PART II—NARRATIVE REQUIREMENTS
December 31, 2023

Describe the Resources Made Available

In 2023 IFA had \$12,724,579 in available CDBG resources to award to units of general local government (UGLG). Table I below illustrates the information more clearly but a quick summary is provided below:

- 1) FY2023 annual grant (amount available for projects) \$11,054,439
- 2) FY2022 and prior year unobligated funds \$ 1,670,140 (in the process of preparing this report some projects closed out with unused award therefore it came back to the FY2022),

Describe the Investment of Available Resources

The available resources were not fully invested within PY2023. Table I illustrates that the 2023 funds obligated by December 31, 2023.

Variance between Targeted and Awarded Funding in 2023

The 2023 Method of Distribution (MOD) identifies that OBDD intended to award funds according to the target percentages, but OBDD is not obligated to award all the funds targeted to each category, i.e., if enough projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA will conduct a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received, was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the 2023 MOD, and for the following reasons:

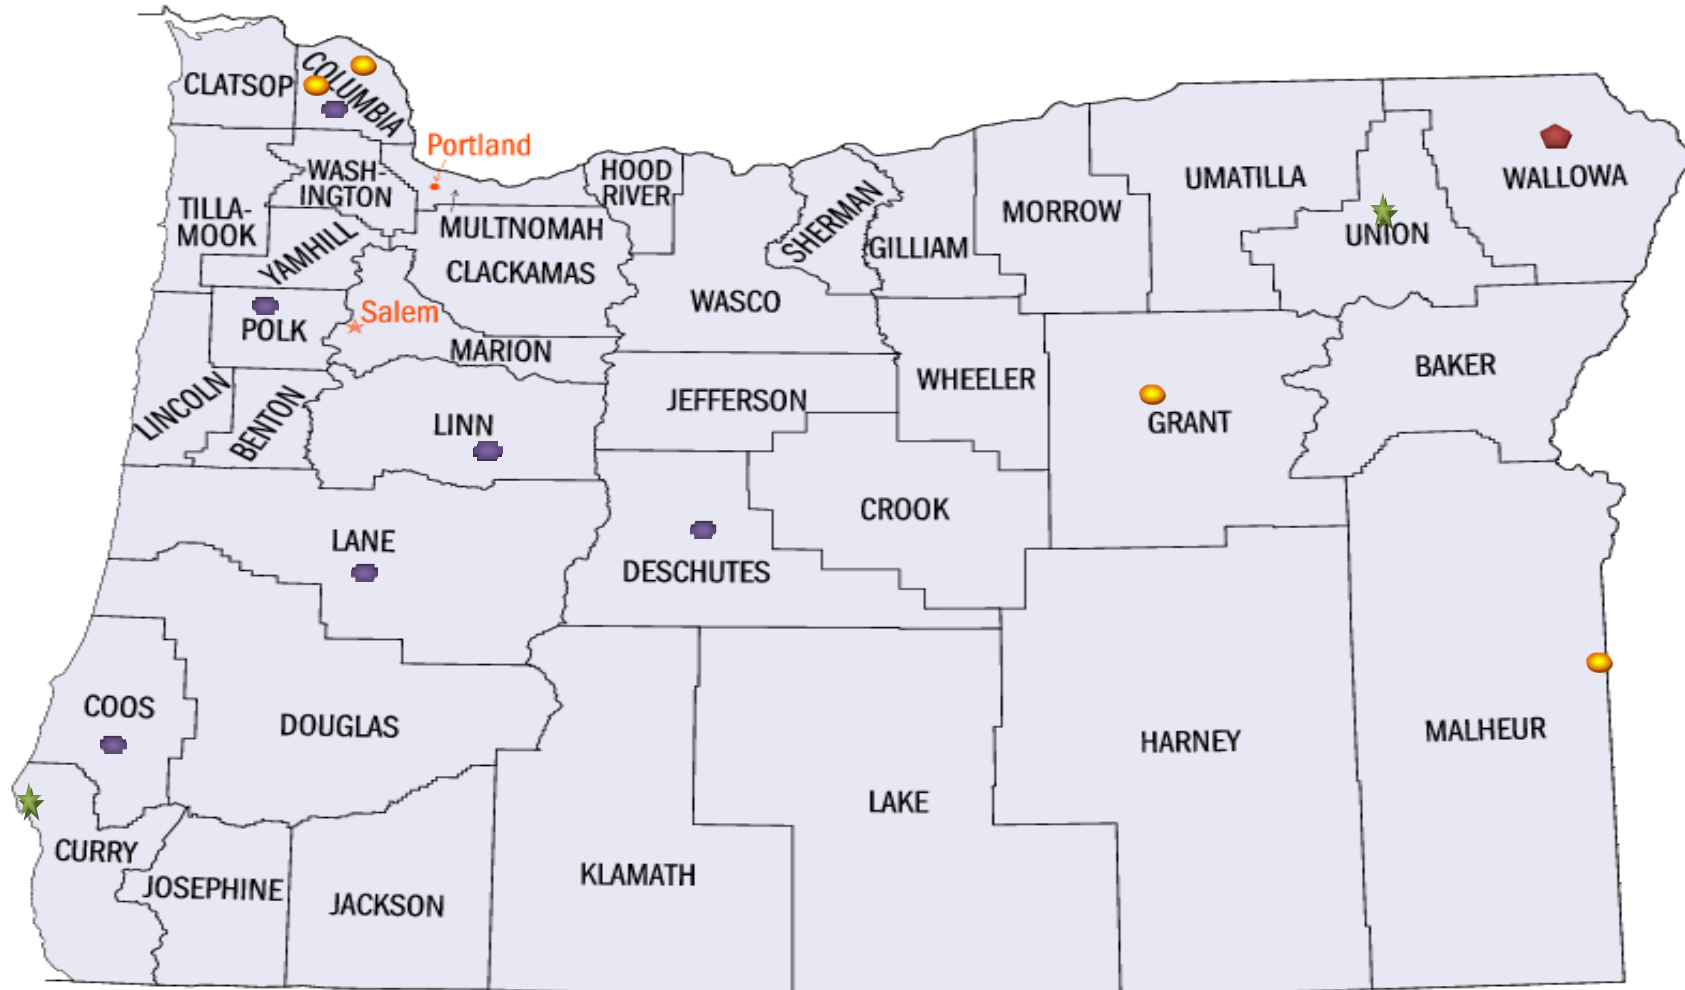

The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. As of December 31, 2023, the State received thirteen applications totaling of \$ 11,167,587

As of December 31, 2023, \$9,497,447 of the 2023 Program Year funds were obligated and left \$ 1,556,992 to be included in the 2024 application round which will open in February to April 2024. In total the projected obligation for the FY 2023 funds were obligated in accordance with the *2023 Method of Distribution*. We are confident that the remaining \$1,556,992 will be able to obligate it within the 15-month Timely Distribution period which will end on 11/29/2024.

Geographic Distribution and Location of Investments

Refer to the above map for the 2023 CDBG program obligations. The state of Oregon has no control over the type and quantity of applications submitted for funding under the program or their geographic location. No more than 20% variance from the goal awarded which subsequently no substantial amendment to the MOD is necessary. The state did not receive direct microenterprise assistance applications but due to the government shut down due to COVID-19 the state awarded Small Business awards through the CDBG-CV program. Awards were made as follows:

- **Public Works** – City of St. Helens, Vernonia, Mt. Vernon, Ontario
- **Community Facilities** – City of Port Orford, North Powder
- **Housing Rehabilitation** – City of Coos Bay, Falls city and Lebanon. Counties: Columbia, Lane, and Deschutes
- **Community & Economic Development** – City of Wallowa

Activities to Address Homelessness, Chronic Homelessness and Persons with Special Needs

Funding homeless shelters, shelters for victims of domestic violence and person with special needs are one of the priorities of the Oregon CDBG program. There were no CDBG projects awarded in PY2023 or assisted with PY 2023 funds for person with special needs under Community Facilities. Activities to reduce possible homelessness are mainly pursued through the Housing Rehabilitation Program assisting low income single owner occupied housing including those residing within manufactured homes. Within this year, CDBG awarded in the total of \$2,700,000 of assistance benefiting 5 LMI owner occupied homes through the HR program.

Actions Taken To Affirmatively Further Fair Housing, a Summary of Impediments (AI) and Actions Taken To Overcome the Effects of Impediments

Three state agencies administer programs that serve to further fair housing for Oregon's people. As result the Analysis of Impediments to Affirmatively Furthering Fair Housing was a joint effort between the state agencies and the actions taken to overcome the impediments were also divided amongst the state agencies. For a complete description of the impediments found in the 2021 - 2025 Analysis of Impediments to Affirmatively Furthering Fair Housing, the 2021 - 2025 Fair Housing Action Plan and a summary of all the state agency actions to overcome the identified impediments, please refer to the more detailed analysis included in the 2023 Consolidated Annual Performance Evaluation Report (CAPER). This CDBG Performance Evaluation Report (PER) narrative summarizes the actions taken by Business Oregon to address/overcome specific impediments.

Business Oregon, which administers Community Development Block Grant funds for the state's non-metropolitan cities and counties, integrating within program implementation and through the contract with Fair Housing Councils of Oregon, educates its recipients about their fair housing responsibilities in several ways including:

- 1) Presentations at workshops, (program information and regulations updates)
- 2) Updates to the comprehensive Grant Management Handbook,
- 3) Disbursements of informational handouts, posters, brochures, and individual technical assistance, as needed or requested,
- 4) Partner with planning and land use professionals to review Post Acknowledgement Plan Amendments (PAPA) submitted to Department of Land Conservation and Development (DLCD) to identify proposals that may have discriminatory impact.
- 5) Proceeding with the 2021-2025 statewide Affirmatively Furthering Fair Housing and Fair Housing Action Plan which are made available to recipients to identify, plan for, and remove impediments to further fair housing,
- 6) Provide direct training and consultation to local jurisdiction.

The efforts of BUSINESS OREGON, identified below are addressing the following impediments identified in the 2021-2025 Analysis of Impediments to Furthering Fair Housing:

- 1-5 – Local zoning and land use regulations and/or inexact application of state laws may impede the siting and approval of group homes.
- 2-1 – Lack of enforcement of fair housing violations persist statewide.
- 2-2 – Limited housing options for persons most vulnerable to housing discrimination: non-English speakers, persons of Hispanic descent, African Americans, large families and persons with disabilities.
- 3-1 – Local housing resources statewide are limited. This is particularly true in rural communities.
- 6-1 – The state’s ban on inclusionary zoning limits municipalities’ ability to employ flexible tools and incentives to increase the number of affordable units built.

BUSINESS OREGON continues to fund fair housing activities through the Fair Housing Council of Oregon (FHCO)

Table III, below summarizes the impediments identified within 2021-2025 Analysis of Impediments to Affirmatively Furthering Fair Housing and Fair Housing Action Plan being addressed by BUSINESS OREGON and the actions taken by BUSINESS OREGON and through its contractor, FHCO to address the identified impediments:

During 2023 the following additional activities occurred:

- a. The state to convey and strengthened the dissemination of the fair housing information via our website, Act-on list-serve to all interested persons and grant recipients.
- b. IFA provides outreach through technical assistance workshops/ presentations regarding Labor Standard, Limited English Proficiency Plan and Section 3 Plan along with the dissemination of the new established Section 3 new regulations.
- c. IFA requires the submission of reasonable accommodation policies when a non-profit becomes a certified sub-grantee.
- d. IFA enhanced the effort in furthering fair housing by providing assistance through FHCO training and education effort directly to the local jurisdictions.

Fair Housing Actions BUSINESS OREGON plans to undertake in 2022 and 2023

Support of Local Fair Housing Efforts

Business Oregon continues to work closely with all of our CDBG recipients to ensure that each of their jurisdictions recognize their responsibilities in this area and know where the resources are to answer questions and provide necessary brochures, posters and presentations.

As a part of the effort Business Oregon:

- Continue to fund efforts of Fair Housing Council of Oregon (FHCO) to provide fair housing education and training services. Continue to fund the fair housing complaint line and provide broader assistance with landlord/tenant disputes. Promote increasing language accessibility of these services.
- Included in the funding process that all CDBG grantees to comply with all federal, state and local nondiscrimination laws. Provide educational materials to ensure grantees understand fair housing obligations.
- Fund complaint intake process at FHCO as well as technical assistance for federal funding recipients.
- Fund pilot program to review Post Acknowledgement Plan Amendments STATE OF OREGON 2019 FAIR HOUSING ACTION PLAN REPORT PAGE 9 OF 23 submitted to DLCDC to identify land use proposals with a potentially discriminatory impact.
- Continue to staff the Housing Choice Advisory Committee and monitor implementation of HB 2639
- Promote tools and education for housing providers to understand fair housing requirements.
- Provide culturally specific fair housing education and outreach for tribal communities, Spanish speaking communities, new immigrants, and persons with limited English proficiency.

Actions Taken to Remove Barriers to Affordable Housing

In addition to the activities described above, CDBG funds are used to extend publicly owned infrastructure to new affordable low- and moderate-income housing, which assists in addressing the obstacle of funding for owner-occupied single-family housing. CDBG funds also are used by low- and moderate-income homeowners to rehabilitate the homes they occupy.

CDBG funds were used to foster affordable housing by funding supportive public infrastructure for housing projects. CDBG funds, through the housing rehab program, support maintenance of affordable housing that is owned and occupied by a low- and moderate-income homeowner.

Workforce Housing – The State of Oregon, like many other states, is facing a workforce housing crisis. Many Oregonians have decent paying jobs – teachers, nurses, fire fighters,

law enforcement, etc. but due to the high cost of housing, are housing burdened, paying well over the recommended 30% of their monthly income on housing or enduring long commutes to even find decent, safe, and somewhat affordable housing. Due to this crisis, the Governor's Regional Solutions Team, along with several other state agencies, including Oregon Housing and Community Services and Business Oregon, are collaboratively working on solutions to the housing crisis of the "missing middle." We are optimistic that while this won't eliminate the issue this will begin to address the need and be something that can be replicated in other areas of the state. While the State Community Development Block Grant funds will not be directly utilized under this Initiative, Business Oregon has another funding source such as Special Public Works Fund, Strategic Reserve Funds that is available for eligible applicants/projects to assist with the Workforce Housing issue. Business Oregon will also be administering a state funded program which will assist in the housing infrastructure and Brownfields Properties Revitalization.

Manufactured Housing – Oregon has more than 140,000 manufactured homes in parks and more than half of those (55%) were built before 1980 meaning many need repair. Many, if not most, of the manufactured homes are also owned or rented by low-to-moderate income persons. Since 2018, Business Oregon is providing a \$100,000 incentive for CDBG housing rehabilitation applications where the focus is on repairs to homes in manufactured parks. The maximum request for housing rehabilitation has been \$400,000 but considering the need, we have added the \$100,000 incentive for a maximum award of \$500,000. We anticipate at least an additional 20 manufactured homes in parks will be assisted with this incentive. In the past few years, the CDBG program made a programmatic change that would enable eligible applicants, in cooperation with a non-profit service provider, to allow substantial rehabilitation of homes especially for manufactured homes in parks. By implementing this change, we are optimistic that this will free up other funds that could be used to replace the outdated manufactured homes within a park and preserve the park for affordable housing. We will continue to work with Oregon Housing and Community Services and other stakeholders to develop the programmatic change to have the largest possible impact on continuing to preserve affordable housing of this type.

The Oregon Housing and Community Services Department (OHCS) is active in the promotion of fair housing. They operate many programs, including HOME. Owners of projects assisted by OHCS are required to develop marketing plans that include outreach activities targeted to minorities and other protected classes. The first component of the fair housing planning process is to review impediments to fair housing choice in the public and private sectors.

Other Actions Indicated in the Strategic Plan and the Action Plan and Including A Comparison of the Proposed Versus Actual Outcomes For Each Outcome Measure Submitted With the Consolidated Plan and Explain, If Applicable, Why Progress Was Not Made Toward Meeting Goals and Objectives.

2023 Outcome and Performance Goal Summary:

Table V summarizes the outcomes and performance measure requirements and the states progress towards meeting each requirement, by project type. This section of the 2023 PER conforms to the outcome and performance measure requirements identified in the 2021-2025 Consolidated Plan. Since the actual number funded is based upon the awards made during the program year, the final actual outcomes/accomplishments from each grant awarded by the state will be collected when the grant activities are complete and the grant contract between the city/ county and the state is administratively closed and will be reported in IDIS at that time. In summary it is estimated 20,522 Oregonians will benefit from the activities funded under the CDBG program in PY2023 of which 11,547 (56.27%) will be low and moderate income. An abbreviated summary of the State's achievements through the end of PY 2023 are:

- The state near or exceeded the annual goals for Public Works; SL1 Community Facilities; EO3 Microenterprise Assistance; DH1 Community Facilities; SL3 Community Facilities and Community Capacity Technical Assistance and Housing Rehabilitation.
- 4 water and wastewater systems that are benefiting 23,656 people were funded.
- 104 housing units will be rehabilitated.
- The CDBG program leveraged \$1,568,193 in matching funds.
- One capacity building activities were conducted, and they are benefiting non-entitlement communities statewide.

Five Year Outcome and Performance Goal Summary: Table V also, summarizes the outcomes and performance measure requirements and the State's overall progress towards meeting each requirement, during the 5-year reporting period, by project type. This section conforms to the outcome and performance measure requirements identified in the 2021-2025 Consolidated Plan. As this is the second year of the 2021-2025 Consolidated Plan, the information for 2022 is what will be reported for this year.

Refer to the Table V for details.

NOTE: As per HUD’s review dated 7/13/2021 regarding CDBG accomplishment numbers above was to be completed within the parameters of all projects that made draws within the reporting period (PR-23). note that it may be overinflated as it may include the number of accomplishments for CDBG-CV as PR-23 does not differentiate the source of funds.

The annual and five- years performance indicator goals were set based on the projects awarded and future accomplishments indicated within the project application. And parameters that the State is tracking actual accomplishments are based on the projects that are completed within the program year and funded by the annual CDBG funds excluding CDBG-CV.

Describe the Use of CDBG Funds During the Program Year and Assess the Relationship of That Use to the Priorities and Specific Objectives Identified Within the Plan with Special Attention to the Highest Priority Activities That Were Identified

CDBG activities that have had a substantial impact on identified needs are the public works activities and community facility activities which were identified as high priority projects in the 2021-2025 Consolidated Plan. Out of CDBG funds awarded in 2023 85.72% are to benefit LMI while in total they will benefit 17,949 people living in the rural non-entitlement areas. As a part of the priority under housing rehabilitation projects, we are expecting to rehabilitate and will benefit at least 104 households. Refer to Table's I, II and VI for more details.

The state obligated its Program Year 2023 funds for activities in accordance, as much as possible, with the targets set in the *2023 Annual Action Plan for the Oregon*.

The state exceeded the annual allocation funding targets in all categories.

Over the years, the state is seeing an increase in demand for the CDBG program. With the increase in demand the State went from one application round a year to two. Many of communities have shown interest in the upcoming application round which started in February with applications due the end of April. The second application round will begin in July and end September 30th.

The state's CDBG program continues to alleviate the effects of the economy by creating jobs, assisting microenterprises, improving infrastructure, providing housing rehabilitation, and constructing essential community facilities. The primary obstacle in successfully addressing the demands remain in the lack of funding. Federal and state funding are simply not enough to meet demand, even when coordinating funding for infrastructure projects with other agencies such as the US Department of Agriculture's Rural Utility Service, Oregon Department of Environmental Quality, the Environmental Protection Agency, the lottery funded Special Public Works Fund and Water/Wastewater Financing Program and others.

Variance between Targeted and Awarded Funding in 2021-2025

The Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages, but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e. if a sufficient number of projects are not awarded in a particular category, applications in other categories may be funded. Each calendar year OBDD-IFA conducted a target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. Granted that 2021 is the first year of the 2021-2025 plan period, OBDD has, so far, able to achieve annual targeted goals.

Specify the Nature of and Reasons for any Changes in Program Objectives and Indicate How the State Would Change Its Programs As A Result of Its Experiences

The 2023 Program Year had many lingering challenges due to the COVID 19. The local rural economy suffered which created a need for assistance to small business. Utilizing CDBG-CV the state was able to assist more in more assistance such as rental assistance, food bank activities As a result, the state sees the changes in the capacity level, and the impact to the project timelines.

Evaluate the Extent To Which the Program Benefitted Low- And Moderate-Income Persons and Include the Number of Extremely Low-Income, and Moderate-Income Persons Served By Each Activity Where Information on Income By Family Size Is Required to Determine Eligibility of the Activity

For the selected benefit period (2021-2022-2023), 95.37% of the state's CDBG funds were obligated to activities benefiting low- and moderate-income persons. Of the funds obligated under the state's 2023 program, 85.72% of the projects funded are to satisfy the national objectives of benefiting low- and moderate-income persons.

The unobligated FY2023 funds were not included in the calculation for overall program benefit to low- and moderate-income persons. Refer to Table V above and Table VI below for details.

Evaluate Progress toward Meeting The Goals of Providing Affordable Housing CDBG Funds, Including the Number and Types Of Households Served

During 2023 Business Oregon funded housing rehabilitation projects that are proposed to benefit at least 104 households, of which 100% will be low and moderate income.

A Summary of Any Comments Concerning the Program That Have Been Received From Citizens

The public comment period concludes on May 31, 2024 and BUSINESS OREGON received no public comment regarding the 2023 CDBG PER reports.

A Summary of Activities and Results from Technical Assistance Funding

The state’s 2023 program included the use of CDBG funds for the technical assistance allowed by Section 811 of the Housing and Community Development Act of 1992. As of December 31, 2023, none of the 1% funds from the 2023 allocation had been expended. During 2023 BUSINESS OREGON obligated all the 2019 CDBG 1% and substantially obligated partial of the 2020 CDBG 1% funds for activities.

Table VII summarizes the CDBG 1% Technical Assistance awards that were made in Program Year 2023 for conference/workshop sponsorship, for local government capacity building associated with CDBG projects. The information below describes all the activities that were funded and the results from that activity.

- **Fair Housing Council of Oregon.** BUSINESS OREGON entered into the contract with the Fair Housing Council of Oregon (FHCO) to promote equal access to housing by providing fair housing education, outreach, technical assistance and enforcement opportunities related to federal laws and related Oregon laws. A more detailed description of the results of this funding is described in the 2022 PER report section entitled *“actions taken to affirmatively further fair housing, a summary of impediments, and actions taken to overcome the effects of impediments”*
- **State Administration.** Starting in FY 2004, states may expend up to \$100,000 +2% of their annual allocation on state administrative costs. In 2006, the state reserved the right to use this flexibility. All CDBG 2% funds used for state administration will be

matched 1:1 with funds from the department's Special Public Works Fund. During 2023 none of the CDBG 1% funds were utilized for state administration.

Civil Rights

The state is required to provide data on all applicants and beneficiaries in projects funded from each grant allocation. Information must be reported for each project activity and must indicate the number of persons benefiting by ethnicity and racial groups as defined by U.S. Census.

- **Applicant data** – the proposed applicant data is contained in Table II above.
- **Actual data** – the actual beneficiary data from PY2022 CDBG funded projects that were administratively closed during 2022 is described and contained in Table VIII below.

Table VIII

Ethnicity/Race data is tabulated for expended projects within PY2023 (as per PR-23). Zero (0) projects awarded in 2023 were administratively closed during the reporting period. When 2023 funded projects are administratively closed, the ethnicity/race data will be reported in successive year's PERs 2023 Grant Year Activity Reports.

Summary of State's Reviews of Recipient's Civil Rights Performance

The state reviews the civil rights performance of its 2023 recipients as part of its regular monitoring procedures. Due to COVID 19 restrictions internal file/desk audit was performed for all projects. A standardized monitoring checklist is used for this process. Grant recipients monitored during the reporting period complied with the Civil Rights performance requirements for Community Development Block Grant recipients.

Summary of State and Recipient Actions to Use Minority- and Women-Owned Businesses In Carrying Out CDBG-Funded Activities

The state encourages grantees to make contracts awarded under CDBG grants available to minority- and women-owned businesses. Through the Grant Management Handbook and training given to recipients, the state describes the various ways that contracting opportunities can be made available to minority- and women-owned businesses. Some examples include dividing larger contracts into smaller portions that can be bid on by smaller firms, or directly soliciting proposals or bids from lists of certified minorities- and women-owned businesses. Business Oregon Certification Office for Business Inclusion and Diversity (COBID) provides information regarding minority and women owned business that potential contractors can access if looking for minority and women owned businesses in the area.

The current Grant Management Handbook (GMH) (2023 version) provides forms that grantees use to collect and report their efforts to the state. The GMH continues to contain information and new requirements as published by HUD. All Grantees must meet the minimum acceptable outreach efforts/standards to minority- and women-owned businesses:

- A good faith, comprehensive and continuing endeavor:
- Supported by a statement of public policy and commitment published in the printed media of the widest local circulation.
- Supported by an office/or a key, ranking staff person with oversight responsibilities and access to the chief elected official; and
- Designed to utilize all available and appropriate public and private sector resources.

In addition to meeting the *standards* listed above, grantees are encouraged to use the **guidelines** contained in the GMH in implementing outreach programs to ensure the inclusion to the maximum extent feasible, of entities owned by minorities and women.

Equal Employment Opportunity Data for Business Oregon

Business Oregon maintains the employment data required by the Equal Employment Opportunity Commission (EEOC) on an EEO-4 form. The form is not included in this report but is available from the department.

IDISPR28 Financial Summary Report Adjustments

Adjustment to include the Technical Assistance was done to record the allocation of \$ 118,854 and State administrative amount.

Line 59 was almost adjusted to show the overall low- and moderate-income benefit period of 2021-2023

Additional accomplishments in 2023

HUD conducted program monitoring during the Spring 2024. All findings and concern have been fully completed by the end of the year.

PART II—NARRATIVE REQUIREMENTS
December 31, 2023

Describe the Resources Made Available

In 2022 IFA had \$18,043,205 in available CDBG resources to award to units of general local government (UGLG). Table I below illustrates the information more clearly but a quick summary is provided below:

- 1) FY2022 annual grant (amount available for projects) \$11,428,795
- 2) FY2021 and prior year unobligated funds \$ 6,614,410 (in the process of preparing this report some projects closed out with unused award therefore it came back to the FY2021),

Describe the Investment of Available Resources

The available resources were not fully invested within PY2022. Table I illustrates that the 2022 funds obligated by December 31, 2022.

Variance between Targeted and Awarded Funding in 2022

The 2021 Method of Distribution (MOD) identifies that OBDD intended to award funds according to the target percentages, but OBDD is not obligated to award all the funds targeted to each category, i.e., if enough projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA will conduct a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received, was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the 2022 MOD, and for the following reasons:

The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. As of December 31, 2022, the State received sixteen applications totaling of \$ \$20,539,039

As of December 31, 2022, \$9,769,279 of the 2022 Program Year funds were obligated and left \$ 1,659,516 to be included in the 2023 application round which will open in February to April 2023. In total the projected obligation for the FY 2022 funds were obligated in accordance with the *2022 Method of Distribution*. We are confident that the remaining \$1,659,516 will be able to obligate it within the 15-month Timely Distribution period.

- Community Facilities
- Urgent Need

Refer to the above map for the 2022 CDBG program obligations. The state of Oregon has no control over the type and quantity of applications submitted for funding under the program or their geographic location. The state did not receive direct microenterprise assistance applications but due to the government shut down due to COVID-19 the state awarded Small Business awards through the microenterprise program. Awards were made as follows:

- **Public Works** – City of Chiloquin, Reedsport, North Powder, Sumpter, Umatilla, Coquille, Willamina, Sheridan, Falls City.
- **Housing Rehabilitation** – Independence, Burns, Roseburg, Vale

The Families and Persons Assisted (including the racial and ethnic status of persons assisted)

Activities to Address Homelessness, Chronic Homelessness and Persons with Special Needs

Funding homeless shelters, shelters for victims of domestic violence and person with special needs are one of the priorities of the Oregon CDBG program. There were no CDBG projects awarded in PY2022 or assisted with PY 2022 funds for person with special needs under Community Facilities.

Actions Taken To Affirmatively Further Fair Housing, a Summary of Impediments (AI) and Actions Taken To Overcome the Effects of Impediments

Three state agencies administer programs that serve to further fair housing for Oregon's people. As result the Analysis of Impediments to Affirmatively Furthering Fair Housing was a joint effort between the state agencies and the actions taken to overcome the impediments were also divided amongst the state agencies. For a complete description of the impediments found in the 2021 - 2025 Analysis of Impediments to Affirmatively Furthering Fair Housing, the 2021 - 2025 Fair Housing Action Plan and a summary of all the state agency actions to overcome the identified impediments, please refer to the more detailed analysis included in the 2022 Consolidated Annual Performance Evaluation Report (CAPER). This CDBG Performance Evaluation Report (PER) narrative summarizes the actions taken by Business Oregon to address/overcome specific impediments.

Business Oregon, which administers Community Development Block Grant funds for the state's non-metropolitan cities and counties, integrating within program implementation and through the contract with Fair Housing Councils of Oregon, educates its recipients about their fair housing responsibilities in several ways including:

- 1) Presentations at workshops,
- 2) Updates to the comprehensive Grant Management Handbook,
- 3) Disbursements of informational handouts, posters, brochures, and individual technical assistance, as needed or requested,
- 4) Partner with planning and land use professionals to review Post Acknowledgement Plan Amendments (PAPA) submitted to Department of Land Conservation and Development (DLCD) to identify proposals that may have discriminatory impact.
- 5) Proceeding with the 2021-2025 statewide Affirmatively Furthering Fair Housing and Fair Housing Action Plan which are made available to recipients to identify, plan for, and remove impediments to further fair housing,
- 6) Provide direct training and consultation to local jurisdiction.

The efforts of BUSINESS OREGON, identified below are addressing the following impediments identified in the 2021-2025 Analysis of Impediments to Furthering Fair Housing:

- 1-5 – Local zoning and land use regulations and/or inexact application of state laws may impede the siting and approval of group homes.

- 2-1 – Lack of enforcement of fair housing violations persist statewide.
- 2-2 – Limited housing options for persons most vulnerable to housing discrimination: non-English speakers, persons of Hispanic descent, African Americans, large families and persons with disabilities.
- 3-1 – Local housing resources statewide are limited. This is particularly true in rural communities.
- 6-1 – The state’s ban on inclusionary zoning limits municipalities’ ability to employ flexible tools and incentives to increase the number of affordable units built.

BUSINESS OREGON continues to fund fair housing activities through the Fair Housing Council of Oregon (FHCO)

Table III, below summarizes the impediments identified within 2021-2025 Analysis of Impediments to Affirmatively Furthering Fair Housing and Fair Housing Action Plan being addressed by BUSINESS OREGON and the actions taken by BUSINESS OREGON and through its contractor, FHCO to address the identified impediments:

During 2022 the following additional activities occurred:

- a. The state to convey fair housing information via our website, Act-on list-serve disseminates information to all interested persons and grant recipients.
- b. IFA provides outreach through technical assistance workshops/ presentations regarding Labor Standard, Limited English Proficiency Plan and Section 3 Plan along with the dissemination of the new established Section 3 new regulations.
- c. IFA requires the submission of reasonable accommodation policies when a non-profit becomes a certified sub-grantee.
- d. IFA enhanced the effort in furthering fair housing by providing assistance through FHCO training and education effort directly to the local jurisdictions.

Fair Housing Actions BUSINESS OREGON plans to undertake in 2022 and 2023

Support of Local Fair Housing Efforts

Business Oregon continues to work closely with all of our CDBG recipients to ensure that each of their jurisdictions recognize their responsibilities in this area and know where the resources are to answer questions and provide necessary brochures, posters and presentations.

As a part of the effort Business Oregon:

- Continue to fund efforts of Fair Housing Council of Oregon (FHCO) to provide fair housing education and training services. Continue to fund the fair housing complaint line and provide broader assistance with landlord/tenant disputes. Promote increasing language accessibility of these services.
- Included in the funding process that all CDBG grantees to comply with all federal, state and local nondiscrimination laws. Provide educational materials to ensure grantees understand fair housing obligations.
- Fund complaint intake process at FHCO as well as technical assistance for federal funding recipients.
- Fund pilot program to review Post Acknowledgement Plan Amendments STATE OF OREGON 2019 FAIR HOUSING ACTION PLAN REPORT PAGE 9 OF 23 submitted to DLCDC to identify land use proposals with a potentially discriminatory impact.
- Continue to staff the Housing Choice Advisory Committee and monitor implementation of HB 2639
- Promote tools and education for housing providers to understand fair housing requirements
- Provide culturally specific fair housing education and outreach for tribal communities, Spanish speaking communities, new immigrants, and persons with limited English proficiency.

Actions Taken to Remove Barriers to Affordable Housing

In addition to the activities described above, CDBG funds are used to extend publicly owned infrastructure to new affordable low- and moderate-income housing, which assists in addressing the obstacle of funding for owner-occupied single-family housing. CDBG funds also are used by low- and moderate-income homeowners to rehabilitate the homes they occupy.

CDBG funds were used to foster affordable housing by funding supportive public infrastructure for housing projects. CDBG funds, through the housing rehab program, support maintenance of affordable housing that is owned and occupied by a low- and moderate-income homeowner.

Workforce Housing – The State of Oregon, like many other states, is facing a workforce housing crisis. Many Oregonians have decent paying jobs – teachers, nurses, fire fighters,

law enforcement, etc. but due to the high cost of housing, are housing burdened, paying well over the recommended 30% of their monthly income on housing or enduring long commutes to even find decent, safe, and somewhat affordable housing. Due to this crisis, the Governor's Regional Solutions Team, along with several other state agencies, including Oregon Housing and Community Services and Business Oregon, are collaboratively working on solutions to the housing crisis of the "missing middle." We are optimistic that while this won't eliminate the issue this will begin to address the need and be something that can be replicated in other areas of the state. While the State Community Development Block Grant funds will not be directly utilized under this Initiative, Business Oregon has another funding source such as Special Public Works Fund, Strategic Reserve Funds that is available for eligible applicants/projects to assist with the Workforce Housing issue.

Manufactured Housing – Oregon has more than 140,000 manufactured homes in parks and more than half of those (55%) were built before 1980 meaning many need repair. Many, if not most, of the manufactured homes are also owned or rented by low-to-moderate income persons. Since 2018, Business Oregon is providing a \$100,000 incentive for CDBG housing rehabilitation applications where the focus is on repairs to homes in manufactured parks. The maximum request for housing rehabilitation has been \$400,000 but considering the need, we have added the \$100,000 incentive for a maximum award of \$500,000. We anticipate at least an additional 20 manufactured homes in parks will be assisted with this incentive. In the past few years, the CDBG program made a programmatic change that would enable eligible applicants, in cooperation with a non-profit service provider, to allow substantial rehabilitation of homes especially for manufactured homes in parks. By implementing this change, we are optimistic that this will free up other funds that could be used to replace the outdated manufactured homes within a park and preserve the park for affordable housing. We will continue to work with Oregon Housing and Community Services and other stakeholders to develop the programmatic change to have the largest possible impact on continuing to preserve affordable housing of this type. March

The Oregon Housing and Community Services Department (OHCS) is active in the promotion of fair housing. They operate many programs, including HOME. Owners of projects assisted by OHCS are required to develop marketing plans that include outreach activities targeted to minorities and other protected classes. The first component of the fair housing planning process is to review impediments to fair housing choice in the public and private sectors.

