

Non-Emergent Medical Transportation Technical Advisory Committee

Are you passionate about improving health care access? Join the Oregon Health Authority's Non-Emergency Medical Transportation (NEMT) Technical Advisory Committee (TAC) and make a difference in Oregon Medicaid!

About the NEMT TAC:

The NEMT TAC just completed its first year of work and is now looking for additional TAC members to join us for year two. Your expertise and experience are vital in improving NEMT services for Oregon Health Plan (OHP) members. NEMT is essential in ensuring access to vital medical appointments, yet challenges like late pick-ups, no-shows and limited accessibility persist.

We are seeking:

- **1 OHP member** who currently uses the NEMT benefit (or the parent/legal guardian of a child on OHP who uses NEMT).
- **2 medical office staff** responsible for assisting or coordinating NEMT rides for OHP members. This includes clinical staff, care coordinators, medical providers, and administrative staff.

Our commitment to diversity:

We are dedicated to ensuring equitable representation, including geographic, racial, ethnic, disability, and language diversity to make sure all voices are heard.

Commitment:

- **Duration:** Year 2 of the TAC will launch in November 2024.
- **Meetings:** You'll meet remotely, dedicating 2-4 hours per month.
- **Support:** We provide accommodations, including interpretation services and disability support, to ensure everyone's full participation.

Why join?

Your insights will be invaluable in advising the Oregon Health Authority (OHA) on policies and rules that improve the equity, timeliness, and accessibility of transportation services for OHP members.

Apply now:

Ready to make a difference? [Apply here: NEMT TAC Application](#) before Sept. 27, 2024, to join the NEMT TAC and help us improve transportation services for all OHP members.

For any questions, contact David Simnitt with DS Consulting at dsimnitt.dsc@gmail.com or 503-451-0008.
