Document Purpose

The Oregon Health Authority (OHA) developed the following guidance for CCOs to support the rollout of a new Oregon Health Plan (OHP) eligibility category, Young Adults with Special Health Care Needs (YSHCN). This guidance is intended to provide CCOs with additional programmatic details and expectations for delivering services to YSHCN Members, building on the requirements detailed in the CCO Contract and Oregon Administrative Rules (OARs). OHA expects CCOs to adopt the standards detailed in this document. The document is available on the [CCO Contract Forms Website](#) and will be updated as needed. Updates to the YSHCN Guidance Document shall be considered effective ninety (90) days after OHA provides Administrative Notice thereof to CCOs.

I. YSHCN Background and Overview

a. What is YSHCN?

Beginning January 1, 2025, Oregon will offer a new Medicaid eligibility category called Young Adults with Special Health Care Needs (YSHCN), giving individuals who are part of this population access to special Oregon Health Plan (OHP) benefits. The State received approval from the Centers for Medicare & Medicaid Services (CMS) on September 28, 2022 to provide these services as part of the [Section 1115 Waiver Demonstration](#).

YSHCN-eligible individuals are aged 19 through 25, with an income up to 205% Federal Poverty Level (FPL), and have qualifying health care needs, as approved in the 1115 Medicaid waiver [Special Terms and Conditions \(STCs\)](#). This eligibility expansion will be implemented on a rolling basis by age group **starting with 19- and 20-year-olds in 2025**. The higher age cutoff will increase periodically until full implementation (See [II. Timeline for YSHCN Rollout](#) for more details), subject to funding availability. Examples of qualifying health care needs include: physical, intellectual and developmental disabilities; long-standing physical health conditions like asthma, diabetes, or spina bifida; and behavioral or mental health conditions like depression or substance use disorder.

b. Why YSHCN Matters

In Oregon, one in five children under age 18 has a special health care need.¹ As people with special health care needs age, changes in insurance coverage can disrupt their access to appropriate care. The YSHCN program aims to provide no-cost health insurance coverage that bridges pediatric and adult care, creating more consistent access to primary and specialty care for people with complex healthcare needs. People identified as YSHCN Members through the State's 1115 waiver frequently need more health care and health-related social services than others of the same age. The 2021-2022 National Survey of Children's Health shows that 72.7% of children and youth with special health care needs in Oregon did not receive services necessary to prepare for the transition to adult health care.² Additionally, more than half of children and youth with special health care needs ages 12 through 17 years in Oregon did not receive needed care coordination.³

c. YSHCN Benefits

People who qualify as YSHCN Members will receive OHP Plus benefits, Early and Periodic Screening, Diagnostic and Treatment (EPSDT) coverage, enhanced vision and dental benefits, and may qualify for some Health-Related Social Needs (HRSN)

² Retrieved from: <https://www.childhealthdata.org/browse/survey/results?q=10779&r=39>

³ Retrieved from: <https://www.childhealthdata.org/browse/survey/results?q=10775&r=39>

benefits. (For more information on benefits, see [IV. YSHCN Benefits and Care Management](#) below).

For some individuals, YSHCN benefits will complement their pre-existing eligibility for OHP, considered “YSHCN Supplemental Benefits” (e.g., people with incomes below 138% FPL). For others, the YSHCN program expands eligibility to those who would not otherwise qualify for OHP Plus (“YSHCN Standalone Benefits”). Information about whether a member is Standalone versus Supplemental will be communicated via Program Eligibility Resource Codes (PERC) on 834 transactions (more on this in [III. Eligibility for YSHCN](#)).

In addition, the launch of the YSHCN program coincides with the expanded rollout of HRSN services which provide housing supports, nutrition supports, and climate-related devices, to support members’ health and well-being. HRSN Services are covered benefits under OHP and must be provided by CCOs to eligible OHP members, **including YSHCN Members who meet HRSN eligibility criteria.**⁴

Important: It is crucial that YSHCN Members are screened for and receive appropriate HRSN services. **CCOs must conduct HRSN screenings for YSHCN Members every year, per the 1/1/25 CCO contract.**

II. Timeline for YSHCN Rollout

Beginning January 1, 2025, OHA will start enrolling YSHCN Members who are 19 and 20 and will expand the upper age limit as funding allows up through age 25. OHA will conduct re-assessments for YSHCN eligibility every two years per the 1115 Waiver’s continuous eligibility requirements. Once a member enrolls, they will remain a YSHCN Member until their 26th birthday, as long as their re-assessment confirms continued eligibility.

Eligibility requirements will be defined in OAR 410-200-0455, effective January 1, 2025. Continuous eligibility requirements are defined in OAR 410-200-0135.

The YSHCN age rollout and coverage in future years is subject to available funding.

III. Eligibility for YSHCN

To be eligible for YSHCN benefits, individuals must meet age, clinical, and income requirements. Eligibility requirements will be defined in OAR 410-200-0455, effective January 1, 2025. (For more details on how OHA will identify these members and share that information to CCOs, see [V. YSHCN Member Identification](#) below.)

