

Enter the per-member-per-month (PMPM) dollar amount you paid clinics participating in the Patient Centered Primary Care Home (PCPCH) program. If the PMPMs vary for a given tier, you may enter a range. Otherwise, enter a single dollar amount. In the "Average PMPM" column, enter the average PMPM payment for each tier, weighted by enrollment. If you paid one 'Tier 1' clinic \$9.50 PMPM and another 'Tier 1' clinic \$10.00 PMPM, and the first clinic had three times the number of members attributed as compared to the second clinic, then the average weighted PMPM would be \$9.625. (\$9.50 x 0.75 + \$10.00 x 0.25 = \$9.625). The weighting may be calculated using number of members or number of member months.

Evaluation criteria for this worksheet: Response required for each highlighted cell, even if there are no current clinics in your service area at that tier level. Non-response in a highlighted cell will not be approved.

| PCPCH Tier | Number of contracted clinics | PMPM dollar amount or range | Average PMPM dollar amount | If a PMPM range (rather than a fixed dollar amount) is provided in column C, please explain. | If applicable, note any deviations and rationale from required payment per tier (e.g. no payments to tier 1 clinics because there are none in CCO service area). |
|----------------|------------------------------|--------------------------------|-------------------------------|----------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | | | | | |
| Tier 1 clinics | N/A | N/A | N/A | N/A | None in service area |
| | | | | | |
| Tier 2 clinics | N/A | N/A | N/A | N/A | None in service area |
| | | | | | |
| Tier 3 clinics | 5 | | | | |
| | | | | | |
| Tier 4 clinics | 16 | | | | |
| | | | | | |
| Tier 5 clinics | 10 | | | | |

| REPORTING PERIOD: | 1/1/2023 - 12/31/2023 |

Evaluation criteria for this worksheet: Response required for each highlighted cell. Non-response in a highlighted cell will not be approved.

| models, defined by dollars spent and VBPs implemented (e.g. condition- specific (asthma) population-based payment) | (4 > 3 > 2C) Note: For | Percentage of payments made through this model at the highest indicated LAN category | Additional LAN categories within arrangement | Total dollars involved in this arrangement | Quality metric(s) | Brief description of providers & services involved | Please describe if and how these models take into account: - racial and ethnic disparities; & - individuals with complex health care needs |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------|-----------------------------------------------------------------------------------------------------|-------------------------------------------------------|--------------------------------------------------|---------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Example: Shared risk arrangement with hospital-based maternity providers | 3B (Risk Sharing Rate: 30%) | 90% | 1 (FFS) | \$3,543,231 | Timeliness of Prenatal and Postnatal Care | A hospital participates in a shared risk arrangement where the CCO will make a retrospective payment to the hospital if the actual spending on the hospital's attributed maternity/obstetric population is less than expected spending and the hospital performs well on specific performance measures; or the hospital will make a payment to the CCO if actual spending is more than expected spending. | |
| Model 1: Risk sharing inclusive of upside and downside, individual risk pools (professional, insititutional, pharmacy) with customized risk sharing based on provider's performance, blend of capitation and fee for service reimbursement with quality incentives. | | 15% | 1, 2C, 3B | \$10,156,697 | HEDIS measures and participation in CCO Quality Metrics | Integrated Primary Care and Behavioral Health clinics inclusive of Pediatric, Family Medicine and Adult populations. Provider is at risk for ther total population and all services. | Hotspotter (population health reporting); TCHP analyzes claims data monthly to determine under and over utilization trends related to specific member populations (ex: Race). Data is broken down into the following areas: PCP visits, Specialist visits, Mental Health, Substance Use Disorders, Emergency Room, Inpatient Stays, Non ER Medical Transport and Pharmacy. Model is inclusive of Provider's total population including complex members. |
| Total Cost of Care (TCoC): Risk sharing inclusive of upside and downside, capitation payments including a withhold for downside risk, and opportunity for quality incentives. | 4B | 72% | 1, 2C, 3B | \$5,719,322 | CCO Quality Metrics | ntegrated Primary Care and Behavioral Health clinics inclusive of Pediatric, Family Medicine and Adult populations. Provider is at risk for their total population and all services. | Hotspotter (population health reporting); TCHP analyzes claims data monthly to determine under and over utilization trends related to specific member populations (ex: Race). Data is broken down into the following areas: PCP visits, Specialist visits, Mental Health, Substance Use Disorders, Emergency Room, Inpatient Stays, Non ER Medical Transport and Pharmacy. Model is inclusive of Provider's total population including complex members. |
| PCP capitation payments including a withhold for downside risk, withhold is earned through quality metric performance. | 4B | 39% | 1, 2C, 3B | \$6,007,973 | Subset of CCO Qualtiy Metrics | Integrated Primary Care and Behavioral Health clinics inclusive of Pediatric, Family Medicine and Adult populations. | Hotspotter (population health reporting); TCHP analyzes claims data monthly to determine under and over utilization trends related to specific member populations (ex: Race). Data is broken down into the following areas: PCP visits, Specialist visits, Mental Health, Substance Use Disorders, Emergency Room, Inpatient Stays, Non ER Medical Transport and Pharmacy. Model is inclusive of Provider's total population including complex members. |
| Complex Case Management Fee including a withhold for downside risk, sharing in surplus and qualtiy metrics. | 4B | 85% | 2C | \$490,507 | HEDIS Measures | Population based PMPM for complex members, at risk for all members receiving the PMPM. | Cohort of complex members with a minimum of 5 chronic Medical and 1 BH conditions. |
| Dental PMPM capitation and qualtiy improvement withhold (at risk) | 3В | 8% | 2C | \$11,962,721 | CCO Quality Metrics | | Hotspotter (population health reporting); TCHP analyzes claims data monthly to determine under and over utilization trends related to specific member populations (ex: Race). Data is broken down into the following areas: PCP visits, Specialist visits, Mental Health, Substance Use Disorders, Emergency Room, Inpatient Stays, Non ER Medical Transport and Pharmacy. Model is inclusive of Provider's total population including complex members. |
