episode throughout the time the case stays in the report and there is a ‘count of days with CCO’ which helps the CCO to keep track of the assessment completion timeline. There are rare scenarios that could cause child to be dropped from the weekly notification file, then the First Notification Date would be restarted if they returned to the notifications; in this case, only the very first ‘First Notification Date’ of each unique episode is used to for the calculation to anchor the continuous enrollment and assessment period.

See Appendix for full detail of data fields in the new weekly notification file, including scenarios that could cause the First Notification Date to be restarted.

OHA continues to use the CCO notification files as the main source for identifying denominator cases for the measure. The 834 enrollment files can provide supplemental information on changes in eligibility and enrollment for all children in DHS custody within a CCO, but they are not the main source for identifying new cases that require assessments.

Required exclusions for denominator:

Children will be automatically excluded from the final measure denominator for the following reasons:

- The CCO did not receive notification from OHA on the child, even if the CCO was informed by DHS or another source when the child entered DHS custody/ substitute care.
- The child did not enroll with the CCO or did not meet the continuous enrollment criteria. See detail in the continuous enrollment and allowable gap sections.
- The child entered DHS custody/substitute care more than 30 days prior to OHA notification, i.e., a case is excluded if the 'First Notification Date' to the CCO is more than 30 days after the Episode Start Date in the new weekly notification file.
- If a CCO is notified more than once for the same case of a child entering DHS custody (same Episode Start Date for a child on more than one weekly notification file), only the very first 'First Notification Date' documented in the weekly file is used, and the continuous enrollment and numerator assessment periods are calculated based on this date. Any other CCO notification dates for the same child and DHS custody entry are excluded.
- The child's custody with DHS is ended or transferred to Oregon Youth Authority (OYA) during the 60 days following CCO notification.
- The child is in Run-Away status during the 60 days following CCO notification are identified from OR-Kids and excluded. The child is still in DHS custody, but they are usually dis-enrolled from the CCO and entered into Fee for Service / Open Card until their next placement (and thus can also be excluded based on continuous enrollment criteria).

Children may be excluded from the final measure denominator for the following reasons, with OHA review of supporting evidence:

- A child placed in a rehabilitation, residential treatment facility or in OYA detention is not an automatic exclusion, unless the placement is out of the service area for the CCO, or the local DHS instructed the CCO to not follow up with the case. The CCO needs to preserve communication records for OHA review and determination.

Required exceptions for denominator: Among children in the denominator who did not complete all required assessments in the appropriate window, exclude those in the following scenarios:

- Children with a delayed start of enrollment, i.e., the child's enrollment with the CCO (for CCOA coverage) does not start when the CCO is notified for up to 7 days (see Continuous Enrollment and Allowable Gap sections for more detail).
- Children who were already in 'Trial Reunification' when the case was notified to the CCO, or changed their status to 'Trial Reunification' anytime within the 60-day assessment period as indicated in OR-Kids data.

Continuous enrollment criteria:

- All cases must remain in DHS custody for at least 60 days from the OHA notification date.
- All cases continuously enrolled with the notified CCO (for CCOA coverage) from the date of notification through 60 days after with no gaps in coverage, are included in the measure.
- Cases with delayed start of enrollment to the notified CCO for up to 7 days are included only if they are also numerator compliant (the CCO would receive credit on the metric). This means cases with delayed start of enrollment which did not complete all the required assessments are excluded.

Allowable gaps in enrollment: None. Note, there is an allowable delayed start of enrollment for up to 7 days if the case is also numerator compliant (see continuous enrollment section above), but there are no allowable gaps once the enrollment to the notified CCO has started.

Anchor Date (if applicable): None

Data elements required numerator: Depending on age at CCO notification date, members in the denominator are required to receive a physical health assessment (all ages 0-17), a dental health assessment (age 1-17), and a mental health assessment (age 3-17), within 60 days of the notification date, or within 30 days prior to the notification date.

