Vaccine Inventory Management & Accountability

(...plus a lot of info on borrowing...)

What to Expect

- Oregon Stewardship Law
- Vaccine Inventory Management
- Borrowing
- Accountability

Possibly Fun Quiz

Resources for the Future

Oregon's Vaccine Stewardship Law

Requirements:

- Inventory management in ALERT IIS
- Staff training
- Reconcile inventory prior to ordering
- Report all immunizations to ALERT IIS within 14 days

Vaccine Inventory Management Means...

- Adding both VFC & private stock to ALERT inventory.
 - Accepting electronic order transfers in ALERT when vaccine arrives in the clinic.
- ≥ 95% of doses accounted for in ALERT IIS.
 - Valid VFC eligibility code for each immunization given.
 - Dose on immunization record deducts from inventory with a matching vaccine lot number.
 - Reconcile doses that were not given to patients.
 - No more than 5% combined wasted/spoiled/expired
- Borrowing is a rare occurrence

Vaccine Inventory Management & Borrowing

- ALERT tracks borrowed inventory
 - Mismatch between eligibility code and inventory funding source
- Might be an eligibility coding problem or true borrowing
- True borrowing must be paid back

Borrowing on the Transactions Report...

Vaccine Transactions for Organization: ERIN'S PRIVATE CLINIC - AL000N - 00000N Record Count:										
Site Name	Trans Date	Lot \ Funding Source \ Trade Name	Туре	Qty	Patient Name	DOB				
ERIN'S PRIVATE CLINIC	06/07/2023	ML9801P \ State \ AFLURIA Quad PF	REC	10						
ERIN'S PRIVATE CLINIC	06/07/2023	ML9801P \ State \ AFLURIA Quad PF	Borrowed	-1	BROWNING, LIAM	09/12/2018				
ERIN'S PRIVATE CLINIC	06/07/2023	R020683 \ Private \ MMR II	Immunize	-1	BROWNING, LIAM	09/12/2018				
ERIN'S PRIVATE CLINIC	06/07/2023	R020683 \ Private \ MMR II	Immunize	-1	BROWN, LIZ	01/27/1968

Ad Hoc List Report & Borrowing

									Inventory
	Patient First	Patient Last	Vaccination		Vaccine		Borrowed		Funding
Birth Date	Name	Name	Date	Vaccine	Eligibility	Vaccine Lot	Inventory	Inventory	Source
03/11/2017	SHIRLEY	TEMPLE	12/07/2022	DTaP	В	T8421CA	Yes	Yes	STATE
05/21/1950	TINA	KNOWLES	12/12/2022	Influenza, high-dose, quad, PF	В	PH3533B	No	Yes	PRIVATE
02/26/1950	MORGAN	FREEMAN	12/20/2022	Influenza, high-dose, guad, PF	В	PH3833B	(null)	No	
01/07/2022	CARMEN	MIRANDA	12/05/2022	Flu quadrivalent injectable pfree		J7C77	Yes	Yes	STATE
09/10/2017	BLUEY	HEELER	12/09/2022	DTaP	М	T8421CA	No	Yes	STATE

- Only doses that deduct inventory will show "Borrowed" Yes/No
- If doses do not deduct inventory, "Borrowed" will show (null)
- Missing eligibility can lead to a borrow

Ad Hoc List Report & Borrowing

From Inventory:

Can be Yes, no, or blank

Borrowed Inventory:

Can be Yes, no, or (null)

- ➤ If immunization did not deduct from inventory, ALERT will not be able to show as borrowed
 - No Inventory Transaction
 - Borrowing on Ad Hoc will be (null)

Correcting "False" Borrowing

Lots of the time, it is a coding problem.

WRONG	RIGHT
State-Supplied Vaccine Coded B	VFC is coded M, N, or A for kids only!
Adult with Medicaid/OHP coded M	Insured patients – and all adults – must be coded B

- Correct the coding = fix the problem
- No need to delete or resend immunization if all other information is correct

Eligibility Codes for Clinics using State-supplied Vaccine

PRIVATE CLINIC ELIGIBILITY CODING

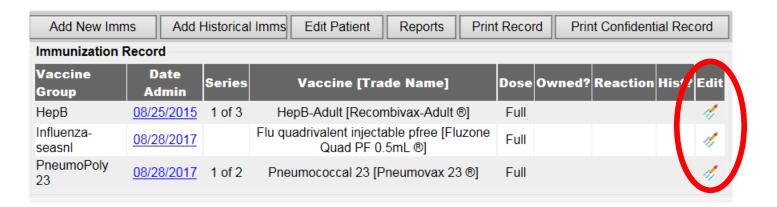

Eligibility codes must be documented in patient medical records for every dose of vaccine administered.

