Welcome & Introductions

In the Zoom chat, please introduce yourself with the following:

- Your name & pronouns

- CCO

- As you think ahead on metric implementation, what would be the main obstacle you want to overcome to be successful in 2025?

★ **Please include your CCO in your Zoom name**

Today's Agenda

- Welcome and Introductions

- Brief Overview: Learning Collaborative Series and Objectives

- The Importance of Integrated SDOH Data Collection

- Deep Dive: Understanding and Using CIE Data

- Collaborative Activity: Identifying Critical Data Elements

- Q&A / Open Discussion

- Next Steps and Future Sessions

CCO Community of Practice

Goals for today:

- Develop a shared understanding of the various data sources available for SDOH screening and referral, and how they inform a comprehensive data collection strategy.

- Work together to explore how Community Information Exchange (CIE) data can add to existing SDOH data collection efforts within CCOs.

- Collaboratively identify and prioritize critical data elements from CIE platforms needed for SDOH screening and referral data collection.

- Share best practices for integrating CIE data with other SDOH data sources.

- ★ *Participation is key! Please have your cameras on when speaking, especially in the breakout groups*

Q&A with PacificSource

**Collaborative Activity:
Identifying Critical CIE Data Elements**

Unite Us Data Feed

- Member completes screening but declined referral to resources
- Member completes screening, needs identified, and referral is requested/sent

CCO Data Feed for Member SDoH Screenings

- **Screener of Screener Form Questions:**
  - **Have you offered this client a social needs screening?**
    - I have not offered this client a social needs screening.
    - Yes, and the client completed the full social needs screening.
    - Yes, and the client declined answering some of the social needs screening questions.
    - Yes, and the client declined answering all of the social needs screening questions.
  - **Were you able to screen for any of the following service types?**
    - Food
    - Housing
    - Transportation
    - Other (Indicate below)
      - If Other was chosen, which other service type(s) were screened for?
  - **Which social needs screening was completed with the client?**
    - Accountable Health Communities (AHC)
    - American Academy of Family Physicians (AAFP)
    - Arlington
    - Boston Medical Center Thrive (BMC Thrive)
    - Comprehensive Universal Behavior Screen (CUBS)
    - Health Begins
    - Health Leads
    - Health Risk Assessment
    - Housing Stability Vital Sign
    - Hunger Vital Sign
    - iHELP
    - North Carolina Medicaid (NC Medicaid)
    - PROMIS
    - Protocol for Responding to and Assessing Patient Assets, Risks, and Experiences (PRAPARE)
    - Safe Environment for Every Kid (SEEK)
    - Survey of Well-being of Young Children (SWYC)
    - U.S. Adult Food Security Survey
    - U.S. Child Food Security Survey (Self-Administered Food Security Survey Module for Youth Ages 12 and Older)
    - U.S. Household Food Security Survey
    - U.S. Household Food Security Survey: Six-Item Short Form
    - WeCare
    - WellRx Questionnaire
    - Your Current Life Situation (YCLS)
    - Other (Please indicate)
      - If Other was chosen, which other screening was completed with the client?

UNITE US

Proprietary and Confidential

To receive other related screening data, including declined screenings, the CIE user completes "Screener of Screeners" Form

Oregon Health Authority

Let's Talk!

Questions to Consider:

- Which CIE data elements does your CCO think are most relevant for SDOH metric reporting?

- How can we standardize these data elements across CCOs?

- What challenges might arise in integrating these data into existing systems?

Upcoming Guidance

★ More guidance coming soon on data collection!

Upcoming Metric TA Opportunities

- **Webinar: Building Community-based organization (CBO) capacity and engagement with CIE**

  o October 23rd, 1pm PT – Registration Link

- **Learning Collaborative: Community of Practice: Deep dive on chart review and claims-based data**

  o November 19, 1pm PT – Registration Link

- Contact **Claire Londagin** (londagin@ohsu.edu) for **1:1 TA**