Other Actions Indicated in the Strategic Plan and the Action Plan and Including A Comparison of the Proposed Versus Actual Outcomes For Each Outcome Measure Submitted With the Consolidated Plan and Explain, If Applicable, Why Progress Was Not Made Toward Meeting Goals and Objectives.

2022 Outcome and Performance Goal Summary:

Table V summarizes the outcomes and performance measure requirements and the states progress towards meeting each requirement, by project type. This section of the 2022 PER conforms to the outcome and performance measure requirements identified in the 2021-2025 Consolidated Plan. Since the actual number funded is based upon the awards made during the program year, the final actual outcomes/accomplishments from each grant awarded by the state will be collected when the grant activities are complete and the grant contract between the city/ county and the state is administratively closed and will be reported in IDIS at that time. In summary it is estimated 23,744 Oregonians will benefit from the activities funded under the CDBG program in PY2022 of which 13,749 (57.9%) will be low and moderate income. An abbreviated summary of the State's achievements through the end of PY 2022 are:

- The state met or exceeded the annual goals for Public Works; SL1 Community Facilities; EO3 Microenterprise Assistance; DH1 Community Facilities; SL3 Community Facilities and Community Capacity Technical Assistance and Housing Rehabilitation.
- 9 water and wastewater systems that are benefiting 23,656 people were funded.
- 88 housing units will be rehabilitated.
- The CDBG program leveraged \$18,878,074 in matching funds.
- Two capacity building activities were conducted, and they are benefiting non-entitlement communities statewide.

Five Year Outcome and Performance Goal Summary: Table V also, summarizes the outcomes and performance measure requirements and the State's overall progress towards meeting each requirement, during the 5-year reporting period, by project type. This section conforms to the outcome and performance measure requirements identified in the 2021-2025 Consolidated Plan. As this is the second year of the 2021-2025 Consolidated Plan, the information for 2022 is what will be reported for this year.

Refer to the Table V for details.

NOTE: As per HUD’s review dated 7/13/2021 regarding CDBG accomplishment numbers above was to be completed within the parameters of all projects that made draws within the reporting period (PR-23). note that it may be overinflated as it may include the number of accomplishments for CDBG-CV as PR-23 does not differentiate the source of funds.

The annual and five- years performance indicator goals were set based on the projects awarded and future accomplishments indicated within the project application. And parameters that the State is tracking actual accomplishments are based on the projects that are completed within the program year and funded by the annual CDBG funds excluding CDBG-CV.

Describe the Use of CDBG Funds During the Program Year and Assess the Relationship of That Use to the Priorities and Specific Objectives Identified Within the Plan with Special Attention to the Highest Priority Activities That Were Identified

CDBG activities that have had a substantial impact on identified needs are the public works activities and community facility activities which were identified as high priority projects in the 2021-2025 Consolidated Plan. Out of CDBG funds awarded in 2022 96.57% are to benefit LMI while in total they will benefit 23,744 people living in the rural non-entitlement areas. As a part of the priority under housing rehabilitation projects, we are expecting to rehabilitate and will benefit at least 88 households. Refer to Table's I, II and VI for more details.

The indicators for CDBG needs are identified by the type and number of applications received for funding in 2022. Based upon the number of applications received public works, community facilities and housing rehabilitation are of the highest need. Oregon funded:

- 9 water and wastewater systems and public facility that are benefiting 23,656 people were funded.
- 88 housing units will be rehabilitated.
- The CDBG program leveraged \$18,878,074 in matching funds.

The state obligated its Program Year 2022 funds for activities in accordance, as much as possible, with the targets set in the *2022 Annual Action Plan for the Oregon*.

The state exceeded the annual allocation funding targets in all categories.

Over the years, the state is seeing an increase in demand for the CDBG program. With the increase in demand the State went from one application round a year to two. Many of communities have shown interest in the upcoming application round which started in February with applications due the end of April. The second application round will begin in July and end September 30th.

The state's CDBG program continues to alleviate the effects of the economy by creating jobs, assisting microenterprises, improving infrastructure, providing housing rehabilitation, and constructing essential community facilities. The primary obstacle in successfully addressing the demands remain in the lack of funding. Federal and state funding are simply not enough to meet demand, even when coordinating funding for infrastructure projects with other agencies such as the US Department of Agriculture's Rural Utility Service, Oregon Department of Environmental Quality, the Environmental Protection Agency, the lottery funded Special Public Works Fund and Water/Wastewater Financing Program and others.

Variance between Targeted and Awarded Funding in 2021-2025

The Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages, but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e. if a sufficient number of projects are not awarded in a particular category, applications in other categories may be funded. Each calendar year OBDD-IFA conducted a target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. Granted that 2021 is the first year of the 2021-2025 plan period, OBDD has, so far, able to achieve annual targeted goals.

Specify the Nature of and Reasons for any Changes in Program Objectives and Indicate How the State Would Change Its Programs As A Result of Its Experiences

The 2022 Program Year had many lingering challenges due to the COVID 19. The local rural economy suffered which created a need for assistance to small business. As a result, the state sees the changes in the capacity level, and the impact to the project timelines.

Evaluate the Extent To Which the Program Benefitted Low- And Moderate-Income Persons and Include the Number of Extremely Low-Income, and Moderate-Income Persons Served By Each Activity Where Information on Income By Family Size Is Required to Determine Eligibility of the Activity

For the selected benefit period (2021-2022-2023), 98.46% of the state's CDBG funds were obligated to activities benefiting low- and moderate-income persons. Of the funds obligated under the state's 2021 program, 96.57% of the projects funded are to satisfy the national objectives of benefiting low- and moderate-income persons.

The unobligated FY2022 funds were not included in the calculation for overall program benefit to low- and moderate-income persons. Refer to Table V above and Table VI below for details.

Evaluate Progress toward Meeting The Goals of Providing Affordable Housing CDBG Funds, Including the Number and Types Of Households Served

During 2022 Business Oregon funded housing rehabilitation projects that are proposed to benefit at least 88 households, of which 100% will be low and moderate income.

A Summary of Any Comments Concerning the Program That Have Been Received From Citizens

The public comment period concludes on March 12, 2022 and BUSINESS OREGON received no public comment regarding the 2022 CDBG PER reports.

A Summary of Activities and Results from Technical Assistance Funding

The state's 2022 program included the use of CDBG funds for the technical assistance allowed by Section 811 of the Housing and Community Development Act of 1992. As of December 31, 2023 none of the 1% funds from the 2021 allocation had been expended. During 2022 BUSINESS OREGON obligated all the 2029 CDBG 1% and substantially obligated partial of the 2020 CDBG 1% funds for activities.

Table VII summarizes the CDBG 1% Technical Assistance awards that were made in Program Year 2022 for conference/workshop sponsorship, for local government capacity building associated with CDBG projects. The information below describes all the activities that were funded and the results from that activity.

- **Fair Housing Council of Oregon.** BUSINESS OREGON entered into the contract with the Fair Housing Council of Oregon (FHCO) to promote equal access to housing by providing fair housing education, outreach, technical assistance and enforcement opportunities related to federal laws and related Oregon laws. A more detailed description of the results of this funding is described in the 2022 PER report section entitled *“actions taken to affirmatively further fair housing, a summary of impediments, and actions taken to overcome the effects of impediments”*
- **Downtown Redevelopment and Main Street Program Feasibility Study**

- **State Administration.** Starting in FY 2004, states may expend up to \$100,000 +2% of their annual allocation on state administrative costs. In 2006, the state reserved the right to use this flexibility. All CDBG 2% funds used for state administration will be matched 1:1 with funds from the department's Special Public Works Fund. During 2022 none of the CDBG 1% funds were utilized for state administration.

Civil Rights

The state is required to provide data on all applicants and beneficiaries in projects funded from each grant allocation. Information must be reported for each project activity and must indicate the number of persons benefiting by ethnicity and racial groups as defined by U.S. Census.

- **Applicant data** – the proposed applicant data is contained in Table II above.
- **Actual data** – the actual beneficiary data from PY2022 CDBG funded projects that were administratively closed during 2022 is described and contained in Table VIII below.

Table VIII

Race Group	Total from PY 2022 Grant		Combined Total
	Project	Hispanic	
White	5,014	431	5,445
Black/African American	44	0	44
Asian	76	0	76
American Indian/Alaskan Native	88	1	89

Asian & White	5		5
Black/African American & White	2		2
Other multi-racial	238	20	258
Total	5,490	452	5,942

Ethnicity/Race data is tabulated for expended projects within PY2022 (as per PR-23). Zero (0) projects awarded in 2022 were administratively closed during the reporting period. When 2022 funded projects are administratively closed, the ethnicity/race data will be reported in successive year's PERs 2022 Grant Year Activity Reports.

Summary of State's Reviews of Recipient's Civil Rights Performance

The state reviews the civil rights performance of its 2022 recipients as part of its regular monitoring procedures. Due to COVID 19 restrictions internal file/desk audit was performed for all projects. A standardized monitoring checklist is used for this process. Grant recipients monitored during the reporting period complied with the Civil Rights performance requirements for Community Development Block Grant recipients.

Summary of State and Recipient Actions to Use Minority- and Women-Owned Businesses In Carrying Out CDBG-Funded Activities

The state encourages grantees to make contracts awarded under CDBG grants available to minority- and women-owned businesses. Through the Grant Management Handbook and training given to recipients, the state describes the various ways that contracting opportunities can be made available to minority- and women-owned businesses. Some examples include dividing larger contracts into smaller portions that can be bid on by smaller firms, or directly soliciting proposals or bids from lists of certified minorities- and women-owned businesses. Business Oregon Certification Office for Business Inclusion and Diversity (COBID) provides information regarding minority and women owned business that potential contractors can access if looking for minority and women owned businesses in the area.

The current Grant Management Handbook (GMH) (2022 version) provides forms that grantees use to collect and report their efforts to the state. The GMH continues to contain information and new requirements as published by HUD. All Grantees must meet the minimum acceptable outreach efforts/standards to minority- and women-owned businesses:

- A good faith, comprehensive and continuing endeavor:
- Supported by a statement of public policy and commitment published in the printed media of the widest local circulation.
- Supported by an office/or a key, ranking staff person with oversight responsibilities and access to the chief elected official; and
- Designed to utilize all available and appropriate public and private sector resources.

In addition to meeting the *standards* listed above, grantees are encouraged to use the **guidelines** contained in the GMH in implementing outreach programs to ensure the inclusion to the maximum extent feasible, of entities owned by minorities and women.

Equal Employment Opportunity Data for Business Oregon

Business Oregon maintains the employment data required by the Equal Employment Opportunity Commission (EEOC) on an EEO-4 form. The form is not included in this report but is available from the department.

IDISPR28 Financial Summary Report Adjustments

Adjustment to include the Technical Assistance was done to record the allocation of \$ 118,854 and State administrative amount.

PART II—NARRATIVE REQUIREMENTS
December 31, 2023

Describe the Resources Made Available

In 2021 IFA had \$21,791,553 in available CDBG resources to award to units of general local government (UGLG). Table I below illustrates the information more clearly but a quick summary is provided below:

- 1) FY2021 annual grant (amount available for projects) \$ 11,834,165
- 2) FY2020 and prior year unobligated funds \$ 11,409,206 (in the process of preparing this report some projects closed out with unused award therefore it came back to the FY2020),

Describe the Investment of Available Resources

The available resources were not fully invested within PY2021. Table I illustrates that the 2021 funds obligated by December 31, 2021.

Variance between Targeted and Awarded Funding in 2021

The 2021 Method of Distribution (MOD) identifies that OBDD intended to award funds according to the target percentages, but OBDD is not obligated to award all the funds targeted to each category, i.e., if enough projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA will conduct a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received, was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the 2021 MOD, and for the following reasons:

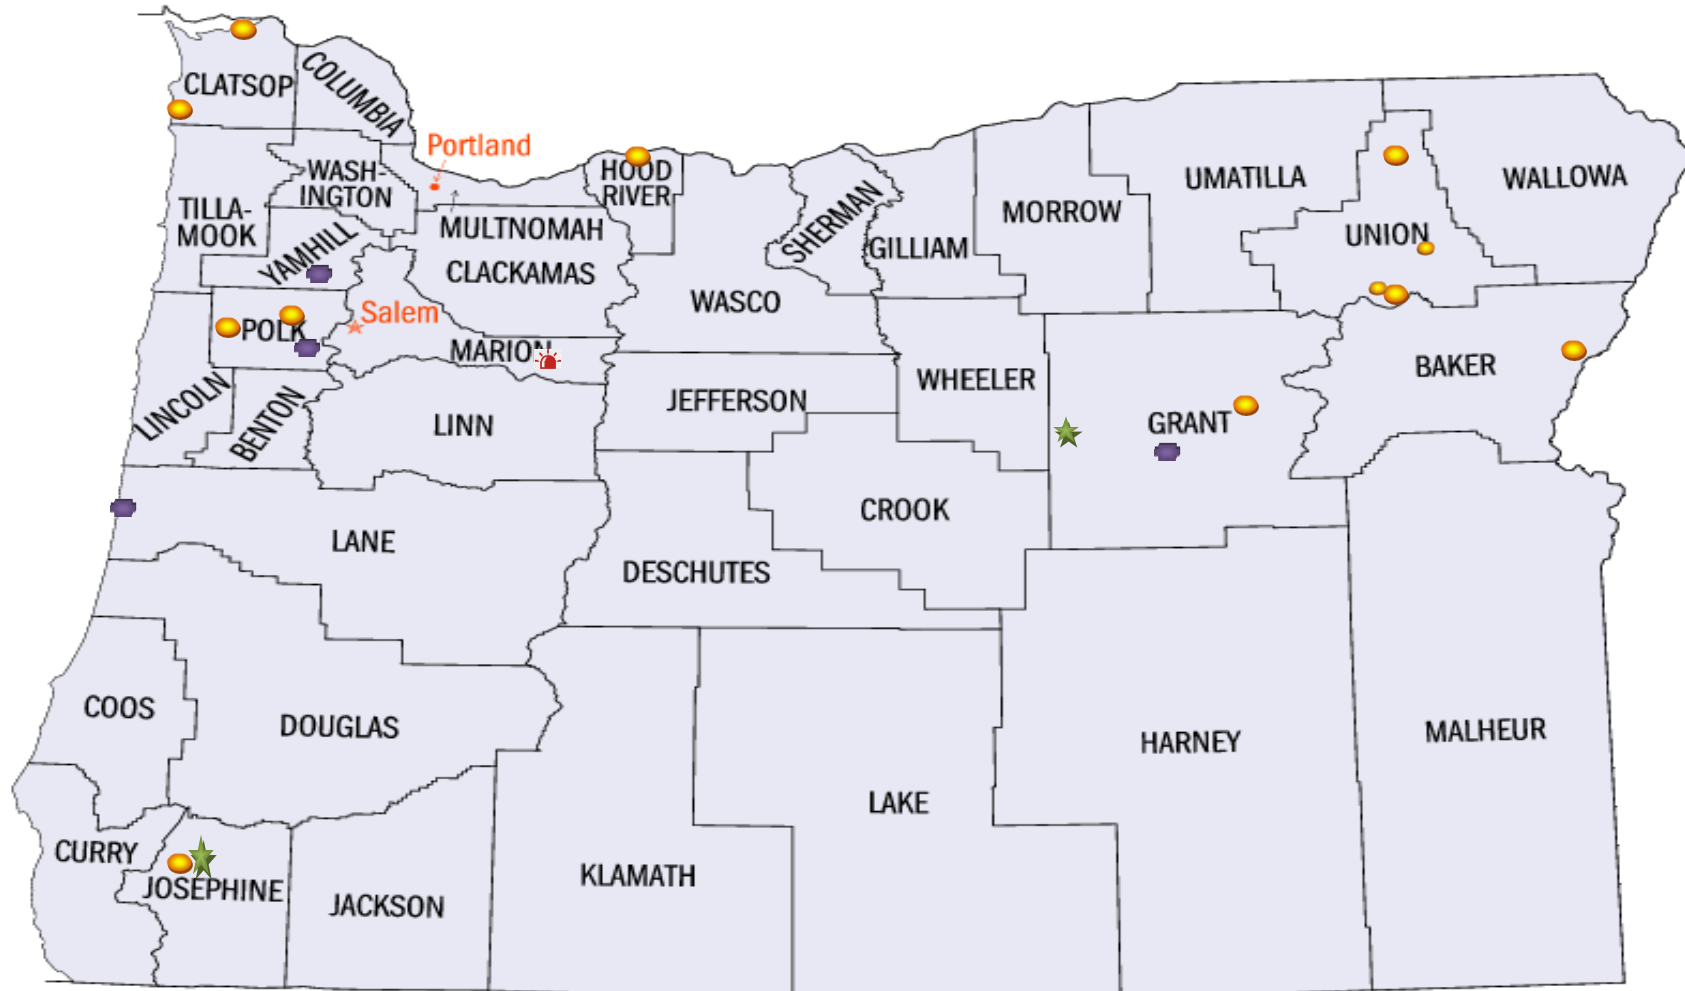

The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. As of December 31, 2021, the State received nineteen applications totaling of \$27,949,395

As of December 31, 2021, \$7,847,759 of the 2021 Program Year funds were obligated and left \$ 3,986,406.00 to be included in the 2022 application round which will open in February to April 2022. In total the projected obligation for the FY 2021 funds were obligated in accordance with the *2021 Method of Distribution*. We are confident that the remaining \$3,986,406 will be able to obligate it within the 15-month Timely Distribution period.

Refer to the above map for the 2021 CDBG program obligations. The state of Oregon has no control over the type and quantity of applications submitted for funding under the program or their geographic location. The state did not receive direct microenterprise assistance applications but due to the government shut down due to COVID-19 the state awarded Small Business awards through the microenterprise program. Awards were made as follows:

- **Public Works** – City of Clatskanie, Cascade Locks, Falls City, John Day, Vernonia, Willamina, Cave Junction, Elgin, North Powder, Richland, Union
- **Public/Community Facilities** – City of Cave Junction
- **Housing Rehabilitation** – Grant County, Newberg, Florence, Monmouth

Activities to Address Homelessness, Chronic Homelessness and Persons with Special Needs

Funding homeless shelters, shelters for victims of domestic violence and person with special needs are one of the priorities of the Oregon CDBG program. There were no CDBG projects awarded in PY2021 or assisted with PY 2021 funds for person with special needs under Community Facilities.

Actions Taken To Affirmatively Further Fair Housing, a Summary of Impediments (AI) and Actions Taken To Overcome the Effects of Impediments

Three state agencies administer programs that serve to further fair housing for Oregon's people. As result the Analysis of Impediments to Affirmatively Furthering Fair Housing was a joint effort between the state agencies and the actions taken to overcome the impediments were also divided amongst the state agencies. For a complete description of the impediments found in the 2021 - 2025 Analysis of Impediments to Affirmatively Furthering Fair Housing, the 2021 - 2025 Fair Housing Action Plan and a summary of all the state agency actions to overcome the identified impediments, please refer to the more detailed analysis included in the 2021 Consolidated Annual Performance Evaluation Report (CAPER). This CDBG Performance Evaluation Report (PER) narrative summarizes the actions taken by Business Oregon to address/overcome specific impediments.

Business Oregon, which administers Community Development Block Grant funds for the state's non-metropolitan cities and counties, integrating within program implementation and through the contract with Fair Housing Councils of Oregon, educates its recipients about their fair housing responsibilities in several ways including:

- 1) Presentations at workshops,
- 2) Updates to the comprehensive Grant Management Handbook,
- 3) Disbursements of informational handouts, posters, brochures, and individual technical assistance, as needed or requested,
- 4) Disbursements of workshops or conferences which address fair housing issues and
- 5) Proceeding with the 2021-2025 statewide Affirmatively Furthering Fair Housing and Fair Housing Action Plan which are made available to recipients to identify, plan for, and remove impediments to further fair housing,
- 6) Provide direct training and consultation to local jurisdiction.

The efforts of BUSINESS OREGON, identified below are addressing the following impediments identified in the 2021-2025 Analysis of Impediments to Furthering Fair Housing:

- 1-5 – Local zoning and land use regulations and/or inexact application of state laws may impede the siting and approval of group homes.
- 2-1 – Lack of enforcement of fair housing violations persist statewide.

- 2-2 – Limited housing options for persons most vulnerable to housing discrimination: non-English speakers, persons of Hispanic descent, African Americans, large families and persons with disabilities.
- 3-1 – Local housing resources statewide are limited. This is particularly true in rural communities.
- 6-1 – The state’s ban on inclusionary zoning limits municipalities’ ability to employ flexible tools and incentives to increase the number of affordable units built.

BUSINESS OREGON continues to fund fair housing activities through the Fair Housing Council of Oregon (FHCO)

Table III, below summarizes the impediments identified within 2021-2025 Analysis of Impediments to Affirmatively Furthering Fair Housing and Fair Housing Action Plan being addressed by BUSINESS OREGON and the actions taken by BUSINESS OREGON and through its contractor, FHCO to address the identified impediments:

During 2021 the following additional activities occurred:

- a. The state to conveys fair housing information via the CDBG 'list-serve'. This list-serve disseminates information to all interested persons and grant recipients.
- b. IFA provides outreach through technical assistance workshops/ presentations regarding Labor Standard, Limited English Proficiency Plan and Section 3 Plan along with the dissemination of the new established Section 3 new regulations.
- c. IFA requires the submission of reasonable accommodation policies when a non-profit becomes a certified sub-grantee.
- d. IFA enhanced the effort in furthering fair housing by providing assistance through FHCO training and education effort directly to the local jurisdictions.

Fair Housing Actions BUSINESS OREGON plans to undertake in 2021 and 2022

Support of Local Fair Housing Efforts

Business Oregon continues to work closely with all of our CDBG recipients to ensure that each of their jurisdictions recognize their responsibilities in this area and know where the resources are to answer questions and provide necessary brochures, posters and presentations. Regional coordinators remain in contact with each recipient through the course of the CDBG-funded project and can assist them when necessary.

Local fair housing efforts of state recipients include but are not limited to publicizing fair housing laws, participating in local fair housing events, displaying posters, distributing brochures and being a participating sponsor of the Fair Housing Council of Oregon (FHCO) display and training sessions. As we have worked with FHCO, we have come to understand that many of Oregon's small communities are struggling and it is common to find that municipal planners, attorneys, and building code/development personnel have been eliminated from the budget to reduce personnel expenses to ensure there are funds to cover the more basic needs of the community. These are the individuals who typically have the responsibility to understand fair housing laws and to be aware of local impediments to equal access to opportunity in housing. Often, affirmatively furthering fair housing is not even on their radar. Additionally, the citizen commissions/decision-making bodies and elected officials in small communities in Oregon are frequently swayed by neighborhood opinions without regard to the fair housing impacts. This is especially the case in land use decisions and zoning plans and practices. OBDD adjusted our contract with FHCO to enhance more direct work with local municipalities to enhance more education and awareness of Fair Housing in the rural areas.

Actions Taken to Remove Barriers to Affordable Housing

In addition to the activities described above, CDBG funds are used to extend publicly owned infrastructure to new affordable low- and moderate-income housing, which assists in addressing the obstacle of funding for owner occupied single family housing. CDBG funds also are used by low- and moderate-income homeowners to rehabilitate the homes they occupy.

CDBG funds were used to foster affordable housing by funding supportive public infrastructure for housing projects. CDBG funds, through the housing rehab program, support maintenance of affordable housing that is owned and occupied by a low- and moderate-income homeowner.

Workforce Housing – The State of Oregon, like many other states, is facing a workforce housing crisis. Many Oregonians have decent paying jobs – teachers, nurses, fire fighters, law enforcement, etc. but due to the high cost of housing, are housing burdened, paying well over the recommended 30% of their monthly income on housing or enduring long commutes to even find decent, safe and somewhat affordable housing. Due to this crisis, the Governor's Regional Solutions Team, along with several other state agencies, including

Oregon Housing and Community Services and Business Oregon, are collaborative working on solutions to the housing crisis of the “missing middle.” We are optimistic that while this won’t eliminate the issue this will begin to address the need and be something that can be replicated in other areas of the state. While the State Community Development Block Grant funds will not be directly utilized under this Initiative, Business Oregon has another funding source that is available for eligible applicants/projects to assist with the Workforce Housing issue.

Manufactured Housing – Oregon has more than 140,000 manufactured homes in parks and more than half of those (55%) were built before 1980 meaning many need repair. Many, if not most, of the manufactured homes are also owned or rented by low-to-moderate income persons. Since 2018, Business Oregon is providing a \$100,000 incentive for CDBG housing rehabilitation applications where the focus is on repairs to homes in manufactured parks. The maximum request for housing rehabilitation has been \$400,000 but considering the need, we have added the \$100,000 incentive for a maximum award of \$500,000. We anticipate at least an additional 20 manufactured homes in parks will be assisted with this incentive. In the past few years, the CDBG program made a programmatic change that would enable eligible applicants, in cooperation with a non-profit service provider, to allow substantial rehabilitation of homes especially for manufactured homes in parks. By implementing this change, we are optimistic that this will free up other funds that could be used to replace the outdated manufactured homes within a park and preserve the park for affordable housing. We will continue to work with Oregon Housing and Community Services and other stakeholders to develop the programmatic change to have the largest possible impact on continuing to preserve affordable housing of this type.

The Oregon Housing and Community Services Department (OHCS) is active in the promotion of fair housing. They operate many programs, including HOME. Owners of projects assisted by OHCS are required to develop marketing plans that include outreach activities targeted to minorities and other protected classes. The first component of the fair housing planning process is to review impediments to fair housing choice in the public and private sectors.

Other Actions Indicated in the Strategic Plan and the Action Plan and Including A Comparison of the Proposed Versus Actual Outcomes For Each Outcome Measure Submitted With the Consolidated Plan and Explain, If Applicable, Why Progress Was Not Made Toward Meeting Goals and Objectives.

2021 Outcome and Performance Goal Summary:

Table V summarizes the outcomes and performance measure requirements and the states progress towards meeting each requirement, by project type. This section of the 2021 PER conforms to the outcome and performance measure requirements identified in the 2021-2025 Consolidated Plan. Since the actual number funded is based upon the awards made during the program year, the final actual outcomes/accomplishments from each grant

awarded by the state will be collected when the grant activities are complete and the grant contract between the city/ county and the state is administratively closed and will be reported in IDIS at that time. In summary it is estimated 22,957 Oregonians will benefit from the activities funded under the CDBG program in PY2021 of which 16,720 (73%) will be low and moderate income. An abbreviated summary of the State's achievements through the end of PY 2021 are:

- The state met or exceeded the annual goals for Public Works; SL1 Community Facilities; EO3 Microenterprise Assistance; DH1 Community Facilities; SL3 Community Facilities and Community Capacity Technical Assistance and Housing Rehabilitation.
- 9 water and wastewater systems that are benefiting 19,966 people were funded.
- 173 housing units will be rehabilitated.
- The CDBG program leveraged \$6,650,425 in matching funds.
- Two capacity building activities were conducted, and they are benefiting non-entitlement communities statewide.

Five Year Outcome and Performance Goal Summary: Table V also, summarizes the outcomes and performance measure requirements and the State's overall progress towards meeting each requirement, during the 5-year reporting period, by project type. This section conforms to the outcome and performance measure requirements identified in the 2021-2025 Consolidated Plan. As this is the first year of the 2021-2025 Consolidated Plan, the information for 2021 is what will be reported for this year.

Refer to the Table V for details.

NOTE: As per HUD’s review dated 7/13/2021 regarding CDBG accomplishment numbers above was to be completed within the parameters of all projects that made draws within the reporting period (PR-23). note that it may be overinflated as it may include the number of accomplishments for CDBG-CV as PR-23 does not differentiate the source of funds. The annual and five- years performance indicator goals were set based on the projects awarded and future accomplishments indicated within the project application. And parameters that the State is tracking actual accomplishments are based on the projects that are completed within the program year and funded by the annual CDBG funds excluding CDBG-CV.

Describe the Use of CDBG Funds During the Program Year and Assess the Relationship of That Use to the Priorities and Specific Objectives Identified Within the Plan with Special Attention to the Highest Priority Activities That Were Identified

CDBG activities that have had a substantial impact on identified needs are the public works activities and community facility activities which were identified as high priority projects in the 2021-2025 Consolidated Plan. Out of CDBG funds awarded in 2021 73% are to benefit LMI while in total they will benefit 22,950 people living in the rural non-entitlement areas. As a part of the priority under housing rehabilitation projects, we are expecting to rehabilitate and will benefit at least 95 households. Refer to Table's I, V and VI for more details.

The indicators for CDBG needs are identified by the type and number of applications received for funding in 2021. Based upon the number of applications received public works, community facilities and housing rehabilitation are of the highest need. Oregon funded:

- 11 water and wastewater systems and public facility that are benefiting 22,862 people were funded.
- 95 housing units will be rehabilitated.
- The CDBG program leveraged \$6,650,425 in matching funds.

The state obligated its Program Year 2021 funds for activities in accordance, as much as possible, with the targets set in the *2021 Annual Action Plan for the Oregon Consolidated Plan*.

The state exceeded the annual allocation funding targets in all categories

Over the years, the state is seeing an increase in demand for the CDBG program. With the increase in demand the State went from one application round a year to two. Many of communities have shown interest in the upcoming application round which started in February with applications due the end of April. The second application round will begin in July and end September 30th.

The state's CDBG program continues to alleviate the effects of the economy by creating jobs, assisting microenterprises, improving infrastructure, providing housing rehabilitation, and constructing essential community facilities. The primary obstacle in successfully addressing the demands remain in the lack of funding. Federal and state funding are simply not enough to meet demand, even when coordinating funding for infrastructure projects with other agencies such as the US Department of Agriculture's Rural Utility Service, Oregon Department of Environmental Quality, the Environmental Protection Agency, the lottery funded Special Public Works Fund and Water/Wastewater Financing Program and others.

Variance between Targeted and Awarded Funding in 2021-2025

The Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages, but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e. if a sufficient number of projects are not awarded in a particular category, applications in other categories may be funded. Each calendar year OBDD-IFA conducted a target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. Granted that 2021 is the first year of the 2021-2025 plan period, OBDD has, so far, able to achieve annual targeted goals.

Specify the Nature of and Reasons for any Changes in Program Objectives and Indicate How the State Would Change Its Programs As A Result of Its Experiences

The 2021 Program Year had many lingering challenges due to the COVID 19. The local rural economy suffered which created a need for assistance to small business. As a result, the state see the changes in the capacity level, and the impact to the project timelines.

Evaluate the Extent To Which the Program Benefitted Low- And Moderate-Income Persons and Include the Number of Extremely Low-Income, and Moderate-Income Persons Served By Each Activity Where Information on Income By Family Size Is Required to Determine Eligibility of the Activity

For the selected benefit period (2021-2022-2023), 93.96% of the state's CDBG funds were obligated to activities benefiting low- and moderate-income persons. Of the funds obligated under the state's 2021 program, 93.6% of the projects funded are to satisfy the national objectives of benefiting low- and moderate-income persons.

The unobligated FY2020 funds were not included in the calculation for overall program benefit to low- and moderate-income persons. Refer to Table V above and Table VI below for details.

Evaluate Progress toward Meeting The Goals of Providing Affordable Housing CDBG Funds, Including the Number and Types Of Households Served

During 2021 Business Oregon funded housing rehabilitation projects that are proposed to benefit at least 95 households, of which 100% will be low and moderate income.

A Summary of Any Comments Concerning the Program That Have Been Received From Citizens

The public comment period concludes on May 26, 2022 and BUSINESS OREGON received no public comment regarding the 2021 CDBG PER reports.

A Summary of Activities and Results from Technical Assistance Funding

The state's 2021 program included the use of CDBG funds for the technical assistance allowed by Section 811 of the Housing and Community Development Act of 1992. As of December 31, 2021, none of the 1% funds from the 2021 allocation had been expended. During 2021 BUSINESS OREGON obligated all the 2018 CDBG 1% and substantially obligated partial of the 2019 CDBG 1% funds for activities.

Table VII summarizes the CDBG 1% Technical Assistance awards that were made in Program Year 2021 for conference/workshop sponsorship, for local government capacity building associated with CDBG projects. The information below describes all the activities that were funded and the results from that activity.

- **Fair Housing Council of Oregon.** BUSINESS OREGON entered into the contract with the Fair Housing Council of Oregon (FHCO) to promote equal access to housing by providing fair housing education, outreach, technical assistance and enforcement opportunities related to federal laws and related Oregon laws. A more detailed description of the results of this funding is described in the 2021 PER report section

entitled *“actions taken to affirmatively further fair housing, a summary of impediments, and actions taken to overcome the effects of impediments”*

- **Downtown Redevelopment and Main Street Program Feasibility Study**
- **State Administration.** Starting in FY 2004, states may expend up to \$100,000 +2% of their annual allocation on state administrative costs. In 2006, the state reserved the right to use this flexibility. All CDBG 2% funds used for state administration will be matched 1:1 with funds from the department's Special Public Works Fund. During 2021 none of the CDBG 1% funds were utilized for state administration.

Civil Rights

The state is required to provide data on all applicants and beneficiaries in projects funded from each grant allocation. Information must be reported for each project activity and must indicate the number of persons benefiting by ethnicity and racial groups as defined by U.S. Census.

- **Applicant data** – the proposed applicant data is contained in Table II above.
- **Actual data** – the actual beneficiary data from PY2021 CDBG funded projects that were administratively closed during 2021 is described and contained in Table VIII below.

Table VIII

Race Group	Total from PY 2021 Grant		Combined Total
	Project	Hispanic	
White	7,105	584	7,689
Black/African American	48		48
Asian	85		85
American Indian/Alaskan Native	111	1	112

Asian & White	5		5
Black/African American & White	2		2
Other multi-racial	318	20	338
Total	7,699	606	8,305

Ethnicity/Race data is tabulated for all administratively closed or closed projects in the non-entitlement areas of the state. Nine (9) projects awarded in 2021 were administratively closed during the reporting period. When 2021 funded projects are administratively closed, the ethnicity/race data will be reported in successive year's PERs 2021 Grant Year Activity Reports.

Summary of State's Reviews of Recipient's Civil Rights Performance

The state reviews the civil rights performance of its 2021 recipients as part of its regular monitoring procedures. Due to COVID 19 restrictions internal file/desk audit was performed for all projects. A standardized monitoring checklist is used for this process. Grant recipients monitored during the reporting period complied with the Civil Rights performance requirements for Community Development Block Grant recipients.

Summary of State and Recipient Actions to Use Minority- and Women-Owned Businesses In Carrying Out CDBG-Funded Activities

The state encourages grantees to make contracts awarded under CDBG grants available to minority- and women-owned businesses. Through the Grant Management Handbook and training given to recipients, the state describes the various ways that contracting opportunities can be made available to minority- and women-owned businesses. Some examples include dividing larger contracts into smaller portions that can be bid on by smaller firms, or directly soliciting proposals or bids from lists of certified minorities- and women-owned businesses. Business Oregon Certification Office for Business Inclusion and Diversity (COBID) provides information regarding minority and women owned business that potential contractors can access if looking for minority and women owned businesses in the area.