⁴ More information about HRSN services and who is eligible can be found in the [HRSN CCO Guidance](#).

a. Age

YSHCN-eligible individuals are ages 19 through 25. In 2025, only members who are 19 and 20 will be enrolled, if eligible. In future years, additional age groups will be phased in by increasing the upper age limit of enrollees as funding allows (see [II. Timeline for YSHCN Rollout](#)).

b. Clinical

YSHCN eligible individuals live with or are at risk of having a chronic health condition or unmet health care need identified by the State (see [V. YSHCN Member Identification](#) for more information on eligibility pathways and associated data).

YSHCN eligible individuals must:

- Have a "complex chronic condition" based on the Pediatric Medical Complexity Algorithm (PMCA);
- Have a serious emotional disturbance or serious mental health issue as defined by an OHA-approved list of behavioral health diagnoses (see [Appendix A](#));
- Be eligible for long-term care services by a Community Developmental Disabilities Program (CDDP) due to an intellectual or developmental disability that started at age 16 or older; or
- Self-attest to meeting at least two of six categories represented in the YSHCN eligibility screening questionnaire in the ONE system or OHP paper application, related to the existence of chronic health conditions or unmet health care needs.

c. Financial

YSHCN eligible individuals are either:

- Eligible for a MAGI Medicaid/CHIP program defined in OAR 410-200-0015(d) or 410-200-0015(f)(A)-(E) or OSIPM program as defined in OAR 461-101-0010(18); or,
- Have MAGI-based household incomes up to 205% FPL.

d. Supplemental and Standalone YSHCN Members

As described above, most YSHCN Members may already be eligible for an OHA Medicaid or CHIP program – referred to as YSHCN “Supplemental” Members. YSHCN Members may also be eligible for OHP only as a result of the YSHCN eligibility category expansion up to 205% FPL – referred to as YSHCN “Standalone” Members.

OHA may reference “Supplemental” or “Standalone” YSHCN Members for the purpose of identifying the pathway by which someone can be eligible for YSHCN benefits. However, for the purposes of delivering benefits to YSHCN Members once they are enrolled, there is no meaningful distinction between Standalone and Supplemental Members. (For more on how OHA will identify YSHCN Members, see [V. YSHCN Member Identification](#).)

CCOs should provide the same level of services to all YSHCN Members, including all of the benefits and requirements detailed below (see [IV. YSHCN Benefits and Care Management](#)).

IV. YSHCN Benefits and Care Management

YSHCN Members will access the following benefits, in addition to the OHP Plus benefit package.

a. EPSDT and Enhanced Vision and Dental.

YSHCN Members qualify for enhanced vision and dental benefits – the dental and vision benefit package available to pregnant people or people ages 0 through 20 – and Early and Periodic Screening, Diagnostic and Treatment (EPSDT), until they turn 26. More information about EPSDT, including [EPSDT CCO Guidance](#), can be found on the [OHA EPSDT website](#).

Because YSHCN Members must meet the financial and clinical criteria noted above, most members will have been enrolled in OHP Plus in childhood and are receiving EPSDT benefits already. A goal of the YSHCN program is to help bridge the transition from pediatric to adult health care coverage for members that have complex health needs and who benefit from EPSDT coverage. The continuation of EPSDT coverage until the member’s 26th birthday is a crucial component of this bridge.

CCOs will need to have their systems ready by January 1, 2025, to support YSHCN Members’ receipt of EPSDT beyond their 21st birthday.

b. HRSN Covered Population.

As noted above, OHA’s intent is to provide young adults with the supports they often lack to manage their social needs and health care. Accordingly, YSHCN is an HRSN Covered Population that must be screened for and, if authorized, receive appropriate HRSN services such as rental assistance, nutrition supports, climate devices, and outreach and engagement services (see contract or HRSN Guidance Document for more operational details related to delivering HRSN services).

Upon a positive screening for HRSN, YSHCN Members may qualify for related services for up to 12 months. YSHCN Members must be reassessed for HRSN eligibility at least annually as stipulated in contract (see [STC 4.6](#)) – OHA will monitor whether CCOs assess YSHCN Members as required through existing data reporting (see HRSN Data Collection and Reporting, in the HRSN Guidance Document).

c. Enhanced Care Coordination and Monitoring.

YSHCN is a population with “Special Health Care Needs” (to be defined in OAR 410-141-3500, effective January 1, 2025), and therefore should receive additional assessment and care coordination services (as detailed in CCO Contract and defined in OAR 410-141-3860, 410-141-3865, and 410-141-3870) aligned with the member’s specific health care needs and risk category.

(See more in [V. YSHCN Member Identification](#), regarding how the State will identify YSHCN Members and share that information with CCOs).

V. YSHCN Member Identification

OHA will identify YSHCN eligible Members via several pre-established pathways (see Table 1 below). OHA developed YSHCN-specific Program Eligibility Resource Codes (PERCs), available on the CCO’s 834 report, which will allow CCOs to identify YSHCN Members. The specific PERCs are available in [Appendix C](#).

