- 2. Curiosity is queen.** *Be open to continuous learning along the way.*
- 3. Explain and unpack** *jargon and acronyms.*
- 4. Be present, be authentic.** *Show up as fully as you can in the way that is most comfortable for you. ("Be present, be authentic", as a way to invite others to feel comfortable being present at the table as themselves, and meet others in the same way?)*
- 5. Honor all experiences and expertise.** *Appreciate others as human beings with abundant and interconnected experiences.*
- 6. Extend grace to each other and to ourselves.** *Assume best intentions.*

What is the State Health Improvement Plan (SHIP)?

Vision:

Oregon will be a place where health and wellbeing are achieved across the lifespan for people of all races, ethnicities, disabilities, genders, sexual orientations, socioeconomic status, nationalities and geographic locations.

Who is the SHIP for

Everyone in Oregon

HTO focused on the following OR residents:

- Black, Indigenous, People of Color, and American Indian/ Alaska Native
- People with low incomes
- People who identify as LGBTQIA+
- People with disabilities
- People living in rural areas

Our center: health equity

Oregon will have established a health system that creates health equity when all people can reach their full health potential and well-being and are not disadvantaged by their race, ethnicity, language, disability, age, gender, gender identity, sexual orientation, social class, intersections among these communities or identities, or other socially determined circumstances.

Achieving health equity requires the ongoing collaboration of all regions and sectors of the state, including tribal governments to address:

- The equitable distribution or redistribution of resources and power; and
- Recognizing, reconciling and rectifying historical and contemporary injustices.