The current Grant Management Handbook (GMH) (2021 version) provides forms that grantees use to collect and report their efforts to the state. The u GMH continues to contain information and new requirements as published by HUD. All Grantees must meet the minimum acceptable outreach efforts/standards to minority- and women-owned businesses:

- A good faith, comprehensive and continuing endeavor:
- Supported by a statement of public policy and commitment published in the printed media of the widest local circulation.
- Supported by an office/or a key, ranking staff person with oversight responsibilities and access to the chief elected official; and
- Designed to utilize all available and appropriate public and private sector resources.

In addition to meeting the *standards* listed above, grantees are encouraged to use the **guidelines** contained in the GMH in implementing outreach programs to ensure the inclusion to the maximum extent feasible, of entities owned by minorities and women.

Equal Employment Opportunity Data for Business Oregon

Business Oregon maintains the employment data required by the Equal Employment Opportunity Commission (EEOC) on an EEO-4 form. The form is not included in this report but is available from the department.

IDISPR28 Financial Summary Report Adjustments

Adjustment to include the Technical Assistance was done to record the allocation of \$123,032 and State administrative amount.

Line 59 was almost adjusted to show the overall low- and moderate-income benefit period of 2021-2023

Additional achievements

- Business Oregon has submitted the closed out PY2011 and the PY2017 and is awaiting HUD to process the request.

PART II—NARRATIVE REQUIREMENTS
December 31, 2023

Describe the Resources Made Available

In 2020 IFA had \$21,791,553 in available CDBG resources to award to units of general local government (UGLG). Table I below illustrates the information more clearly but a quick summary is provided below:

- 1) FY2020 annual grant (amount available for projects) \$ 13,623,873
- 2) FY2019 and prior year unobligated funds \$ 8,441,480

Describe the Investment of Available Resources

The available resources were not fully invested within PY2020. Table I illustrates that the 2020 funds obligated by December 31, 2020.

Variance between Targeted and Awarded Funding in 2020

The 2020 Method of Distribution (MOD) identifies that OBDD intended to award funds according to the target percentages, but OBDD is not obligated to award all the funds targeted to each category, i.e., if enough projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA will conduct a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received, was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the 2020 MOD, and for the following reasons:

The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. As of December 31, 2020, the State received nineteen applications totaling of \$ 10,023,500.

As of December 31, 2020, \$2,249,863 of the 2020 Program Year funds were obligated and left \$11,374,010 to be included in the 2021 application round which will open in April 2021 to September 2020. In total the projected obligation for the FY 2020 funds were obligated in accordance with the *2020 Method of Distribution*. We are confident that the remaining \$11,374,010 will be able to obligate it within the 15-month Timely Distribution period.

Geographic Distribution and Location of Investments

Refer to the above map for the 2020 CDBG program obligations. The state of Oregon has no control over the type and quantity of applications submitted for funding under the program or their geographic location. The state did not receive direct microenterprise assistance applications but due to the government shut down due to COVID-19 the state awarded Small Business awards through the microenterprise program. Awards were made as follows:

- **Microenterprise Assistance (Small Business)** – City of La Grande, Baker County, Wallowa County, City of Madras, City of Rogue River, City of Sweet Home, Wallowa County

Activities to Address Homelessness, Chronic Homelessness and Persons with Special Needs

Funding homeless shelters, shelters for victims of domestic violence and person with special needs are one of the priorities of the Oregon CDBG program. There were no CDBG projects awarded in PY2020 or assisted with PY 2020 funds for person with special needs under Community Facilities.

Actions Taken To Affirmatively Further Fair Housing, a Summary of Impediments (AI) and Actions Taken To Overcome the Effects of Impediments

Three state agencies administer programs that serve to further fair housing for Oregon's people. As result the Analysis of Impediments to Affirmatively Furthering Fair Housing was a joint effort between the state agencies and the actions taken to overcome the impediments were also divided amongst the state agencies. For a complete description of the impediments found in the 2016-2020 Analysis of Impediments to Affirmatively Furthering Fair Housing, the 2016-2020 Fair Housing Action Plan and a summary of all the state agency actions to overcome the identified impediments, please refer to the more detailed analysis included in the 2019 Consolidated Annual Performance Evaluation Report (CAPER). This CDBG Performance Evaluation Report (PER) narrative summarizes the actions taken by Business Oregon to address/overcome specific impediments.

Business Oregon along with two other state agencies are in the process of completing the 2021-2025 Consolidated Plan, updating the AI, and the Fair Housing Action Plan. This report will still reflect the findings in the 2016-2020 AI however the 2021 PER will address any changes to the AI and Fair Housing Action Plan.

Business Oregon, which administers Community Development Block Grant funds for the state's non-metropolitan cities and counties, integrating within program implementation and through the contract with Fair Housing Councils of Oregon, educates its recipients about their fair housing responsibilities in several ways including:

- 1) Presentations at workshops,
- 2) Updates to the comprehensive Grant Management Handbook,
- 3) Disbursements of informational handouts, posters, brochures and individual technical assistance, as needed or requested,
- 4) Disbursements of workshops or conferences which address fair housing issues and
- 5) completed 2016-2020 statewide Analysis of Impediments to Affirmatively Furthering Fair Housing and Fair Housing Action Plan which are made available to recipients to identify, plan for and remove impediments to further fair housing,
- 6) Provide direct training and consultation to local jurisdiction.

The efforts of BUSINESS OREGON, identified below are addressing the following impediments identified in the 2016-2020 Analysis of Impediments to Furthering Fair Housing:

- 1-5 – Local zoning and land use regulations and/or inexact application of state laws may impede the siting and approval of group homes.
- 2-1 – Lack of enforcement of fair housing violations persist statewide.
- 2-2 – Limited housing options for persons most vulnerable to housing discrimination: non-English speakers, persons of Hispanic descent, African-Americans, large families and persons with disabilities.
- 3-1 – Local housing resources statewide are limited. This is particularly true in rural communities.
- 6-1 – The state's ban on inclusionary zoning limits municipalities' ability to employ flexible tools and incentives to increase the number of affordable units built.

BUSINESS OREGON continues to fund fair housing activities through the Fair Housing Council of Oregon (FHCO)

Table III, below summarizes the impediments identified within 2016-2020 Analysis of Impediments to Affirmatively Furthering Fair Housing and Fair Housing Action Plan being addressed by BUSINESS OREGON and the actions taken by BUSINESS OREGON and through its contractor, FHCO to address the identified impediments:

During 2020 the following additional activities occurred:

- a. The state to conveys fair housing information via the CDBG 'list-serve'. This list-serve disseminates information to all interested persons and grant recipients.
- b. IFA provides outreach through technical assistance workshops/ presentations regarding Limited English Proficiency Plan and Section 3 Plan along with the dissemination of the new established Section 3 Business Registry web page.
- c. IFA requires the submission of reasonable accommodation policies when a non-profit becomes a certified sub-grantee.
- d. IFA enhanced the effort in furthering fair housing by providing assistance through FHCO training and education effort directly to the local jurisdictions.

Fair Housing Actions BUSINESS OREGON plans to undertake in 2019 and 2020

Support of Local Fair Housing Efforts

Business Oregon continues to work closely with all our CDBG recipients to ensure that each of their jurisdictions recognize their responsibilities in this area and know where the resources are to answer questions and provide necessary brochures, posters and presentations. Regional coordinators remain in contact with each recipient through the course of the CDBG-funded project and can assist them when necessary.

Local fair housing efforts of state recipients using 2019 and 2020 funds include but are not limited to: publicizing fair housing laws, participating in local fair housing events, displaying posters, distributing brochures and being a participating sponsor of the Fair Housing Council of Oregon (FHCO) display and training sessions. As we have worked with FHCO, we have come to understand that many of Oregon's small communities are struggling and it is common to find that municipal planners, attorneys, and building code/development personnel have been eliminated from the budget to reduce personnel expenses to ensure there are funds to cover the more basic needs of the community. These are the individuals who typically have the responsibility to understand fair housing laws and to be aware of local impediments to equal access to opportunity in housing. Often, affirmatively furthering fair housing is not even on their radar. Additionally, the citizen commissions/decision-making bodies and elected officials in small communities in Oregon are frequently swayed by neighborhood opinions without regard to the fair housing impacts. This is especially the case in land use decisions and zoning plans and practices. OBDD adjusted our contract with FHCO to enhance more direct work with local municipalities to enhance more education and awareness of Fair Housing in the rural areas.

Actions Taken to Remove Barriers to Affordable Housing

In addition to the activities described above, CDBG funds are used to extend publicly owned infrastructure to new affordable low- and moderate-income housing, which assists in addressing the obstacle of funding for owner occupied single family housing. CDBG funds also are used by low- and moderate-income homeowners to rehabilitate the homes they occupy.

CDBG funds were used to foster affordable housing by funding supportive public infrastructure for housing projects. CDBG funds, through the housing rehab program, support maintenance of affordable housing that is owned and occupied by a low- and moderate-income homeowner.

Workforce Housing – The State of Oregon, like many other states, is facing a workforce housing crisis. Many Oregonians have decent paying jobs – teachers, nurses, fire fighters, law enforcement, etc. but due to the high cost of housing, are housing burdened, paying well over the recommended 30% of their monthly income on housing or enduring long commutes in order to even find decent, safe and somewhat affordable housing. Due to

this crisis, the Governor’s Regional Solutions Team, along with several other state agencies, including Oregon Housing and Community Services and Business Oregon, are collaborative working on solutions to the housing crisis of the “missing middle.” We are optimistic that while this will not completely eliminate the issue this will begin to address the need and be something that can be replicated in other areas of the state. While the State Community Development Block Grant funds will not be directly utilized under this Initiative, Business Oregon has another funding source that is available for eligible applicants/projects to assist with the Workforce Housing issue.

Manufactured Housing – Oregon has more than 140,000 manufactured homes in parks and more than half of those (55%) were built before 1980 meaning many need repair. Many, if not most, of the manufactured homes are also owned or rented by low-to-moderate income persons. Since 2018, Business Oregon is providing a \$100,000 incentive for CDBG housing rehabilitation applications where the focus is on repairs to homes in manufactured parks. The maximum request for housing rehabilitation has been \$400,000 but considering the need, we have added the \$100,000 incentive for a maximum award of \$500,000. We anticipate at least an additional 20 manufactured homes in parks will be assisted with this incentive. In 2020, the CDBG program made a programmatic change that would enable eligible applicants, in cooperation with a non-profit service provider, to allow substantial rehabilitation of homes especially for manufactured homes in parks. By implementing this change, we are optimistic that this will free up other funds that could be used to replace the outdated manufactured homes within a park and preserve the park for affordable housing. We will continue to work with Oregon Housing and Community Services and other stakeholders to develop the programmatic change to have the largest possible impact on continuing to preserve affordable housing of this type.

The Oregon Housing and Community Services Department (OHCS) is active in the promotion of fair housing. They operate many programs, including HOME. Owners of projects assisted by OHCS are required to develop marketing plans that include outreach activities targeted to minorities and other protected classes. The first component of the fair housing planning process is to review impediments to fair housing choice in the public and private sectors.

Other Actions Indicated in the Strategic Plan and the Action Plan and Including A Comparison of the Proposed Versus Actual Outcomes For Each Outcome Measure Submitted With the Consolidated Plan and Explain, If Applicable, Why Progress Was Not Made Toward Meeting Goals and Objectives.

2020 Outcome and Performance Goal Summary:

Table V, summarizes the outcomes and performance measure requirements and the states progress towards meeting each requirement, by project type. This section of the 2020 PER conforms to the outcome and performance measure requirements identified in the 2016-2020 Consolidated Plan. Since the actual number funded is based upon the awards made during the program year, the final actual outcomes/accomplishments from

each grant awarded by the state will be collected when the grant activities are complete and the grant contract between the city/ county and the state is administratively closed and will be reported in IDIS at that time. In summary it is estimated 40,511 Oregonians will benefit from the activities funded under the CDBG program in PY2020 of which 25,813 (64%) will be low and moderate income. An abbreviated summary of the State's achievements through the end of PY 2020 are:

- The state met or exceeded the annual goals for Public Works; SL1 Community Facilities; EO3 Microenterprise Assistance; DH1 Community Facilities; SL3 Community Facilities and Community Capacity Technical Assistance and Housing Rehabilitation.
- 5 water and wastewater systems were funded.
- 171 housing units will be rehabilitated.
- The CDBG program leveraged \$3,144,460 in matching funds.
- Two capacity building activities were conducted where 377 persons benefitted

Five Year Outcome and Performance Goal Summary: Table V also, summarizes the outcomes and performance measure requirements and the State's overall progress towards meeting each requirement, during the 5-year reporting period, by project type. This section conforms to the outcome and performance measure requirements identified in the 2016-2020 Consolidated Plan. As this is the fifth year of the 2016-2020 Consolidated Plan, the information for 2020 is what will be reported for this year.

Refer to the Table V for details.

Note #1—Outcomes—Actual Number Funded—The actual number funded is based upon the awards made during the program year. The final actual outcomes/accomplishments from each grant awarded by the state will be collected when the grant activities are complete and the grant contract between the city/county and the state is administratively closed and will be reported in IDIS as part of the CAPER.

Each grant recipient is allowed a specified period-of-time to complete the CDBG funded activities and this time-period varies by type of grant. This time-period is referred to as the Project Completion Date (PCD). The state allows PCD extensions if the local circumstances warrant the extensions. Each PCD extension is reviewed on a case by case basis. A summary of the standard PCD time periods are:

- 1 year PCD—Applies to microenterprise assistance grants.
- 2 year PCD—Planning/Final design only grants, construction only grants, public/community facility and housing rehabilitation grants.

Note #2—The state may select activities/priorities for the 2016-2020 CDBG program from the table above. The proposed outcome and performance measure requirements, performance indicators and the short- and long-term goals for each activity will only be triggered, if the activity is actually offered by the program

Describe the Use of CDBG Funds During the Program Year and Assess the Relationship of That Use to the Priorities and Specific Objectives Identified Within the Plan With Special Attention to the Highest Priority Activities That Were Identified

CDBG activities that have had a substantial impact on identified needs are the public works activities and community facility activities which were identified as high priority projects in the 2016-2020 Consolidated Plan. Thirty percent (30%) of the CDBG funds awarded in 2020 were for Community Facilities projects that will benefit 9,456 LMI persons, thirty eight percent (38%) for Public Works projects will benefit 6,949 persons and thirty percent (30%) of the CDBG funds awarded in 2020 were for housing rehabilitation projects that will benefit 137 households and rehabilitate 137 housing units. Refer to Table's I, V and VI for more details.

The indicators for CDBG needs are identified by the type and number of applications received for funding in 2020. Based upon the number of applications received public works, community facilities and housing rehabilitation are of the highest need. Oregon funded:

- 5 public works projects
- 2 community facility projects.
- 7 housing rehabilitation projects and,
- 5 small business/microenterprise project

The state obligated its Program Year 2020 funds for activities in accordance, as much as possible, with the targets set in the *2020 Annual Action Plan for the Oregon Consolidated Plan*.

The state exceeded the annual allocation funding targets in the following category:

- Public Works: Target was to assist 2 system per year and during 2020 the state assisted 5 system benefiting 5 different geographical communities
- Housing Rehabilitation: Target was to assist at least 100 housing unit per year and in 2020 the state has rehabilitated 137 housing units.
- Micro-Enterprise Assistance: Target was to assist at least 100 Micro-entrepreneurs, for 2020 the state has successfully reach the set target.

Over the years, the state is seeing an increase in demand for the CDBG program. With the increase in demand the State went from one application round a year to two. Many of communities have shown interest in the upcoming application round which started in February with applications due the end of April. The second application round will begin in July and end September 30th.

The state's CDBG program continues to alleviate the effects of the economy by creating jobs, assisting microenterprises, improving infrastructure, providing housing rehabilitation, and constructing essential community facilities. The primary obstacle in successfully addressing the demands remain in the lack of funding. Federal and state funding are simply not enough to meet demand, even when coordinating funding for infrastructure projects with other agencies such as the US Department of Agriculture's

Rural Utility Service, Oregon Department of Environmental Quality, the Environmental Protection Agency, the lottery funded Special Public Works Fund and Water/Wastewater Financing Program and others.

Variance between Targeted and Awarded Funding in 2016-2020

The Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages, but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e. if a sufficient number of projects are not awarded in a particular category, applications in other categories may be funded. Each calendar year OBDD-IFA conducted a target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the applicable MOD, and for the following reasons:

- The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. The State emphasizes to communities interested in applying to submit well-developed project ready for funding in the open application round
- Demand for community facilities and public works projects has significantly increased throughout the five years. This upward trend was caused by increase in regulatory agencies requirements for the improvement of aging and failing system. The improvement of the economy conditions has provided little boost in the capacity to undertake large projects to address the community need and the decline in availability of grant funding for both categories. Subsequently the demand for Microenterprise assistance has sharply decreased, while Housing Rehabilitation program is showing increase in interest.
- With the impact of COVID-19 many projects that received funding experienced delays. These delays were in part due to the inability to complete reporting requirements and were not ready to proceed. Projects that had completed all the environmental requirements were unable to procedure due to the social distancing requirements.

Specify the Nature of and Reasons for any Changes in Program Objectives and Indicate How the State Would Change Its Programs As A Result of Its Experiences

The 2020 Program Year had many challenges due to the COVID 19. The local rural economy suffered which created a need for assistance to small business. As a result the state used a portion of the emergency set-aside to aid in small business assistance and projects that would prepare for, prevent or respond to the pandemic.

After assessing the variance between targeted and awarded in 2016-2020:

- Business Oregon is utilizing the historical data of demand and the trend of funds availability in the development of 2016-2020 Consolidated Plan goals to a more achievable target.
- Business Oregon will proceed with the assessment to evaluate level of marketing and outreach to projects to achieve the newly set goals. We identified several outreach efforts through the restructuring of the agency's service delivery model alongside with Governor's Regional Solution Teams throughout the 10 regions in the state. Business Oregon will continuously proceed with the outreach efforts by actively marketing the program through all different efforts such as involvements in the League of Oregon Cities and Association of Oregon Counties.
- Business Oregon keep moving forward on technical assistance to enhance the performance of all programs for our applicants to implementation through trainings, implementation tool development (electronic application) and one-on-one assistance.

Evaluate the Extent To Which the Program Benefitted Low- And Moderate-Income Persons and Include the Number of Extremely Low-Income, and Moderate-Income Persons Served By Each Activity Where Information on Income By Family Size Is Required to Determine Eligibility of the Activity

For the selected benefit period (2018-2019-2020), 99.2% of the state's CDBG funds were obligated to activities benefiting low- and moderate-income persons. Of the funds obligated under the state's 2020 program, 100% of the projects funded are to satisfy the national objectives of benefiting low- and moderate-income persons.

The unobligated FY2019 funds were not included in the calculation for overall program benefit to low- and moderate-income persons. Refer to Table V above and Table VI below for details.

A Summary of Any Comments Concerning the Program That Have Been Received From Citizens

The public comment period concludes on May 5, 2020 and BUSINESS OREGON received no public comment regarding the 2020 CDBG PER reports.

A Summary of Activities and Results from Technical Assistance Funding

The state's 2020 program included the use of CDBG funds for the technical assistance allowed by Section 811 of the Housing and Community Development Act of 1992. As of December 31, 2022, \$106,989 of the \$ 136,239 1% funds from the 2020 allocation had been obligated.

Table VII summarizes the CDBG 1% Technical Assistance awards that were made in Program Year 2020 for conference/workshop sponsorship, for local government capacity building associated with CDBG projects. The information below describes all the activities that were funded and the results from that activity.

- Fair Housing Council of Oregon.** BUSINESS OREGON entered into a the contract with the Fair Housing Council of Oregon (FHCO) to promote equal access to housing by providing fair housing education, outreach, technical assistance and enforcement opportunities related to federal laws and related Oregon laws. A more detailed description of the results of this funding is described in the 2020 PER report section entitled *“actions taken to affirmatively further fair housing, a summary of impediments, and actions taken to overcome the effects of impediments”*
- State Administration.** Starting in FY 2004, states may expend up to \$100,000 +2% of their annual allocation on state administrative costs. In 2006, the state reserved the right to use this flexibility. All CDBG 2% funds used for state administration will be

matched 1:1 with funds from the department's Special Public Works Fund. During 2020 none of the CDBG 1% funds were utilized for state administration.

Civil Rights

The state is required to provide data on all applicants and beneficiaries in projects funded from each grant allocation. Information must be reported for each project activity and must indicate the number of persons benefiting by ethnicity and racial groups as defined by U.S. Census.

- **Applicant data** – the proposed applicant data is contained in Table II above.
- **Actual data** – the actual beneficiary data from PY2020 CDBG funded projects that were administratively closed during 2020 is described and contained in Table VIII below.

Table VIII

Ethnicity/Race data is tabulated for all administratively closed or closed projects in the non-entitlement areas of the state. Four (4) projects awarded in 2020 were administratively closed during the reporting period. When 2020 funded projects are administratively closed, the ethnicity/race data will be reported in successive year's PERs 2020 Grant Year Activity Reports as indicated in the table above.

Summary of State's Reviews of Recipient's Civil Rights Performance

The state reviews the civil rights performance of its 2020 recipients as part of its regular monitoring procedures. Due to COVID 19 restrictions internal file/desk audit was performed for all projects. A standardized monitoring checklist is used for this process. Grant recipients monitored during the reporting period complied with the Civil Rights performance requirements for Community Development Block Grant recipients.

Summary of State and Recipient Actions to Use Minority- and Women-Owned Businesses In Carrying Out CDBG-Funded Activities

The state encourages grantees to make contracts awarded under CDBG grants available to minority- and women-owned businesses. Through the Grant Management Handbook and training given to recipients, the state describes the various ways that contracting opportunities can be made available to minority- and women-owned businesses. Some examples include dividing larger contracts into smaller portions that can be bid on by smaller firms, or directly soliciting proposals or bids from lists of certified minority- and women-owned businesses. Business Oregon Certification Office for Business Inclusion and Diversity (COBID) provides information regarding minority and women owned business that potential contractors can access if looking for minority and women owned businesses in the area.

The current Grant Management Handbook (GMH) (2020 version) provides forms that grantees use to collect and report their efforts to the state. The u GMH continues to contain information and new requirements as published by HUD. All Grantees must meet the minimum acceptable outreach efforts/standards to minority- and women-owned businesses:

- A good faith, comprehensive and continuing endeavor:
- Supported by a statement of public policy and commitment published in the printed media of the widest local circulation.
- Supported by an office/or a key, ranking staff person with oversight responsibilities and access to the chief elected official; and
- Designed to utilize all available and appropriate public and private sector resources.

In addition to meeting the *standards* listed above, grantees are encouraged to use the **guidelines** contained in the GMH in implementing outreach programs to ensure the inclusion to the maximum extent feasible, of entities owned by minorities and women.

The state will report in future PERs, for each allocation, on the use of minority and women-owned businesses, and on Section 3 activities by its recipients. Business Oregon's 2020 Section 3 Report was submitted to HUD via SPEARS on February 26, 2021

Equal Employment Opportunity Data for Business Oregon

Business Oregon maintains the employment data required by the Equal Employment Opportunity Commission (EEOC) on an EEO-4 form. The form is not included in this report but is available from the department.

IDISPR28 Financial Summary Report Adjustments

Adjustment to include the Technical Assistance was done to record the allocation of \$132,772.

Line 59 was almost adjusted to show the overall low- and moderate-income benefit period of 2018-2020

Additional achievements

- Business Oregon has submitted the closed out PY 2011 and the PY2015 and is awaiting HUD to process the request.

PART II—NARRATIVE REQUIREMENTS
December 31, 2023

Describe the Resources Made Available

In 2019 IFA had \$16,787,629 in available CDBG resources to award to units of general local government. Table I below illustrates the information more clearly but a quick summary is provided below:

- 1) FY2019 annual grant (amount available for projects) \$12,778,858
- 2) FY2018 and prior year recaptured funds \$4,008,771

Describe the Investment of Available Resources

The available resources are not fully invested within PY2019. Table I illustrates that the 2019 funds obligated by December 31, 2019.

Variance between Targeted and Awarded Funding in 2019

The 2019 Method of Distribution (MOD) identifies that OBDD intended to award funds according to the target percentages, but OBDD is not obligated to award all the funds targeted to each category, i.e. if a sufficient number of projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA will conduct a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the 2019 MOD, and for the following reasons:

The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. As of December 31, 2019, the State received seventeen applications totaling of \$ 9,871,147. Out of all applications received one was returned and we were able to fund all of remaining.

As of December 31, 2019, \$8,371,147 of the 2019 Program Year funds were obligated and left \$8,416,482 to be included in the 2020 application round which will open in April 2020 to September 2019. In total the projected obligation for the FY 2019 funds were obligated in accordance with the *2019 Method of Distribution*. We are confident that the remaining \$8,416,482 will be able to obligate it within the 15-month Timely Distribution period.

PY 2018 was the first year of implementation after the state has implemented a major overhaul in the program design because of the TA provided by HUD to improve on the state expenditure ratio, those improvements are:

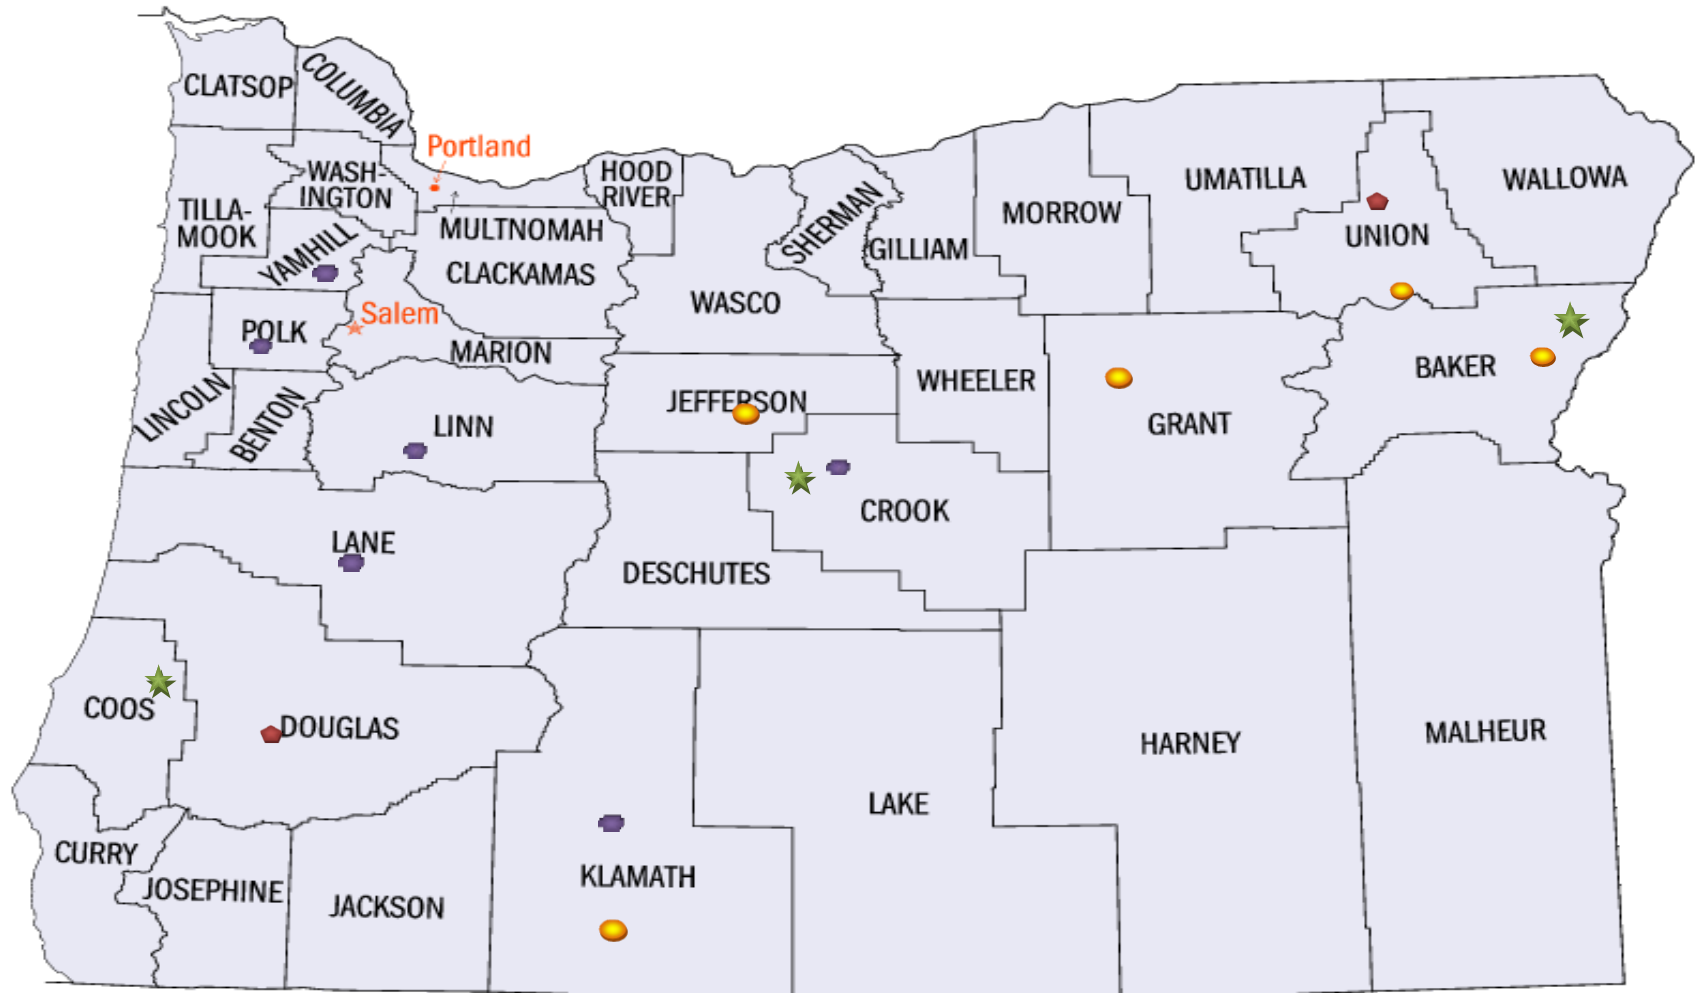

- Restructuring of project timeline to contain projects to be completed within 24 months
- Subsequent rearrangement of Public Works project type which now restrict to fund only design or construction (as apparent in the type of project funded in 2018, four out of five public works projects awarded are for design only)
- Restructuring of the scoring system
- Implementation of electronic application
- Recalibration of application round from quarterly to annually.

Because of that we have been expecting the slowdown in obligation pacing as more of the design only projects are funded more. After all these implementations, we have seen a great improvement in the expenditure ratio in the past year.

Activities to Address Homelessness, Chronic Homelessness and Persons with Special Needs

Funding homeless shelters, shelters for victims of domestic violence and person with special needs are one of the priorities of the Oregon CDBG program. There were no CDBG projects awarded in PY2019 or assisted with FY 2019 funds for person with special needs under Community Facilities.

Actions Taken To Affirmatively Further Fair Housing, a Summary of Impediments and Actions Taken To Overcome the Effects of Impediments

Three state agencies administer programs that serve to further fair housing for Oregon's people. As result the Analysis of Impediments to Affirmatively Furthering Fair Housing was a joint effort between the state agencies and the actions taken to overcome the impediments were also divided amongst the state agencies. For a complete description of the impediments found in the 2016-2020 Analysis of Impediments to Affirmatively Furthering Fair Housing, the 2016-2020 Fair Housing Action Plan and a summary of all the state agency actions to overcome the identified impediments, please refer to the more detailed analysis included in the 2016 Consolidated Annual Performance Evaluation Report (CAPER). This CDBG Performance Evaluation Report (PER) narrative summarizes the actions taken by Business Oregon to address/overcome specific impediments.

Business Oregon, which administers Community Development Block Grant funds for the state's non-metropolitan cities and counties, integrating within program implementation and through the contract with Fair Housing Councils of Oregon, educates its recipients about their fair housing responsibilities in several ways including:

- 1) Presentations at workshops,
- 2) Updates to the comprehensive Grant Management Handbook,
- 3) Disbursements of informational handouts, posters, brochures and individual technical assistance, as needed or requested,
- 4) Disbursements of workshops or conferences which address fair housing issues and
- 5) completed 2016-2020 statewide Analysis of Impediments to Affirmatively Furthering Fair Housing and Fair Housing Action Plan which are made available to recipients to identify, plan for and remove impediments to further fair housing,
- 6) Provide direct training and consultation to local jurisdiction.

The efforts of BUSINESS OREGON, identified below are addressing the following impediments identified in the 2016-2020 Analysis of Impediments to Furthering Fair Housing:

- 1-5 – Local zoning and land use regulations and/or inexact application of state laws may impede the siting and approval of group homes.
- 2-1 – Lack of enforcement of fair housing violations persist statewide.

- 2-2 – Limited housing options for persons most vulnerable to housing discrimination: non-English speakers, persons of Hispanic descent, African-Americans, large families and persons with disabilities.
- 3-1 – Local housing resources statewide are limited. This is particularly true in rural communities.
- 6-1 – The state’s ban on inclusionary zoning limits municipalities’ ability to employ flexible tools and incentives to increase the number of affordable units built.

BUSINESS OREGON continues to fund fair housing activities through the Fair Housing Council of Oregon (FHCO) and, until 2014 through the Greater Eastern Oregon Economic Development District (GEODC). Since January 2011, BUSINESS OREGON has funded \$444,025 to these entities to complete activities to further fair housing and remove impediments to fair housing choice:

- FHCO – contract from July 1, 2011 to December 31, 2012 for \$55,000.
- GEODC – contract from July 1, 2011 to June 30, 2012 for \$20,000.
- FHCO – contract for 3 workshops in 2013 for \$8,000.
- GEODC – contract from July 1, 2012 to June 30, 2014 for \$32,000.
- FHCO – contract from July 16, 2013 to December 31, 2013 for \$65,800.
- FHCO – contract from March 24, 2014 to December 31, 2015 (amended in April 2015 to include more work with local jurisdictions) for \$158,925.
- FHCO – contract from February 8, 2016 to December 31, 2016 for \$104,300
- FHCO – Contracted from February 2017 to December 31, 2017 for \$113,550
- FHCO – Contracted from February 2018 to December 31, 2018 for \$98,850
- FHCO – Contracted from February 2019 to January 30, 2020 For \$110,675

Table III, below summarizes the impediments identified within 2016-2020 Analysis of Impediments to Affirmatively Furthering Fair Housing and Fair Housing Action Plan being addressed by BUSINESS OREGON and the actions taken by BUSINESS OREGON and through its contractor, FHCO to address the identified impediments:

During 2019 the following additional activities occurred:

- a. The state continues to convey fair housing information via the CDBG 'list-serve' which was started in 2007. This list-serve disseminates information to all interested persons and grant recipients.
- b. IFA continues outreach through technical assistance workshops/ presentations regarding Limited English Proficiency Plan and Section 3 Plan along with the dissemination of the new established Section 3 Business Registry web page.
- c. IFA continues to require the submission of reasonable accommodation policies when a non-profit is becoming a certified sub-grantee.

- d. In 2019, IFA enhanced the effort in furthering fair housing by providing assistance through FHCO training and education effort directly to the local jurisdictions.