CCOs may do preliminary work to understand their potential YSHCN caseload based on the information in the table below, but **individuals are not considered YSHCN Members (and therefore do not receive YSHCN benefits) until OHA identifies via the 834 report that the member is enrolled in the YSHCN program.**

If a CCO identifies an individual who may be eligible for the YSHCN program but is not yet enrolled, the CCO can refer the individual to answer the screening questions through their ONE Online Portal or by calling OHP Customer Service at 1-800-699-9075.

Table 1. YSHCN Member Identification Pathways

Eligibility Pathway	Definition	How Identified and Communicated to the CCOs
Complex Chronic Condition	Identified in the Pediatric Medical Complexity Algorithm (PMCA) as someone with a complex chronic disease (PMCA score = 3)	<ul style="list-style-type: none"> OHA will identify Members via MMIS data in the months before their 19th birthday. Members meeting these criteria will be captured in the YSHCN PERCs. <ul style="list-style-type: none"> CCOs can reference the standardized PMCA algorithm.
Mental Health, Substance Use Disorder, or Neurodevelopmental Condition	Serious emotional disturbance or serious mental health issue indicated by qualifying behavioral health diagnosis	<ul style="list-style-type: none"> Members will be identified by OHA based on MMIS data in the months before their 19th birthday. Members meeting these criteria will be captured in the YSHCN PERCs. <ul style="list-style-type: none"> A list of qualifying behavioral health diagnosis codes can be found in Appendix A and will be located on the YSHCN website in the future.
Intellectual or Developmental Disability	Be found eligible for services by a Community Developmental Disabilities Program (CDDP) due to an intellectual or developmental disability at age 16 or older	<ul style="list-style-type: none"> Members will be identified through service eligibility data in the ONE system as well as an ExPRS report from ODDS in the months before their 19th birthday. Members meeting these criteria will be captured in the YSHCN PERCs.
Elevated Service Need	Have an “elevated service need” or functional limitations as determined by two or	<ul style="list-style-type: none"> Members must respond to a screener in the ONE system or paper OHP application (see Appendix B). In 2025, OHA plans to ensure existing OHP Members aged 19 and 20 who do not automatically qualify for YSHCN receive

	more affirmative responses to a screener	<p><i>the screener – at minimum, these members will get a notice in the mail with instructions. The screener will be available on paper and an electronic format.</i></p> <ul style="list-style-type: none"> Members meeting these criteria will be captured in the YSHCN PERCs.
--	--	---

VI. YSHCN Payment and Administrative Processes

For YSHCN Supplemental Members, CCOs will receive the same capitation payment as their original OHP eligibility category. CCOs will receive a distinct capitation rate for YSHCN Standalone Members. As discussed above, Supplemental versus Standalone Members will be identified via PERCs. As discussed elsewhere in this guidance, CCOs should provide the same level of services to all YSHCN Members, including all the benefits and requirements detailed above (see [IV. YSHCN Benefits and Care Management](#)).

Appendix A – List of Qualifying Behavioral Health Conditions

ICD-10 Diagnosis Code <i>The condition is challenging, chronic and complicated, regardless of individual characteristics and circumstances. A young adult with the condition should automatically be eligible for the Medicaid benefits.</i>	ICD-10 Diagnosis Code Description
F70	Mild intellectual disabilities
F71	Moderate intellectual disabilities
F72	Severe intellectual disabilities
F73	Profound intellectual disabilities
F78	Other intellectual disabilities
F78.A1	SYNGAP1-related intellectual disability
F78.A9	Other genetic related intellectual disability
F79	Unspecified intellectual disabilities
F80.1	Expressive language disorder
F80.2	Mixed receptive-expressive language disorder
F80.4	Speech and language development delay due to hearing loss
F80.81	Childhood onset fluency disorder (stuttering)
F81	Specific developmental disorders of scholastic skills
F81.0	Specific reading disorder
F81.2	Mathematics disorder
F81.8	Other developmental disorders of scholastic skills
F81.81	Disorder of written expression

⁷ Provisional rules, or edits to an existing rule to reflect the YSHCN program, are not effective until 1/1/25.

