

OHA VBP PCPCH Data and CDA VBP Data Template - General Instructions

1. Complete all yellow highlighted cells on the following worksheets: "PCPCH" "Model Descriptions" "Hospital CDA VBP Data"

"Maternity CDA VBP Data" "Behavioral Health CDA VBP Data"

"Children's Health CDA VBP Data"

"Oral Health CDA VBP Data"

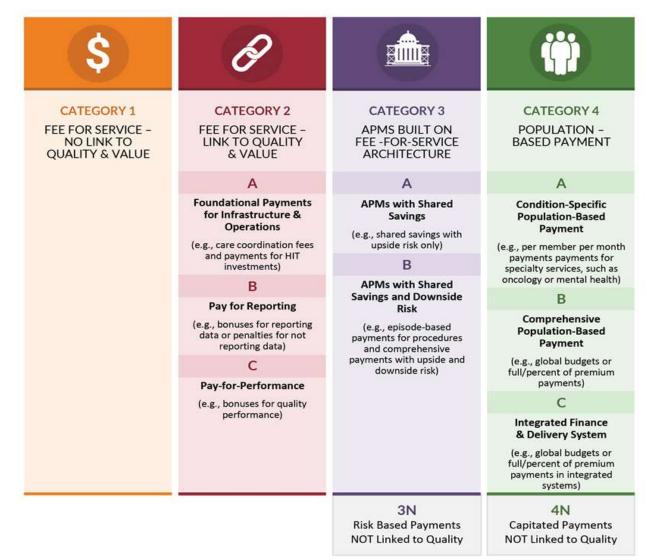

2. For payments that span multiple HCP-LAN categories, use the most advanced category. For example, if you have a contract that includes a shared savings arrangement with a pay-for-performance component – such as a quality incentive pool – then you should put the total value of the annual contract in Category 3A for shared savings because 3A (shared savings) is more advanced than 2C (pay-for-performance).

3. In addition to the HCP-LAN framework, Contractor shall use the VBP Roadmap for Coordinated Care Organizations and the OHA VBP Technical Guide for Coordinated Care Organizations for the VBP specifications and the appropriate LAN VBP category for each payment model, located at https://www.oregon.gov/oha/HPA/dsi-tc/Pages/Value-Based-Payment.aspx

5. The completed template is due to OHA by May 3, 2024, via the Contract Deliverables portal located at https://oha-cco.powerappsportals.us/. The submitter must have an OHA account to access the portal. It may not be submitted as a PDF document and must remain a Microsoft Excel spreadsheet. Please use the following naming convention when submitting the template: CCO + reporting year + title of template (e.g. CCOABC 2020 VBP PCPCH Data and CDA Template).

CCO NAME: REPORTING PERIOD:

PacificSource Community Solutions (Marion-Polk) 1/1/2023 - 12/31/2023

Enter the per-member-per-month (PMPM) dollar amount you paid clinics participating in the Patient Centered Primary Care Home (PCPCH) program. If the PMPMs vary for a given tier, you may enter a range. Otherwise, enter a single dollar amount. In the "Average PMPM" column, enter the average PMPM payment for each tier, weighted by enrollment. If you paid one 'Tier 1' clinic \$9.50 PMPM and another 'Tier 1' clinic \$10.00 PMPM, and the first clinic had three times the number of members attributed as compared to the second clinic, then the average weighted PMPM would be \$9.625. (\$9.50 x 0.75 + \$10.00 x 0.25 = \$9.625). The weighting may be calculated using number of members or number of members attributed as compared to the second clinic, then the average weighted PMPM would be \$9.625.

Evaluation criteria for this worksheet: Response required for each highlighted cell, even if there are no current clinics in your service area at that tier level. Non-response in a highlighted cell will not be approved.

PCPCH Tier	Number of contracted clinics	PMPM dollar amount or range	Average PMPM dollar amount	If a PMPM range (rather than a fixed dollar amount) is provided in column C, please explain.	If applicable, note any deviations and rationale from required payment per tier (e.g. no payments to tier 1 clinics because there are none in CCO service area).
				All OHA PCPCH recognized clinics receive a base rate	
				PMPM dependent on tier level. Clinics exceeding minimum