Fair Housing Actions BUSINESS OREGON plans to undertake in 2018 and 2019

Support of Local Fair Housing Efforts

Business Oregon continues to work closely with all of our CDBG recipients to ensure that each of their jurisdictions recognize their responsibilities in this area and know where the resources are to answer questions and provide necessary brochures, posters and presentations. Regional coordinators remain in contact with each recipient through the course of the CDBG-funded project and are able to assist them when necessary.

Local fair housing efforts of state recipients using 2019 funds include but are not limited to: publicizing fair housing laws, participating in local fair housing events, displaying posters, distributing brochures and being a participating sponsor of the Fair Housing Council of Oregon (FHCO) display and training sessions. As we have worked along with FHCO, we have come to understand that many of Oregon's small communities are struggling and it is common to find that municipal planners, attorneys, and building code/development personnel have been eliminated from the budget to reduce personnel expenses as a means to ensure there are funds to cover the more basic needs of the community. These are the individuals who typically have the responsibility to understand fair housing laws and to be aware of local impediments to equal access to opportunity in housing. More often than not, affirmatively furthering fair housing is not even on their radar. Additionally, the citizen commissions/decision-making bodies and elected officials in small communities in Oregon are frequently swayed by neighborhood opinions without regard to the fair housing impacts. This is especially the case in land use decisions and zoning plans and practices. OBDD adjusted our contract with FHCO to enhance more direct work with local municipalities to enhance more education and awareness of Fair Housing in the rural areas.

Actions Taken to Remove Barriers to Affordable Housing

In addition to the activities described above, CDBG funds are used to extend publicly-owned infrastructure to new affordable low- and moderate-income housing, which assists in addressing the obstacle of funding for owner occupied single family housing. CDBG funds also are used by low- and moderate-income homeowners to rehabilitate the homes they occupy.

CDBG funds were used to foster affordable housing by funding supportive public infrastructure for housing projects. CDBG funds, through the housing rehab program, support maintenance of affordable housing that is owned and occupied by a low- and moderate-income homeowner.

Workforce Housing – The State of Oregon, like many other states, is facing a workforce housing crisis. Many Oregonians have decent paying jobs – teachers, nurses, fire fighters, law enforcement, etc. but due to the high cost of housing, are housing burdened, paying well over the recommended 30% of their monthly income on housing or enduring long commutes in order to even find decent, safe and somewhat affordable housing. Due to

this crisis, the Governor’s Regional Solutions Team, along with several other state agencies, including Oregon Housing and Community Services and Business Oregon, are collaborative working on solutions to the housing crisis of the “missing middle.” After having quite a few meetings with stakeholders including cities, counties, employers and developers, the Workforce Housing Initiative Team put together a Request for Application inviting our stakeholders to submit their funding request, based on the various resources identified by the state agencies, for their workforce housing concept. We are in the final process of identifying projects that will, ultimately, provide much needed housing for the “missing middle”. We are optimistic that while this won’t completely eliminate the issue that some of the pilot projects will begin to address the need and be something that can be replicated in other areas of the state. While the State Community Development Block Grant funds will not be directly utilized under this Initiative, Business Oregon has another funding source that is available for eligible applicants/projects to assist with the Workforce Housing issue.

Manufactured Housing – Oregon has more than 140,000 manufactured homes in parks and more than half of those (55%) were built before 1980 meaning many are in need of repair. Many, if not most, of the manufactured homes are also owned or rented by low-to-moderate income persons. Since 2018, Business Oregon is providing a \$100,000 incentive for CDBG housing rehabilitation applications where the focus is on repairs to homes in manufactured parks. The maximum request for housing rehabilitation has been \$400,000 but in light of the need, we have added the \$100,000 incentive for a maximum award of \$500,000. We anticipate at least an additional 20 manufactured homes in parks will be assisted with this incentive. In 2020, we are considering a programmatic change that would enable eligible applicants, in cooperation with a non-profit service provider, to allow substantial rehabilitation of homes especially for manufactured homes in parks. By implementing this change, we are optimistic that this would free up other funds that could be used to replace the outdated manufactured homes within the park, and preserve the park for affordable housing. We will continue to work with Oregon Housing and Community Services and other stakeholders to develop the programmatic change to have the biggest possible impact on continuing to preserve affordable housing of this type.

The **Oregon Housing and Community Services Department (OHCS)** is active in the promotion of fair housing. They operate many programs, including HOME. Owners of projects assisted by OHCS are required to develop marketing plans that include outreach activities targeted to minorities and other protected classes. The first component of the fair housing planning process is to review impediments to fair housing choice in the public and private sectors.

Other Actions Indicated in the Strategic Plan and the Action Plan and Including A Comparison of the Proposed Versus Actual Outcomes For Each Outcome Measure Submitted With the Consolidated Plan and Explain, If Applicable, Why Progress Was Not Made Toward Meeting Goals and Objectives.

2019 Outcome and Performance Goal Summary:

Table V, summarizes the outcomes and performance measure requirements and the states progress towards meeting each requirement, by project type. This section of the 2019 PER conforms to the outcome and performance measure requirements identified in the 2016-2020 Consolidated Plan. Since the actual number funded is based upon the awards made during the program year, the final actual outcomes/accomplishments from each grant awarded by the state will be collected when the grant activities are complete and the grant contract between the city / county and the state is administratively closed and will be reported in IDIS at that time. In summary it is estimated 9,977 Oregonians will benefit from the activities funded under the CDBG program in PY2019 of which 6,279 (63%) will be low and moderate income. An abbreviated summary of the State's achievements through the end of PY 2019 are:

- The state met or exceeded the annual goals for Public Works; SL1 Community Facilities; SL3 Community Facilities and Community Capacity Technical Assistance and Housing Rehabilitation.
- The state met 50% of the goals for Microenterprise Assistance; DH1 Community Facilities;
- 5 water and wastewater systems were funded.
- 48 housing units will be rehabilitated.
- The CDBG program leveraged \$48,478 in matching funds.
- Two capacity building activities were conducted where 73 persons benefitted

Five Year Outcome and Performance Goal Summary: Table V also, summarizes the outcomes and performance measure requirements and the State's overall progress towards meeting each requirement, during the 5 year reporting period, by project type. This section conforms to the outcome and performance measure requirements identified in the 2016-2020 Consolidated Plan. As this is the fourth year of the 2016-2020 Consolidated Plan, the information for 2019 is what will be reported for this year.

Refer to the Table V for details.

Note #1—Outcomes—Actual Number Funded—The actual number funded is based upon the awards made during the program year. The final actual outcomes/accomplishments from each grant awarded by the state will be collected when the grant activities are complete and the grant contract between the city/county and the state is administratively closed and will be reported in IDIS as part of the CAPER.

Each grant recipient is allowed a specified period-of-time to complete the CDBG funded activities and this time-period varies by type of grant. This time-period is referred to as the Project Completion Date (PCD). The state allows PCD extensions if the local circumstances warrant the extensions. Each PCD extension is reviewed on a case by case basis. A summary of the standard PCD time periods are:

- 1 year PCD—Applies to microenterprise assistance grants.
- 2 year PCD—Planning/Final design only grants, construction only grants, public/community facility and housing rehabilitation grants.

Note #2—The state may select activities/priorities for the 2016-2020 CDBG program from the table above. The proposed outcome and performance measure requirements, performance indicators and the short- and long-term goals for each activity will only be triggered, if the activity is actually offered by the program

Describe the Use of CDBG Funds During the Program Year and Assess the Relationship of That Use to the Priorities and Specific Objectives Identified Within the Plan With Special Attention to the Highest Priority Activities That Were Identified

CDBG activities that have had a substantial impact on identified needs are the public works activities and community facility activities which were identified as high priority projects in the 2016-2020 Consolidated Plan. Forty eight percent (39%) of the CDBG funds awarded in 2019 were for Community Facilities projects that will benefit 2,435 persons, forty three percent (28%) for Public Works projects will benefit 7,115 persons and eight percent (31%) of the CDBG funds awarded in 2019 were for housing rehabilitation projects that will benefit 327 persons and rehabilitate 100 housing units. Refer to Table's I, V and VI for more details.

The indicators for CDBG need are identified by the type and number of applications received for funding in 2019. Based upon the number of applications received public works, community facilities and housing rehabilitation are of the highest need. Oregon funded:

- 5 public works projects
- 3 community facility projects;
- 6 housing rehabilitation projects and,
- 2 microenterprise project

The state obligated its Program Year 2019 funds for activities in accordance, as much as possible, with the targets set in the *2019 Annual Action Plan for the Oregon Consolidated Plan*.

The state exceeded the annual allocation funding targets in the following category:

- Public Works: Target was to assist 2 system per year and during 2019 the state assisted 5 system benefiting 5 different geographical communities
- Housing Rehabilitation: Target was to assist at least 100 housing unit per year and in 2019 the state has rehabilitated 137 housing units.
- Micro-Enterprise Assistance: Target was to assist at least 100 Micro-entrepreneurs, for 2019 the state has successfully reach the set target.
- Community Facilities: Target set was to assist 3 facilities, and this year, we, indeed, assisted the set amount.

During 2019 Business Oregon went through a rigorous continuation of the organization restructuring in which the agency is moving towards a more focused regionalized service model that broke down the silos between Business and Infrastructure part of the Agency. Early 2019 CDBG team lost our Program Manager and didn't get any replacement until mid of the year and the agency was in the transition mode until the end of the year. New personnel are assuming their newly adjusted position in which not allowing sufficient time to work with potential applicants and develop projects to be moving to ready to proceed condition.

This year we are stabilizing the implementation of changes that was done in 2018. It was the first year where an overhaul of CDBG program delivery was fully implemented. Within that year the State implemented a new e-application platform, a new application scoring system, a new formation of project type that we fund (splitting design only vs. construction only)

Since 2012, regardless of these barriers the state is still seeing an increase in demand for the CDBG program. As we speak, the State is seeing the number of projects and potential applicants that move forward in the past couple of months indicating interest to move forward for CDBG funding in the upcoming application round which will start in February until the end of April and then again in July and end in September 30, 2020.

The state's CDBG program continues to alleviate the effects of the economy by creating jobs, assisting microenterprises, improving infrastructure, providing housing rehabilitation, and constructing essential community facilities. The primary obstacle in successfully addressing the demands remain in the lack of funding. Federal and state funding are simply not enough to meet demand, even when coordinating funding for infrastructure projects with other agencies such as the US Department of Agriculture's Rural Utility Service, Oregon Department of Environmental Quality, the Environmental Protection Agency, the lottery funded Special Public Works Fund and Water/Wastewater Financing Program and others.

Variance between Targeted and Awarded Funding in 2016-2020

The Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e. if a sufficient number of projects are not awarded in a particular category, applications in other categories may be funded. Each calendar year OBDD-IFA conducted a target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the applicable MOD, and for the following reasons:

- The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. Regardless the outreach and training effort regionally, the State has emphasize on the readiness for the projects and the parties involved in the to move forward with well-developed projects which limit the projects that are ready to move forward for funding in the open quarter application round
- Demand for community facilities and public works projects has significantly increased throughout the five years. This upward trend was caused by increase in regulatory agencies requirements for the improvement of aging and failing system. The improvement of the economy conditions has provided little boost in the capacity to undertake large projects to address the community need and the decline in availability of grant funding for both categories. Subsequently the

demand for MicroEnterprise assistance has sharply decreased, while Housing Rehabilitation program is showing increase in interest.

- The State undergone a major restructuring and refocusing of the service delivery format. Due to the restructuring and refocusing of the program, 2019 was expected to perform less than expected mainly due to timing that hinder the ability to fully work through project development for projects to be ready to move forward for funding application.

Specify the Nature of and Reasons for any Changes in Program Objectives and Indicate How the State Would Change Its Programs As A Result of Its Experiences

The State just recently went through major changes in the program delivery. We need to let the implementation run its course to allow consistency in timing and enhance training and availability of tools for potential applicant and funding recipient to access.

- After assessing the variance between targeted and awarded in 2016-2020:

- Business Oregon is utilizing the historical data of demand and the trend of funds availability in the development of 2016-2020 Consolidated Plan goals to a more achievable target.
- Business Oregon will proceed with the assessment to evaluate level of marketing and outreach to projects to achieve the newly set goals. We identified several outreach efforts through the restructuring of the agency's service delivery model alongside with Governor's Regional Solution Teams throughout the 10 regions in the state. Business Oregon will continuously proceed with the outreach efforts by actively marketing the program through all different efforts such as involvements in the League or Oregon Cities and Association of Oregon Counties.
- Business Oregon keep moving forward on technical assistance to enhance the performance of all programs for our applicants to implementation through trainings, implementation tool development (electronic application) and one-on-one assistance.

Evaluate the Extent To Which the Program Benefitted Low- And Moderate-Income Persons and Include the Number of Extremely Low-Income, and Moderate-Income Persons Served By Each Activity Where Information on Income By Family Size Is Required to Determine Eligibility of the Activity

For the selected benefit period (2018-2019-2020), 99.2% of the state's CDBG funds were obligated to activities benefiting low- and moderate-income persons. Of the funds obligated under the state's 2019 program, 100% of the projects funded are to satisfy the national objectives of benefiting low- and moderate-income persons.

The unobligated FY2018 funds were not included in the calculation for overall program benefit to low and moderate income persons. Refer to Table V above and Table VI below for details.

A Summary of Any Comments Concerning the Program That Have Been Received From Citizens

The public comment period concludes on March 20, 2019 and BUSINESS OREGON received one public comment regarding the 2018 CDBG PER reports.

A Summary of Activities and Results from Technical Assistance Funding

The state's 2019 program included the use of CDBG funds for the technical assistance allowed by Section 811 of the Housing and Community Development Act of 1992. As of December 31, 2023, all of the \$ 132,772 1% funds from the 2019 allocation had been expended.

During 2019 BUSINESS OREGON obligated all the 2018 CDBG 1% and substantially obligated partial of the 2019 CDBG 1% funds for activities.

Table V summarizes the CDBG 1% Technical Assistance awards that were made in Program Year 2019 for conference/workshop sponsorship, for local government capacity building associated with CDBG projects. The information below describes all the activities that were funded and the results from that activity.

- Fair Housing Council of Oregon.** BUSINESS OREGON entered into an amendment of the contract with the Fair Housing Council of Oregon (FHCO) to promote equal access to housing by providing fair housing education, outreach, technical assistance and enforcement opportunities related to federal laws and related Oregon laws. A more detailed description of the results of this funding is described in the 2019 PER report section entitled *“actions taken to affirmatively further fair housing, a summary of impediments, and actions taken to overcome the effects of impediments”*
- 2018 Oregon Brownfields Conference and Awards Scholarship Fund.** A small amount of technical assistance funds were used to help support the 2018 annual

brownfields conference. People attend the meeting from many communities, particularly from rural areas. The conference offers useful information for communities trying to clean up contaminated sites in order to accommodate community development. A total of 157 persons benefitted from this training event and this ACCOMPLISHMENT IS REPORTED IN THE 2018 PER.

- **State Administration.** Starting in FY 2004, states may expend up to \$100,000 +2% of their annual allocation on state administrative costs. In 2006, the state reserved the right to use this flexibility. All CDBG 2% funds used for state administration will be matched 1:1 with funds from the department's Special Public Works Fund. During 2018 none of the CDBG 1% funds were utilized for state administration.

Civil Rights

The state is required to provide data on all applicants and beneficiaries in projects funded from each grant allocation. Information must be reported for each project activity and must indicate the number of persons benefiting by ethnicity and racial groups as defined by U.S. Census.

- **Applicant data**—The proposed applicant data is contained in Table II above.
- **Actual data**—The actual beneficiary data from PY2019 CDBG funded projects that were administratively closed during 2019 is described and contained in Table VIII below.

Table VIII

Other multi-racial	381	43	424
Total	9,924	835	10,759

Ethnicity/Race data is tabulated for expended projects within PY2019 (as per PR-23). One (1) projects awarded with PY2019 were administratively closed during the reporting period. When 2019 funded projects are administratively closed, the ethnicity/race data will be reported in successive year's PERs 2019 Grant Year Activity Reports.

Summary of State's Reviews of Recipient's Civil Rights Performance

The state reviews the civil rights performance of its 2019 recipients as part of its regular monitoring procedures. These include either an on-site review or an internal file/desk audit of all projects. A standardized monitoring checklist is used for this process. 2017 grant recipients monitored during the reporting period generally complied with the Civil Rights performance requirements for Community Development Block Grant recipients.

Summary of State and Recipient Actions to Use Minority- and Women-Owned Businesses In Carrying Out CDBG-Funded Activities

The state encourages grantees to make contracts awarded under CDBG grants available to minority- and women-owned businesses. Through the Grant Management Handbook and training given to recipients, the state describes the various ways that contracting opportunities can be made available to minority- and women-owned businesses. Some examples include dividing larger contracts into smaller portions that can be bid on by smaller firms, or directly soliciting proposals or bids from lists of certified minority- and women-owned businesses.

The current Grant Management Handbook (GMH) (2017 version) provides forms that grant recipients use to collect and report their efforts to the state. The updated 2017 GMH continues to contain information and new requirements for housing rehabilitation originally implemented in 2011. Housing Rehabilitation projects must meet the minimum acceptable outreach efforts/**standards** to minority- and women-owned businesses:

- A good faith, comprehensive and continuing endeavor;
- Supported by a statement of public policy and commitment published in the printed media of the widest local circulation;
- Supported by an office/or a key, ranking staff person with oversight responsibilities and access to the chief elected official; and
- Designed to utilize all available and appropriate public and private sector resources.

In addition to meeting the *standards* listed above, these grant recipients are encouraged to use the new **guidelines** contained in the GMH in implementing outreach programs to ensure the inclusion to the maximum extent feasible, of entities owned by minorities and women.

The state will report in future PERs, for each allocation, on the use of minority and women-owned businesses, and on Section 3 activities by its recipients Business Oregon's 2019 Section 3 Report was submitted to HUD via SPEARS on February 2, 2017.

Equal Employment Opportunity Data for Business Oregon

Business Oregon maintains the employment data required by the Equal Employment Opportunity Commission (EEOC) on an EEO-4 form. The form is not included in this report but is available from the department.

Variance between Targeted and Awarded Funding in 2019

The June 2020 the 2019 AAP was amended to include CDBG CARES Act funding the state received to prepare, prevent, and respond to the COVID-19 pandemic.

The CARES act funding was released in three different tranches; CV1, CV2, and CV3 as identified above. The state’s objective for these funds was to provide rental assistance, public services, and assist small business and microenterprises. Due to the nature of the funds and the very specific uses the state was not able to begin spending the funds until late fall 2020.

PART II—NARRATIVE REQUIREMENTS

December 31, 2023

**Included in this report accomplishment after 2nd round of application ended on 12/31/18
and awarded on 2/28/19**

Describe the Resources Made Available

In 2018 IFA had \$14,039,672 in available CDBG resources to award to units of general local government. Table I below illustrates the information more clearly but a quick summary is provided below:

- 1) FY2018 annual grant (amount available for projects) \$12,667,461
- 2) FY2017 and prior year recaptured funds \$1,372,211.00

Describe the Investment of Available Resources

The available resources are not fully invested within PY2017 and the 1st round of application awards in 2018 will reflect the PY investments within the addendum

Table I illustrates that the 2018 funds obligated by December 31, 2018, and after the completion of the 2nd round of application which ended on December 31, 2018, and awarded on February 28, 2019

Variance between Targeted and Awarded Funding in 2018

The 2018 Method of Distribution (MOD) identifies that OBDD intended to award funds according to the target percentages, but OBDD is not obligated to award all the funds targeted to each category, i.e. if a sufficient number of projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA will conduct a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the 2018 MOD, and for the following reasons:

The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. As of December 31, 2018, the State received six applications totaling of \$ 5,599,500 Out of all applications received none was returned and we were able to fund all the applicants.

As of February 28, 2019, \$8,698,681 of the 2018 Program Year funds were obligated and left \$3,968,780.00 to be included in the 2019 application round which will open in July 2019-September 2019. In total the projected obligation for the FY 2018 funds were obligated in accordance with the *2019 Method of Distribution*. We are confident that the remaining \$3,968,780.00 will be able to fit within the 15-month Timely Distribution period.

PY 2018 was the first year of implementation after the state has implemented a major overhaul in the program design because of the TA provided by HUD, those improvements are:

- Restructuring of project timeline to contain projects to be completed within 24 months
- Subsequent rearrangement of Public Works project type which now restrict to fund only design or construction (as apparent in the type of project funded in 2018 , four out of five public works projects awarded are for design only)
- Restructuring of the scoring system
- Implementation of electronic application
- Recalibration of application round from quarterly to annually.

Activities to Address Homelessness, Chronic Homelessness and Persons with Special Needs

Funding homeless shelters, shelters for victims of domestic violence and person with special needs are one of the priorities of the Oregon CDBG program. There were two CDBG projects awarded in PY2018 or assisted with FY 2018 funds for person with special needs under Community Facilities Food Bank in the area of St. Helens which will serve the whole Columbia County

Actions Taken To Affirmatively Further Fair Housing, a Summary of Impediments and Actions Taken To Overcome the Effects of Impediments

Three state agencies administer programs that serve to further fair housing for Oregon's people. As result the Analysis of Impediments to Affirmatively Furthering Fair Housing was a joint effort between the state agencies and the actions taken to overcome the impediments were also divided amongst the state agencies. For a complete description of the impediments found in the 2016-2020 Analysis of Impediments to Affirmatively Furthering Fair Housing, the 2016-2020 Fair Housing Action Plan and a summary of all the state agency actions to overcome the identified impediments, please refer to the more detailed analysis included in the 2016 Consolidated Annual Performance Evaluation Report (CAPER). This CDBG Performance Evaluation Report (PER) narrative summarizes the actions taken by Business Oregon to address/overcome specific impediments.

Business Oregon, which administers Community Development Block Grant funds for the state's non-metropolitan cities and counties, integrating within program implementation and through the contract with Fair Housing Councils of Oregon, educates its recipients about their fair housing responsibilities in several ways including:

- 1) Presentations at workshops,
- 2) Updates to the comprehensive Grant Management Handbook,
- 3) Disbursements of informational handouts, posters, brochures and individual technical assistance, as needed or requested,
- 4) Disbursements of workshops or conferences which address fair housing issues and
- 5) completed 2016-2020 statewide Analysis of Impediments to Affirmatively Furthering Fair Housing and Fair Housing Action Plan which are made available to recipients to identify, plan for and remove impediments to further fair housing,
- 6) Provide direct training and consultation to local jurisdiction.

The efforts of BUSINESS OREGON, identified below are addressing the following impediments identified in the 2016-2020 Analysis of Impediments to Furthering Fair Housing:

- 1-5 – Local zoning and land use regulations and/or inexact application of state laws may impede the siting and approval of group homes.
- 2-1 – Lack of enforcement of fair housing violations persist statewide.

- 2-2 – Limited housing options for persons most vulnerable to housing discrimination: non-English speakers, persons of Hispanic descent, African-Americans, large families and persons with disabilities.
- 3-1 – Local housing resources statewide are limited. This is particularly true in rural communities.
- 6-1 – The state’s ban on inclusionary zoning limits municipalities’ ability to employ flexible tools and incentives to increase the number of affordable units built.

BUSINESS OREGON continues to fund fair housing activities through the Fair Housing Council of Oregon (FHCO) and, until 2014 through the Greater Eastern Oregon Economic Development District (GEODC). Since January 2011, BUSINESS OREGON has funded the followings to complete activities to further fair housing and remove impediments to fair housing choice:

- FHCO – contract from July 1, 2011 to December 31, 2012 for \$55,000.
- GEODC – contract from July 1, 2011 to June 30, 2012 for \$20,000.
- FHCO – contract for 3 workshops in 2013 for \$8,000.
- GEODC – contract from July 1, 2012 to June 30, 2014 for \$32,000.
- FHCO – contract from July 16, 2013 to December 31, 2013 for \$65,800.
- FHCO – contract from March 24, 2014 to December 31, 2015 (amended in April 2015 to include more work with local jurisdictions) for \$158,925.
- FHCO – contract from February 8, 2016 to December 31, 2016 for \$104,300
- FHCO – Contracted from February 2017 to December 31, 2017 for \$113,550
- FHCO – Contracted from February 2018 to December 31, 2018 for \$98,850

Table III, below summarizes the impediments identified within 2016-2020 Analysis of Impediments to Affirmatively Furthering Fair Housing and Fair Housing Action Plan being addressed by BUSINESS OREGON and the actions taken by BUSINESS OREGON and through its contractor, FHCO to address the identified impediments:

During 2018 the following additional activities occurred:

- a. The state continues to convey fair housing information via the CDBG 'list-serve' which was started in 2007. This list-serve disseminates information to all interested persons and grant recipients.
- b. IFA continues outreach through technical assistance workshops/ presentations regarding Limited English Proficiency Plan and Section 3 Plan along with the dissemination of the new established Section 3 Business Registry web page.
- c. IFA continues to require the submission of reasonable accommodation policies when a non-profit is becoming a certified sub-grantee.
- d. In 2018, IFA enhanced the effort in furthering fair housing by providing assistance through FHCO training and education effort directly to the local jurisdictions.

Fair Housing Actions BUSINESS OREGON plans to undertake in 2016 and 2017

Support of Local Fair Housing Efforts

Business Oregon continues to work closely with all of our CDBG recipients to ensure that each of their jurisdictions recognize their responsibilities in this area and know where the resources are to answer questions and provide necessary brochures, posters and presentations. Regional coordinators remain in contact with each recipient through the course of the CDBG-funded project and are able to assist them when necessary.

Local fair housing efforts of state recipients using 2017 funds include but are not limited to: publicizing fair housing laws, participating in local fair housing events, displaying posters, distributing brochures and being a participating sponsor of the Fair Housing Council of Oregon (FHCO) display and training sessions. As we have worked along with FHCO, we have come to understand that many of Oregon's small communities are struggling and it is common to find that municipal planners, attorneys, and building code/development personnel have been eliminated from the budget to reduce personnel expenses as a means to ensure there are funds to cover the more basic needs of the community. These are the individuals who typically have the responsibility to understand fair housing laws and to be aware of local impediments to equal access to opportunity in housing. More often than not, affirmatively furthering fair housing is not even on their radar. Additionally, the citizen commissions/decision-making bodies and elected officials in small communities in Oregon are frequently swayed by neighborhood opinions without regard to the fair housing impacts. This is especially the case in land use decisions and zoning plans and practices. OBDD adjusted our contract with FHCO to enhance more direct work with local municipalities to enhance more education and awareness of Fair Housing in the rural areas.

Actions Taken to Remove Barriers to Affordable Housing

In addition to the activities described above, CDBG funds are used to extend publicly-owned infrastructure to new affordable low- and moderate-income housing, which assists in addressing the obstacle of funding for owner occupied single family housing. CDBG funds also are used by low- and moderate-income homeowners to rehabilitate the homes they occupy.

CDBG funds were used to foster affordable housing by funding supportive public infrastructure for housing projects. CDBG funds, through the housing rehab program, support maintenance of affordable housing that is owned and occupied by a low- and moderate-income homeowner.

Workforce Housing – The State of Oregon, like many other states, is facing a workforce housing crisis. Many Oregonians have decent paying jobs – teachers, nurses, fire fighters, law enforcement, etc. but due to the high cost of housing, are housing burdened, paying well over the recommended 30% of their monthly income on housing or enduring long commutes in order to even find decent, safe and somewhat affordable housing. Due to

this crisis, the Governor’s Regional Solutions Team, along with several other state agencies, including Oregon Housing and Community Services and Business Oregon, are collaborative working on solutions to the housing crisis of the “missing middle.” After having quite a few meetings with stakeholders including cities, counties, employers and developers, the Workforce Housing Initiative Team put together a Request for Application inviting our stakeholders to submit their funding request, based on the various resources identified by the state agencies, for their workforce housing concept. We are in the final process of identifying projects that will, ultimately, provide much needed housing for the “missing middle”. We are optimistic that while this won’t completely eliminate the issue that some of the pilot projects will begin to address the need and be something that can be replicated in other areas of the state. While the State Community Development Block Grant funds will not be directly utilized under this Initiative, Business Oregon has another funding source that is available for eligible applicants/projects to assist with the Workforce Housing issue.

Manufactured Housing – Oregon has more than 140,000 manufactured homes in parks and more than half of those (55%) were built before 1980 meaning many are in need of repair. Many, if not most, of the manufactured homes are also owned or rented by low-to-moderate income persons. In 2018, Business Oregon will be providing a \$100,000 incentive for CDBG housing rehabilitation applications where the focus is on repairs to homes in manufactured parks. The maximum request for housing rehabilitation has been \$400,000 but in light of the need, we have added the \$100,000 incentive for a maximum award of \$500,000. We anticipate at least an additional 20 manufactured homes in parks will be assisted with this incentive. In 2019, we are considering a programmatic change that would enable eligible applicants, in cooperation with a non-profit service provider, to request funds for manufactured park acquisition. By implementing this change, we are optimistic that this would free up other funds that could be used to replace the outdated manufactured homes within the park, and preserve the park for affordable housing. We will continue to work with Oregon Housing and Community Services and other stakeholders to develop the programmatic change to have the biggest possible impact on continuing to preserve affordable housing of this type.

The **Oregon Housing and Community Services Department (OHCS)** is active in the promotion of fair housing. They operate many programs, including HOME. Owners of projects assisted by OHCS are required to develop marketing plans that include outreach activities targeted to minorities and other protected classes. The first component of the fair housing planning process is to review impediments to fair housing choice in the public and private sectors.

Other Actions Indicated in the Strategic Plan and the Action Plan and Including A Comparison of the Proposed Versus Actual Outcomes For Each Outcome Measure Submitted With the Consolidated Plan and Explain, If Applicable, Why Progress Was Not Made Toward Meeting Goals and Objectives.

2018 Outcome and Performance Goal Summary:

Table V, summarizes the outcomes and performance measure requirements and the states progress towards meeting each requirement, by project type. This section of the 2018 PER conforms to the outcome and performance measure requirements identified in the 2016-2020 Consolidated Plan. Since the actual number funded is based upon the awards made during the program year, the final actual outcomes/accomplishments from each grant awarded by the state will be collected when the grant activities are complete and the grant contract between the city / county and the state is administratively closed and will be reported in IDIS at that time. In summary it is estimated 21,697 Oregonians will benefit from the activities funded under the CDBG program in PY2018 of which 16,451 (75.8%) will be low and moderate income. An abbreviated summary of the State's achievements through the end of 4th quarter application round which was awarded on February 28th, 2019 are:

- The state met or exceeded the annual goals for Public Works; SL1 Community Facilities; SL3 Community Facilities and Community Capacity Technical Assistance and Housing Rehabilitation.
- The state did not meet the goals for Microenterprise Assistance; DH1 Community Facilities;
- 1 microenterprise project will be assisted; accomplishment will be reported upon completion.
- 5 water and wastewater systems were funded.
- 48 housing units will be rehabilitated.
- The CDBG program leveraged \$368,136 in matching funds.
- Two capacity building activities were conducted where 184 persons benefitted

Five Year Outcome and Performance Goal Summary: Table V also, summarizes the outcomes and performance measure requirements and the State's overall progress towards meeting each requirement, during the 5 year reporting period, by project type. This section conforms to the outcome and performance measure requirements identified in the 2016-2020 Consolidated Plan. As this is the fourth year of the 2016-2020 Consolidated Plan, the information for 2018 including the 2nd round of the application ended on 12/31/18 and awarded on 2/28/19 are what will be reported for this year.

Refer to the Table V for details.

Note #1—Outcomes—Actual Number Funded—The actual number funded is based upon the awards made during the program year. The final actual outcomes/accomplishments from each grant awarded by the state will be collected when the grant activities are complete and the grant contract between the city/county and the state is administratively closed and will be reported in IDIS as part of the CAPER.

Each grant recipient is allowed a specified period-of-time to complete the CDBG funded activities and this time-period varies by type of grant. This time-period is referred to as the Project Completion Date (PCD). The state allows PCD extensions if the local circumstances warrant the extensions. Each PCD extension is reviewed on a case by case basis. A summary of the standard PCD time periods are:

- 1 year PCD—Applies to microenterprise assistance grants.
- 2 year PCD—Planning/Final design only grants, construction only grants, public/community facility and housing rehabilitation grants.

Note #2—The state may select activities/priorities for the 2016-2020 CDBG program from the table above. The proposed outcome and performance measure requirements, performance indicators and the short- and long-term goals for each activity will only be triggered, if the activity is actually offered by the program

Describe the Use of CDBG Funds During the Program Year and Assess the Relationship of That Use to the Priorities and Specific Objectives Identified Within the Plan With Special Attention to the Highest Priority Activities That Were Identified

CDBG activities that have had a substantial impact on identified needs are the public works activities and community facility activities which were identified as high priority projects in the 2016-2020 Consolidated Plan. Forty eight percent (48%) of the CDBG funds awarded in 2018 were for Community Facilities projects that will benefit 9,730 persons, forty three percent (43%) for Public Works projects will benefit 11,807 persons and eight percent (8%) of the CDBG funds awarded in 2018 were for housing rehabilitation projects that will benefit 121 persons and rehabilitate 48 housing units. Refer to Table's I, V and VI for more details.

The indicators for CDBG need are identified by the type and number of applications received for funding in 2018. Based upon the number of applications received public works, community facilities and housing rehabilitation are of the highest need. Oregon funded:

- 5 public works projects
- 3 community facility projects;
- 2 housing rehabilitation projects and,
- 1 microenterprise project

The state obligated its Program Year 2018 funds for activities in accordance, as much as possible, with the targets set in the *2018 Annual Action Plan for the Oregon Consolidated Plan*.

The state exceeded the annual allocation funding targets in the following category:

- Community Facilities: Target was 20% and during 2018 the state obligated 48%.

The state did not exceed the annual allocation funding targets in the following categories:

- Microenterprise Assistance: Target was 2% and during 2018 the state obligated 0.54%
- Public Works: Target was 53% and during 2018 the state obligated 46.25%.
- Housing Rehabilitation target was 25% and during 2018 the state obligated 8 %

During 2018 Business Oregon went through a rigorous continuation of the organization restructuring in which the agency is moving towards a more focused regionalized service model that broke down the silos between Business and Infrastructure part of the Agency. At the end of 2017 CDBG team lost our Project Manager and didn't get any replacement until mid of the year and the agency was in the transition mode until the end of the year which was also the due time for the 1st round of 2018 CDBG application round. New personnel are assuming their newly adjusted position in which not allowing sufficient

time to work with potential applicants and develop projects to be moving to ready to proceed condition.

The year of may implementation of changes. It was the first year where an overhaul of CDBG program delivery was fully implemented. Within that year the State implemented a new e-application platform, a new application scoring system, a new formation of project type that we fund (splitting design only vs. construction only)

Since 2012, regardless of these barriers the state is still seeing an increase in demand for the CDBG program. As we speak, the State is seeing the number of projects and potential applicants that move forward in the past couple of months indicating interest to move forward for CDBG funding in the upcoming application which will start in July and end in September 30, 2019.

The state's CDBG program continues to alleviate the effects of the economy by creating jobs, assisting microenterprises, improving infrastructure, providing housing rehabilitation, and constructing essential community facilities. The primary obstacle in successfully addressing the demands remain in the lack of funding. Federal and state funding are simply not enough to meet demand, even when coordinating funding for infrastructure projects with other agencies such as the US Department of Agriculture's Rural Utility Service, Oregon Department of Environmental Quality, the Environmental Protection Agency, the lottery funded Special Public Works Fund and Water/Wastewater Financing Program and others.

