

OHA VBP PCPCH Data and CDA VBP Data Template - General Instructions

 Complete all yellow highlighted cells on the following worksheets: "PCPCH"
"Model Descriptions"
"Hospital CDA VBP Data"
"Maternity CDA VBP Data"
"Behavioral Health CDA VBP Data"
"Children's Health CDA VBP Data"
"Oral Health CDA VBP Data"

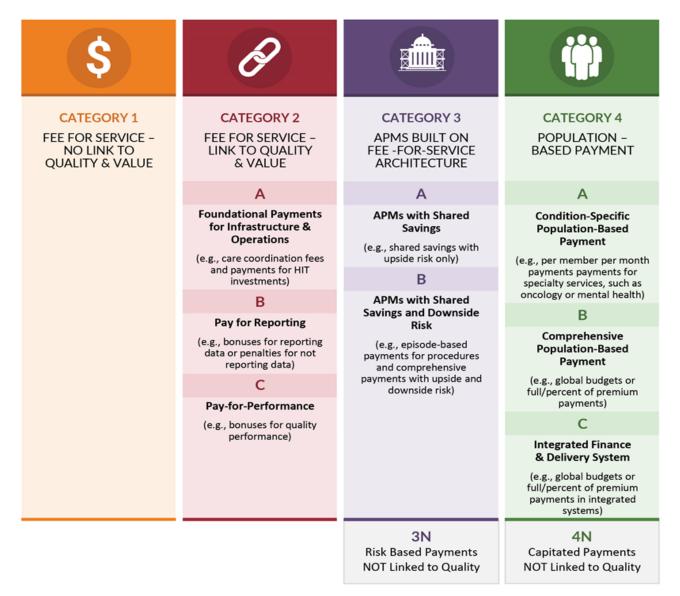

2. For payments that span multiple HCP-LAN categories, use the most advanced category. For example, if you have a contract that includes a shared savings arrangement with a pay-for-performance component – such as a quality incentive pool – then you should put the total value of the annual contract in Category 3A for shared savings because 3A (shared savings) is more advanced than 2C (pay-for-performance).

3. In addition to the HCP-LAN framework, Contractor shall use the VBP Roadmap for Coordinated Care Organizations and the OHA VBP Technical Guide for Coordinated Care Organizations for the VBP specifications and the appropriate LAN VBP category for each payment model, located at https://www.oregon.gov/oha/HPA/dsi-tc/Pages/Value-Based-Payment.aspx

5. The completed template is due to OHA by May 3, 2024, via the Contract Deliverables portal located at https://oha-cco.powerappsportals.us/. The submitter must have an OHA account to access the portal. It may not be submitted as a PDF document and must remain a Microsoft Excel spreadsheet. Please use the following naming convention when submitting the template: CCO + reporting year + title of template (e.g. CCOABC 2020 VBP PCPCH Data and CDA Template).

version 02032024

https://hcp-lan.org/groups/apm-refresh-white-paper/

CCO NAME: REPORTING PERIOD: Jackson Care Connect 1/1/2023 - 12/31/2023

Enter the per-member-per-month (PMPM) dollar amount you paid clinics participating in the Patient Centered Primary Care Home (PCPCH) program. If the PMPMs vary for a given tier, you may enter a range. Otherwise, enter a single dollar amount. In the "Average PMPM" column, enter the average PMPM payment for each tier, weighted by enrollment. If you paid one 'Tier 1' clinic \$9.50 PMPM and another 'Tier 1' clinic \$10.00 PMPM, and the first clinic had three times the number of members attributed as compared to the second clinic, then the average weighted PMPM would be \$9.625. (\$9.50 x 0.75 + \$10.00 x 0.25 = \$9.625). The weighting may be calculated using number of members months.

Evaluation criteria for this worksheet: Response required for each highlighted cell, even if there are no current clinics in your service area at that tier level. Non-response in a highlighted cell will not be approved.

PCPCH Tier	Number of contracted clinics	PMPM dollar amount or range	Average PMPM dollar amount	If a PMPM range (rather than a fixed dollar amount) is provided in column C, please explain.	If applicable, note any deviations and rationale from required payment per tier (e.g. no payments to tier 1 clinics because there are none in CCO service area).	Pleas M reco this P tab
Tier 1 clinics					No payments to tier 1 clinics because there are none in CCO service area	
Tier 2 clinics					No payments to tier 2 clinics because there are none in CCO service area	
Tier 3 clinics						
Tier 4 clinics						
Tier 5 clinics						

Please note, JCC has historically provided details on this tab specific to our Primary Care Payment Model Program. Our intention with this PCPM Program is to provide support to our PCPCH recognized clinics through a robust pay for performance PMPM model. We are still maintaining this PCPM Program and want to call out this continued support, but are providing feedback on this tab outside of the PCPM Program. Specifically, we have reported details on our infrastructure specific PMPM payments to PCPCH providers (LAN ZA payments).

