Introduction

The *Pharmacy Claim Instructions* handbook is designed to help those who bill the Oregon Health Authority (OHA) for Medicaid services submit their claims correctly the first time. This will give you step-by-step instructions so that OHA can pay you, the provider, more quickly.

Use this handbook with the Oregon Health Plan (OHP) General Rules and your provider guidelines (administrative rules and supplemental information), which contain information on policy and covered services specific to your provider type.

- You can find all OHP provider guidelines at www.oregon.gov/OHA/HSD/OHP/pages/policies.aspx.
- As noted in Oregon Administrative Rule 410-121-0100 Drug Use Review, also follow Oregon Board of Pharmacy rules defining specific requirements relating to patient counseling, record keeping and screening.

This handbook lists the requirements for completion prior to sending your claim to OHA for payment processing, as well as helpful hints on how to avoid common billing errors. It is designed to assist the following providers¹:

- Pharmacy providers
- Durable Medical Equipment providers billing for diabetic supplies

The pharmacy claim is also known as the NCPDP claim. Throughout this billing guide you will see the claim type referred to as a pharmacy claim.

Claims processing

The federal government requires OHA to process Medicaid claims through an automated claim processing system known as MMIS - the Medicaid Management Information

¹ If in doubt of which claim format to use, contact Provider Services at 800-336-6016, or refer to your provider guidelines.

System. This system is a combination of people and computers working together to process claims.

Paper claims

Paper claims submitted by mail go first to the DHS/OHA Office of Imaging and Records Management Services.

- The document is scanned through an Optical Character Recognition (OCR)
 machine and the claim is given an Internal Control Number (ICN).
- The scanned documents are then identified and sorted by form type and indexed by identifiers such as client name, prime identification number, the date of service, and provider number.
- Finally, the data is entered in the MMIS and images of the documents are stored on an Electronic Document Management System (EDMS).

Web claims

Data from web claims directly enter the MMIS if all information is entered correctly. Electronic data interchange (EDI, or electronic batch submission) claims are reviewed for compliance and translated from the HIPAA standard formats for MMIS processing.

About the ICN

The ICN is a unique identifier.

- The first two digits indicate the type of format of the claim (e.g., '22'Web claim, '10' paper claim, '20' electronic).
- The next two are the year; '11' (2011).
- The next three are the Julian date; "031" (January 31).
- The remaining digits are details of the claims regarding how they are 'batched' within the MMIS.

Claim review

Once the data enters the MMIS, staff can immediately access submitted claim information by checking certain MMIS screens.

The system performs daily edits for presence and validity of data as each claim is processed. Once a week, the system audits all claims to ensure that they conform to medical policy. Every weekend, a payment cycle runs, and the system produces checks for claims that successfully pass all edits and audits.

If MMIS cannot make a payment decision based on the information submitted or if policy determines manual review is needed, the claim is routed to OHA staff for specific manual, medical or administrative review. This type of claim is a *suspense* (*suspended*) claim.

Remittance advice

OHA does not return denied claims to providers in this process. Instead, OHA sends a listing of all claims paid and/or denied to the provider (with payment if appropriate). The listing is called a Remittance Advice (RA).

- The RA comes in paper and electronic formats. The paper format will list suspended claims while the electronic does not.
- If you aren't already receiving the electronic RA, contact EDI Support at DHS.EDISupport@state.or.us. for more information.

Before you bill OHA:

- Verify that the client is eligible on the date of service for the services rendered.
 Claims for services to clients enrolled with an OHP managed care organization (MCO) or coordinated care organization (CCO) must be billed to the appropriate MCO/CCO.
- 2. Medicaid is always the payer of last resort. If the client has Medicare or third-party insurance, bill them first before billing Medicaid.
- 3. Verify that the drug you are billing is rebateable (*i.e.*, part of the federal Medicaid Drug Rebate Program). To verify that an NDC is rebateable, search for it in the CMS rebate drug product data file on the CMS Medicaid Drug Rebate Program Data page. If the NDC is on file, it is rebateable.

Pharmacy web claim instructions

When to submit a web claim

In order to use the web portal to submit claims, you must have received your Personal Identification Number (PIN) from OHA. If you do not know your PIN, contact Provider Services at 800-336-6016 for assistance.

Do not submit a web claim when:

- You need to submit hard copy attachments (e.g., written documentation). If you submit a web claim for a service that requires attached documentation, the claim will suspend, then deny for missing documentation. Always bill on paper for claims that require attachments.
- You need to bill for services more than a year after the date of service.
 Claims past timely filing limits must be sent on paper.