Variance between Targeted and Awarded Funding in 2016-2020

The Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e. if a sufficient number of projects are not awarded in a particular category, applications in other categories may be funded. Each calendar year OBDD-IFA conducted a target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the applicable MOD, and for the following reasons:

- The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. Regardless the outreach and training effort regionally, the State has emphasize on the readiness for the projects and the parties involved in the to move forward with well-developed projects which limit the projects that are ready to move forward for funding in the open quarter application round
- Demand for community facilities and public works projects has significantly increased throughout the five years. This upward trend was caused by increase in regulatory agencies requirements for the improvement of aging and failing system. The improvement of the economy conditions has provided little boost in the capacity to undertake large projects to address the community need and the

decline in availability of grant funding for both categories. Subsequently the demand for MicroEnterprise assistance has sharply decreased, while Housing Rehabilitation program is showing increase in interest.

- The State undergone a major restructuring and refocusing of the service delivery format. Due to the restructuring and refocusing of the program, 2018 was expected to perform less than expected mainly due to timing that hinder the ability to fully work through project development for projects to be ready to move forward for funding application.

Specify the Nature of and Reasons for any Changes in Program Objectives and Indicate How the State Would Change Its Programs As A Result of Its Experiences

The State just recently went through major changes in the program delivery. We need to let the implementation run its course to allow consistency in timing and enhance training and availability of tools for potential applicant and funding recipient to access.

- After assessing the variance between targeted and awarded in 2016-2020:

- Business Oregon is utilizing the historical data of demand and the trend of funds availability in the development of 2016-2020 Consolidated Plan goals to a more achievable target.
- Business Oregon will proceed with the assessment to evaluate level of marketing and outreach to projects to achieve the newly set goals. We identified several outreach efforts through the restructuring of the agency's service delivery model alongside with Governor's Regional Solution Teams throughout the 10 regions in the state. Business Oregon will continuously proceed with the outreach efforts by actively marketing the program through all different efforts such as involvements in the League or Oregon Cities and Association of Oregon Counties.
- Business Oregon keep moving forward on technical assistance to enhance the performance of all programs for our applicants to implementation through trainings, implementation tool development (electronic application) and one-on-one assistance.

Evaluate the Extent To Which the Program Benefitted Low- And Moderate-Income Persons and Include the Number of Extremely Low-Income, and Moderate-Income Persons Served By Each Activity Where Information on Income By Family Size Is Required to Determine Eligibility of the Activity

For the selected benefit period (2018-2019-2020), 98.5% of the state's CDBG funds were obligated to activities benefiting low- and moderate-income persons. Of the funds

obligated under the state's 2018 program, 100% of the project funds benefit low- and moderate-income persons.

The unobligated FY2017 funds were not included in the calculation for overall program benefit to low and moderate income persons.

Of the CDBG awards made during the 2017 program year, the projects are proposed to benefit 21,697 persons of which 16,451 or 76% will be low and moderate income. Refer to Table V above and Table VI below for details.

Evaluate Progress toward Meeting The Goals of Providing Affordable Housing CDBG Funds, Including the Number and Types Of Households Served

During 2018 Business Oregon funded housing rehabilitation projects that are proposed to benefit 48 households, of which 416 persons will benefit and 100% will be low and moderate income.

A Summary of Any Comments Concerning the Program That Have Been Received From Citizens

The public comment period concludes on March 20, 2019 and BUSINESS OREGON received one public comment regarding the 2018 CDBG PER reports.

A Summary of Activities and Results from Technical Assistance Funding

The state's 2018 program included the use of CDBG funds for the technical assistance allowed by Section 811 of the Housing and Community Development Act of 1992. As of December 31, 2023, all of 1% TA funds from the 2016 allocation had been expended.

Table V summarizes the CDBG 1% Technical Assistance awards that were made in Program Year 2018 for conference/workshop sponsorship, for local government capacity building associated with CDBG projects. The information below describes all the activities that were funded and the results from that activity.

- **Fair Housing Council of Oregon.** BUSINESS OREGON entered into an amendment of the contract with the Fair Housing Council of Oregon (FHCO) to promote equal access to housing by providing fair housing education, outreach, technical assistance and enforcement opportunities related to federal laws and related Oregon laws. A more detailed description of the results of this funding is described in the 2018 PER report section entitled *“actions taken to affirmatively further fair*

housing, a summary of impediments, and actions taken to overcome the effects of impediments”

- **2018 Oregon Brownfields Conference and Awards Scholarship Fund.** A small amount of technical assistance funds were used to help support the 2018 annual brownfields conference. People attend the meeting from many communities, particularly from rural areas. The conference offers useful information for communities trying to clean up contaminated sites in order to accommodate community development. A total of 157 persons benefitted from this training event and this ACCOMPLISHMENT IS REPORTED IN THE 2018 PER.
- **State Administration.** Starting in FY 2004, states may expend up to \$100,000 +2% of their annual allocation on state administrative costs. In 2006, the state reserved the right to use this flexibility. All CDBG 2% funds used for state administration will be matched 1:1 with funds from the department's Special Public Works Fund. During 2018 none of the CDBG 1% funds were utilized for state administration.

Civil Rights

The state is required to provide data on all applicants and beneficiaries in projects funded from each grant allocation. Information must be reported for each project activity and must indicate the number of persons benefiting by ethnicity and racial groups as defined by U.S. Census.

- **Applicant data**—The proposed applicant data is contained in Table II above.
- **Actual data**—The actual beneficiary data from FFY2017 CDBG funded projects that were administratively closed during 2016 is described and contained in Table VIII below.

Ethnicity/Race data is tabulated for in accordance to PR-23 report . None of projects awarded in 2018 were administratively closed during the reporting period. When 2018 funded projects are administratively closed, the ethnicity/race data will be reported in successive year's PERs 2018 Grant Year Activity Reports.

Summary of State's Reviews of Recipient's Civil Rights Performance

The state reviews the civil rights performance of its 2018 recipients as part of its regular monitoring procedures. These include either an on-site review or an internal file/desk audit of all projects. A standardized monitoring checklist is used for this process. 2018 grant recipients monitored during the reporting period generally complied with the Civil Rights performance requirements for Community Development Block Grant recipients.

Summary of State and Recipient Actions to Use Minority- and Women-Owned Businesses In Carrying Out CDBG-Funded Activities

The state encourages grantees to make contracts awarded under CDBG grants available to minority- and women-owned businesses. Through the Grant Management Handbook and training given to recipients, the state describes the various ways that contracting opportunities can be made available to minority- and women-owned businesses. Some examples include dividing larger contracts into smaller portions that can be bid on by smaller firms, or directly soliciting proposals or bids from lists of certified minority- and women-owned businesses.

The current Grant Management Handbook (GMH) (2017 version) provides forms that grant recipients use to collect and report their efforts to the state. The updated 2017 GMH continues to contain information and new requirements for housing rehabilitation originally implemented in 2011. Housing Rehabilitation projects must meet the minimum acceptable outreach efforts/**standards** to minority- and women-owned businesses:

- A good faith, comprehensive and continuing endeavor:
- Supported by a statement of public policy and commitment published in the printed media of the widest local circulation;
- Supported by an office/or a key, ranking staff person with oversight responsibilities and access to the chief elected official; and
- Designed to utilize all available and appropriate public and private sector resources.

In addition to meeting the *standards* listed above, these grant recipients are encouraged to use the new **guidelines** contained in the GMH in implementing outreach programs to ensure the inclusion to the maximum extent feasible, of entities owned by minorities and women.

The state will report in future PERs, for each allocation, on the use of minority and women-owned businesses, and on Section 3 activities by its recipients. IFA's 2016 Section 3 Report was submitted to HUD via SPEARS on February 2, 2017.

Equal Employment Opportunity Data for Business Oregon

Business Oregon maintains the employment data required by the Equal Employment Opportunity Commission (EEOC) on an EEO-4 form. The form is not included in this report but is available from the department.

Actions Taken To Affirmatively Further Fair Housing, a Summary of Impediments and Actions Taken To Overcome the Effects of Impediments

Three state agencies administer programs that serve to further fair housing for Oregon's people. As result the Analysis of Impediments to Affirmatively Furthering Fair Housing was a joint effort between the state agencies and the actions taken to overcome the impediments were also divided amongst the state agencies. For a complete description of the impediments found in the 2016-2020 Analysis of Impediments to Affirmatively Furthering Fair Housing, the 2016-2020 Fair Housing Action Plan and a summary of all the state agency actions to overcome the identified impediments, please refer to the more detailed analysis included in the 2016 Consolidated Annual Performance Evaluation Report (CAPER). This CDBG Performance Evaluation Report (PER) narrative summarizes the actions taken by Business Oregon to address/overcome specific impediments.

Business Oregon, which administers Community Development Block Grant funds for the state's non-metropolitan cities and counties, integrating within program implementation and through the contract with Fair Housing Councils of Oregon, educates its recipients about their fair housing responsibilities in several ways including:

- 1) Presentations at workshops,
- 2) Updates to the comprehensive Grant Management Handbook,
- 3) Disbursements of informational handouts, posters, brochures and individual technical assistance, as needed or requested,
- 4) Disbursements of workshops or conferences which address fair housing issues and
- 5) completed 2016-2020 statewide Analysis of Impediments to Affirmatively Furthering Fair Housing and Fair Housing Action Plan which are made available to recipients to identify, plan for and remove impediments to further fair housing,
- 6) Provide direct training and consultation to local jurisdiction.

The efforts of BUSINESS OREGON, identified below are addressing the following impediments identified in the 2016-2020 Analysis of Impediments to Furthering Fair Housing:

- 1-5 – Local zoning and land use regulations and/or inexact application of state laws may impede the siting and approval of group homes.
- 2-1 – Lack of enforcement of fair housing violations persist statewide.
- 2-2 – Limited housing options for persons most vulnerable to housing discrimination: non-English speakers, persons of Hispanic descent, African-Americans, large families and persons with disabilities.
- 3-1 – Local housing resources statewide are limited. This is particularly true in rural communities.
- 6-1 – The state's ban on inclusionary zoning limits municipalities' ability to employ flexible tools and incentives to increase the number of affordable units built.

BUSINESS OREGON continues to fund fair housing activities through the Fair Housing Council of Oregon (FHCO) and, until 2014 through the Greater Eastern Oregon Economic Development District (GEODC). Since January 2011, BUSINESS OREGON has funded these entities to complete activities to further fair housing and remove impediments to fair housing choice:

- FHCO – contract from July 1, 2011 to December 31, 2012 for \$55,000.
- GEODC – contract from July 1, 2011 to June 30, 2012 for \$20,000.
- FHCO – contract for 3 workshops in 2013 for \$8,000.
- GEODC – contract from July 1, 2012 to June 30, 2014 for \$32,000.
- FHCO – contract from July 16, 2013 to December 31, 2013 for \$65,800.
- FHCO – contract from March 24, 2014 to December 31, 2015 (amended in April 2015 to include more work with local jurisdictions) for \$158,925.
- FHCO – contract from February 8, 2016 to December 31, 2016 for \$104,300
- FHCO – Contracted from February 2017 to December 31, 2017 for \$113,550

Table III, below summarizes the impediments identified within 2016-2020 Analysis of Impediments to Affirmatively Furthering Fair Housing and Fair Housing Action Plan being addressed by BUSINESS OREGON and the actions taken by BUSINESS OREGON and through its contractor, FHCO to address the identified impediments:

During 2017 the following additional activities occurred:

- a. The state continues to convey fair housing information via the CDBG 'list-serve' which was started in 2007. This list-serve disseminates information to all interested persons and grant recipients.
- b. IFA continues outreach through technical assistance workshops/ presentations regarding Limited English Proficiency Plan and Section 3 Plan along with the dissemination of the new established Section 3 Business Registry web page.

- c. IFA continues to require the submission of reasonable accommodation policies when a non-profit is becoming a certified sub-grantee.
- d. In 2017, IFA enhanced the effort in furthering fair housing by providing assistance through FHCO training and education effort directly to the local jurisdictions.

Fair Housing Actions BUSINESS OREGON plans to undertake in 2016 and 2017

Support of Local Fair Housing Efforts

Business Oregon continues to work closely with all of our CDBG recipients to ensure that each of their jurisdictions recognize their responsibilities in this area and know where the resources are to answer questions and provide necessary brochures, posters and presentations. Regional coordinators remain in contact with each recipient through the course of the CDBG-funded project and are able to assist them when necessary.

Local fair housing efforts of state recipients using 2017 funds include but are not limited to: publicizing fair housing laws, participating in local fair housing events, displaying posters, distributing brochures and being a participating sponsor of the Fair Housing Council of Oregon (FHCO) display and training sessions. As we have worked along with FHCO, we have come to understand that many of Oregon's small communities are struggling and it is common to find that municipal planners, attorneys, and building code/development personnel have been eliminated from the budget to reduce personnel expenses as a means to ensure there are funds to cover the more basic needs of the community. These are the individuals who typically have the responsibility to understand fair housing laws and to be aware of local impediments to equal access to opportunity in housing. More often than not, affirmatively furthering fair housing is not even on their radar. Additionally, the citizen commissions/decision-making bodies and elected officials in small communities in Oregon are frequently swayed by neighborhood opinions without regard to the fair housing impacts. This is especially the case in land use decisions and zoning plans and practices. OBDD adjusted our contract with FHCO to enhance more direct work with local municipalities to enhance more education and awareness of Fair Housing in the rural areas.

Actions Taken to Remove Barriers to Affordable Housing

In addition to the activities described above, CDBG funds are used to extend publicly-owned infrastructure to new affordable low- and moderate-income housing, which assists in addressing the obstacle of funding for owner occupied single family housing. CDBG funds also are used by low- and moderate-income homeowners to rehabilitate the homes they occupy.

CDBG funds were used to foster affordable housing by funding supportive public infrastructure for housing projects. CDBG funds, through the housing rehab program, support maintenance of affordable housing that is owned and occupied by a low- and moderate-income homeowner.

Workforce Housing – The State of Oregon, like many other states, is facing a workforce housing crisis. Many Oregonians have decent paying jobs – teachers, nurses, fire fighters, law enforcement, etc. but due to the high cost of housing, are housing burdened, paying well over the recommended 30% of their monthly income on housing or enduring long commutes in order to even find decent, safe and somewhat affordable housing. Due to

this crisis, the Governor’s Regional Solutions Team, along with several other state agencies, including Oregon Housing and Community Services and Business Oregon, are collaborative working on solutions to the housing crisis of the “missing middle.” After having quite a few meetings with stakeholders including cities, counties, employers and developers, the Workforce Housing Initiative Team put together a Request for Application inviting our stakeholders to submit their funding request, based on the various resources identified by the state agencies, for their workforce housing concept. We are in the final process of identifying projects that will, ultimately, provide much needed housing for the “missing middle”. We are optimistic that while this won’t completely eliminate the issue that some of the pilot projects will begin to address the need and be something that can be replicated in other areas of the state. While the State Community Development Block Grant funds will not be directly utilized under this Initiative, Business Oregon has another funding source that is available for eligible applicants/projects to assist with the Workforce Housing issue.

Manufactured Housing – Oregon has more than 140,000 manufactured homes in parks and more than half of those (55%) were built before 1980 meaning many are in need of repair. Many, if not most, of the manufactured homes are also owned or rented by low-to-moderate income persons. In 2018, Business Oregon will be providing a \$100,000 incentive for CDBG housing rehabilitation applications where the focus is on repairs to homes in manufactured parks. The maximum request for housing rehabilitation has been \$400,000 but in light of the need, we have added the \$100,000 incentive for a maximum award of \$500,000. We anticipate at least an additional 20 manufactured homes in parks will be assisted with this incentive. In 2019, we are considering a programmatic change that would enable eligible applicants, in cooperation with a non-profit service provider, to request funds for manufactured park acquisition. By implementing this change, we are optimistic that this would free up other funds that could be used to replace the outdated manufactured homes within the park, and preserve the park for affordable housing. We will continue to work with Oregon Housing and Community Services and other stakeholders to develop the programmatic change to have the biggest possible impact on continuing to preserve affordable housing of this type.

The **Oregon Housing and Community Services Department (OHCS)** is active in the promotion of fair housing. They operate many programs, including HOME. Owners of projects assisted by OHCS are required to develop marketing plans that include outreach activities targeted to minorities and other protected classes. The first component of the fair housing planning process is to review impediments to fair housing choice in the public and private sectors.

A Summary of Activities and Results from Technical Assistance Funding

The state's 2017 program included the use of CDBG funds for the technical assistance allowed by Section 811 of the Housing and Community Development Act of 1992. As of December 31, 2022, all of the 1% - TA funds from the 2016 allocation had been expended.

During 2016 BUSINESS OREGON obligated all the 2012 CDBG 1% and substantially obligated the 2013 CDBG 1% funds for activities.

Table V summarizes the CDBG 1% Technical Assistance awards that were made in Program Year 2017 for conference/workshop sponsorship, for local government capacity building associated with CDBG projects. The information below describes all the activities that were funded and the results from that activity.

- **Fair Housing Council of Oregon.** BUSINESS OREGON entered into an amendment of the contract with the Fair Housing Council of Oregon (FHCO) to promote equal access to housing by providing fair housing education, outreach, technical assistance and enforcement opportunities related to federal laws and related Oregon laws. A more detailed description of the results of this funding is described in the 2016 PER report section entitled *“actions taken to affirmatively further fair housing, a summary of impediments, and actions taken to overcome the effects of impediments”*
- **CDBG E-application platform,** Business Oregon entered into contract with an e-application developer, Coastal Cloud LLC to develop a full community based interactive application replacing with a current manual paper based process. This improvements will be implemented for the 2018 application round
- **State Administration.** Starting in FY 2004, states may expend up to \$100,000 +3% of their annual allocation on state administrative costs. In 2006, the state reserved the right to use this flexibility. All CDBG 1% funds used for state administration will be matched 1:1 with funds from the department's Special Public Works Fund. During 2016 none of the CDBG 1% funds were utilized for state administration.

Civil Rights

The state is required to provide data on all applicants and beneficiaries in projects funded from each grant allocation. Information must be reported for each project activity and must indicate the number of persons benefiting by ethnicity and racial groups as defined by U.S. Census.

- **Applicant data**—The proposed applicant data is contained in Table II above.
- **Actual data**—The actual beneficiary data from FFY2016 CDBG funded projects that were administratively closed during 2016 is described and contained in Table VIII below.

Table VIII

RACE GROUP	Total from Grant	Total from Program Income	Combined Total

Hispanic	0	0	0
American Indian/Alaskan Native	0	0	0
Black not Hispanic	0	0	0

TOTAL	0	0	0

Ethnicity/Race data is tabulated for all administratively closed or closed projects in the non-entitlement areas of the state using FY 2016 funds. Zero (0) projects awarded in 2016

were administratively closed during the reporting period. Creating a total of 0 projects funded with 2016 funds that are either administratively closed or closed. When 2016 funded projects are administratively closed, the ethnicity/race data will be reported in successive year's PERs 2016 Grant Year Activity Reports as indicated in the table above for each project and totaled for all projects funded with 2016 grant year funds.

Summary of State's Reviews of Recipient's Civil Rights Performance

The state reviews the civil rights performance of its 2017 recipients as part of its regular monitoring procedures. These include either an on-site review or an internal file/desk audit of all projects. A standardized monitoring checklist is used for this process. 2017 grant recipients monitored during the reporting period generally complied with the Civil Rights performance requirements for Community Development Block Grant recipients.

Summary of State and Recipient Actions to Use Minority- and Women-Owned Businesses In Carrying Out CDBG-Funded Activities

The state encourages grantees to make contracts awarded under CDBG grants available to minority- and women-owned businesses. Through the Grant Management Handbook and training given to recipients, the state describes the various ways that contracting opportunities can be made available to minority- and women-owned businesses. Some examples include dividing larger contracts into smaller portions that can be bid on by smaller firms, or directly soliciting proposals or bids from lists of certified minority- and women-owned businesses.

The current Grant Management Handbook (GMH) (2017 version) provides forms that grant recipients use to collect and report their efforts to the state. The updated 2017 GMH continues to contain information and new requirements for housing rehabilitation originally implemented in 2011. Housing Rehabilitation projects must meet the minimum acceptable outreach efforts/**standards** to minority- and women-owned businesses:

- A good faith, comprehensive and continuing endeavor;
- Supported by a statement of public policy and commitment published in the printed media of the widest local circulation;
- Supported by an office/or a key, ranking staff person with oversight responsibilities and access to the chief elected official; and
- Designed to utilize all available and appropriate public and private sector resources.

In addition to meeting the *standards* listed above, these grant recipients are encouraged to use the new **guidelines** contained in the GMH in implementing outreach programs to ensure the inclusion to the maximum extent feasible, of entities owned by minorities and women.

The state will report in future PERs, for each allocation, on the use of minority and women-owned businesses, and on Section 3 activities by its recipients. IFA's 2016 Section 3 Report was submitted to HUD via SPEARS on February 2, 2017.

PART II—NARRATIVE REQUIREMENTS

February 28, 2018 covering 2017 4th quarter application awards

This addendum updates the FY 2017 Part II Narrative Requirements, by showing the actual 2017 fourth quarter awards made during 2018 for the 2017 applications received by December 31, 2017.

Describe the Investment of Available Resources

Amended table I below illustrates the investment of CDBG funds more clearly, but in summary Business Oregon obligated:

- 1) FY2017 annual grant \$11,978,330
- 2) Prior year recaptured funds \$97,314

After the fourth quarter awards, the state obligated its Program Year 2017 funds for activities in accordance, as much as possible, with the targets set in the *2017 Annual Action Plan for the Oregon Consolidated Plan*. The state exceeded the annual allocation funding targets in the following categories:

- Housing Rehabilitation: Target was 25% and during 2012 the state obligated 31.24%.
- Community Facilities: Target was 20% and during 2017 4th quarter the state obligated 21.97%.

The state did not exceed the annual allocation funding targets in the following categories:

- Microenterprise Assistance: Target was 2% and during 2017 4th quarter the state obligated 0.54%.
- Public Works: Target was 53% and during 2017 the state obligated 46.25%.

As of March 1, 2017, \$10,146,769 of the 2017 Program Year funds were obligated in accordance with the *2017 Method of Distribution* within the 15-month Timely Distribution period.

PART I—NARRATIVE REQUIREMENTS - ADDENDUM

Variance between Targeted and Awarded Funding in 2017

The 2017 Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e. if a sufficient number of projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA will conduct a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the 2017 MOD, and for the following reasons:

The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. As of December 31, 2017 the State received fourteen applications totaling of \$ 10,244,083. Out of all applications received none was returned and we were able to fund all of the applicants.

- During 2013 to 2016 the state saw an increase in the demand for community facilities and public works projects. This increase continued through 2017. This upward trend was caused by improvement of the economic conditions that gives a little boost in the capacity to undertake large projects to address the community needs.

As of February 28, 2018 \$10,146,769.00 of the 2017 Program Year funds were obligated and left \$1,372,211 to be included in the 2018 application round which will open in May 2018- July 2018. In total the projected obligation for the FY 2017 funds were obligated in accordance with the *2017 Method of Distribution*. We are confident that the remaining 41,372,211 will be able to fit within the 15-month Timely Distribution period.

Geographic Distribution and Location of Investments

Refer to the following map for the 2017 CDBG program obligations. The state of Oregon has no control over the type and quantity of applications submitted for funding under the program or their geographic location. Awards were made as follows:

- **Microenterprise Assistance** – City of La Grande
- **Public Works** – City of Irrigon, City of Falls City, City of Haines

- **Public/Community Facilities** – Baker County, City of Prineville
- **Housing Rehabilitation** – City of The Dalles, City of Harrisburg, City of Pilot Rock, City of Stayton, City of Ontario, City of Roseburg, City of Astoria and Union County

Activities to Address Homelessness, Chronic Homelessness and Persons with Special Needs

Funding homeless shelters, shelters for victims of domestic violence and person with special needs are one of the priorities of the Oregon CDBG program. There were one CDBG projects awarded in PY2017 or assisted with FFY2017 funds for person with special needs under Community Facilities Senior Centers/Food Bank in the area of Prineville which will serve the whole Crook County

2017 Outcome and Performance Goal Summary:

Table V, summarizes the outcomes and performance measure requirements and the states progress towards meeting each requirement, by project type. This section of the 2017 PER conforms to the outcome and performance measure requirements identified in the 2016-2020 Consolidated Plan. Since the actual number funded is based upon the awards made during the program year, the final actual outcomes/accomplishments from each grant awarded by the state will be collected when the grant activities are complete and the grant contract between the city / county and the state is administratively closed and will be reported in IDIS at that time. In summary it is estimated 5,191 Oregonians will benefit from the activities funded under the CDBG program in PY2017 of which 3,366 (64.84%) will be low and moderate income. An abbreviated summary of the State's achievements through the end of 4th quarter application round which was awarded on February 28th, 2018 are:

- The state met or exceeded the annual goals for Public Works; SL1 Community Facilities; SL3 Community Facilities and Community Capacity Technical Assistance and Housing Rehabilitation.
- The state did not meet the goals for Microenterprise Assistance; DH1 Community Facilities;
- 1 microenterprise project will be assisted; accomplishment will be reported upon completion.
- 4 water and wastewater systems were funded.
- 190 housing units will be rehabilitated.
- The CDBG program leveraged \$3,290,797 in matching funds.
- Seven capacity building activities were conducted where 73 persons benefitted

Five Year Outcome and Performance Goal Summary: Table V also, summarizes the outcomes and performance measure requirements and the State's overall progress towards meeting each requirement, during the 5 year reporting period, by project type. This section conforms to the outcome and performance measure requirements identified in the 2016-2020 Consolidated Plan. As this is the second year of the 2016-2020 Consolidated Plan, the information for 2016 and 2017 are what will be reported for this year.

Refer to the Table V for details.

Note #1 - Outcomes - Actual Number Funded – The actual number funded is based upon the awards made during the program year. The final actual outcomes/accomplishments from each grant awarded by the state will be collected when the grant activities are complete and the grant contract between the city/county and the state is administratively closed and will be reported in IDIS as part of the CAPER.

Each grant recipient is allowed a specified period of time to complete the CDBG funded activities and this time period varies by type of grant. This time period is referred to as the Project Completion Date (PCD). The state allows PCD extensions if the local circumstances warrant the extensions. Each PCD extension is reviewed on a case by case basis. A summary of the standard PCD time periods are:

- 1 year PCD – Applies to microenterprise assistance grants and housing center grants.
- 2 year PCD – Planning grants, final design only grants, construction only grants, off-site infrastructure grants and housing rehabilitation grants.
- 3 year PCD – Final design and construction activities combined into one grant.

Note #2 - The state may select activities/priorities for the 2016-2020 CDBG program from the table above. The proposed outcome and performance measure requirements, performance indicators and the short and long term goals for each activity will only be triggered, if the activity is actually offered by the program.

Describe the Use of CDBG Funds During the Program Year and Assess the Relationship of That Use to the Priorities and Specific Objectives Identified Within the Plan With Special Attention to the Highest Priority Activities That Were Identified

CDBG activities that have had a substantial impact on identified needs are the public works activities and community facility activities which were identified as high priority projects in the 2016-2020 Consolidated Plan. Twenty one point ninety seven (21.97%) of the CDBG funds awarded in 2017 were for Community Facilities projects that will benefit 1,677 persons, forty six point twenty five percent (46.25%) for Public Works projects will benefit 1,668 persons and thirty one point twenty four percent (31.24%) of the CDBG funds awarded in 2017 were for housing rehabilitation projects that will benefit 416 persons and rehabilitate 190 housing units. Refer to Table's I, V and VI for more details.

The indicators for CDBG need are identified by the type and number of applications received for funding in 2017. Based upon the number of applications received public works, community facilities and housing rehabilitation are of the highest need. Oregon funded:

- 3 public works projects
- 2 community facility projects;
- 8 housing rehabilitation projects and,
- 1 microenterprise project

The state obligated its Program Year 2017 funds for activities in accordance, as much as possible, with the targets set in the *2017 Annual Action Plan for the Oregon Consolidated Plan*.

The state exceeded the annual allocation funding targets in the following category:

- Housing Rehabilitation: Target was 25% and during 2017 the state obligated 31.24%.
- Community Facilities: Target was 20% and during 2017 the state obligated 21.97%.

The state did not exceed the annual allocation funding targets in the following categories:

- Microenterprise Assistance: Target was 2% and during 2017 the state obligated 0.54%
- Public Works: Target was 53% and during 2017 the state obligated 46.25%.

For the last several years, since 2006 the barrier that resulted in a negative impact to the program was not something that can be remedied by IFA. Cities and counties were reluctant to apply for funds for a project due to the fact they were unable to secure additional project funds due to the economy. Many communities due to budget cuts had to cut staff and have lost the capacity to administer the complex CDBG grants at the local level.

During 2017 Business Oregon went through a major re-structuring in which the agency is moving towards a more focused regionalized service model that broke down the silos between Business and Infrastructure part of the Agency. The restructuring was done in mid 2017 and the agency was in the transition mode until the end of the year which was also the due time for the 4th quarter CDBG application round. New personnel are assuming their newly adjusted position in which not allowing sufficient time to work with potential applicants and develop projects to be moving to ready to proceed condition. One of the area that is not affected by the restructuring was the Housing Rehabilitation Program, which impact could be shown in the number of application submitted and the percentage of fund awarded.

Since 2012, regardless of these barriers the state is still seeing an increase in demand for the CDBG program. As we speak, the State is seeing the number of projects and potential applicants that move forward in the past couple of months indicating interest to move forward for CDBG funding in the upcoming application which will start in May and end in July 31, 2018.

The state's CDBG program continues to alleviate the effects of the economy by creating jobs, assisting microenterprises, improving infrastructure, providing housing rehabilitation, and constructing essential community facilities. The primary obstacle in successfully addressing the demands remain in the lack of funding. Federal and state funding are simply not enough to meet demand, even when coordinating funding for infrastructure projects with other agencies such as the US Department of Agriculture's Rural Utility Service, Oregon Department of Environmental Quality, the Environmental Protection Agency, the lottery funded Special Public Works Fund and Water/Wastewater Financing Program and others.

Variance between Targeted and Awarded Funding in 2016-2020

The Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e. if a sufficient number of projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA conducted a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the applicable MOD, and for the following reasons:

- The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. Regardless the outreach and training effort regionally, the State has emphasize on the readiness for the projects and the parties involved in the to move forward with well-developed projects which limit the projects that are ready to move forward for funding in the open quarter application round
- Demand for community facilities and public works projects has significantly increased throughout the five years. This upward trend was caused by increase in

regulatory agencies requirements for the improvement of aging and failing system. The improvement of the economy conditions has provided little boost in the capacity to undertake large projects to address the community needs. Subsequently the demand for MicroEnterprise assistance has sharply decreased, while Housing Rehabilitation program is showing increase in interest.

- The State undergone a major restructuring and refocusing of the service delivery format. Which timing hinder the ability to fully work through project development for projects to be ready to move forward for funding application.

Specify the Nature of and Reasons for any Changes in Program Objectives and Indicate How the State Would Change Its Programs As A Result of Its Experiences

Business Oregon made a few adjustments to the CDBG strategies under 2016-2020 Consolidated plan, which is adjusting the allocation and goal composition to the projects that are trending upwards based on the historical performance.

- **After assessing the variance between targeted and awarded in 2016-2020:**

- Business Oregon is utilizing the historical data of demand and the trend of funds availability in the development of 2016-2020 Consolidated Plan goals to a more achievable target.
- Business Oregon will proceed with the assessment to evaluate level of marketing and outreach to projects to achieve the newly set goals. We identified several outreach efforts through the restructuring of the agency's service delivery model alongside with Governor's Regional Solution Teams throughout the 10 regions in the state. Business Oregon will continuously proceed with the outreach efforts by actively marketing the program through all different efforts such as involvements in the League or Oregon Cities and Association of Oregon Counties.
- Business Oregon keep moving forward on technical assistance to enhance the performance of all programs for our applicants to implementation through trainings, implementation tool development (electronic application) and one-on-one assistance.

Evaluate the Extent To Which the Program Benefitted Low- And Moderate-Income Persons and Include the Number of Extremely Low-Income, and Moderate-Income Persons Served By Each Activity Where Information on Income By Family Size Is Required to Determine Eligibility of the Activity

For the selected benefit period (2015-2016-2017), 100% of the state's CDBG funds were obligated to activities benefiting low- and moderate-income persons. Of the funds obligated under the state's 2017 program, 100% of the project funds benefit low- and moderate-income persons.

The 2017 unobligated re-paid recaptured grant funds and unobligated FY2017 funds were not included in the calculation for overall program benefit to low and moderate income persons.

Of the CDBG awards made during the 2017 program year, the projects are proposed to benefit 5,607 persons of which 3,782 or 67% will be low and moderate income. Refer to Table V above and Table VI below for details.

Table VI

Evaluate Progress towards Meeting the Goals of Providing Affordable Housing CDBG Funds, Including the Number and Types of Households Served

During 2017 Business Oregon funded housing rehabilitation projects that are proposed to benefit 190 households, of which 416 persons will benefit and 100% will be low and moderate income.

A Summary of Any Comments Concerning the Program That Have Been Received From Citizens

The public comment period concludes on May 17, 2018 and BUSINESS OREGON received no public comment regarding the 2017 CDBG PER reports.

Civil Rights

The state is required to provide data on all applicants and beneficiaries in projects funded from each grant allocation. Information must be reported for each project activity and must indicate the number of persons benefiting by ethnicity and racial groups as defined by U.S. Census.

- **Applicant data**—The proposed applicant data is contained in Table II above.

- **Actual data**—The actual beneficiary data from FFY2016 CDBG funded projects that were administratively closed during 2017 is described and contained in Table VIII below.

Table VIII

RACE GROUP	Total from Grant	Total from Program Income	Combined Total
White not Hispanic	3,244	0	3,244
Hispanic	1,142	0	1,142
American Indian/Alaskan Native	104	0	104
Black not Hispanic	33	0	33
Pacific Islander	64	0	64
Two or more race	189		189
TOTAL	4,776	0	4,776

Ethnicity/Race data is tabulated for all administratively closed or closed projects in the non-entitlement areas of the state using FY 2018 funds. Zero (0) projects awarded in 2017 were administratively closed during the reporting period. When 2017 funded projects are administratively closed, the ethnicity/race data will be reported in successive year's PERs 2017 Grant Year Activity Reports as indicated in the table above for each project and totaled for all projects funded with 2017 grant year funds.

Summary of State's Reviews of Recipient's Civil Rights Performance

The state reviews the civil rights performance of its 2017 recipients as part of its regular monitoring procedures. These include either an on-site review or an internal file/desk audit of all projects. A standardized monitoring checklist is used for this process. 2017 grant recipients monitored during the reporting period generally complied with the Civil Rights performance requirements for Community Development Block Grant recipients.

Summary of State and Recipient Actions to Use Minority- and Women-Owned Businesses In Carrying Out CDBG-Funded Activities

The state encourages grantees to make contracts awarded under CDBG grants available to minority- and women-owned businesses. Through the Grant Management Handbook and training given to recipients, the state describes the various ways that contracting opportunities can be made available to minority- and women-owned businesses. Some examples include dividing larger contracts into smaller portions that can be bid on by smaller firms, or directly soliciting proposals or bids from lists of certified minority- and women-owned businesses.