Patient Age	Patient Population	Eligibility Code	Vaccine Stock	
0 through 18	No Insurance	N	VEC	
	OHP/ M edicaid (children only)	М		
	American Indian/Alaskan Native	А	VFC	
	Underinsured (in FQHC/RHC only)	F		
All Ages	Billable (Privately insured patients and adults on OHP/Medicaid)	В	Private	
	Special Projects (rarely used, only when funds are available)	S	State	

Correct in EHR and ALERT

 ALERT will not take code updates via data exchange – to fix in ALERT:

Only track on paper Borrowing Log if truly borrowed

Documenting True Borrowing

Oregon Vaccines for Children Borrowing Log

Vaccine	Patient Name or ID	DOB	Stock Borrowed	Lot # (Optional)	Date Borrowed	Reason Borrowed	Date Paid Back ¹
Example: ActHib	Jane Doe	11/8/17	Private	UI181AAC	1/20/18	8	2/2/18

Paying Back Borrowing

- If the wrong vaccine was used, it is a truly borrowed dose
 - Ex: VFC Flu given to an adult
- Must be paid back within 90 days and tracked on Borrowing Log
- Move vaccine in fridge and in ALERT Inventory

Questions on Borrowing?

OK... switching gears...

Vaccine Accountability & the Oregon VFC Program

Accountability is...

 Clear line of transactions for the use of all vaccine, down to the patient immunization record level

EHR Data linked to ALERT

- Good data quality → good inventory management
- Good inventory management → high accountability

Accountability & the Oregon VFC Program

Why does it matter?

- It's state law
- Provides assurance that vaccine is getting to the intended population
- Gives us insight into a clinic's need for training & support
- Enables continued participation in VFC

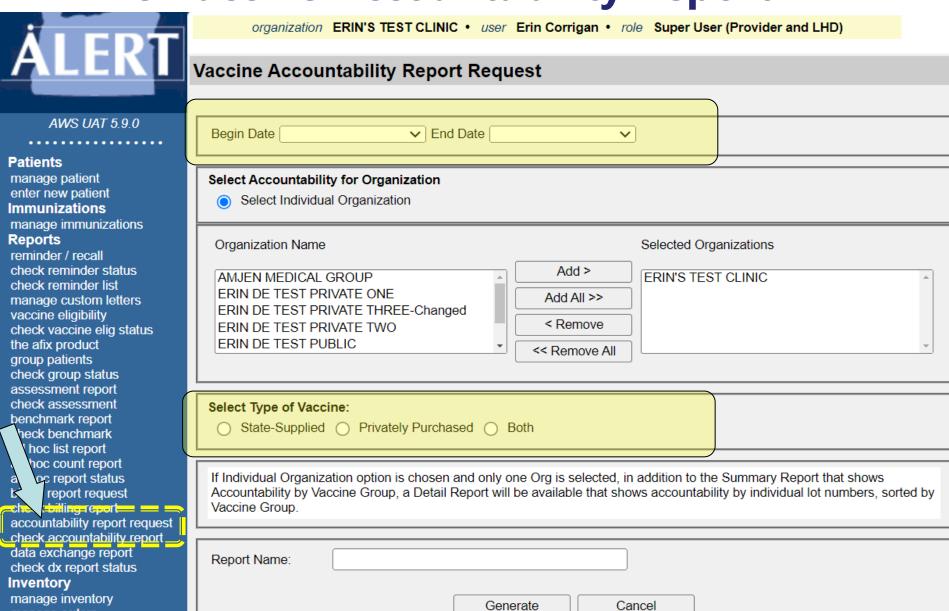

Vaccine Accountability

- Goal: 95% or better
- Less than 5% wasted, spoiled and expired
- Doesn't include flu or COVID-19
- Check it yourself in ALERT

Funding Source: Both

What Lowers Accountability...

- **Doses not deducting from Inventory**
 - Use Ad Hoc List report to troubleshoot common problems:
 - Typos in lot number from EHR
 - Use the lot number on the outer packaging
 - Entering a lot number with the letter "O" instead of the number "0"
 - If entering directly in ALERT, don't forget to check the box: |Enter New Immunization

From ALERT IIS Inventory

What Lowers Accountability...

REMEMBER:

The goal is to have a transparent audit trail.

Manually modifying inventory does not allow that.

Manually adjusting inventory

Frequent use of "Doses Administered" lowers accountability

Eligibility code issues

- No eligibility code sent to ALERT
- Coding adults as "M"
 - ALERT IIS will reject the eligibility code for adults coded as "M"
 - Should be coded as "B" for Billable or "S" if enrolled in a Special Project

Quiz Time!

 All vaccine should be manually entered in ALERT inventory.

 All vaccine should be manually entered in ALERT inventory.

- False, and a Trick Question!
- All vaccine must be put into ALERT Inventory. State-supplied vaccine comes as a transfer that you accept to add to inventory. Only private stock is entered manually.

 Vaccine Accountability relies on good data entry.

 Vaccine Accountability relies on good data entry.

True

One of the most common Stewardship findings is low inventory deduction, which happens when incorrect lot numbers are entered and sent from the EHR.

• Borrowing is a way to stretch out the time between vaccine orders.

 Borrowing is a way to stretch out the time between vaccine orders.

False

 You should carry enough vaccine to cover all your patients. If there is an unexpected delay, you can borrow to prevent a missed opportunity.
