SECTION 2. PROGRAM AND POSITION INFORMATION

a. Describe the program in which this position exists. Include program purpose, who's affected, size and scope. Include relationship to agency mission.

OHA values health equity, service excellence, integrity, leadership, partnership, innovation, and transparency. OHA's health equity definition is "Oregon will have established a health system that creates health equity when all people can reach their full potential and well-being and are not disadvantaged by their race, ethnicity, language, disability, age, gender, gender identity, sexual orientation, social class, intersections among these communities or identities, or other socially determined circumstances. Achieving health equity requires the ongoing collaboration of all regions and sectors of the state, including tribal governments to address: the equitable distribution

or redistribution of resources and power; and recognizing, reconciling, and rectifying historical and contemporary injustices." OHA's 10-year goal is to eliminate health inequities.

The Health Policy and Analytics Division is aligned with the Oregon Health Authority's core values of partnership, service excellence, leadership, integrity, health equity, innovation, and transparency. In our practice, these values are expressed through:

Service Excellence:

- Understanding and responding to Oregon public health needs and the people we serve
- Pursing our commitment to innovation and science-based best practices
- Fostering a culture of continuous improvement

Leadership:

- Building agency-wide and community-wide opportunities for collaboration
- Championing public health expertise and best practices

 Creating opportunities for individual development and leadership Integrity:

• Working honestly and ethically in our obligation to fulfill our public health mission

• Ensuring responsible stewardship in public health resources

Health Equity:

- Eliminating health disparities and working to attain the highest level of health for all people
- Ensuring the quality, affordability, and accessibility of health services for all Oregonians
- Integrating social justice, social determinants of health, diversity, and community Partnership:
 - Working with partners and communities to protect and promote the health of all Oregonians
 - Seeking, listening to, and respecting internal and external ideas and opinions

• Exploring and defining the roles and responsibility of public health staff and partners Innovation:

• We are not satisfied with the status quo if there are new and better ways to meet the needs of the people we serve. We bring creativity, experience, and openness to our search for solutions to problems. We pursue opportunities to develop new evidence to evolve our practices.

Transparency:

• We communicate honestly and openly, and our actions are upfront and visible. We provide open access to information and meaningful opportunities to provide input and participate in our decision-making.

HPA is organized into seven offices: The Office of Health Policy; the Office of Delivery Systems Innovation; the Office of Health Analytics; the Office of Health Information Technology; the Public Employees Benefit Board and the Oregon Educators Benefit Board; the Oregon Health Insurance Marketplace, and ; the Office of Business Operations. The Division is responsible for providing agency-wide policy development, strategic planning, clinical leadership, and statewide delivery system technology tools to support care coordination, health system transformation support, and health system performance evaluation reports.

This position is situated within the DSI Office but works collaboratively with all areas of HPA as well as the Oregon Public Health Division, the Health Services Division and other parts of the agency.

The Health Evidence Review Commission reviews evidence about health services in order to prioritize health spending in the Oregon Health Plan and to promote evidence-based medical practice statewide. Its work products include the Prioritized List of Health Services as well as evidence-based reports, including coverage guidance, health technology assessments and evidence-based practice guidelines. The commission uses a transparent public process to ensure that its decisions are made in the best interest of patients and taxpayers while considering input from providers and members of the public, including those affected by the conditions discussed.

b. Describe the primary purpose of this position, and how it functions within this program. Complete this statement. The primary purpose of this position is to:

The Medical Director's primary responsibility is to make evidence- and equity based recommendations regarding coverage and prioritization of health services for the Health Evidence Review Commission to use in maintaining the Prioritized List of Health Services and in developing evidence-based reports. The Prioritized List governs coverage for over 1 million Oregonians on the Oregon Health Plan. In order to make these recommendations, the Medical Director must conduct literature reviews, synthesize the available evidence, consult with experts, consider the equity impact of current policy and any proposed changes and write concise summaries for the use of the Commission. The medical director must also consider and respond to feedback from patients, providers, policy experts and OHA leadership. This information will be presented to the Commission in public meetings.

In addition, the medical director consults with other staff within OHA on other topics such as appeals of coverage denials and implementation of benefits. The Medical Director will also provide clinical expertise from an equity- and evidence-based perspective. The medical director represents OHA and the HERC to provider groups as well as other organizations and the public. The medical director serves as a liaison between the medical community and OHA on a variety of topics.