The current Grant Management Handbook (GMH) (2017 version) provides forms that grant recipients use to collect and report their efforts to the state. The updated 2017 GMH continues to contain information and new requirements for housing rehabilitation

originally implemented in 2011. Housing Rehabilitation projects must meet the minimum acceptable outreach efforts/**standards** to minority- and women-owned businesses:

- A good faith, comprehensive and continuing endeavor;
- Supported by a statement of public policy and commitment published in the printed media of the widest local circulation;
- Supported by an office/or a key, ranking staff person with oversight responsibilities and access to the chief elected official; and
- Designed to utilize all available and appropriate public and private sector resources.

In addition to meeting the *standards* listed above, these grant recipients are encouraged to use the new **guidelines** contained in the GMH in implementing outreach programs to ensure the inclusion to the maximum extent feasible, of entities owned by minorities and women.

The state will report in future PERs, for each allocation, on the use of minority and women-owned businesses, and on Section 3 activities by its recipients. IFA's 2017 Section 3 Report was submitted to HUD via SPEARS on February 2, 2017.

Equal Employment Opportunity Data for Business Oregon

Business Oregon maintains the employment data required by the Equal Employment Opportunity Commission (EEOC) on an EEO-4 form. The form is not included in this report but is available from the department.

PART II—NARRATIVE REQUIREMENTS
December 31, 2023

Describe the Resources Made Available

In 2016 IFA had **\$11,712,681.00** in available CDBG resources to award to units of general local government. Table I below illustrates the information more clearly but a quick summary is provided below:

- 1) FY2016 annual grant (amount available for projects) \$11,594,105
- 2) FY2015 and prior year recaptured funds \$111,868.97
- 3) FY2016 Recaptured Grant Repayment \$6,385.86
- 4) FY2016 program income \$320.17

Describe the Investment of Available Resources

Table I below illustrates the investment of \$11,712,681 of CDBG funds more clearly.

Table I illustrates that the 2016 funds were fully obligated by December 31, 2016. The state obligated its Program Year 2016 funds for activities in accordance, as much as possible, with the targets set in the *2016 Annual Action Plan for the Oregon Consolidated Plan*. The state exceeded the annual allocation funding target in the following category:

- Public Works: Target was 51% and during 2016 the state obligated 62%.

The state did not exceed the annual allocation funding targets in the following categories:

- Community Facilities: Target was 28% and during 2016 the state obligated 23.78%.
- Microenterprise Assistance: Target was 2% and during 2016 the state obligated 0.55%.
- Housing Rehabilitation: Target was 19% and during 2016 the state obligated 13.66%.

Variance between Targeted and Awarded Funding in 2016

The 2016 Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages, but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e., if enough projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA will conduct a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the 2016 MOD, and for the following reasons:

- The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. As of December 31, 2016, the State received nineteen applications totaling of \$22,240,154. Out of all applications received one was returned due to being an incomplete application. Due to the limited amount of funds only twelve out of nineteen projects that benefit the most LMI were able to be funded in 2016.
- During 2013 to 2015 the state saw an increase in the demand for community facilities and public works projects. This increase continued through 2016. This upward trend was caused by improvement of the economic conditions that gives a little boost in the capacity to undertake large projects to address the community needs.

As of December 31, 2016, \$11,594,105 of the 2016 Program Year funds were obligated and the Department received applications totaling \$22,240,154. In total the projected obligation for the FY 2016 funds were obligated in accordance with the *2016 Method of Distribution* within the 15-month Timely Distribution period.

Geographic Distribution and Location of Investments

Refer to the following map for the 2016 CDBG program obligations. The state of Oregon has no control over the type and quantity of applications submitted for funding under the program or their geographic location. Awards were made as follows:

- **Microenterprise Assistance** – City of Independence
- **Public Works** – City of Idanha, City of La Pine, City of Seneca, City of Mt. Vernon,
- **Public/Community Facilities** – Josephine County, City of Roseburg, Coos County
- **Housing Rehabilitation** – City of Newberg, City of Veneta, City of Lebanon, City of Pendleton

The Families and Persons Assisted (including the racial and ethnic status of persons assisted)

Table II below illustrates the proposed beneficiaries with the CDBG awards (funds obligated by December 31, 2016) made during program year 2016. The proposed race and ethnic status of the persons to be assisted was obtained from the specific CDBG applications received by IFA for funding consideration.

Activities to Address Homelessness, Chronic Homelessness and Persons with Special Needs

Funding homeless shelters, shelters for victims of domestic violence and person with special needs are one of the priorities of the Oregon CDBG program. There were two CDBG projects awarded in PY2016 or assisted with FFY2016 funds for person with special needs under Community Facilities Senior Centers/Food Bank in the area of Josephine County and a Head Start in the area of Roseburg.

Actions Taken To Affirmatively Further Fair Housing, a Summary of Impediments and Actions Taken To Overcome the Effects of Impediments

Three state agencies administer programs that serve to further fair housing for Oregon's people. As result the Analysis of Impediments to Affirmatively Furthering Fair Housing was a joint effort between the state agencies and the actions taken to overcome the impediments were also divided amongst the state agencies. For a complete description of the impediments found in the 2016-2020 Analysis of Impediments to Affirmatively Furthering Fair Housing, the 2016-2020 Fair Housing Action Plan and a summary of all the state agency actions to overcome the identified impediments, please refer to the more detailed analysis included in the 2016 Consolidated Annual Performance Evaluation Report (CAPER). This CDBG Performance Evaluation Report (PER) narrative summarizes the actions taken by the IFA to address/overcome specific impediments.

Business Oregon, which administers Community Development Block Grant funds for the state's non-metropolitan cities and counties, educates its recipients about their fair housing responsibilities in several ways including: 1) presentations at workshops, 2) an updated comprehensive Grant Management Handbook, 3) provision of informational handouts, posters, brochures and individual technical assistance, as needed or requested, 4) sending recipients notices of workshops or conferences which address fair housing issues and 5) completed 2016-2020 statewide Analysis of Impediments to Affirmatively Furthering Fair Housing and Fair Housing Action Plan which are made available to recipients to identify, plan for and remove impediments to further fair housing, 6) Provide direct training and consultation to local jurisdiction.

The efforts of OBDD-IFA, identified below are addressing the following impediments identified in the 2016-2020 Analysis of Impediments to Furthering Fair Housing:

- 1-5 – Local zoning and land use regulations and/or inexact application of state laws may impede the siting and approval of group homes.
- 2-1 – Lack of enforcement of fair housing violations persist statewide.
- 2-2 – Limited housing options for persons most vulnerable to housing discrimination: non-English speakers, persons of Hispanic descent, African Americans, large families and persons with disabilities.
- 3-1 – Local housing resources statewide are limited. This is particularly true in rural communities.

- 6-1 – The state’s ban on inclusionary zoning limits municipalities’ ability to employ flexible tools and incentives to increase the number of affordable units built.

OBDD-IFA continues to fund fair housing activities through the Fair Housing Council of Oregon (FHCO) and, until 2014 through the Greater Eastern Oregon Economic Development District (GEODC). Since January 2011, OBDD-IFA has funded these entities to complete activities to further fair housing and remove impediments to fair housing choice:

- FHCO – contract from July 1, 2011, to December 31, 2012, for \$55,000.
- GEODC – contract from July 1, 2011, to June 30, 2012, for \$20,000.
- FHCO – contract for 3 workshops in 2013 for \$8,000.
- GEODC – contract from July 1, 2012, to June 30, 2014, for \$32,000.
- FHCO – contract from July 16, 2013, to December 31, 2013, for \$65,800.
- FHCO – contract from March 24, 2014, to December 31, 2015 (amended in April 2015 to include more work with local jurisdictions) for \$158,925.
- FHCO – contract from February 8, 2016, to December 31, 2016 for \$104,300

Table III, below summarizes the impediments identified within 2016-2020 Analysis of Impediments to Affirmatively Furthering Fair Housing and Fair Housing Action Plan being addressed by OBDD-IFA and the actions taken by OBDD-IFA and through its contractor, FHCO to address the identified impediments:

During 2016 the following additional activities occurred:

- a. The state continues to convey fair housing information via the CDBG 'list-serve' which was started in 2007. This list-serve disseminates information to all interested persons and grant recipients.
- b. IFA continues outreach through technical assistance workshops/ presentations regarding Limited English Proficiency Plan and Section 3 Plan along with the dissemination of the new established Section 3 Business Registry web page.
- c. IFA continues to require the submission of reasonable accommodation policies when a non-profit is becoming a certified sub-grantee.
- d. In 2016, IFA enhanced the effort in furthering fair housing by providing assistance through FHCO training and education effort directly to the local jurisdictions.

(Diane Hess, Louise Dix)</p>	<p>4th quarter: . The two trainings that were held were both very successful and have led to numerous calls to FHCO’s discrimination hotline. One of the trainings was held for 30 local rental owners in Dallas. The majority had never had any fair housing training prior to the session. A second session took place for Dallas social service agencies and advocates, including Polk County Family and Community Outreach, the Salem Housing Authority, the Oregon Health Authority, Mano a Mano, Polk County Health Department, the Salvation Army, Shangri-La Youth and Family Services, Mid-Willamette Valley Community Action Agency and Representative Paul Evans. The majority of participants had never received fair housing training. Issues raised included denial of Section 8 Housing Choice vouchers, landlords refusing to accept agency rent checks and denials of reasonable accommodation requests. There was confusion over fair housing requirements for shelters and a request for a training for local shelters in 2017. All of the agencies brought FHCO outreach materials back to their agencies to distribute. Both the landlord and agency trainings featured FHCO’s “virtual tour”, covering Oregon’s discriminatory history with a focus on Polk County.</p> <p>8/29-9/2: Eastern Oregon Tour. Collaborated with DHS office in Union, Umatilla and Baker counties and CAPECO, the community action agency in Umatilla County, to conduct extensive outreach and education to local agencies and housing providers. Organizations reached included DHS programs (Self Sufficiency, Seniors and People with Disabilities, JOBS and Child Welfare programs), Kindred Support Services, Domestic Violence Services,</p>

			<p>Building Healthy Families, CARE, Greater Oregon Behavioral Health, Community Connections of NE Oregon and CAPECO. Materials were distributed widely, including to property management companies in the area. All trainings conducted included “virtual tours” of the discriminatory history of the locality, which were well-received, and a listening session to identify local problems in the area; some of these include fear of landlord retaliation presenting a barrier to tenants bringing forward complaints, landlords raising rents and not meeting housing quality standards to avoid renting to Section 8 tenants, discrimination against families with children, barriers to sheltering men who have been victims of domestic violence, routine denials of assistance animals and discriminatory ads on local newspapers. FHCO staff met with a Union County Commissioner interested in expanding fair housing capacity in the area. Actually, all training participants reported the need for a larger fair housing presence in Eastern Oregon, FHCO staff also met with staff of a domestic violence agency to review their policies and procedures. Organizations brought back fair housing materials to their offices to distribute to both clients and local landlords.</p> <p>4/27: Yamhill County Tour. Collaborated with the Yamhill and Polk county housing authorities and local community action organization to organize trainings for community landlords and tenants. FHCO display was up for a period of 12 days and it was publicized locally. FHCO assisted in organizing a local celebration for a Yamhill County poster contest winner. We worked with the Yamhill Housing Authority planned distribution of local materials at local county service agencies and a tribal housing authority. FHCO staff identified several tenants with fair housing issues and discussed next steps. Initial plans were made to conduct similar events in neighboring Polk County.</p>

			<p>6/7-6/10: North Coast Tour. Collaborated with CARE, the local community action agency, to set up several local training sessions for housing providers, advocates and jurisdictions in both Tillamook and Astoria. Distributed materials at local governmental and social service agencies and at the community college. Conducted radio interviews on local stations. Provided in-depth technical assistance to Harbor from the Storm shelter in Astoria and Habitat for Humanity in Tillamook.</p>
<p>9. Conduct trainings for 15 partners and key organizations including re-entry professionals, nonprofit shelters and housing providers, state agencies and community based organizations. Wherever possible, trainings will include FHCO’s virtual tours, tailored to the local community, and a listening session to identify local fair housing issues and progress on the Fair Housing Action plan. Fair Housing Actions OBDD-IFA plans to undertake in 2016 and 2017

Support of Local Fair Housing Efforts

Business Oregon continues to work closely with all of our CDBG recipients to ensure that each of their jurisdictions recognize their responsibilities in this area and know where the resources are to answer questions and provide necessary brochures, posters and presentations. Regional coordinators remain in contact with each recipient through the course of the CDBG-funded project and are able to assist them when necessary.

Local fair housing efforts of state recipients using 2016 funds include but are not limited to: publicizing fair housing laws, participating in local fair housing events, displaying posters, distributing brochures and being a participating sponsor of the Fair Housing Council of Oregon (FHCO) display and training sessions. As we have worked along with FHCO, we have come to understand that many of Oregon's small communities are struggling and it is common to find that municipal planners, attorneys, and building code/development personnel have been eliminated from the budget to reduce personnel expenses as a means to ensure there are funds to cover the more basic needs of the community. These are the individuals who typically have the responsibility to understand fair housing laws and to be aware of local impediments to equal access to opportunity in housing. More often than not, affirmatively furthering fair housing is not even on their radar. Additionally, the citizen commissions/decision-making bodies and elected officials in small communities in Oregon are frequently swayed by neighborhood opinions without regard to the fair housing impacts. This is especially the case in land use decisions and zoning plans and practices. OBDD adjusted our contract with FHCO to enhance more direct work with local municipalities to enhance more education and awareness of Fair Housing in the rural areas.

Actions Taken to Remove Barriers to Affordable Housing

In addition to the activities described above, CDBG funds are used to extend publicly-owned infrastructure to new affordable low- and moderate-income housing, which assists in addressing the obstacle of funding for owner occupied single family housing. CDBG funds also are used by low- and moderate-income homeowners to rehabilitate the homes they occupy.

CDBG funds were used to foster affordable housing by funding supportive public infrastructure for housing projects. CDBG funds, through the housing rehab program, support maintenance of affordable housing that is owned and occupied by a low- and moderate-income homeowner.

The **Oregon Housing and Community Services Department (OHCS)** is active in the promotion of fair housing. They operate many programs, including HOME. Owners of projects assisted by OHCS are required to develop marketing plans that include outreach activities targeted to minorities and other protected classes. The first component of the

fair housing planning process is to review impediments to fair housing choice in the public and private sectors.

Other Actions Indicated in the Strategic Plan and the Action Plan and Including A Comparison of the Proposed Versus Actual Outcomes For Each Outcome Measure Submitted With the Consolidated Plan and Explain, If Applicable, Why Progress Was Not Made Toward Meeting Goals and Objectives.

2016 Outcome and Performance Goal Summary: Table V, summarizes the outcomes and performance measure requirements and the states progress towards meeting each requirement, by project type. This section of the 2016 PER conforms to the outcome and performance measure requirements identified in the 2016-2020 Consolidated Plan. Since the actual number funded is based upon the awards made during the program year, the final actual outcomes/accomplishments from each grant awarded by the state will be collected when the grant activities are complete and the grant contract between the city / county and the state is administratively closed and will be reported in IDIS at that time. In summary it is estimated 4,462 Oregonians will benefit from the activities funded under the CDBG program in 2016 of which 3,824 (85.70%) will be low and moderate income. An abbreviated summary of the State's achievements through December 31, 2016 are:

- The state met or exceeded the annual goals for Public Works; SL1 Community Facilities; SL3 Community Facilities and Community Capacity Technical Assistance.
- The state did not meet the goals for Microenterprise Assistance; DH1 Community Facilities; and, Housing Rehabilitation.
- 1 microenterprise project will be assisted; accomplishment will be reported upon completion.
- 4 water and wastewater systems were funded.
- 302 housing units will be rehabilitated.
- The CDBG program leveraged \$4,486,626 in matching funds.
- Three CDBG 1% assisted conferences were conducted where 301 persons benefitted.

Five Year Outcome and Performance Goal Summary: Table V also, summarizes the outcomes and performance measure requirements and the State’s overall progress towards meeting each requirement, during the 5 year reporting period, by project type. This section conforms to the outcome and performance measure requirements identified in the 2016-2020 Consolidated Plan. As this is the first year of the 2016-2020 Consolidated Plan, the information for 2016 is what will be reported for this year.

Refer to the Table V for details.

Note #1 - Outcomes - Actual Number Funded – The actual number funded is based upon the awards made during the program year. The final actual outcomes/accomplishments from each grant awarded by the state will be collected when the grant activities are complete and the grant contract between the city/county and the state is administratively closed and will be reported in IDIS as part of the CAPER.

Each grant recipient is allowed a specified period of time to complete the CDBG funded activities and this time period varies by type of grant. This time period is referred to as the Project Completion Date (PCD). The state allows PCD extensions if the local circumstances warrant the extensions. Each PCD extension is reviewed on a case by case basis. A summary of the standard PCD time periods are:

- 1 year PCD – Applies to microenterprise assistance grants and housing center grants.
- 2 year PCD – Planning grants, final design only grants, construction only grants, off-site infrastructure grants and housing rehabilitation grants.
- 3 year PCD – Final design and construction activities combined into one grant.

Note #2 - The state may select activities/priorities for the 2011-2015 CDBG program from the table above. The proposed outcome and performance measure requirements, performance indicators and the short and long term goals for each activity will only be triggered, if the activity is actually offered by the program.

Describe the Use of CDBG Funds During the Program Year and Assess the Relationship of That Use to the Priorities and Specific Objectives Identified Within the Plan With Special Attention to the Highest Priority Activities That Were Identified

This section of PER expands upon the prior section above and needs to be reviewed in its entirety.

CDBG activities that have had a substantial impact on identified needs are the public works activities and community facility activities which were identified as high priority projects in the 2016-2020 Consolidated Plan. Twenty-three point seventy-eight percent (23.78%) of the CDBG funds awarded in 2016 were for Community Facilities projects that will benefit 1,668 persons, sixty-two percent (62%) for Public Works projects will benefit 2,492 persons and thirteen point sixty-six percent (13.66%) of the CDBG funds awarded in 2016 were for housing rehabilitation projects that will benefit 302 persons and rehabilitate 132 housing units. Refer to Table's I, V and VI for more details.

The indicators for CDBG need are identified by the type and number of applications received for funding in 2016. Based upon the number of applications received public works, community facilities and housing rehabilitation are of the highest need. Oregon funded:

- 4 public works projects
- 3 community facility projects;
- 4 housing rehabilitation projects and,
- 1 microenterprise project

The state obligated its Program Year 2016 funds for activities in accordance, as much as possible, with the targets set in the *2016 Annual Action Plan for the Oregon Consolidated Plan*.

The state exceeded the annual allocation funding targets in the following category:

- Public Works: Target was 51% and during 2016 the state obligated 62%.

The state did not exceed the annual allocation funding targets in the following categories:

- Community Facilities: Target was 28% and during 2016 the state obligated 23.78%.
- Microenterprise Assistance: Target was 2% and during 2016 the state obligated 0.55%.
- Housing Rehabilitation: Target was 19% and during 2016 the state obligated 13.66%.

For the last several years, since 2006 the barrier that resulted in a negative impact to the program was not something that can be remedied by IFA. Cities and counties were reluctant to apply for funds for a project due to the fact they were unable to secure additional project funds due to the economy. Many communities due to budget cuts had

to cut staff and have lost the capacity to administer the complex CDBG grants at the local level.

During 2012, regardless of these barriers the state saw an increase in demand for the CDBG program. This increase continued in 2016 which showed that the applications received in one application quarter has exceeded the whole annual allocation.

The state's CDBG program continues to alleviate the effects of the economy by creating jobs, assisting microenterprises, improving infrastructure, providing housing rehabilitation, and constructing essential community facilities. The primary obstacle in successfully addressing the demands remain in the lack of funding. Federal and state funding are simply not enough to meet demand, even when coordinating funding for infrastructure projects with other agencies such as the US Department of Agriculture's Rural Utility Service, Oregon Department of Environmental Quality, the Environmental Protection Agency, the lottery funded Special Public Works Fund and Water/Wastewater Financing Program and others. The estimated demand for 2016 was \$22.2 million, far exceeding the 2016 allocation amount available for projects of \$11,712,681; a ratio of nearly 2:1.

Variance between Targeted and Awarded Funding in 2016-2020

The Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e. if a sufficient number of projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA conducted a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the applicable MOD, and for the following reasons:

- The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. Regardless the outreach and training effort regionally, the State has emphasize on the readiness for the projects and the parties involved in the to move forward with well-developed projects which limit the projects that are ready to move forward for funding in the open quarter application round
- Demand for community facilities and public works projects has significantly increased throughout the five years. This upward trend was caused by increase in regulatory agencies requirements for the improvement of aging and failing system. The improvement of the economy conditions has provided little boost in the capacity to undertake large projects to address the community needs. Subsequently the demand for MicroEnterprise assistance has sharply decreased, while Housing Rehabilitation program is showing increase in interest the availability of funding remains the stumbling block in the state's ability to reach

goals based on the result of the review at each calendar quarter on the need of the program funding.

Specify the Nature of and Reasons for any Changes in Program Objectives and Indicate How the State Would Change Its Programs As A Result of Its Experiences

IFA made a few adjustments to the CDBG strategies under 2016-2020 Consolidated plan, which is adjusting the allocation and goal composition to the projects that are trending upwards based on the historical performance.

- **After assessing the variance between targeted and awarded in 2016-2020:**
 - o OBDD-IFA is utilizing the historical data of demand and the trend of funds availability in the development of 2016-2020 Consolidated Plan goals to a more achievable target.
 - o OBDD-IFA will proceed with the assessment to evaluate level of marketing and outreach to projects to achieve the newly set goals. We identified several outreach efforts through the collaboration with Governor's Regional Solution Teams throughout the 10 regions in the state. OBDD-IFA will continuously proceed with the outreach efforts by actively marketing the program through all different efforts such as involvements in the League or Oregon Cities and Association of Oregon Counties.
 - o OBDD-IFA will proceed further the technical assistance to enhance the performance of all programs through trainings, implementation tool development and one-on-one assistance.

Evaluate the Extent To Which the Program Benefitted Low- And Moderate-Income Persons and Include the Number of Extremely Low-Income, and Moderate-Income Persons Served By Each Activity Where Information on Income By Family Size Is Required to Determine Eligibility of the Activity

For the selected benefit period (2015-2016-2017), 98.32% of the state's CDBG funds were obligated to activities benefiting low- and moderate-income persons. Of the funds obligated under the state's 2016 program, 99.94% of the project funds benefit low- and moderate-income persons.

The 2016 unobligated re-paid recaptured grant funds and unobligated FY2016 funds were not included in the calculation for overall program benefit to low and moderate income persons.

Of the CDBG awards made during the 2016 program year, the projects are proposed to benefit 4,462 persons of which 3,824 or 85.70% will be low and moderate income. Refer to Table V above and Table VI below for details.

Evaluate Progress Toward Meeting The Goals of Providing Affordable Housing CDBG Funds, Including the Number and Types Of Households Served

During 2016 IFA funded housing rehabilitation projects that are proposed to benefit 132 households, of which 302 persons will benefit and 100% will be low and moderate income.

A Summary of Any Comments Concerning the Program That Have Been Received From Citizens

The public comment period concludes on June 8, 2017 and OBDD-IFA received no public comment regarding the 2016 CDBG PER reports.

A Summary of Activities and Results from Technical Assistance Funding

The state's 2016 program included the use of CDBG funds for the technical assistance allowed by Section 811 of the Housing and Community Development Act of 1992. As of December 31, 2022, all of the \$114,895 1% funds from the 2016 allocation had been expended. During 2016 OBDD-IFA obligated all the 2012 CDBG 1% and substantially obligated the 2013 CDBG 1% funds for activities.

Table V summarizes the CDBG 1% Technical Assistance awards that were made in Program Year 2016 for conference/workshop sponsorship, for local government capacity building associated with CDBG projects. The information below describes all the activities that were funded and the results from that activity.

- **Northwest Community Development Institute.** A grant was provided to the Northwest Community Development Institute for 2016 training and scholarships. This effort helps to train rural community development professionals in Oregon, Idaho and Washington. A total of 63 persons benefitted from this training event and this ACCOMPLISHMENT IS REPORTED IN THE 2016 PER.
- **Northwest Economic Development Sponsorship ad Course.** A grant was provided to the Washington State Community Trade and Economic Development Department for 2016 training scholarships. The scholarships are offered to rural Oregon community representatives who attend this training. A total of 49 persons benefitted from this training event and this ACCOMPLISHMENT IS REPORTED IN THE 2016 PER.
- **Fair Housing Council of Oregon.** OBDD-IFA entered into an amendment of the contract with the Fair Housing Council of Oregon (FHCO) to promote equal access to housing by providing fair housing education, outreach, technical assistance and enforcement opportunities related to federal laws and related Oregon laws. A more detailed description of the results of this funding is described in the 2016 PER report section entitled *“actions taken to affirmatively further fair housing, a summary of impediments, and actions taken to overcome the effects of impediments”*
- **State Administration.** Starting in FY 2004, states may expend up to \$100,000 +3% of their annual allocation on state administrative costs. In 2006, the state reserved the right to use this flexibility. All CDBG 1% funds used for state administration will be matched 1:1 with funds from the department's Special Public Works Fund. During 2016 none of the CDBG 1% funds were utilized for state administration.

Civil Rights

The state is required to provide data on all applicants and beneficiaries in projects funded from each grant allocation. Information must be reported for each project activity and must indicate the number of persons benefiting by ethnicity and racial groups as defined by U.S. Census.

- **Applicant data**—The proposed applicant data is contained in Table II above.

- **Actual data**—The actual beneficiary data from FFY2016 CDBG funded projects that were administratively closed during 2016 is described and contained in Table VIII below.

Table VIII

RACE GROUP	Total from Grant	Total from Program Income	Combined Total
White not Hispanic	3,815	0	3,815
Hispanic	184	0	184
American Indian/Alaskan Native	60	0	60
Black not Hispanic	14	0	14
Asian and Pacific Islander	16	0	16
Other	91		91
TOTAL	4,180	0	4,180

Ethnicity/Race data is tabulated for all administratively closed or closed projects in the non-entitlement areas of the state using FY 2016 funds. Zero(0) projects awarded in 2016 were administratively closed during the reporting period.. When 2016 funded projects are administratively closed, the ethnicity/race data will be reported in successive year's PERs 2016 Grant Year Activity Reports as indicated in the table above for each project and totaled for all projects funded with 2016 grant year funds.

Summary of State's Reviews of Recipient's Civil Rights Performance

The state reviews the civil rights performance of its 2016 recipients as part of its regular monitoring procedures. These include either an on-site review or an internal file/desk audit of all projects. A standardized monitoring checklist is used for this process. 2016 grant recipients monitored during the reporting period generally complied with the Civil Rights performance requirements for Community Development Block Grant recipients.

Summary of State and Recipient Actions to Use Minority- and Women-Owned Businesses In Carrying Out CDBG-Funded Activities

The state encourages grantees to make contracts awarded under CDBG grants available to minority- and women-owned businesses. Through the Grant Management Handbook and training given to recipients, the state describes the various ways that contracting opportunities can be made available to minority- and women-owned businesses. Some examples include dividing larger contracts into smaller portions that can be bid on by smaller firms, or directly soliciting proposals or bids from lists of certified minority- and women-owned businesses.

The current Grant Management Handbook (GMH) (revised December 2016) provides forms that grant recipients use to collect and report their efforts to the state. The updated 2017

GMH continues to contain information and new requirements for housing rehabilitation originally implemented in 2011. Housing Rehabilitation projects must meet the minimum acceptable outreach efforts/**standards** to minority- and women-owned businesses:

- A good faith, comprehensive and continuing endeavor;
- Supported by a statement of public policy and commitment published in the printed media of the widest local circulation;
- Supported by an office/or a key, ranking staff person with oversight responsibilities and access to the chief elected official; and
- Designed to utilize all available and appropriate public and private sector resources.

In addition to meeting the *standards* listed above, these grant recipients are encouraged to use the new **guidelines** contained in the GMH in implementing outreach programs to ensure the inclusion to the maximum extent feasible, of entities owned by minorities and women.

The state will report in future PERs, for each allocation, on the use of minority and women-owned businesses, and on Section 3 activities by its recipients. IFA's 2016 Section 3 Report was submitted to HUD via SPEARS on February 2, 2017.

Equal Employment Opportunity Data for Business Oregon

Business Oregon maintains the employment data required by the Equal Employment Opportunity Commission (EEOC) on an EEO-4 form. The form is not included in this report but is available from the department.

IDISPR28 Financial Summary Report Adjustments

- 1) The original IDIS generated report showed \$320.17 program income had been retained by recipients (line 26). However, the IFA receipted \$320.17 in program income returned to the state.
- 2) Line 59 was adjusted to show the overall low- and moderate-income benefit period of 2015-2017.

Additional achievements in 2016

- Business Oregon has successfully closed out PY 2005 and currently proceeding with the closing of PY2006

PART II—NARRATIVE REQUIREMENTS
December 31, 2023

Describe the Resources Made Available

In 2015 IFA had **\$15,120,757.79** in available CDBG resources to award to units of general local government. Table I below illustrates the information more clearly but a quick summary is provided below:

- 1) FY2015 annual grant (amount available for projects) \$11,292,535
- 2) FY2014 and prior year recaptured funds \$3,802,708
- 3) FY2015 Recaptured Grant Repayment \$24,252.55
- 4) FY2015 program income \$1,262.24

Describe the Investment of Available Resources

Table I below illustrates the investment of \$15,120,757.79 of CDBG funds more clearly.

Table I illustrates that the 2015 funds were fully obligated by the December 31, 2015. The state obligated its Program Year 2015 funds for activities in accordance, as much as possible, with the targets set in the *2015 Annual Action Plan for the Oregon Consolidated Plan*. The state exceeded the annual allocation funding targets in the following categories:

- Community Facilities: Target was 26% and during 2015 the state obligated 39.68%.
- Public Works: Target was 49% and during 2015 the state obligated 50.10%.

The state did not exceed the annual allocation funding targets in the following categories:

- Microenterprise Assistance: Target was 3% and during 2015 the state obligated 0.30%.
- Housing Rehabilitation: Target was 22% and during 2015 the state obligated 9.92%.

Variance between Targeted and Awarded Funding in 2015

The 2015 Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages, but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e. if a sufficient number of projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA will conduct a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the 2015 MOD, and for the following reasons:

- The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. As of December 31, 2015, the State received twenty application totaling of \$21,659,563. Out of all applications received two were returned due to incomplete applications. Due to the limited amount of funds only thirteen out of eighteen projects that benefit the most LMI were able to be funded in 2015.
- During 2013 the state saw an increase in the demand for community facilities and public works projects. This increase continued through 2015. This upward trend was caused by improvement of the economy conditions that gives a little boost in the capacity to undertake large projects to address the community needs.

As of December 31, 2015, \$ 11,292,535 of the 2015 Program Year funds were obligated and the Department received applications totaling \$21,659,563. In total the projected obligation for the FY 2015 funds were obligated in accordance with the *2015 Method of Distribution* within the 15-month Timely Distribution period.

Geographic Distribution and Location of Investments

Refer to the following map for the 2015 CDBG program obligations. The state of Oregon has no control over the type and quantity of applications submitted for funding under the program or their geographic location. Awards were made as follows:

- **Microenterprise Assistance**—Wallowa County
- **Public Works**—City of Vale, City of Drain, City of Amity, City of Antelope
- **Public/Community Facilities**—City of Boardman, City of Vernonia and Wasco County
- **Housing Rehabilitation**— City of Ontario, Jackson County, Polk County, Hood River County, Columbia County

The Families and Persons Assisted (including the racial and ethnic status of persons assisted)

Table II below illustrates the proposed beneficiaries with the CDBG awards (funds obligated by December 31, 2015) made during program year 2015. The proposed race and ethnic status of the persons to be assisted was obtained from the specific CDBG applications received by IFA for funding consideration.

Activities to Address Homelessness, Chronic Homelessness and Persons with Special Needs

Funding homeless shelters, shelters for victims of domestic violence and person with special needs are one of the priorities of the Oregon CDBG program. There were three CDBG projects awarded in PY2015 or assisted with FFY2015 funds for person with special needs under Community Facilities Senior Centers/Food bank in the area of Vernonia, Migrant Head start in the area of Boardman and Mental Health Facility to serve the area of Wasco County.

Actions Taken To Affirmatively Further Fair Housing, a Summary of Impediments and Actions Taken To Overcome the Effects of Impediments

Three state agencies administer programs that serve to further fair housing for Oregon's people. As result the Analysis of Impediments to Fair Housing Choice was a joint effort between the state agencies and the actions taken to overcome the impediments were also divided amongst the state agencies. For a complete description of the impediments found in the 2011–2015 Analysis of Impediments to Fair Housing Choice, the 2011–2015 Fair Housing Action Plan and a summary of all the state agency actions to overcome the identified impediments, please refer to the more detailed analysis included in the 2015 Consolidated Annual Performance Evaluation Report (CAPER). This CDBG Performance Evaluation Report (PER) narrative summarizes the actions taken by the IFA to address/overcome specific impediments.

Business Oregon, which administers Community Development Block Grant funds for the state's non-metropolitan cities and counties, educates its recipients about their fair housing responsibilities in several ways including: 1) presentations at workshops, 2) an updated comprehensive Grant Management Handbook, 3) provision of informational handouts, posters, brochures and individual technical assistance, as needed or requested, 4) sending recipients notices of workshops or conferences which address fair housing issues and 5) completed 2011-2015 statewide Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan which are made available to recipients to identify, plan for and remove impediments to fair housing choice, 6) Provide direct training and consultation to local jurisdiction.

The efforts of OBDD-IFA, identified below are addressing the following impediments identified in the 2011-2015 Analysis of Impediments to Fair Housing Choice:

- A(2) - Need to initiate communication with the Oregon Department of Land Use and Conservation Development (DLCD) to review land use laws in the non-entitlement areas of the Oregon to identify and attempt to overcome any impediments to fair housing choice created by these laws;
- B(1) – Lack of coordinated fair housing outreach and educational methods in the non-entitlement areas of Oregon;
- B(2) – Lack of understanding of fair housing laws and complaint system;

- B(3) - Establish a strategic communication plan to increase knowledge of fair housing laws in Oregon;
- C(1) – Refusal to allow reasonable accommodations. Enhance outreach and education activities to increase understanding of common discriminatory actions seen in the rental market;
- C(2) – Discrimination against Section 8 voucher holders;
- C(3) – Discriminatory terms and conditions in the market place. Enhance outreach and education activities to consumers to overcome the two types of discriminatory activities (refusal to allow reasonable accommodation and discrimination against Section 8 voucher holders) in the rental markets; and,
- C(4) – Discriminatory refusal to rent.