F81.89	Other developmental disorders of scholastic skills
F81.9	Developmental disorder of scholastic skills, unspecified
F82	Specific developmental disorder of motor function
F84.0	Autistic disorder
F84.3	Other childhood disintegrative disorder
F84.5	Asperger's syndrome
F88	Global developmental delay
F90	Attention-deficit hyperactivity disorders
F90.0	Attention-deficit hyperactivity disorder, predominantly inattentive type
F90.1	Attention-deficit hyperactivity disorder, predominantly hyperactive type
F90.2	Attention-deficit hyperactivity disorder, combined type
F90.8	Attention-deficit hyperactivity disorder, other type
F90.9	Attention-deficit hyperactivity disorder, unspecified type
F95.1	Chronic motor or vocal tic disorder
F95.2	Tourette's disorder
F06.0	Psychotic disorder due to another medical condition (Psychotic disorder with hallucinations due to known physiological condition)
F06.2	Psychotic disorder due to another medical condition (Psychotic disorder with delusions due to known physiological condition)
F20.0	Paranoid schizophrenia
F20.1	Disorganized schizophrenia
F20.2	Catatonic schizophrenia
F20.3	Undifferentiated schizophrenia
F20.5	Residual schizophrenia
F20.8	Other schizophrenia
F20.81	Schizophreniform disorder
F20.89	Other schizophrenia
F20.9	Schizophrenia
F21	Schizotypal disorder
F25	Schizoaffective disorders
F25.0	Schizoaffective disorder, bipolar type
F25.1	Schizoaffective disorder, depressive type
F25.8	Other schizoaffective disorders
F25.9	Schizoaffective disorder, unspecified
F28	Other specified schizophrenia spectrum disorder
F29	Unspecified schizophrenia spectrum disorder
F22	Delusional disorders
F23	Brief psychotic disorder
F24	Shared psychotic disorder
F31	Bipolar disorder
F31.0	Bipolar disorder, current episode hypomanic

F31.1	Bipolar disorder, current episode manic without psychotic features
F31.10	Bipolar disorder, current episode manic without psychotic features, unspecified
F31.11	Bipolar disorder, current episode manic without psychotic features, mild
F31.12	Bipolar disorder, current episode manic without psychotic features, moderate
F31.13	Bipolar disorder, current episode manic without psychotic features, severe
F31.2	Bipolar disorder, current episode manic severe with psychotic features
F31.3	Bipolar disorder, current episode depressed, mild or moderate severity
F31.30	Bipolar disorder, current episode depressed, mild or moderate severity, unspecified
F31.31	Bipolar disorder, current episode depressed, mild
F31.32	Bipolar disorder, current episode depressed, moderate
F31.4	Bipolar disorder, current episode depressed, severe, without psychotic features
F31.5	Bipolar disorder, current episode depressed, severe, with psychotic features
F31.6	Bipolar disorder, current episode mixed
F31.60	Bipolar disorder, current episode mixed, unspecified
F31.61	Bipolar disorder, current episode mixed, mild
F31.62	Bipolar disorder, current episode mixed, moderate
F31.63	Bipolar disorder, current episode mixed, severe, without psychotic features
F31.64	Bipolar disorder, current episode mixed, severe, with psychotic features
F31.7	Bipolar disorder, currently in remission
F31.71	Bipolar disorder, in partial remission, most recent episode hypomanic
F31.72	Bipolar disorder, in full remission, most recent episode hypomanic
F31.73	Bipolar disorder, in partial remission, most recent episode manic
F31.75	Bipolar disorder, in partial remission, most recent episode depressed

F31.77	Bipolar disorder, in partial remission, most recent episode mixed
F31.78	Bipolar disorder, in full remission, most recent episode mixed
F31.8	Other bipolar disorders
F31.81	Bipolar II disorder
F31.89	Other bipolar disorder
F31.9	Bipolar disorder, unspecified
F34.0	Cyclothymic disorder
F33.1	Major depressive disorder, recurrent, moderate
F33.2	Major depressive disorder, recurrent severe without psychotic features
F33.3	Major depressive disorder, recurrent, severe with psychotic symptoms
F33.4	Major depressive disorder, recurrent, in remission
F33.41	Major depressive disorder, recurrent, in partial remission
F33.8	Other recurrent depressive disorders
F33.9	Major depressive disorder, recurrent, unspecified
F34.8	Disruptive mood dysregulation disorder
F06.4	Anxiety disorder due to another medical condition
F40.0	Agoraphobia
F41.0	Panic disorder
F41.1	Generalized anxiety disorder
F41.9	Unspecified anxiety disorder
F93	Separation anxiety disorder
F94	Selective mutism
F06.8	Obsessive-compulsive and related disorder or other specified mental disorder due to another medical condition
F42	Obsessive compulsive disorder, hoarding, and related disorders
F42.2	(Mixed obsessional thoughts and acts)
F42.3	(Hoarding disorder)
F42.4	(Excoriation [skin-picking] disorder)
F42.8	(Other obsessive-compulsive disorder)
F42.9	Obsessive-compulsive disorder, unspecified
F45.22	Body dysmorphic disorder
F63.3	Trichotillomania (hair pulling disorder)
F43	Acute stress disorder
F43.1	PTSD
F43.12	(PTSD, chronic)
F94.1	Reactive attachment disorder
F44.0	Dissociative amnesia
F44.81	Dissociative identity disorder
F44.89	(Other specified dissociative disorder)
F45.22	Body dysmorphic disorder

