OHA Staff: Jameela Norton, Sara Beaudrault, Rose Harding, Dulce Sanabria, Cintia Vimieiro, Dean Sidelinger

MetGroup: Kirsten Gunst, Kristin Gimbel, Debra Clark

Welcome and Agenda Review

- Meeting started with brief introductions of speakers, and guest scribe
- Key agenda items included Health Priority Topics and SHA Updates.

Group Agreements Shared. No updates or additions requested.

Relationship Building

- “What is a data source that you’ve used in your work? Tell us about it. What did the data help you realize?”
 - o People were put into breakout rooms to discuss the topic and reflect.

Health Topic Priorities of Steering Committee

- Prior to the meeting staff encouraged members of the committee to fill out a survey with 3 health topic priorities. The scribe produced a draft visual of priorities. The facilitator asked for a round robin of members verbally reporting out their priorities. Members were encouraged to indicate agreement in the chat as topics were introduced and shared. During the discussion members of the committee shared Health Topics that they wanted to prioritize in this work, with topics then placed in a visual.
- Topics and topic frequency were tracked using a visual made by Reilly Dow.
 - o In order of frequency, topics mentioned:

- Mental Health, Substance Use Disorder (SUD), Housing and Social and Environmental Determinants of Health (SDOH) all had the highest frequency of being mentioned. Additionally, SDOH's various subfactors (Food insecurity, Affordable childcare, opportunity index (jobs, wages, poverty, inequality), linguistic isolation, language barriers) were all brought up specifically.
- Access to clinical preventative services, with a focus on "Preventative care vs. Interventionist care" and targeted towards vulnerable populations, as well as Diabetes (including Junior diabetes) were the second most frequently brought up topics
- Other topics identified as priorities:
 - Lack of community, social connections and belonging.
 - Caregiver health.
 - Stress and physical health related to this.
 - Access to care from providers and access to health broadly.
 - Cultural barriers / culturally specific services (including Mental / Behavioral Health), as determined by person accessing services.
 - Isolation experienced by BIPOC and refugees.
 - Nutrition.
 - Inter-generational focus.
 - Active transportation.
 - Physical inactivity.
 - Physical & social isolation, food & housing insecurity, access to disease prevention & health promotion for rural older adults.

SHA Updates provided by Jameela Norton:

- **Mission, Vision and Values**
 - Smaller group has finalized input on definitions.
 - 09/06: We presented to public health Tribal Directors and identified next steps. TJ will work with Julie Johnson (OHA's Director of Tribal Affairs) to update Mission to include the 9 Federally Recognized Tribes of Oregon.

-SHIP Development Mini Grants

- Ten \$15,000 Contracts available- Subcommittee decided the number of contracts and amount.

- Application available mid-November
- Timeline of work (Anticipated) Feb 2025 – July 2025
- Community Information Gathering: Health Priorities and Strategies
 - Priority funding to groups serving:
 - Black, Indigenous, people of color and American Indian / Alaska Native people (BIPOC-AI/AN)
 - People with low incomes
 - People who identify as lesbian, gay, bisexual, transgender, queer and questioning (LGBTQ+)
 - People with disabilities
 - Additional Non 2018 HTO Categories:- Older adults/Elderly/older adults, Pregnant/Postpartum people, early childhood, caracal community, people who are reentering our communities from incarceration, Veterans/Military personal, single parent households, victims/survivors of domestic violence, Migrant and Seasonal Farmworkers, immigrant and refugee communities)

- **Community Engagement**
- OHA is presenting at webinars to inform communities about SHA efforts and set the stage for continued engagement for SHIP development. These presentations are 25-50 min depending on audience preference, presenting in both Spanish and English.
- If there is a space you would like us to present. please reach out to Jameela
- Planning to develop materials for Steering Committee members to share with their networks

SHA Outline Update- Our team is working to compose the SHA and the contents of the SHA will be informed by steering committee.

1. Vision / Values (October)
2. Members of the steering committee (October, draft, December finalize)
3. Intro/framework (October)
4. Key findings of the SHA)4-6 top points) (Jan/Feb)
 - How healthy is OR?

- What's important to OR?
 - What contributes to health disparities?
 - What assets improve health?
5. How the SHA was developed (immediate)
 6. Status, possible part of the SPA here too (OR demographics and changes over time are required by PHAB) (October / November), Nita / Victoria
 7. Assessments: (November)
 8. Community engagement (October / November)
 9. Data that we want to share, with a focus on the SC priorities and organizing metrics through HTO and / or the SPHI (November / December)
 10. What matters about the health of Oregon: (strengths, attributes, opportunities and etc)
 11. Any other conclusions or next steps

1:50pm Opportunity for members of the public to share information with committee. No comments made.