OBDD-IFA continues to Fund fair housing activities through the Fair Housing Council of Oregon (FHCO) and the Greater Eastern Oregon Economic Development District (GEODC). Since January 2011, OBDD-IFA has funded these entities to complete activities to further fair housing and remove impediments to fair housing choice:

- FHCO (contract from July 1, 2011 to December 31, 2012 for \$55,000
- GEODC (contract from July 1, 2011 to June 30, 2012 for \$20,000
- FHCO (contract for 3 workshops n 2013) for \$8,000
- GEODC (contract from July 1, 2012 to June 30, 2014 for \$32,000
- FHCO (contract from July 16, 2013 to December 31, 2013) for \$65,800
- FHCO (Contract from March 24, 2014 to December 31, 2015 amended in April 2015 to include more work with local jurisdictions) for \$158,925

Table III, below summarizes the impediments identified within 2011-2015 Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan being addressed by OBDD-IFA and the actions taken by OBDD-IFA and through its contractors, FHCO and GEODC to address the identified impediments:

During 2015 the following additional activities occurred:

- a. The state continues to convey fair housing information via the CDBG 'list-serve' which was started in 2007. This list-serve disseminates information to all interested persons and grant recipients.
- b. IFA continues outreach through technical assistance workshops/ presentations regarding Limited English Proficiency Plan and Section 3 Plan along with the dissemination of the new established Section 3 Business Registry web page.
- c. IFA staff participated in the new Interagency Council on Homelessness and Hunger that was formed as a direct result of House Bill 2073. This council will play a key

role in reviewing and implementing policy initiatives that will effectively move Oregon forward in reducing the problem of hunger and homelessness.

- d. In 2015 IFA continued the new requirement added to the *2010 Method of Distribution*, requiring the submission of reasonable accommodation policies when becoming a certified sub-grantee in the *2015 Method of Distribution*.
- e. *In 2015, IFA enhanced the effort in furthering fair housing by providing assistance through FHCO training and education effort directly to the local jurisdictions.*

Fair Housing Actions OBDD-IFA plans to undertake in 2014 and 2015

Fair Housing Collaborative

Business Oregon continues to participate in this collaborative. In 2005, OHCS, Business Oregon, BOLI, FHCO and other private and other public sector participants formed a fair housing collaborative to address statewide fair housing issues and were a large part of the successful completion and development of the 2011-2015 Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan. This collaborative was meeting monthly during the development of these documents, and then quarterly thereafter to work on fair housing issues.

In 2015, the Fair Housing Collaborative meetings were increased to a monthly basis to assist in the development of the new 2016–2020 Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan.

Support of Local Fair Housing Efforts

Business Oregon continues to work closely with all of our CDBG recipients to ensure that each of their jurisdictions recognize their responsibilities in this area and know where the resources are to answer questions and provide necessary brochures, posters and presentations. Regional coordinators remain in contact with each recipient through the course of the CDBG-funded project and are able to assist them when necessary.

Local fair housing efforts of state recipients using 2015 funds include but are not limited to: publicizing fair housing laws, participating in local fair housing events, displaying posters, distributing brochures and being a participating sponsor of the Fair Housing Council of Oregon (FHCO) display and training sessions. As we have worked along with FHCO, we have come to understand that many of Oregon's small communities are struggling and it is common to find that municipal planners, attorneys, and building code/development personnel have been eliminated from the budget to reduce personnel expenses as a means to ensure there are funds to cover the more basic needs of the community. These are the individuals who typically have the responsibility to understand fair housing laws and to be aware of local impediments to equal access to opportunity in housing. More often than not, affirmatively furthering fair housing is not even on their radar. Additionally, the citizen commissions/decision-making bodies and elected officials in small communities in Oregon are frequently swayed by neighborhood opinions without regard to the fair housing impacts. This is especially the case in land use decisions and zoning plans and practices. OBDD adjusted our contract with FHCO to enhance more direct work with local municipalities to enhance more education and awareness of Fair Housing in the rural areas.

Actions Taken to Remove Barriers to Affordable Housing

In addition to the activities described above, CDBG funds are used to extend publicly-owned infrastructure to new affordable low- and moderate-income housing, which assists in addressing the obstacle of funding for owner occupied single family housing. CDBG

funds also are used by low- and moderate-income homeowners to rehabilitate the homes they occupy.

CDBG funds were used to foster affordable housing by funding supportive public infrastructure for housing projects. CDBG funds, through the housing rehab program, support maintenance of affordable housing that is owned and occupied by a low- and moderate-income homeowner.

The **Oregon Housing and Community Services Department (OHCS)** is active in the promotion of fair housing. They operate many programs, including HOME. Owners of projects assisted by OHCS are required to develop marketing plans that include outreach activities targeted to minorities and other protected classes. The first component of the fair housing planning process is to review impediments to fair housing choice in the public and private sectors.

The **Bureau of Labor and Industries Civil Rights Division (BOLI)** is responsible for investigation and resolution of fair housing complaints are handled in Oregon. BOLI processes all cases involving alleged discrimination based on race/color, religion, sex, physical or mental handicap, marital status and national origin. The agency does not investigate situations involving discrimination based on family status but does assist individuals to file complaints with HUD.

Other Actions Indicated in the Strategic Plan and the Action Plan and Including A Comparison of the Proposed Versus Actual Outcomes For Each Outcome Measure Submitted With the Consolidated Plan and Explain, If Applicable, Why Progress Was Not Made Toward Meeting Goals and Objectives.

2015 Outcome and Performance Goal Summary: Table V, summarizes the outcomes and performance measure requirements and the states progress towards meeting each requirement, by project type. This section of the 2015 PER conforms to the outcome and performance measure requirements identified in the 2011-2015 Consolidated Plan. In summary 7,004 Oregonians will benefit from the activities funded under the CDBG

program in 2015 of which 4,807 (69%) will be low and moderate income. An abbreviated summary of the State's achievements through December 31, 2015 are:

- The state met or exceeded the annual goals for Public Works; SL1 Community Facilities; SL3 Community Facilities and Community Capacity Technical Assistance.
- The state did not meet the goals for Microenterprise Assistance; DH1 Community Facilities; Public Works Off-Site Infrastructure; and, Housing Rehabilitation.
- 34 microenterprises will be assisted.
- 4 water and wastewater systems were funded.
- 123 housing units will be rehabilitated.
- The CDBG program leveraged \$15,879,815 in matching funds.
- Three CDBG 1% assisted conferences were conducted where 102 persons benefitted.

Five Year Outcome and Performance Goal Summary: Table V also, summarizes the outcomes and performance measure requirements and the State's overall progress towards meeting each requirement, during the 5 year reporting period, by project type. This section conforms to the outcome and performance measure requirements identified in the 2011-2015 Consolidated Plan. In summary 99,169 Oregonians will benefit from the activities funded under the CDBG program during the 2011-2105 reporting period of which 61,671 (74.41%) will be low and moderate income. An abbreviated summary of the states achievements through December 31, 2015 were:

- The state is exceeding the anticipated five year goals for Public Works; SL1 Community Facilities; SL3 Community Facilities and Community Capacity Technical Assistance.
- The state is meeting the anticipated five year goals for Economic Development, since this was only a priority for funding in 2011 and the state funded one project in 2011.
- The state is not meeting the anticipated five year goals for Microenterprise Assistance; Publicly owned off-site infrastructure; DH1 Community Facilities; and Housing Rehabilitation.
- 433 microenterprises were assisted.
- 45 water and wastewater systems were funded.
- 13 community facility projects were funded.
- 539 housing units were rehabilitated.
- The CDBG program leveraged \$28,381,290 in matching funds.
- 16 CDBG 1% assisted conferences were conducted where 1,471 persons benefitted.
- 8 beds were created under DH1 Community Facilities.
- 35 jobs will be created.

Refer to the Table V for details.

Note #1 - Outcomes - Actual Number Funded – The actual number funded is based upon the awards made during the program year. The final actual outcomes/accomplishments from each grant awarded by the state will be collected when the grant activities are complete and the grant contract between the city/county and the state is administratively closed and will be reported in IDIS as part of the CAPER.

Each grant recipient is allowed a specified period of time to complete the CDBG funded activities and this time period varies by type of grant. This time period is referred to as the Project Completion Date (PCD). The state allows PCD extensions if the local circumstances warrant the extensions. Each PCD extension is reviewed on a case by case basis. A summary of the standard PCD time periods are:

- 1 year PCD – Applies to microenterprise assistance grants and housing center grants.
- 2 year PCD – Planning grants, final design only grants, construction only grants, off-site infrastructure grants and housing rehabilitation grants.
- 3 year PCD – Final design and construction activities combined into one grant.

Note #2 - The state may select activities/priorities for the 2011-2015 CDBG program from the table above. The proposed outcome and performance measure requirements, performance indicators and the short and long term goals for each activity will only be triggered, if the activity is actually offered by the program.

Describe the Use of CDBG Funds during the Program Year and Assess the Relationship of That Use to the Priorities and Specific Objectives Identified Within the Plan with Special Attention to the Highest Priority Activities That Were Identified

This section of PER expands upon the prior section above and needs to be reviewed in its entirety.

CDBG activities have had a substantial impact on identified needs are the public works activities and community facility activities which were identified as high priority projects in the 2011-2015 Consolidated Plan. Thirty nine point sixty eight percent (39.68%) of the CDBG funds awarded in 2015 were for Community Facilities projects that will benefit 2,021 persons, fifty point ten percent (50.10%) for Public Works projects will benefit 4,847 persons and nine point ninety two percent (9.92%) of the CDBG funds awarded in 2015 were for housing rehabilitation projects that will benefit 303 persons and rehabilitate 132 housing units. Refer to Table's I, V and VI for more details.

The indicators for CDBG need are identified by the type and number of applications received for funding in 2015. Based upon the number of applications received public works, community facilities and housing rehabilitation are of the highest need. Oregon funded:

- 4 public works projects
- 3 community facility projects;
- 5 housing rehabilitation projects (and 4 received unfunded due to insufficient available fund); and,
- 1 microenterprise project

The state obligated its Program Year 2015 funds for activities in accordance, as much as possible, with the targets set in the *2015 Annual Action Plan for the Oregon Consolidated Plan*.

The state exceeded the annual allocation funding targets in the following categories:

- Public Works: Target was 49% and during 2015 the state obligated 50.10%.
- Community Facilities: Target was 26% and during 2015 the state obligated 39.68%.

The state did not exceed the annual allocation funding targets in the following categories:

- Microenterprise Assistance: Target was 3% and during 2015 the state obligated 0.30%.
- Housing Rehabilitation: Target was 22% and during 2015 the state obligated 9.92%.

For the last several years, since 2006 the barrier that resulted in a negative impact to the program was not something that can be remedied by IFA. Cities and counties were reluctant to apply for funds for a project due to the fact they were unable to secure additional project funds due to the economy. Many communities due to budget cuts had

to cut staff and have lost the capacity to administer the complex CDBG grants at the local level.

During 2012, regardless of these barriers the state saw an increase in demand for the CDBG program. This increase continued in 2015 which shown that the application received in one application quarter has exceeded the whole annual allocation.

The state's CDBG program continues to alleviate the effects of the economy by creating jobs, assisting microenterprises, improving infrastructure, providing housing rehabilitation, and constructing essential community facilities. The primary obstacle in successfully addressing the demands remain in the lack of funding. Federal and state funding are simply not enough to meet demand, even when coordinating funding for infrastructure projects with other agencies such as the US Department of Agriculture's Rural Utility Service, Oregon Department of Environmental Quality, the Environmental Protection Agency, the lottery funded Special Public Works Fund and Water/Wastewater Financing Program and others. The estimated demand for 2015 was \$21.7 million, far exceeding the 2015 allocation amount available for projects of \$11,292,535; a ration of nearly 2:1.

Variance between Targeted and Awarded Funding in 2011-2015

The Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e. if a sufficient number of projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA conducted a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the applicable MOD, and for the following reasons:

- The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. Regardless the outreach and training effort regionally, the State has emphasize on the readiness for the projects and the parties involved in the to move forward with well-developed projects which limit the projects that are ready to move forward for funding in the open quarter application round
- Demand for community facilities and public works projects has significantly increased throughout the five years. This upward trend was caused by increase in regulatory agencies requirements for the improvement of aging and failing system. The improvement of the economy conditions has provided little boost in the capacity to undertake large projects to address the community needs. Subsequently the demand for Micro-Enterprise assistance has sharply decreased, while Housing Rehabilitation program is showing increase in interest the availability of funding remains the stumbling block in the state's ability to reach

goals based on the result of the review at each calendar quarter on the need of the program funding.

Specify the Nature of and Reasons for any Changes in Program Objectives and Indicate How the State Would Change Its Programs As A Result of Its Experiences

IFA made a few adjustments to the CDBG strategies under 2016-2020 Consolidated plan, which is adjusting the allocation and goal composition to the projects that are trending upwards based on the historical performance.

- **Eligible Applicants/Limits on Applications** – On June 10, 2014 HUD issued Community Planning Development (CPD) Notice 14-10, with transition policy guidance for implementation of the new 2014 Low/Moderate Income Summary Data (LMISD) for the State CDBG program, effective on July 1, 2014.
 - o **National Objectives** – “Area Wide Documentation Needed” was revised to add a more flexibility to conduct a local income survey could be justified and authorized to do a local income survey for communities.

- **After assessing the variance between targeted and awarded for in 2011-2015:**
 - o OBDD-IFA is utilizing the historical data of demand and the trend of funds availability in the development of 2016-2020 Consolidated Plan goals to a more achievable target.

 - o OBDD-IFA will proceed with the assessment to evaluate level of marketing and outreach to projects to achieve the newly set goals. We identified several outreach efforts through the collaboration with Governor’s Regional Solution Teams throughout the 10 regions in the state. OBDD-IFA will continuously proceed with the outreach efforts by actively marketing the program through all different efforts such as involvements in the League or Oregon Cities and Association of Oregon Counties.

 - o OBDD-IFA will proceed further the technical assistance to enhance the performance of all programs through trainings, implementation tool development and one-on-one assistance.

Evaluate the Extent To Which the Program Benefitted Low- And Moderate-Income Persons and Include the Number of Extremely Low-Income, and Moderate-Income Persons Served By Each Activity Where Information on Income By Family Size Is Required to Determine Eligibility of the Activity

For the selected benefit period (2015-2016-2017), 98.95% of the state’s CDBG funds were obligated to activities benefiting low- and moderate-income persons. Of the funds obligated under the state’s 2015 program, 98.95% of the project funds benefit low- and moderate-income persons.

The 2015 unobligated re-paid recaptured grant funds and unobligated FY2015 funds were not included in the calculation for overall program benefit to low and moderate income persons.

Of the CDBG awards made during the 2015 program year, the projects are proposed to benefit 7,205 persons of which 4,775 or 66.2% will be low and moderate income. Refer to Table V above and Table VI below for details.

Table VI

Funding Category	Very Low Income	Low Income	Total Benefitted Persons	Moderate Income and below	% LMI

Evaluate Progress towards Meeting the Goals of Providing Affordable Housing CDBG Funds, Including the Number and Types of Households Served

During 2015 IFA funded housing rehabilitation projects that are proposed to benefit 132 households, of which 115 persons will benefit and 100% will be low and moderate income.

A Summary of Any Comments Concerning the Program That Have Been Received From Citizens

The public comment period concludes on April 20, 2016 and OBDD-IFA received no public comment regarding the 2015 CDBG PER reports.

A Summary of Activities and Results from Technical Assistance Funding

The state's 2015 program included the use of CDBG funds for the technical assistance allowed by Section 811 of the Housing and Community Development Act of 1992. As of December 31, 2022, all of the 1% Technical Assistance Funds from the 2015 allocation had been expended. During 2015, OBDD-IFA obligated all the 2008 CDBG 1% and substantially obligated the 2009 CDBG 1% funds for activities.

Table VII**CDBG 1% Balance as of December 31, 2015**

Table V summarizes the CDBG 1% Technical Assistance awards that were made in Program Year 2015 for conference/workshop sponsorship, for local government capacity building associated with CDBG projects. The information below describes all the activities that were funded and the results from that activity.

- **Northwest Community Development Institute.** A grant was provided to the Northwest Community Development Institute for 2015 training and scholarships. This effort helps to train rural community development professionals in Oregon, Idaho and Washington. A total of 47 persons benefitted from this training event and this ACCOMPLISHMENT IS REPORTED IN THE 2015 PER.
- **Northwest Economic Development Sponsorship ad Course.** A grant was provided to the Washington State Community Trade and Economic Development Department for 2015 training scholarships. The scholarships are offered to rural Oregon community representatives who attend this training. A total of 43 persons benefitted from this training event and this ACCOMPLISHMENT IS REPORTED IN THE 2015 PER.
- **Fair Housing Council of Oregon.** OBDD-IFA entered into an amendment of contract with the Fair Housing Council of Oregon (FHCO) to promote equal access to housing by providing fair housing education, outreach, technical assistance and enforcement opportunities related to federal laws and related Oregon laws. A more detailed description of the results of this funding is described in the 2015 PER report section entitled *“actions taken to affirmatively further fair housing, a summary of impediments, and actions taken to overcome the effects of impediments”*
- **State Administration.** Starting in FY 2004, states may expend up to \$100,000 +3% of their annual allocation on state administrative costs. In 2006, the state reserved the right to use this flexibility. All CDBG 1% funds used for state administration will be matched 1:1 with funds from the department's Special Public Works Fund. During 2015 none of the CDBG 1% funds were utilized for state administration.

Civil Rights

The state is required to provide data on all applicants and beneficiaries in projects funded from each grant allocation. Information must be reported for each project activity and must indicate the number of persons benefiting by ethnicity and racial groups as defined by U.S. Census.

- **Applicant data**—The proposed applicant data is contained in Table II above.
- **Actual data**—The actual beneficiary data from FFY2015 CDBG funded projects that were administratively closed during 2015 is described and contained in Table VIII below.

Table VIII

RACE GROUP	Total from Grant	Total from Program Income	Combined Total
White not Hispanic	3,121	0	3,121
Hispanic	868	0	868
American Indian/Alaskan Native	94	0	94
Black not Hispanic	13	0	13
Asian and Pacific Islander	32	0	32
Other two or more races	154		154
TOTAL	4,282	0	4,282

Ethnicity/Race data is tabulated for all administratively closed or closed projects in the non-entitlement areas of the state using FY 2015 funds. All of projects awarded with 2015 funding were administratively closed during the reporting period. When 2015 funded projects are administratively closed, the ethnicity/race data will be reported in successive year's PERs 2015 Grant Year Activity Reports as indicated in the table above for each project and totaled for all projects funded with 2015 grant year funds.

Summary of State's Reviews of Recipient's Civil Rights Performance

The state reviews the civil rights performance of its 2015 recipients as part of its regular monitoring procedures. These include either an on-site review or an internal file/desk audit of all projects. A standardized monitoring checklist is used for this process. 2015 grant recipients monitored during the reporting period generally complied with the Civil Rights performance requirements for Community Development Block Grant recipients.

Summary of State and Recipient Actions to Use Minority- and Women-Owned Businesses In Carrying Out CDBG-Funded Activities

The state encourages grantees to make contracts awarded under CDBG grants available to minority- and women-owned businesses. Through the Grant Management Handbook and

training given to recipients, the state describes the various ways that contracting opportunities can be made available to minority- and women-owned businesses. Some examples include dividing larger contracts into smaller portions that can be bid on by smaller firms, or directly soliciting proposals or bids from lists of certified minority- and women-owned businesses.

The current Grant Management Handbook (GMH) (revised February 2011 and April 2013) provides forms that grant recipients use to collect and report their efforts to the state. The updated 2013 GMH continues to contain information and new requirements for housing rehabilitation and off-site affordable housing projects in originally implemented in 2011. These two project types must meet the minimum acceptable outreach efforts/standards to minority- and women-owned businesses:

- A good faith, comprehensive and continuing endeavor;
- Supported by a statement of public policy and commitment published in the printed media of the widest local circulation;
- Supported by an office/or a key, ranking staff person with oversight responsibilities and access to the chief elected official; and
- Designed to utilize all available and appropriate public and private sector resources.

In addition to meeting the *standards* listed above, these grant recipients are encouraged to use the new **guidelines** contained in the GMH in implementing outreach programs to ensure the inclusion to the maximum extent feasible, of entities owned by minorities and women.

The state will report in future PERs, for each allocation, on the use of minority and women-owned businesses, and on Section 3 activities by its recipients. IFA's 2015 Section 3 Report was submitted to HUD via SPEARS on April 12, 2016

Equal Employment Opportunity Data for Business Oregon

Business Oregon maintains the employment data required by the Equal Employment Opportunity Commission (EEOC) on an EEO-4 form. The form is not included in this report but is available from the department.

IDISPR28 Financial Summary Report Adjustments

- 1) The original IDIS generated report showed \$1,262.24 of program income had been retained by recipients (line 26). However, the IFA receipted \$1,262.24 in program income returned to the state. Adjustment was done on the report to reflect the redistribution of the PI.
- 2) Line 59 was adjusted to show the overall low- and moderate-income benefit period of 2015-2017.
- 3) Line 16 adjusted to note the remaining of the available TA 1% for the total of \$117,449

IDISPR26 CDBG Financial Summary Report Adjustments

- 1) Line 23 was adjusted to show the overall low- and moderate- income benefit period of 2015-2017.
- 2) Line 24 was adjusted to show the cumulative net expenditures subject to low and moderate income benefit calculation for the 3 year reporting period, based upon the PER reports for 2015 and 2017 in this CAPER submission.
- 3) Line 25 was adjusted to the cumulative expenditures benefitting low and moderate income persons for the 3 year reporting period, based upon the PER reports for 2015 and 2017 in this CAPER submission.

PART II—NARRATIVE REQUIREMENTS
December 31, 2024

Describe the Resources Made Available

In 2014 IFA had \$ 11,750,246.69 in available CDBG resources to award to units of general local government. Table I below illustrates the information more clearly but a quick summary is provided below:

- 1) FY2014 annual grant (amount available for projects) \$11,456,597.46
- 2) FY2013 and prior year recaptured funds \$268,115.73
- 3) FY2014 Recaptured Grant Repayment \$22,172.39
- 4) FY2014 program income \$3,361.11

Describe the Investment of Available Resources

Table I below illustrates the investment of \$11,714,449.23 of CDBG funds more clearly.

Table I illustrates that the 2014 funds were fully obligated by the December 31, 2014. The state obligated its Program Year 2014 funds for activities in accordance, as much as possible, with the targets set in the *2014 Annual Action Plan for the Oregon Consolidated Plan*. The state exceeded the annual allocation funding targets in the following categories:

- Community Facilities: Target was 26% and during 2014 the state obligated 47.72%.

The state did not exceed the annual allocation funding targets in the following categories:

- Public Works: Target was 49% and during 2014 the state obligated 47.24%.
- Microenterprise Assistance: Target was 3% and during 2014 the state obligated 1.62%.
- Housing Rehabilitation: Target was 22% and during 2014 the state obligated 3.41%.

Variance between Targeted and Awarded Funding in 2014

The 2014 Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages, but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e., if enough projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA will conduct a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the 2014 MOD, and for the following reasons:

- The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. As of December 31, 2014, the State received twelve completed applications totaling of \$13,845,998. And due to the limited amount of funds only nine out of twelve projects that benefit the most LMI were able to be funded in 2014.
- During 2013 the state saw an increase in the demand for community facilities and public works projects. This increase continued to date. This upward trend was caused by improvement of the economy conditions that gives a little boost in the capacity to undertake large projects to address the community needs.

As of December 31, 2014, \$11,714,449.23 of the 2014 Program Year funds were obligated and the Department received applications totaling \$13,845,998. In total the projected obligation for the FY 2014 funds were obligated in accordance with the *2014 Method of Distribution* within the 15-month Timely Distribution period.

Geographic Distribution and Location of Investments

Refer to the following map for the 2014 CDBG program obligations. The state of Oregon has no control over the type and quantity of applications submitted for funding under the program or their geographic location. Awards were made as follows:

- **Microenterprise Assistance**—City of Independence, Lincoln County, Baker County
- **Public Works**—City of Yoncalla, City of Huntington, City of Drain, Douglas County
- **Public/Community Facilities**—Curry County, City of Hermiston, City of Dallas
- **Housing Rehabilitation**—City of McMinnville

The Families and Persons Assisted (including the racial and ethnic status of persons assisted)

Table II below illustrates the proposed beneficiaries with the CDBG awards (funds obligated by December 31, 2014) made during program year 2014. The proposed race and ethnic status of the persons to be assisted was obtained from the specific CDBG applications received by IFA for funding consideration.

Activities to Address Homelessness, Chronic Homelessness and Persons with Special Needs

There were two CDBG projects awarded in PY2014 or assisted with FFY2014 funds for person with special needs under Community Facilities Senior Centers in the area of Hermiston and Dallas.

Actions Taken To Affirmatively Further Fair Housing, A Summary of Impediments and Actions Taken To Overcome the Effects of Impediments

Three state agencies administer programs that serve to further fair housing for Oregon's people. As result the Analysis of Impediments to Fair Housing Choice was a joint effort between the state agencies and the actions taken to overcome the impediments were also divided amongst the state agencies. For a complete description of the impediments found in the 2011–2015 Analysis of Impediments to Fair Housing Choice, the 2011–2015 Fair Housing Action Plan and a summary of all the state agency actions to overcome the identified impediments, please refer to the more detailed analysis included in the 2014 Consolidated Annual Performance Evaluation Report (CAPER). This CDBG Performance Evaluation Report (PER) narrative summarizes the actions taken by the IFA to address/overcome specific impediments.

Business Oregon, which administers Community Development Block Grant funds for the state's non-metropolitan cities and counties, educates its recipients about their fair housing responsibilities in several ways including: 1) presentations at workshops, 2) an updated comprehensive Grant Management Handbook, 3) provision of informational handouts, posters, brochures and individual technical assistance, as needed or requested, 4) sending recipients notices of workshops or conferences which address fair housing issues and 5) completed a new 2011-2015 statewide Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan which are made available to recipients to identify, plan for and remove impediments to fair housing choice.

The efforts of OBDD-IFA, identified below are addressing the following impediments identified in the 2011-2015 Analysis of Impediments to Fair Housing Choice:

- A(2) - Need to initiate communication with the Oregon Department of Land Use and Conservation Development (DLCD) to review land use laws in the non-entitlement areas of the Oregon to identify and attempt to overcome any impediments to fair housing choice created by these laws;
- B(1) – Lack of coordinated fair housing outreach and educational methods in the non-entitlement areas of Oregon;
- B(2) – Lack of understanding of fair housing laws and complaint system;
- B(3) - Establish a strategic communication plan to increase knowledge of fair housing laws in Oregon;

- C(1) – Refusal to allow reasonable accommodations. Enhance outreach and education activities to increase understanding of common discriminatory actions seen in the rental market.
- C(2) – Discrimination against Section 8 voucher holders;
- C(3) – Discriminatory terms and conditions in the market place. Enhance outreach and education activities to consumers to overcome the two types of discriminatory activities (refusal to allow reasonable accommodation and discrimination against Section 8 voucher holders) in the rental markets; and,
- C(4) – Discriminatory refusal to rent.

OBDD-IFA continues to Fund fair housing activities through the Fair Housing Council of Oregon (FHCO) and the Greater Eastern Oregon Economic Development District (GEODC). Since January 2011, OBDD-IFA has funded these entities to complete activities to further fair housing and remove impediments to fair housing choice:

- FHCO (contract from July 1, 2011 to December 31, 2012 for \$55,000
- GEODC (contract from July 1, 2011 to June 30, 2012 for \$20,000
- FHCO (contract for 3 workshops n 2013) for \$8,000
- GEODC (contract from July 1, 2012 to June 30, 2014 for \$32,000
- FHCO (contract from July 16, 2013 to December 31, 2013) for \$65,800
- FHCO (Contract from March 24, 2014 to December 31, 2015) for \$140,000

Table III, below summarizes the impediments identified within 2011-2015 Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan being addressed by OBDD-IFA and the actions taken by OBDD-IFA and through its contractors, FHCO and GEODC to address the identified impediments:

During 2014 the following additional activities occurred:

- a. The state continues to convey fair housing information via the CDBG 'listserve' which was started in 2007. This listserve disseminates information to all interested persons and grant recipients.
- b. IFA has completed translation of CDBG forms, notices and letters that will provide the Units of General Local Government (UGLG), and persons of limited English proficiency more accessibility to the program information.
- c. IFA continues outreach through technical assistance workshops/ presentations regarding Limited English Proficiency Plan and Section 3 Plan along with the dissemination of the new established Section 3 Business Registry web page.
- d. IFA staff participated in the new Interagency Council on Homelessness and Hunger that was formed as a direct result of House Bill 2073. This council will play a key role in

reviewing and implementing policy initiatives that will effectively move Oregon forward in reducing the problem of hunger and homelessness.

- e. In 2014 IFA continued the new requirement added to the *2010 Method of Distribution*, requiring the submission of reasonable accommodation policies when becoming a certified sub-grantee in the *2014 Method of Distribution*.

Fair Housing Actions OBDD-IFA plans to undertake in 2014 and 2015

Fair Housing Collaborative

Business Oregon continues to participate in this collaborative. In 2005, OHCS, Business Oregon, BOLI, FHCO and other private and other public sector participants formed a fair housing collaborative to address statewide fair housing issues and were a large part of the successful completion and development of the 2011-2015 Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan. This collaborative was meeting monthly during the development of these documents, and then quarterly thereafter to work on fair housing issues.

In 2014, the Fair Housing Collaborative meetings were increased to a monthly basis to assist in the development of the new 2011–2015 Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan.

Support of Local Fair Housing Efforts

Business Oregon continues to work closely with all of our CDBG recipients to ensure that each of their jurisdictions recognize their responsibilities in this area and know where the resources are to answer questions and provide necessary brochures, posters and presentations. Regional coordinators remain in contact with each recipient through the course of the CDBG-funded project and are able to assist them when necessary.

Local fair housing efforts of state recipients using 2014 funds include but are not limited to: publicizing fair housing laws, participating in local fair housing events, displaying posters, distributing brochures and being a participating sponsor of the Fair Housing Council of Oregon display and training sessions.

Actions Taken to Remove Barriers to Affordable Housing

In addition to the activities described above, CDBG funds are used to extend publicly-owned infrastructure to new affordable low- and moderate-income housing, which assists in addressing the obstacle of funding for owner occupied single family housing. CDBG funds also are used by low- and moderate-income homeowners to rehabilitate the homes they occupy.

CDBG funds were used to foster affordable housing by funding supportive public infrastructure for housing projects. CDBG funds, through the housing rehab program, support maintenance of affordable housing that is owned and occupied by a low- and moderate-income homeowner.

The **Oregon Housing and Community Services Department (OHCS)** is active in the promotion of fair housing. They operate many programs, including HOME. Owners of projects assisted by OHCS are required to develop marketing plans that include outreach activities targeted to minorities and other protected classes. The first component of the

fair housing planning process is to review impediments to fair housing choice in the public and private sectors.

The **Bureau of Labor and Industries Civil Rights Division (BOLI)** is responsible for investigation and resolution of fair housing complaints are handled in Oregon. BOLI processes all cases involving alleged discrimination based on race/color, religion, sex, physical or mental handicap, marital status and national origin. The agency does not investigate situations involving discrimination based on family status but does assist individuals to file complaints with HUD.

Other Actions Indicated in the Strategic Plan and the Action Plan and Including A Comparison of the Proposed Versus Actual Outcomes For Each Outcome Measure Submitted With the Consolidated Plan and Explain, If Applicable, Why Progress Was Not Made Toward Meeting Goals and Objectives.

2014 Outcome and Performance Goal Summary: Table V, summarizes the outcomes and performance measure requirements and the states progress towards meeting each requirement, by project type. This section of the 2014 PER conforms to the outcome and performance measure requirements identified in the 2011-2015 Consolidated Plan. In summary 18,539 Oregonians will benefit from the activities funded under the CDBG program in 2014 of which 13,477 (72.68%) will be low and moderate income. An abbreviated summary of the states achievements through December 31, 2014 are:

- The state met or exceeded the annual goals for Public Works; SL1 Community Facilities; SL3 Community Facilities and Community Capacity Technical Assistance.
- The state did not meet the goals for Microenterprise Assistance; DH1 Community Facilities; Public Works Off-Site Infrastructure; and, Housing Rehabilitation.
- 100 microenterprises will be assisted.
- 11 water and wastewater systems were funded.
- 85 housing units will be rehabilitated.

- The CDBG program leveraged \$2,050,666.94 in matching funds.
- Three CDBG 1% assisted conferences were conducted where 306 persons benefitted.

Five Year Outcome and Performance Goal Summary: Table V also, summarizes the outcomes and performance measure requirements and the states overall progress towards meeting each requirement, during the 5 year reporting period, by project type. This section conforms to the outcome and performance measure requirements identified in the 2011-2015 Consolidated Plan. In summary 90,397 Oregonians will benefit from the activities funded under the CDBG program during the 2011-2105 reporting period of which 61,671 (68.22%) will be low and moderate income. An abbreviated summary of the states achievements through December 31, 2014 were:

- The state is exceeding the anticipated five year goals for Public Works; SL1 Community Facilities; SL3 Community Facilities and Community Capacity Technical Assistance.
- The state is meeting the anticipated five year goals for Economic Development, since this was only a priority for funding in 2011 and the state funded one project in 2011.
- The state is not meeting the anticipated five year goals for Microenterprise Assistance; Publicly owned off-site infrastructure; DH1 Community Facilities; and Housing Rehabilitation. However, the state has 1 more years to achieve these goals.
- 399 microenterprises were assisted.
- 41 water and wastewater systems were funded.
- 10 community facility projects were funded.
- 416 housing units were rehabilitated.
- The CDBG program leveraged \$12,501,474.94 in matching funds.
- 13 CDBG 1% assisted conferences were conducted where 1,369 persons benefitted.
- 8 beds were created under DH1 Community Facilities.
- 35 jobs will be created.

Refer to the Table V for details.

Note #1 - Outcomes - Actual Number Funded – The actual number funded is based upon the awards made during the program year. The final actual outcomes/accomplishments from each grant awarded by the state will be collected when the grant activities are complete and the grant contract between the city/county and the state is administratively closed and will be reported in IDIS as part of the CAPER.

Each grant recipient is allowed a specified period of time to complete the CDBG funded activities and this time period varies by type of grant. This time period is referred to as the Project Completion Date (PCD). The state allows PCD extensions if the local circumstances warrant the extensions. Each PCD extension is reviewed on a case by case basis. A summary of the standard PCD time periods are:

- 1 year PCD – Applies to microenterprise assistance grants and housing center grants.
- 2 year PCD – Planning grants, final design only grants, construction only grants, off-site infrastructure grants and housing rehabilitation grants.
- 3 year PCD – Final design and construction activities combined into one grant.

Note #2 - The state may select activities/priorities for the 2011-2015 CDBG program from the table above. The proposed outcome and performance measure requirements, performance indicators and the short and long term goals for each activity will only be triggered, if the activity is actually offered by the program.

Note #3 – The column entitled “Actual Number Funded in 2014” includes the 4th quarter 2013 applications that were received by December 31, 2013 and awarded on February 11, 2014. The 2014 CDBG Performance Evaluation Report (PER), will amend the 2013 PER narrative to include these awards.

Describe the Use of CDBG Funds During the Program Year and Assess the Relationship of That Use to the Priorities and Specific Objectives Identified Within the Plan With Special Attention to the Highest Priority Activities That Were Identified

This section of PER expands upon the prior section above and needs to be reviewed in its entirety.

CDBG activities have had a substantial impact on identified needs are the public works activities and community facility activities which were identified as high priority projects in the 2011-2015 Consolidated Plan. Forty Eight point thirty two percent (48.32%) of the CDBG funds awarded in 2014 were for Community Facilities projects that will benefit 1,643 persons, forty six point fifty eight percent (46.58%) for Public Works projects will benefit 16,796 persons and three point forty six percent (3.46%) of the CDBG funds awarded in 2014 were for housing rehabilitation projects that will benefit 115 persons and rehabilitate 60 housing units. Refer to Table's I, V and VI for more details.