F45.8	(Other specified somatic symptom and related disorder)
F48.1	(Dissociative disorders. Depersonalization/Derealization disorder)
F44.4	Conversion disorder with motor symptom or deficit
F44.5	Conversion disorder with seizures or convulsions
F44.6	Conversion disorder with sensory symptom or deficit
F44.7	Conversion disorder with mixed symptom presentation
F45.21	Hypochondriasis / (Somatic symptom and related disorders. Illness anxiety disorder)
F50	Eating disorders
F50.0	Anorexia nervosa
F50.01	Anorexia nervosa, restricting type
F50.02	Anorexia nervosa, binge eating/purging type
F50.2	Bulimia nervosa
F50.8	(Feeding and eating disorders. In adults) / Other eating disorders
F50.81	Binge eating disorder
F50.89	(Other specified feeding or eating disorder)
F98.3	(Feeding and eating disorders. In children) [Pica]
F98.1	Encopresis not due to a substance or known physiological condition
F64	Gender dysphoria
F63	Impulse disorders
F63.1	Pyromania / (Disruptive, impulse control, and conduct disorders. Pyromania)
F63.2	Kleptomania
F63.81	Intermittent explosive disorder
F91.1	Conduct disorder, childhood-onset type
F91.2	Conduct disorder, adolescent-onset type
F91.3	Oppositional defiant disorder
F91.8	Other conduct disorders
F91.9	Conduct disorder, unspecified
F10.2*	F10.22-.288 Now alcohol use disorder moderate, severe, alcohol intoxication with severe Sx, alcohol withdrawal with severe Sx, alcohol-induced disorders
F10.21	Alcohol dependence, in remission
F10.9*	Alcohol induced disorders; F10.96 Alcohol use, unspecified with alcohol-induced persisting amnestic disorder
F10.96	Alcohol use, unspecified with alcohol-induced persisting amnestic disorder
F11.1*	Opioid use disorder and intoxication, mild
F11.2*	Opioid use disorder and intoxication, severe
F11.20	Opioid dependence, uncomplicated
F11.21	Opioid dependence, in remission

F11.9*	Opioid induced disorders
F12.2*	Cannabis dependence
F12.20	(Substance-related and addictive disorders. Moderate, severe)
F13.1*	Sedative, hypnotic, or anxiolytic-related abuse
F13.2*	Sedative, hypnotic, or anxiolytic-related dependence
F13.20	Sedative, hypnotic or anxiolytic dependence, uncomplicated
F13.21	Sedative, hypnotic or anxiolytic dependence, in remission
F14.2*	Cocaine dependence
F14.20	Cocaine dependence, uncomplicated
F15.2*	Other stimulant dependence
F15.20	Other stimulant dependence, uncomplicated
F15.21	Other stimulant dependence, in remission
F16.2*	Hallucinogen dependence
F16.20	Hallucinogen dependence, uncomplicated
F16.21	Hallucinogen dependence, in remission
F18.2*	Inhalant dependence
F18.20	Inhalant dependence, uncomplicated
F18.21	Inhalant dependence, in remission
F19.2*	Other psychoactive substance dependence
F19.20	Other psychoactive substance dependence, uncomplicated
F19.21	Other psychoactive substance dependence, in remission
F63.0	Pathological gambling
F02.811	Dementia in other diseases classified elsewhere, unspecified severity, with agitation
F02.818	Dementia in other diseases classified elsewhere, unspecified severity, with other behavioral disturbance
F02.82	Dementia in other diseases classified elsewhere, unspecified severity, with psychotic disturbance
F02.83	Dementia in other diseases classified elsewhere, unspecified severity, with mood disturbance
F02.84	Dementia in other diseases classified elsewhere, unspecified severity, with anxiety
F02.A0	Dementia in other diseases classified elsewhere, mild, without behavioral disturbance, psychotic disturbance, mood disturbance, and anxiety
F02.A11	Dementia in other diseases classified elsewhere, mild, with agitation
F02.A18	Dementia in other diseases classified elsewhere, mild, with other behavioral disturbance
F02.A2	Dementia in other diseases classified elsewhere, mild, with psychotic disturbance
F02.A3	Dementia in other diseases classified elsewhere, mild, with mood disturbance