CCO NAME:	Jackson Care Connect
REPORTING PERIOD:	1/1/2023 - 12/31/2023

Evaluation criteria for this worksheet: Response required for each highlighted cell. Non-response in a highlighted cell will not be approved.

Brief description of the five largest models, defined by dollars spent and VBPs implemented (e.g. condition- specific (asthma) population-based payment)	Most advanced LAN category in the VBP model (4 > 3 > 2C) Note: For models listed at a LAN category 3B or higher, please list the risk sharing rate.	Percentage of payments made through this model at the highest indicated LAN category	Additional LAN categories within arrangement	Total dollars involved in this arrangement	Quality metric(s)	Brief description of providers & services involved	Please describe if and how these models take into account: - racial and ethnic disparities; & - individuals with complex health care needs
PCP Capitation Agreements		100%	N/A		5		N/A
Behavioral Health Capitation Subject to QIIP		100%	N/A		3-5		This model is meant to support members with complex behavioral health needs.
PCP Clinical Quality Improvement (PCPM QI)		100%	N/A		5		Inadequate access to preventive care can contribute to persistant health disparities in pediatric and adult populations.
PCP Behavioral Health Integration (PCPM BHI)		100%	N/A		2		This model is meant to improve access to behavioral health providers in primary care settings and meet the complex behavioral and physical health needs of members.
Hospital Pay for Performance		100%	1A		3		This CDA highlights complex care needs by attaching quality metrics related to medication reconciliation upon discharge and timely follow-up after an acute care stay.

Required implementation of care delivery areas by January 2024: Refer to Value-based Payment Technical Guide for CCOs at https://www.oregon.gov/oha/HPA/dsi-tc/Documents/VBP-Technical-Guide-for-CCOs.pdf for more information on requirements.

Evaluation criteria for this worksheet: Response required for each highlighted cell. If questions on rows 18 and 20 are not applicable, write N/A.

CCO NAME:	Jackson Care Connect
Describe Care Delivery Area (CDA) Note: a VBP may encompass two CDAs concurrently. If your CCO has taken this approach, list both CDAs; no more than two CDAs can be combined to meet the CDA requirement.	Hospital
LAN category (most advanced category)	
Briefly describe the payment arrangement and the types of providers and members in the arrangement (e.g. pediatricians and asthmatic children)	
If applicable, describe how this CDA serves populations with complex care needs or those who are at risk for health disparities	This CDA highlights complex care needs by attaching quality metrics related to medication reconciliation upon discharge and timely follow-up after an acute care stay.
Total dollars paid	
Total unduplicated members served by the providers	
If applicable, maximum potential provider gain in dollars (i.e., maximum potential quality incentive payment)	
If applicable, maximum potential provider loss in dollars (e.g. maximum potential risk in a capitated payment)	
List the quality metrics used in this payment arrangement using the table provide in below. A least one quality component is needed to meet requirement:	Metric
	Cesarean rate for nulliparous people with term, singleton baby in a vertex position
	Medication reconciliation upon inpatient discharge

Metric	Metric steward (e.g. HPQMC, NQF, etc.)	Briefly describe how CCO assesses quality (e.g. measure against national benchmark, compare to providers' previous performance, etc.)	Describe providers' performance (e.g. quality metric score increased from 8 to 10)
Cesarean rate for nulliparous people with term, singleton baby in a vertex position	Adapted from The Joint Commission	Submission of a completed narrative	
Medication reconciliation upon inpatient discharge	HEDIS	Compare to provider's previous performance	
Follow-up appointment for all inpatient discharges	HEDIS	Compare to provider's previous performance	

Required implementation of care delivery areas by January 2024: Refer to Value-based Payment Technical Guide for CCOs at https://www.oregon.gov/oha/HPA/dsi-tc/Documents/VBP-Technical-Guide-for-CCOs.pdf for more information on requirements.

Evaluation criteria for this worksheet: Response required for each highlighted cell. If questions on rows 18 and 20 are not applicable, write N/A.