Age on CCO Notification Date	Required assessments for children entering DHS custody		
	Physical	Dental	Mental
Less than 1 year old	YES	NO	NO
1 to 2 years old	YES	YES	NO
3 to 17 years old	YES	YES	YES

Qualifying health assessments are identified by one of the following procedure codes:

Physical health assessment codes:

- Outpatient and office evaluation and management codes: 99201 - 99205, 99212 – 99215
- Preventative visits: 99381 – 99384, 99391 – 99394
- Annual wellness visits: G0438, G0439
- If physical health assessments as indicated in these new patient E&M codes CPT 99201-99205 include qualifying mental health or child abuse/neglect diagnosis on the same claim (see code table below), they will count as both mental and physical health assessments. This is to reflect assessments provided by a psychiatric (nurse or physician) provider, but OHA does not apply a check of provider specialty in the calculation. Qualifying diagnosis codes include¹:

Visits with CPT 99201 – 99205 can count as both physical and mental health assessments if paired with following diagnosis codes:

² Only Licensed Professional Counselor (LPC), Licensed Marriage Family Therapist (LMFT), Licensed Clinical Social Worker (LCSW), psychologist and Qualified Mental Health Professional (QMHP) qualify for performing mental health assessment and eligible for billing H2000-TG. Other providers such as Qualified Mental Health Associates (QMHA), case managers, or care coordinators do not qualify for performing mental health assessment and to use the modifier TG.

³ Use of this code counts as both mental and physical health assessment for children in PRTS.

Overview

The weekly CCO Notification report will provide timely notification to the child’s enrolled Coordinated Care Organization (CCO) that the child has entered foster care and is enrolled in the named CCO. The child will appear on the report if both criteria are met: an open foster care placement and open eligibility/enrollment to a CCO. The child will remain on the report until the foster care placement has been open for ninety days or until disenrollment occurs (for reasons such as Out of State, Detention or Runaway Placement).

Change Flags

If the child moves but remains with the same CCO, the report will update to the current address for the child. If the child moves and the CCO changes, the child's info will update to reflect the new CCO name and child's new address and create a new First Notification Date. A child's address can change because the provider moved while the child remains with that provider, or the child moves to a new provider/placement. Many CCO's upload their list into their own data systems, therefore change flags will be included to specify what changed from the prior day:

- Provider/Placement Change Flag (new provider/placement from prior day)
- Address Change Flag (new address from prior day)
- CCO Enrollment Change Flag (new CCO Provider ID from prior day)

Non-Subcare Placement Rules

If a child goes on **Runaway** and a notification to DHS Central Office staff occurs, a manual disenrollment will take place. Because this doesn't always happen, the report will drop the child when the runaway placement is opened in ORKids, before MMIS disenrollment occurs. There are three runaway placements: Missing/Runaway (Cd 131), Missing/Abducted (Cd 1080), and Missing/Other (not known why child is missing) (Cd 1081). If the child returns to a foster care placement and enrollment to a CCO occurs prior to the foster care episode being open for ninety days, the child will re-appear with a new First Notification Date, whether the CCO has changed or not.

If a child goes to **Detention** (Cd 134) and a notification to DHS Central Office staff occurs, a manual disenrollment will take place. Because this doesn't always happen, the report will drop the child when the detention placement is opened in ORKids, before MMIS disenrollment occurs. If the child returns to a foster care placement and enrollment to a CCO occurs prior to the foster care episode being open for ninety days, the child will re-appear with a new First Notification Date, whether the CCO has changed or not.

If a child is placed **Out of State** (County Code 999 in MMIS) with no SAE Exception (child is not in placement Cd 133: Child Placed in Mental Health Facility) auto-disenrollment will occur. If the child returns to a foster care placement and enrollment to a CCO occurs prior to the foster care episode being open for ninety days, the child will re-appear with a new First Notification Date, whether the CCO has changed or not.

If a child is in an **OYA Placement** (Cd 1083: OYA Paid Placement – Foster Care or Cd 1084: OYA Paid Placement - Residential) the child will remain on the report and the Count of Days with the CCO will continue. (No new First Notification Date)

If a child is on **Trial Reunification** (Cd 1030) the child will remain on the report and the Count of Days with the CCO will continue. (No new First Notification Date)