F02.A4	Dementia in other diseases classified elsewhere, mild, with anxiety
F02.B0	Dementia in other diseases classified elsewhere, moderate, without behavioral disturbance, psychotic disturbance, mood disturbance, and anxiety
F02.B11	Dementia in other diseases classified elsewhere, moderate, with agitation
F02.B18	Dementia in other diseases classified elsewhere, moderate, with other behavioral disturbance
F02.B2	Dementia in other diseases classified elsewhere, moderate, with psychotic disturbance
F02.B3	Dementia in other diseases classified elsewhere, moderate, with mood disturbance
F02.B4	Dementia in other diseases classified elsewhere, moderate, with anxiety
F02.C0	Dementia in other diseases classified elsewhere, severe, without behavioral disturbance, psychotic disturbance, mood disturbance, and anxiety
F02.C11	Dementia in other diseases classified elsewhere, severe, with agitation
F02.C18	Dementia in other diseases classified elsewhere, severe, with other behavioral disturbance
F02.C2	Dementia in other diseases classified elsewhere, severe, with psychotic disturbance
F02.C3	Dementia in other diseases classified elsewhere, severe, with mood disturbance
F02.C4	Dementia in other diseases classified elsewhere, severe, with anxiety
F03.911	Unspecified dementia, unspecified severity, with agitation
F03.918	Unspecified dementia, unspecified severity, with other behavioral disturbance
F03.92	Unspecified dementia, unspecified severity, with psychotic disturbance
F03.93	Unspecified dementia, unspecified severity, with mood disturbance
F03.94	Unspecified dementia, unspecified severity, with anxiety
F03.A0	Unspecified dementia, mild, without behavioral disturbance, psychotic disturbance, mood disturbance, and anxiety
F03.A11	Unspecified dementia, mild, with agitation
F03.A18	Unspecified dementia, mild, with other behavioral disturbance
F03.A2	Unspecified dementia, mild, with psychotic disturbance
F03.A3	Unspecified dementia, mild, with mood disturbance
F03.A4	Unspecified dementia, mild, with anxiety

F03.B0	Unspecified dementia, moderate, without behavioral disturbance, psychotic disturbance, mood disturbance, and anxiety
F03.B11	Unspecified dementia, moderate, with agitation
F03.B18	Unspecified dementia, moderate, with other behavioral disturbance
F03.B2	Unspecified dementia, moderate, with psychotic disturbance
F03.B3	Unspecified dementia, moderate, with mood disturbance
F03.B4	Unspecified dementia, moderate, with anxiety
F03.C0	Unspecified dementia, severe, without behavioral disturbance, psychotic disturbance, mood disturbance, and anxiety
F03.C11	Unspecified dementia, severe, with agitation
F03.C18	Unspecified dementia, severe, with other behavioral disturbance
F03.C2	Unspecified dementia, severe, with psychotic disturbance
F03.C3	Unspecified dementia, severe, with mood disturbance
F03.C4	Unspecified dementia, severe, with anxiety
G10	Huntington's disease
F60	Specific personality disorders
F60.0	Paranoid personality disorder
F60.1	Schizoid personality disorder
F60.2	Antisocial personality disorder
F60.3	Borderline personality disorder
F60.4	Histrionic personality disorder
F60.5	Obsessive-compulsive personality disorder
F60.6	Avoidant personality disorder
F60.7	Dependent personality disorder
F60.8	Other specific personality disorders
F60.81	Narcissistic personality disorder
F60.89	Other specific personality disorders
F60.9	Personality disorder, unspecified
F65*	Paraphilic disorder
G04	Encephalitis, myelitis and encephalomyelitis
G04.0	Acute disseminated encephalitis and encephalomyelitis (ADEM)
G04.3	Acute necrotizing hemorrhagic encephalopathy
G04.31	Postinfectious acute necrotizing hemorrhagic encephalopathy
G04.32	Postimmunization acute necrotizing hemorrhagic encephalopathy
G04.8	Other encephalitis, myelitis and encephalomyelitis
G04.81	Other encephalitis and encephalomyelitis
G04.9	Encephalitis, myelitis and encephalomyelitis, unspecified
G04.90	Encephalitis and encephalomyelitis, unspecified
G05	Encephalitis, myelitis and encephalomyelitis in disease classified elsewhere

G05.3	Encephalitis and encephalomyelitis in disease classified elsewhere
G09	Sequelae of inflammatory diseases of central nervous system
G11.0	Congenital nonprogressive ataxia
G11.1	Early-onset cerebellar ataxia
G11.10	Early-onset cerebellar ataxia, unspecified
G11.3	Cerebellar ataxia with defective DNA repair
G11.8	Other hereditary ataxias
G12	Spinal muscular atrophy and related syndromes
G12.0	Infantile spinal muscular atrophy, type I [Werdnig-Hoffman]
G12.1	Other inherited spinal muscular atrophy
G12.2	Motor neuron disease
G12.21	Amyotrophic lateral sclerosis
G12.25	Progressive spinal muscle atrophy
G12.29	Other motor neuron disease
G12.8	Other spinal muscular atrophies and related syndromes
G12.9	Spinal muscular atrophy, unspecified
G14	Postpolio syndrome
G23	Other degenerative diseases of basal ganglia
G23.0	Hallervorden-Spatz disease
G23.1	Progressive supranuclear ophthalmoplegia [Steele-Richardson-Olszewski]
G23.2	Striatonigral degeneration
G23.8	Other specified degenerative diseases of basal ganglia
G25.82	Stiff-man syndrome
G31.81	Alpers disease
G31.82	Leigh's disease
G31.9	Degenerative disease of nervous system, unspecified
G32.0	Subacute combined degeneration of spinal cord in diseases classified elsewhere
G35	Multiple sclerosis
G37.2	Central pontine myelinolysis
G37.5	Concentric sclerosis [Balo] of central nervous system
G37.8	Other specified demyelinating diseases of central nervous system
G37.9	Demyelinating disease of central nervous system, unspecified
G40.0	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset
G40.00	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset, not intractable