Before you submit a web claim

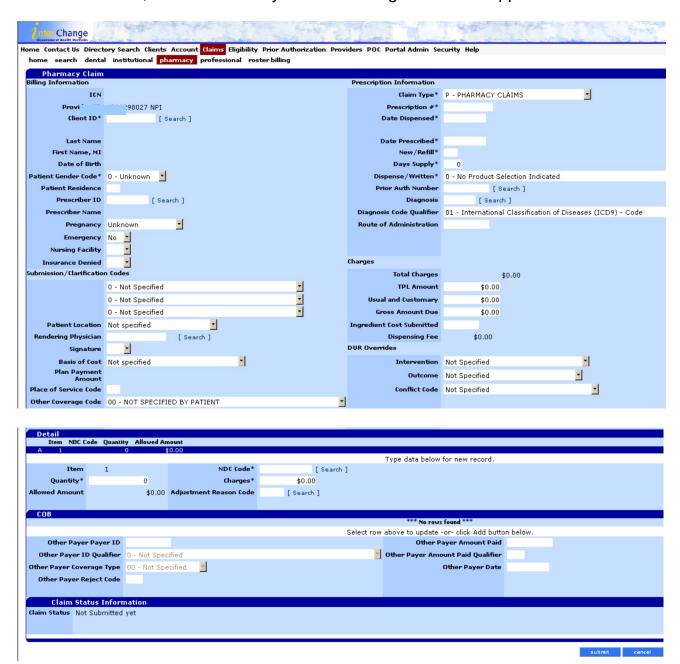

The following list will help you to better understand what needs to be done prior to submitting a web claim.

- Verify that you are signed on and are acting on behalf of the correct provider. It is crucial to make sure you are logged on under the correct provider number because this is the provider OHA will pay.
- You must complete and submit the claim in its entirety in order to save the data entered. Partially completed claims data cannot be saved.
- The session will end after 20 minutes of inactivity. Any work or changes that have not been submitted will be lost.
- The pharmacy claim has three screens (see below). In some screens you simply
 move from field to field while in others you must indicate you wish to "Add"
 information by selecting the "Add" button. Make sure you review all screens and
 enter all required and/or applicable data in each screen.
 - 1. Pharmacy Claim Header
 - 2. Detail

Important notes about paper claim processing

OHA processes all hardcopy claims using Optical Character Recognition (OCR) scanning. To avoid processing delays, use only commercially available forms (not black and white copies).

- If your forms are not to scale, or if the fields on your form are not correctly aligned, OHA will manually enter your claim, which may delay processing of the claim.
- If any claim information is handwritten, write clearly and in the appropriate box. Client identification numbers are alpha numeric so it can be difficult to distinguish between the number zero ("0") and the letter "O", the number one ("1") and the letter "I", or the number five ("5") and the letter "S". These errors can cause a claim to deny.

NCPDP 5.1 Universal Claim Form

Shaded boxes indicate the fields OHA uses to process your claim; your claim may suspend or deny if one or more of these fields are empty or incorrectly completed.

Required NCPDP UCF 5.1 fields

Shaded fields are always mandatory. Unshaded fields are optional or required only in certain circumstances.

Helpful tips

Additional information is available on the OHP website at www.oregon.gov/OHA/HSD/OHP. Click on "Tools for Providers," then "Billing tips."

READ your provider guidelines! Pay special attention to the billing instructions. Be sure you have the most current rulebook and supplemental information that are in effect for the date of service you are billing for.

- Provider guidelines are available at www.oregon.gov/OHA/HSD/OHP/pages/policies.aspx.
- If you do not have internet access, you may contact OHA at 800-527-5772 and ask to have provider guidelines mailed to you.

VERIFY client eligibility on the date the service is being provided. Use one of the services listed on OHP's Eligibility Verification Web page at www.oregon.gov/OHA/HSD/OHP/Pages/Eligibility-Verification.aspx.

- Provider Portal: Go to https://www.or-medicaid.gov;
- Automated Voice Response (AVR): Call 866-692-3864;
- 270/271 EDI transaction: Available to approved Electronic Data Interchange (EDI) providers. Go to www.oregon.gov/OHA/HSD/OHP/Pages/edi.aspx for more EDI information.

The client name and number on the claim needs to match the name and number on the Oregon Health ID. A Client ID number is always eight characters and is listed on the front of the Oregon Health ID. The <u>General Rules</u> supplemental information book shows an example of an Oregon Health ID.

MAKE SURE that you billed prior resources and reported the correct dollar amount.

DO NOT attach prior resource EOBs unless specifically requested.

ALWAYS USE the correct Other Coverage Code when the client has TPR.

USE only one prior authorization number.

ALWAYS ENTER the OHA 6- or 9-digit provider number you want OHA to send payment to in the Billing Provider (Service Provider ID) field. It is crucial that you list this information. An invalid or missing provider number could delay your payment, make payment to a wrong provider or deny your payment.

CHECK your claim form for legibility so that we can clearly read it. Avoid tiny print, print that overlaps onto a line, entering more than 6 lines per claim, and poorly hand written claim forms. Complete only the required boxes.

READ the explanation of benefit (EOB) codes on your Remittance Advice. They will tell you what the error is, and if you should re-bill or submit an adjustment request.

CONTACT the Oregon Pharmacy Call Center at 888-202-2126 for assistance in completing your NCPDP UCF. 5.1 claim form, pharmacy Web claim, or if you have other questions regarding pharmacy claims.