G40.001	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset, not intractable, with status epilepticus
G40.009	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset, not intractable, without status epilepticus
G40.011	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset, intractable, with status epilepticus
G40.101	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with simple partial seizures, not intractable, with status epilepticus
G40.109	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with simple partial seizures, not intractable, without status epilepticus
G40.11	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with simple partial seizures, intractable
G40.2	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures
G40.209	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, not intractable, without status epilepticus
G40.21	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, intractable
G40.219	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, intractable, without status epilepticus
G40.3	Generalized idiopathic epilepsy and epileptic syndromes

G40.30	Generalized idiopathic epilepsy and epileptic syndromes, not intractable
G40.301	Generalized idiopathic epilepsy and epileptic syndromes, not intractable, with status epilepticus
G40.309	Generalized idiopathic epilepsy and epileptic syndromes, not intractable, without status epilepticus
G40.31	Generalized idiopathic epilepsy and epileptic syndromes, intractable
G40.311	Generalized idiopathic epilepsy and epileptic syndromes, intractable, with status epilepticus
G40.319	Generalized idiopathic epilepsy and epileptic syndromes, intractable, without status epilepticus
G40.4	Other generalized epilepsy and epileptic syndromes
G40.40	Other generalized epilepsy and epileptic syndromes, not intractable
G40.401	Other generalized epilepsy and epileptic syndromes, not intractable, with status epilepticus
G40.409	Other generalized epilepsy and epileptic syndromes, not intractable, without status epilepticus
G40.41	Other generalized epilepsy and epileptic syndromes, intractable
G40.411	Other generalized epilepsy and epileptic syndromes, intractable, with status epilepticus
G40.419	Other generalized epilepsy and epileptic syndromes, intractable, without status epilepticus
G40.42	Cyclin-Dependent Kinase-Like 5 Deficiency Disorder
G40.5	Epileptic seizures related to external causes
G40.50	Epileptic seizures related to external causes, not intractable
G40.501	Epileptic seizures related to external causes, not intractable, with status epilepticus
G40.509	Epileptic seizures related to external causes, not intractable, without status epilepticus
G40.511	Special epileptic syndromes, intractable, with status epilepticus
G40.80	Other epilepsy
G40.801	Other epilepsy, not intractable, with status epilepticus
G40.809	Other epilepsy, not intractable, without status epilepticus

G40.811	Lennox-Gastaut syndrome, not intractable, with status epilepticus
G40.812	Lennox-Gastaut syndrome, not intractable, without status epilepticus
G40.813	Lennox-Gastaut syndrome, intractable, with status epilepticus
G40.814	Lennox-Gastaut syndrome, intractable, without status epilepticus
G40.819	Other epilepsy, intractable, without status epilepticus
G40.82	Epileptic spasms
G40.821	Epileptic spasms, not intractable, with status epilepticus
G40.822	Epileptic spasms, not intractable, without status epilepticus
G40.823	Epileptic spasms, intractable, with status epilepticus
G40.824	Epileptic spasms, intractable, without status epilepticus
G40.833	Dravet syndrome, intractable, with status epilepticus
G40.834	Dravet syndrome, intractable, without status epilepticus
G40.9	Epilepsy, unspecified
G40.90	Epilepsy, unspecified, not intractable
G40.901	Epilepsy, unspecified, not intractable, with status epilepticus
G40.909	Epilepsy, unspecified, not intractable, without status epilepticus
G40.91	Epilepsy, unspecified, intractable
I69.920	Aphasia following unspecified cerebrovascular disease
I69.921	Dysphasia following unspecified cerebrovascular disease
I69.922	Dysarthria following unspecified cerebrovascular disease
I69.923	Fluency disorder following unspecified cerebrovascular disease
B25.9	Cytomegaloviral disease, unspecified
Q90.2	Trisomy 21
Q90.9	Down syndrome, unspecified
Q99.2	Fragile X chromosome
I169.31	Cognitive deficits following cerebral infarction
* Indicates that all subcodes are included.	

Appendix B – Final YSHCN Screener for OHP Application

The next questions will be used to screen for a program for young adults with ongoing health conditions. This program covers more services than other OHP programs for adults like extra dental and vision services and more types of specialty care. If you choose to answer these questions, [individual name/s] will be screened for this medical program.

1. Currently, do you take prescription medicine? (This excludes vitamins and birth control.)

- Yes → Go to Question 1b
- No → Go to Question 1a

1a. Do you need prescription medicine that you do not get? (This excludes vitamins and birth control.)

- Yes → Go to Question 1b
- No → Go to Question 2

1b. Is this because of any health condition? A health condition is a physical, behavioral, developmental, emotional, or mental health condition.

- Yes → Go to Question 1c
- No → Go to Question 2

1c. Has this condition lasted for at least one year, or is it expected to last for at least one year?

- Yes → Go to Question 1d
- No → Go to Question 2

1d. Did this condition begin before you turned 19 years old?

- Yes → Go to Question 2
- No → Go to Question 2
- I am younger than 19 years old. → Go to Question 2

2. Do you often use medical care, mental health, or other health services?

- Yes → Go to Question 2b
- Yes, when your condition is worse or exacerbated → Go to Question 2b
- No → Go to Question 2a

2a. Do you need medical care, mental health, or other health services that you do not get?

- Yes → Go to Question 2b
- No → Go to Question 3

2b. Is this because of any health condition? A health condition is a physical, behavioral, developmental, emotional, or mental health condition.

- Yes → Go to Question 2c
- No → Go to Question 3

2c. Has this condition lasted for at least one year, or is it expected to last for at least one year?

- Yes → Go to Question 2d
- No → Go to Question 3

2d. Did this condition begin before you turned 19 years old?

- Yes → Go to Question 3
- No → Go to Question 3
- I am younger than 19 years old → Go to Question 3

3. Do you need assistance to do your everyday activities? Examples of everyday activities include cooking, doing housework, completing paper work or school work, going to school or work or appointments, spending time with friends, and other activities. Assistance can include someone helping you or using a device or equipment to help you.

- Yes, all of the time → Go to Question 3a
- Yes, some of the time → Go to Question 3a
- No → Go to Question 4

3a. Is this because of any health condition? A health condition is a physical, behavioral, developmental, emotional, or mental health condition.

- Yes → Go to Question 3b
- No → Go to Question 4

3b. Has this condition lasted for at least one year, or is it expected to last for at least one year?

- Yes → Go to Question 3c
- No → Go to Question 4

3c. Did this condition begin before you turned 19 years old?

- Yes → Go to Question 4
- No → Go to Question 4
- I am younger than 19 years old → Go to Question 4

4. Do you get treatment or counseling for a mental health, substance use, or emotional condition? Treatment or counseling can include talk therapy, group therapy, hospitalization, inpatient or outpatient care, exposure therapy, Applied Behavior Analysis, and other treatments.

- Yes → Go to Question 4b
- Sometimes → Go to Question 4b
- No → Go to Question 4a

- 4a. Do you need treatment or counseling for a mental health, substance use, or emotional condition that you do not get?**
- Yes → Go to Question 4b
 - No → Go to Question 5
- 4b. Has this condition lasted for at least one year, or is it expected to last for at least one year?**
- Yes → Go to Question 4c
 - No → Go to Question 5
- 4c. Did this condition begin before you turned 19 years old?**
- Yes → Go to Question 5
 - No → Go to Question 5
 - I am younger than 19 years old → Go to Question 5
- 5. Do you often use medical therapies? Medical therapies can include acupuncture, dialysis, infusions, physical therapy, occupational therapy, speech therapy, respiratory therapy, therapy to manage or reduce pain, and others. Medical therapies do not include counseling or talk therapy.**
- Yes → Go to Question 5b
 - No → Go to Question 5a
- 5a. Do you often need medical therapies that you do not get?**
- Yes → Go to Question 5b
 - No → Go to Question 6
- 5b. Is this because of any health condition? A health condition is a physical, behavioral, developmental, emotional, or mental health condition.**
- Yes → Go to Question 5c
 - No → Go to Question 6
- 5c. Has this condition lasted for at least one year, or is it expected to last for at least one year?**
- Yes → Go to Question 5d
 - No → Go to Question 6
- 5d. Did this condition begin before you turned 19 years old?**
- Yes → Go to Question 6
 - No → Go to Question 6
 - I am younger than 19 years old → Go to Question 6
- 6. Do you often use medical equipment or assistive devices? Medical equipment and assistive devices include canes, communication devices,**

crutches, diabetes pumps, gastrointestinal tubes, hearing aids, nebulizers, note-taking systems, reminder systems, ventilators, vision aids, wheelchairs, and other equipment and devices.

- Yes → Go to Question 6b
- No → Go to Question 6a

6a. Do you need medical equipment or assistive devices that you do not have?

- Yes → Go to Question 6b
- No → End YSHCN Questions

6b. Is this because of any health condition? A health condition is a physical, behavioral, developmental, emotional, or mental health condition.

- Yes → Go to Question 6c
- No → End YSHCN Questions

6c. Has this condition lasted for at least one year, or is it expected to last for at least one year?

- Yes → Go to Question 6d
- No → End YSHCN Questions

6d. Did this condition begin before you turned 19 years old?

- Yes → End YSHCN Questions
- No → End YSHCN Questions
- I am younger than 19 years old → End YSHCN Questions

Appendix C – YSHCN PERCs

The newly established YSHCN PERCs are listed here and will go into effect January 1, 2025. CCOs may reference the 2025 Capitation Crosswalk (the final version will be available at <https://www.oregon.gov/oha/HSD/OHP/Pages/Encounter-Data.aspx>).