The indicators for CDBG need are identified by the type and number of applications received for funding in 2014. Based upon the number of applications received public works, community facilities and housing rehabilitation are of the highest need. Oregon funded:

- 2 public works projects
- 3 community facility projects;
- 1 housing rehabilitation projects (and 4 received unfunded due to insufficient available fund); and,
- 1 microenterprise project

The state obligated its Program Year 2014 funds for activities in accordance, as much as possible, with the targets set in the *2014 Annual Action Plan for the Oregon Consolidated Plan*.

The state exceeded the annual allocation funding targets in the following categories:

- Public Works: Target was 49% and during 2014 the state obligated 94.96%.

The state did not exceed the annual allocation funding targets in the following categories:

- Community Facilities: Target was 26% and during 2014 the state obligated 0%.
- Microenterprise Assistance: Target was 3% and during 2014 the state obligated 0.70%.
- Housing Rehabilitation: Target was 22% and during 2014 the state obligated 15%.

For the last several years, since 2006 the barrier that resulted in a negative impact to the program was not something that can be remedied by IFA. Cities and counties were reluctant to apply for funds for a project due to the fact they were unable to secure additional project funds due to the economy. Many communities due to budget cuts had

to cut staff and have lost the capacity to administer the complex CDBG grants at the local level.

During 2012, regardless of these barriers the state saw an increase in demand for the CDBG program. This increase continued in 2014 which shown that the application received in one application quarter has exceeded the whole annual allocation.

The state's CDBG program continues to alleviate the effects of the economy by creating jobs, assisting microenterprises, improving infrastructure, providing housing rehabilitation, and constructing essential community facilities. The primary obstacle in successfully addressing the demands remain in the lack of funding. Federal and state funding are simply not enough to meet demand, even when coordinating funding for infrastructure projects with other agencies such as the US Department of Agriculture's Rural Utility Service, Oregon Department of Environmental Quality, the Environmental Protection Agency, the lottery funded Special Public Works Fund and Water/Wastewater Financing Program and others. The estimated demand for 2014 was \$22 million, exceeding the 2014 allocation amount available for projects of \$11,499,449; a ration of nearly 2:1.

Variance between Targeted and Awarded Funding in 2014

The 2014 Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e. if a sufficient number of projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA will conduct a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the 2014 MOD, and for the following reasons:

- The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. As of December 31, 2014 the State received twelve completed application totaling of \$13,845,998.. And due to the limited amount of funds only nine out of twelve projects that benefit the most LMI were able to be funded in 2014.
- During 2013 the state saw an increase in the demand for community facilities and public works projects. This increase continued through 2015. This upward trend was caused by improvement of the economy conditions that gives a little boos in the capacity to undertake large projects to address the community needs.

Specify the Nature of and Reasons for any Changes in Program Objectives and Indicate How the State Would Change Its Programs As A Result of Its Experiences

IFA made a few adjustments to the CDBG strategies for 2016, which mostly are minor. One substantial addition was made in the Income survey:

- **Eligible Applicants/Limits on Applications** – On June 10, 2014 HUD issued Community Planning Development (CPD) Notice 14-10, with transition policy guidance for implementation of the new 2014 Low/Moderate Income Summary Data (LMISD) for the State CDBG program, effective on July 1, 2014.
 - o **National Objectives** – “Area Wide Documentation Needed” was revised to add a more flexibility to conduct a local income survey could be justified and authorized to do a local income survey for communities

- **After assessing the variance between targeted and awarded for 2014:**
 - o OBDD-IFA proceeding with the assessment to evaluate the need to increase marketing and outreach to projects that are in the underfunded categories. We identified several outreach efforts through the collaboration with Governor’s Regional Solution Teams throughout the 10 regions in the state. OBDD-IFA will continuously proceed with the outreach efforts by actively marketing the program through all different efforts such as involvements in the League or Oregon Cities and Association of Oregon Counties.
 - o OBDD-IFA will increase technical assistance to enhance the performance of all programs through trainings, implementation tool development and one-on-one assistance.
 - o As OBDD-IFA is proceeding with the development of 2016-2020 Consolidated Plan, a thorough review is done to assess the past performance of each program provided under CDBG program. The result of that review is being used to set a new 5 years plan and a more achievable realistic goal that will fit the need based on historical performance and based on the public input.

Evaluate the Extent To Which the Program Benefitted Low- And Moderate-Income Persons and Include the Number of Extremely Low-Income, and Moderate-Income Persons Served By Each Activity Where Information on Income By Family Size Is Required to Determine Eligibility of the Activity

For the selected benefit period (2012-2013-2014), 99.99% of the state’s CDBG funds were obligated to activities benefiting low- and moderate-income persons. Of the funds obligated under the state’s 2014 program, 100% of the project funds benefit low- and moderate-income persons.

The 2014 unobligated re-paid recaptured grant funds and unobligated FY2014 funds were not included in the calculation for overall program benefit to low and moderate income persons.

Of the CDBG awards made during the 2014 program year, the projects are proposed to benefit 18,654 persons of which 13,592 or 72.68% will be low and moderate income. Refer to Table V above and Table VI below for details.

Table VI

Funding Category	Very Low Income	Low and Moderate Income	Total Benefitted Persons	% LMI

Evaluate Progress Toward Meeting The Goals of Providing Affordable Housing CDBG Funds, Including the Number and Types Of Households Served

During 2014 IFA funded housing rehabilitation projects that are proposed to benefit 60 households, of which 115 persons will benefit and 100% will be low and moderate income.

A Summary of Any Comments Concerning the Program That Have Been Received From Citizens

The public comment period concludes on April 22, 2015 and OBDD-IFA received no public comment regarding the 2014 CDBG PER reports.

A Summary of Activities and Results From Technical Assistance Funding

The state's 2014 program included the use of CDBG funds for the technical assistance allowed by Section 811 of the Housing and Community Development Act of 1992. As of December 31, 2019, all of the \$121,782.00 1% funds from the 2014 allocation has been expended. During 2014 OBDD-IFA obligated all the 2008 CDBG 1% and substantially obligated the 2009 CDBG 1% funds for activities.

Table V summarizes the CDBG 1% Technical Assistance awards that were made in Program Year 2014 for conference/workshop sponsorship, for local government capacity building associated with CDBG projects. The information below describes all the activities that were funded and the results from that activity.

- **Northwest Community Development Institute.** A grant was provided to the Northwest Community Development Institute for 2014 training and scholarships. This effort helps to train rural community development professionals in Oregon, Idaho and Washington. A total of 45 persons benefitted from this training event and this ACCOMPLISHMENT IS REPORTED IN THE 2014 PER.
- **Northwest Economic Development Sponsorship ad Course.** A grant was provided to the Washington State Community Trade and Economic Development Department for 2014 training scholarships. The scholarships are offered to rural Oregon community representatives who attend this training. A total of 54 persons benefitted from this training event and this ACCOMPLISHMENT IS REPORTED IN THE 2014 PER.
- **2014 Oregon Brownfields Conference and Awards Scholarship Fund.** A small amount of technical assistance funds were used to help support the 2014 annual brownfields conference. People attend the meeting from many communities, particularly from rural areas. The conference offers useful information for communities trying to clean up contaminated sites in order to accommodate community development. A total of 306 persons benefitted from this training event and this ACCOMPLISHMENT IS REPORTED IN THE 2014 PER.
- **Fair Housing Council of Oregon.** OBDD-IFA entered into a contract with the Fair Housing Council of Oregon (FHCO) to promote equal access to housing by providing fair housing education, outreach, technical assistance and enforcement opportunities related to federal laws and related Oregon laws. A more detailed

description of the results of this funding is described in the 2014 PER report section entitled *“actions taken to affirmatively further fair housing, a summary of impediments, and actions taken to overcome the effects of impediments”*

- **BBC Research & consultant** - Analysis of Impediment of Furthering Fair Housing. OBDD-IFA entered into a contract with BBC Research & Consultant who will research, analyze, and write documents regarding fair housing opportunities in Oregon, including an “Analysis of Impediments to Fair Housing” and a “Fair Housing Action Plan”. A more detailed description of the results of this funding is described in the 2014 PER
- **Lazar Inc** – Translation service OBDD-IFA entered into a contract with Lazar Inc. to complete translation of CDBG forms, notices and letters that will provide the Units of General Local Government (UGLG), and persons of limited English proficiency more accessibility to the program information. A more detailed description of the results of this funding is described in the 2014 PER
- **State Administration.** Starting in FY 2004, states may expend up to \$100,000 +3% of their annual allocation on state administrative costs. In 2006, the state reserved the right to use this flexibility. All CDBG 1% funds used for state administration will be matched 1:1 with funds from the department's Special Public Works Fund. During 2014 none of the CDBG 1% funds were utilized for state administration.

Civil Rights

The state is required to provide data on all applicants and beneficiaries in projects funded from each grant allocation. Information must be reported for each project activity and must indicate the number of persons benefiting by ethnicity and racial groups as defined by U.S. Census.

- **Applicant data**—The proposed applicant data is contained in Table II above.
- **Actual data**—The actual beneficiary data from FFY2014 CDBG funded projects that were administratively closed during 2014 is described and contained in Table VIII below.

Table VIII

RACE GROUP	Total from Grant	Total from Program Income	Combined Total
White not Hispanic	2,336	0	2,336
Hispanic	133	0	133
American Indian/Alaskan Native	81	0	81
Black not Hispanic	12	0	12
Asian and Pacific Islander	31	0	31
TOTAL	2,593	0	2,593

Ethnicity/Race data is tabulated for all administratively closed or closed projects in the non-entitlement areas of the state using FY 2014 funds. Two(2) projects awarded in 2014 were administratively closed during the reporting period. Creating a total of 7 projects funded with 2014 funds that are either administratively closed or closed. When 2014 funded projects are administratively closed, the ethnicity/race data will be reported in successive year's PERs 2014 Grant Year Activity Reports as indicated in the table above for each project and totaled for all projects funded with 2014 grant year funds.

Summary of State's Reviews of Recipient's Civil Rights Performance

The state reviews the civil rights performance of its 2014 recipients as part of its regular monitoring procedures. These include either an on-site review or an internal file/desk audit of all projects. A standardized monitoring checklist is used for this process. 2014 grant recipients monitored during the reporting period generally complied with the Civil Rights performance requirements for Community Development Block Grant recipients.

Summary of State and Recipient Actions To Use Minority- and Women-Owned Businesses In Carrying Out CDBG-Funded Activities

The state encourages grantees to make contracts awarded under CDBG grants available to minority- and women-owned businesses. Through the Grant Management Handbook and training given to recipients, the state describes the various ways that contracting opportunities can be made available to minority- and women-owned businesses. Some examples include dividing larger contracts into smaller portions that can be bid on by smaller firms, or directly soliciting proposals or bids from lists of certified minority- and women-owned businesses.

The current Grant Management Handbook (GMH) (revised February 2011 and April 2013) provides forms that grant recipients use to collect and report their efforts to the state. The updated 2013 GMH continues to contain information and new requirements for housing rehabilitation and off-site affordable housing projects in originally implemented in 2011.

These two project types must meet the minimum acceptable outreach efforts/**standards** to minority- and women-owned businesses:

- A good faith, comprehensive and continuing endeavor;
- Supported by a statement of public policy and commitment published in the printed media of the widest local circulation;
- Supported by an office/or a key, ranking staff person with oversight responsibilities and access to the chief elected official; and
- Designed to utilize all available and appropriate public and private sector resources.

In addition to meeting the *standards* listed above, these grant recipients are encouraged to use the new **guidelines** contained in the GMH in implementing outreach programs to ensure the inclusion to the maximum extent feasible, of entities owned by minorities and women.

The state will report in future PERs, for each allocation, on the use of minority and women-owned businesses, and on Section 3 activities by its recipients. IFA's 2014 Section 3 Report was submitted to HUD on February 27, 2015.

Equal Employment Opportunity Data for Business Oregon

Business Oregon maintains the employment data required by the Equal Employment Opportunity Commission (EEOC) on an EEO-4 form. The form is not included in this report but is available from the department.

IDISPR28 Financial Summary Report Adjustments

- 1) The original IDIS generated report showed \$3,361.11 of program income had been retained by recipients (line 26). However, the IFA receipted \$3,361.11 in program income returned to the state and adjusted to show that the fund has been redistributed.
- 2) Line 59 was adjusted to show the overall low- and moderate-income benefit period of 2012-2014.

IDISPR26 CDBG Financial Summary Report Adjustments

- 1) Line 23 was adjusted to show the overall low- and moderate- income benefit period of 2012-2014.
- 2) Line 24 was adjusted to show the cumulative net expenditures subject to low and moderate income benefit calculation for the 3 year reporting period, based upon the PER reports for 2012 and 2014 in this 2014 CAPER submission.
- 3) Line 25 was adjusted to the cumulative expenditures benefitting low and moderate income persons for the 3 year reporting period, based upon the PER reports for 2012 and 2014 in this 2014 CAPER submission.

PART II—NARRATIVE REQUIREMENTS
December 31, 2024

Describe the Resources Made Available

In 2013 IFA had \$23,635,449.29 in available CDBG resources to award to units of general local government. Table I below illustrates the information more clearly but a quick summary is provided below:

- 1) FY2013 annual grant (amount available for projects) \$11,712,875.00
- 2) FY2012 unobligated annual grant \$627,606.96
- 3) FY2012 and prior year recaptured funds \$11,291,495.63
- 4) FY2013 program income \$3,471.70

Describe the Investment of Available Resources

Table I below illustrates the investment of \$10,665,600.00 of CDBG funds more clearly.

Table I below also illustrates the projected investment of an additional \$12,806,760.00 of funds associated with 11 CDBG applications received by December 31, 2013, for funding consideration.

The state obligated its Program Year 2013 funds for activities in accordance, as much as possible, with the targets set in the *2013 Annual Action Plan for the Oregon Consolidated Plan*. The state exceeded the annual allocation funding targets in the following categories:

- Public Works: Target was 49% and during 2013 the state obligated 84.3%.

The state did not exceed the annual allocation funding targets in the following categories:

- Community Facilities: Target was 26% and during 2013 the state obligated 0%.
- Microenterprise Assistance: Target was 3% and during 2013 the state obligated 0.70%.
- Housing Rehabilitation: Target was 22% and during 2013 the state obligated 15.0%.

The 2013 Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages, but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e., if enough projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA will conduct a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the 2013 MOD, and for the following reasons:

- The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. As of December 31, 2013, all complete applications received by the state from units of general local government were either funded or were being processed for funding. No complete application was denied funding. Therefore, the variance between the targeted and awarded funding in 2013 was necessary to meet the needs and requests of the units of general local governments.
- During 2012 the state saw an increase in the demand for public works projects and this increase continued through 2013. The increase in demand was because communities did not want to undertake large public works project and raise water or wastewater rates with a poor economy. Now that the economy appears to be improving, communities are once again undertaking large public works, water and wastewater projects that were deferred until the economy improved.
- Four of the public works projects qualified for the maximum grant exception under the program, due to the high monthly user rates, and were awarded \$11,961,000. This contributed to the variance between the targeted and awarded funding in 2013.

As of December 31, 2019, all the FY 2013 funds was obligated, in accordance with the *2013 Method of Distribution* within the 15-month Timely Distribution period.

Activities To Address Homelessness, Chronic Homelessness and Persons With Special Needs

There were no CDBG projects awarded in PY2013 or assisted with FFY2013 funds for these purposes.

Actions Taken To Affirmatively Further Fair Housing, A Summary of Impediments and Actions Taken To Overcome the Effects of Impediments

Three state agencies administer programs that serve to further fair housing for Oregon's people. As result the Analysis of Impediments to Fair Housing Choice was a joint effort between the state agencies and the actions taken to overcome the impediments were also divided amongst the state agencies. For a complete description of the impediments found in the 2011–2015 Analysis of Impediments to Fair Housing Choice, the 2011–2015 Fair Housing Action Plan and a summary of all the state agency actions to overcome the identified impediments, please refer to the more detailed analysis included in the 2013 Consolidated Annual Performance Evaluation Report (CAPER). This CDBG Performance Evaluation Report (PER) narrative summarizes the actions taken by the IFA to address/overcome specific impediments.

Business Oregon, which administers Community Development Block Grant funds for the state's non-metropolitan cities and counties, educates its recipients about their fair housing responsibilities in several ways including: 1) presentations at workshops, 2) an updated comprehensive Grant Management Handbook, 3) provision of informational handouts, posters, brochures and individual technical assistance, as needed or requested, 4) sending recipients notices of workshops or conferences which address fair housing issues and 5) completed a new 2011-2015 statewide Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan which are made available to recipients to identify, plan for and remove impediments to fair housing choice.

The efforts of OBDD-IFA, identified below are addressing the following impediments identified in the 2011-2015 Analysis of Impediments to Fair Housing Choice:

- A(2) - Need to initiate communication with the Oregon Department of Land Use and Conservation Development (DLCD) to review land use laws in the non-entitlement areas of the Oregon to identify and attempt to overcome any impediments to fair housing choice created by these laws;
- B(1) – Lack of coordinated fair housing outreach and educational methods in the non-entitlement areas of Oregon;
- B(2) – Lack of understanding of fair housing laws and complaint system;
- B(3) - Establish a strategic communication plan to increase knowledge of fair housing laws in Oregon;

- C(1) – Refusal to allow reasonable accommodations. Enhance outreach and education activities to increase understanding of common discriminatory actions seen in the rental market;
- C(2) – Discrimination against Section 8 voucher holders;
- C(3) – Discriminatory terms and conditions in the market place. Enhance outreach and education activities to consumers to overcome the two types of discriminatory activities (refusal to allow reasonable accommodation and discrimination against Section 8 voucher holders) in the rental markets; and,
- C(4) – Discriminatory refusal to rent.

OBDD-IFA continues to fund fair housing activities through the Fair Housing Council of Oregon (FHCO) and the Greater Eastern Oregon Economic Development District (GEODC). Since January 2011, OBDD-IFA has funded these entities to complete activities to further fair housing and remove impediments to fair housing choice:

- FHCO (contract from July 1, 2011 to December 31, 2012 for \$55,000)
- GEODC (contract from July 1, 2011 to June 30, 2012 for \$20,000)
- FHCO (contract for 3 workshops in 2013) for \$8,000
- GEODC (contract from July 1, 2012 to June 30, 2014 for \$32,000)
- FHCO (contract from July 16, 2013 to December 31, 2013) for \$65,800

Table III, below summarizes the impediments identified within 2011-2015 Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan being addressed by OBDD-IFA and the actions taken by OBDD-IFA and through its contractors, FHCO and GEODC to address the identified impediments:

During 2013 the following additional activities occurred:

- a. The previous 2011 Grant Management Handbook (GMH) was updated in April 2013 and disseminated to all CDBG grant recipients. The new 2013 GMH continues to contain accurate contact information and forms for processing fair housing complaints. The handbook includes additional requirements, references and information regarding:
 1. Additional Fair Housing Requirements and Activities.
 - i. Within 6 months prior to the first draw for non-construction funds, the grant recipient must not only publish the required fair housing resolution, they also must disseminate fair housing posters and brochures at City Hall, the County Courthouse, etc.; and
 - ii. Every grant recipient must undertake an additional fair housing activity for each grant they receive. The GMH contains a more detailed list of acceptable fair housing activities. The list of acceptable activities to affirmatively

furthering fair housing was updated to that there are no paper compliance or meaningless action activities contained in the list.

- a. One exception to this requirement was provided within the GMH. If a grant recipient has received more than one grant per program year, the grant recipient need only conduct one additional fair housing activity for both grants.

2. Limited English Proficiency Plan Requirements.

- i. Grant recipient and any sub-grantee's must prepare and submit a Limited English Proficiency Plan prior to the first draw for non-construction funds.
 - ii. The GMH includes the Limited English Proficiency Plan requirements and other informational resources.
- b. The state continues to convey fair housing information via the CDBG 'listserve' which was started in 2007. This listserve disseminates information to all interested persons and grant recipients.
 - c. IFA staff participated in the new Interagency Council on Homelessness and Hunger that was formed as a direct result of House Bill 2073. This council will play a key role in reviewing and implementing policy initiatives that will effectively move Oregon forward in reducing the problem of hunger and homelessness.
 - d. In 2013 IFA continued the new requirement added to the *2010 Method of Distribution*, requiring the submission of reasonable accommodation policies when becoming a certified sub-grantee in the *2013 Method of Distribution*.

Fair Housing Collaborative

Business Oregon continues to participate in this collaborative. In 2005, OHCS, Business Oregon, BOLI, FHCO and other private and other public sector participants formed a fair housing collaborative to address statewide fair housing issues and were a large part of the successful completion and development of the 2011-2015 Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan. This collaborative was meeting monthly during the development of these documents, and then quarterly thereafter to work on fair housing issues.

In 2013, the Fair Housing Collaborative meetings were increased to a monthly basis to assist in the development of the new 2011–2015 Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan.

Support of Local Fair Housing Efforts

Business Oregon continues to work closely with all of our CDBG recipients to ensure that each of their jurisdictions recognize their responsibilities in this area and know where the resources are to answer questions and provide necessary brochures, posters and presentations. Regional coordinators remain in contact with each recipient through the course of the CDBG-funded project and are able to assist them when necessary.

Local fair housing efforts of state recipients using 2013 funds include but are not limited to: publicizing fair housing laws, participating in local fair housing events, displaying posters, distributing brochures and being a participating sponsor of the Fair Housing Council of Oregon display and training sessions.

Actions Taken to Remove Barriers to Affordable Housing

In addition to the activities described above, CDBG funds are used to extend publicly-owned infrastructure to new affordable low- and moderate-income housing, which assists in addressing the obstacle of funding for owner occupied single family housing. CDBG funds also are used by low- and moderate-income homeowners to rehabilitate the homes they occupy.

CDBG funds were used to foster affordable housing by funding supportive public infrastructure for housing projects. CDBG funds, through the housing rehab program, support maintenance of affordable housing that is owned and occupied by a low- and moderate-income homeowner.

The **Oregon Housing and Community Services Department (OHCS)** is active in the promotion of fair housing. They operate many programs, including HOME. Owners of projects assisted by OHCS are required to develop marketing plans that include outreach activities targeted to minorities and other protected classes. The first component of the fair housing planning process is to review impediments to fair housing choice in the public and private sectors.

The **Bureau of Labor and Industries Civil Rights Division (BOLI)** is responsible for investigation and resolution of fair housing complaints are handled in Oregon. BOLI processes all cases involving alleged discrimination based on race/color, religion, sex, physical or mental handicap, marital status and national origin. The agency does not investigate situations involving discrimination based on family status but does assist individuals to file complaints with HUD.

Other Actions Indicated in the Strategic Plan and the Action Plan and Including A Comparison of the Proposed Versus Actual Outcomes For Each Outcome Measure Submitted With the Consolidated Plan and Explain, If Applicable, Why Progress Was Not Made Toward Meeting Goals and Objectives.

2013 Outcome and Performance Goal Summary: Table V, summarizes the outcomes and performance measure requirements and the states progress towards meeting each requirement, by project type. This section of the 2013 PER conforms to the outcome and performance measure requirements identified in the 2011-2015 Consolidated Plan. In summary 18,615 Oregonians will benefit from the activities funded under the CDBG program in 2013 of which 10,937 (58.75%) will be low and moderate income. An abbreviated summary of the states achievements through December 31, 2013 are:

- The state met or exceeded the annual goals for Public Works; and Community Capacity Technical Assistance.
- The state did not meet the goals for Microenterprise Assistance; SL1 Community Facilities; DH1 Community Facilities; SL3 Community Facilities; Public Works Off-Site Infrastructure; and, Housing Rehabilitation.
- 100 microenterprises will be assisted.
- 6 water and wastewater systems were funded.
- 95 housing units will be rehabilitated.
- The CDBG program leveraged \$5,615,000 in matching funds.
- Three CDBG 1% assisted conferences were conducted where 93 persons benefitted.

Five Year Outcome and Performance Goal Summary: Table V also, summarizes the outcomes and performance measure requirements and the states overall progress towards meeting each requirement, during the 5 year reporting period, by project type. This section conforms to the outcome and performance measure requirements identified in the 2011-2015 Consolidated Plan. In summary 71,788 Oregonians will benefit from the activities funded under the CDBG program during the 2011-2105 reporting period of which 48,100 (67.0%) will be low and moderate income. An abbreviated summary of the states achievements through December 31, 2013 are:

- The state is exceeding the anticipated five year goals for Public Works; SL1 Community Facilities; and Community Capacity Technical Assistance.

- The state is meeting the anticipated five year goals for Economic Development, since this was only a priority for funding in 2011 and the state funded one project in 2011.
- The state is not meeting the anticipated five year goals for Microenterprise Assistance; Publicly owned off-site infrastructure; SL3 Community Facilities; DH1 Community Facilities; and Housing Rehabilitation. However, the state has 2 more years to achieve these goals.
- 299 microenterprises will be assisted.
- 30 water and wastewater systems were funded.
- 6 community facility projects were funded.
- 331 housing units will be rehabilitated.
- The CDBG program leveraged \$10,450,808 in matching funds.
- Ten CDBG 1% assisted conferences were conducted where 1,063 persons benefitted.
- 8 beds were created under DH1 Community Facilities.
- 35 jobs will be created.

Refer to the Table V for details.

Notes: Does not include data from pending applications received by December 31, 2013 and no awards were made between November 25, 2013 and December 31, 2013

Describe the Use of CDBG Funds during the Program Year and Assess the Relationship of That Use to the Priorities and Specific Objectives Identified Within the Plan with Special Attention to the Highest Priority Activities That Were Identified

This section of PER expands upon the prior section above and needs to be reviewed in its entirety.

CDBG activities have had a substantial impact on identified needs are the public works activities and community facility activities which were identified as high priority projects in the 2011-2015 Consolidated Plan. Eighty-four percent (84.3%) of the CDBG funds awarded in 2013 were for public works projects that will benefit 18,249 persons and fifteen percent (15.0%) of the CDBG funds awarded in 2013 were for housing rehabilitation projects that will benefit 266 persons and rehabilitate 95 housing units. Refer to Table's I, V and VI for more details.

The indicators for CDBG need are identified by the type and number of applications received for funding in 2013. Based upon the number of applications received public works and housing rehabilitation are of the highest need. Oregon funded:

- 6 public works projects and received another 9 applications pending review;
- 4 housing rehabilitation projects and received another (1 application) pending review;
- 0 community facility projects and received another (1 application) pending review; and,
- 1 microenterprise project and zero applications.

The state obligated its Program Year 2013 funds for activities in accordance, as much as possible, with the targets set in the *2013 Annual Action Plan for the Oregon Consolidated Plan*.

The state exceeded the annual allocation funding targets in the following categories:

- Public Works: Target was 49% and during 2013 the state obligated 84.3%.

The state did not exceed the annual allocation funding targets in the following categories:

- Community Facilities: Target was 26% and during 2013 the state obligated 0%.
- Microenterprise Assistance: Target was 3% and during 2013 the state obligated 0.70%.
- Housing Rehabilitation: Target was 22% and during 2013 the state obligated 15%.

If the pending applications received by December 31, 2013 are awarded the projected obligations (including both the actual obligated by December 31, 2013 and the pending applications) would be:

The state exceeded the annual allocation funding targets in the following categories:

- Public Works: Target was 49% and during 2013 the state obligated 84.77%.

The state did not exceed the annual allocation funding targets in the following categories:

- Community Facilities: Target was 26% and during 2013 the state obligated 6.39%.
- Microenterprise Assistance: Target was 3% and during 2013 the state obligated 0.32%.
- Housing Rehabilitation: Target was 22% and during 2013 the state obligated 8.52%.

For the last several years, since 2006 the barrier that resulted in a negative impact to the program was not something that can be remedied by IFA. Cities and counties were reluctant to apply for funds for a project due to the fact they were unable to secure additional project funds due to the economy. Many communities due to budget cuts had to cut staff and have lost the capacity to administer the complex CDBG grants at the local level.

During 2012, regardless of these barriers the state saw an increase in demand for the CDBG program. This increase continued in 2013 and if all the pending applications are funded the state will obligate \$23,472,360 in 2013 which rivals the amount obligated by the state in Program Year 2005.

Variance between Targeted and Awarded Funding in 2013

The 2013 Method of Distribution (MOD) identifies that OBDD-IFA intended to award funds according to the target percentages but OBDD-IFA is not obligated to award all the funds targeted to each category, i.e. if a sufficient number of projects are not awarded in a particular category, applications in other categories may be funded. Each calendar quarter OBDD-IFA will conduct a quarterly target review and determine if funds need to be moved from one category to another to address program needs.

At each calendar quarter the need for the program, based upon the complete applications received was reviewed against the targeted percentages. OBDD-IFA varied from the funding targets, in accordance with the 2013 MOD, and for the following reasons:

- The state of Oregon has no control over the type and quantity of applications submitted for funding under the program. As of December 31, 2013 all complete applications received by the state from units of general local government were either funded or were being processed for funding. No complete application was denied funding. Therefore, the variance between the targeted and awarded funding in 2013 was necessary to meet the needs and requests of the units of general local governments.
- During 2012 the state saw an increase in the demand for public works projects and this increase continued through 2013. The increase in demand was because communities did not want to undertake large public works project and raise water or wastewater rates with a poor economy. Now that the economy appears to be

improving, communities are once again undertaking large public works, water and wastewater projects that were deferred until the economy improved.

- Four of the public works projects qualified for the maximum grant exception under the program, due to the high monthly user rates, and were awarded \$11,961,000. This contributed to the variance between the targeted and awarded funding in 2013.

Specify the Nature of and Reasons for any Changes in Program Objectives and Indicate How the State Would Change Its Programs As A Result of Its Experiences

IFA made a few adjustments to the CDBG strategies for 2014. A summary of the changes are identified below:

- 1) OBDD-IFA implemented a new policy that locally conducted income survey's will be valid for 5 years, after OBDD-IFA approval;
- 2) The maximum grant limits for public works projects were increased:
 - a. Planning grants were increased from \$150,000 to \$175,000;
 - b. The overall maximum grant, over five years for the same system was increased from \$2,000,000 to \$3,000,000; and,
 - c. The maximum grant exception was increased from \$3,500,000 to \$4,000,000.
- 3) The maximum grant limit for Public/Community Facilities was increased from \$1,500,000 to \$2,000,000.
- 4) Transitional housing was eliminated to coincide with changing needs. HUD has been moving towards rapid re-housing for several years and the 2009 Federal American Recovery and Reinvestment Act (ARRA) created the Homelessness Prevention & Rapid Re-housing Program (HPRP). As result, HUD has determined that the HPRP rapid re-housing program is showing greater results than traditional transitional housing.
- 5) Overall, the program in 2013 met the state needs therefore only minor changes were considered to the program for 2014.
- 6) When considering the variance between the targeted and awarded funding for 2013, during 2014 OBDD-IFA will evaluate the need to either increase marketing and outreach to projects in the under-funded categories or adjust the target percentages to coincide with recent documented demand in the 2019 program year.

Evaluate the Extent To Which the Program Benefitted Low- And Moderate-Income Persons and Include the Number of Extremely Low-Income, and Moderate-Income Persons Served By Each Activity Where Information on Income By Family Size Is Required to Determine Eligibility of the Activity

For the selected benefit period (2012-2013-2014), 99.99% of the state's CDBG funds were obligated to activities benefiting low- and moderate-income persons. Of the funds obligated under the state's 2013 program, 100% of the project funds benefit low- and moderate-income persons.

The 2013 unobligated re-paid recaptured grant funds and unobligated FY2013 funds were not included in the calculation for overall program benefit to low and moderate income persons.

Of the CDBG awards made during the 2013 program year, the projects are proposed to benefit 18,615 persons of which 10,937 or 58.75% will be low and moderate income. Refer to Table V above and Table VI below for details.

Table VI

Funding Category	Very Low Income	Low Income	Moderate Income and below	Total Benefitted Persons	% LMI

Evaluate Progress Toward Meeting The Goals of Providing Affordable Housing CDBG Funds, Including the Number and Types Of Households Served

During 2013 IFA funded housing rehabilitation projects that are proposed to benefit 95 households, of which 266 persons will benefit and 100% will be low and moderate income.

A Summary of Any Comments Concerning the Program That Have Been Received From Citizens

The public comment period concludes on March 20, 2016, and OBDD-IFA received no public comment regarding the 2013 CDBG PER reports.

A Summary of Activities and Results From Technical Assistance Funding

The state's 2013 program included the use of CDBG funds for the technical assistance allowed by Section 811 of the Housing and Community Development Act of 1992. As of December 31, 2019, all of the \$121,782.00 1% funds from the 2013 allocation had been expended. During 2013 OBDD-IFA obligated all the 2008 CDBG 1% and substantially obligated the 2009 CDBG 1% funds for activities.

NOTE: The 2008 PER report shows that all of the \$141,451 1% funds were obligated as of December 12, 2013. Then on December 13, 2013 the state received a repayment of 2008 CDBG 1% funds from the Greater Eastern Oregon Development Corporation (GEODC) for \$20,225, which must be re-obligated. At the time the repayment from GEODC was received \$98,174 of FY2009 CDBG 1% funds had been obligated. The balance of CDBG 1% funds available to obligate as of December 31, 2013 was \$596,146.00, comprised of the following:

Table VII**CDBG 1% Balance as of December 31, 2013**

Fiscal Year	Obligated	Unobligated	Total
2008	\$121,226	\$20,225	\$141,451.00
2009	\$98,174	\$45,765.07	\$143,939.07
2010	\$0	\$156,809.00	\$156,809.00
2011	\$0	\$131,525.75	\$131,525.75
2012	\$0	\$120,039.00	\$120,039.00
2013	\$0	\$121,782.00	\$121,872.00
Total	\$219,000.00	\$596,146.00	\$815,635.82

Table V summarizes the CDBG 1% Technical Assistance awards that were made in Program Year 2013 for conference/workshop sponsorship, for local government capacity building associated with CDBG projects. The information below describes all the activities that were funded and the results from that activity.

- **Fair Housing Council of Oregon.** OBDD-IFA entered into a contract with the Fair Housing Council of Oregon (FHCO) to promote equal access to housing by providing fair housing education, outreach, technical assistance and enforcement opportunities related to federal laws and related Oregon laws. A more detailed description of the results of this funding is described in the 2013 PER report section entitled *“actions taken to affirmatively further fair housing, a summary of impediments, and actions taken to overcome the effects of impediments”*
- **Northwest Community Development Institute.** A grant was provided to the Northwest Community Development Institute for 2013 training and scholarships. This effort helps to train rural community development professionals in Oregon, Idaho and Washington. A total of 35 persons benefitted from this training event.
- **Northwest Economic Development Sponsorship ad Course.** A grant was provided to the Washington State Community Trade and Economic Development Department for 2013 training scholarships. The scholarships are offered to rural Oregon community representatives who attend this training. A total of 58 persons benefitted from this training event.
- **State Administration.** Starting in FY 2004, states may expend up to \$100,000 +3% of their annual allocation on state administrative costs. In 2006, the state reserved the right to use this flexibility. All CDBG 1% funds used for state administration will be matched 1:1 with funds from the department's Special Public Works Fund. During 2013 none of the CDBG 1% funds were utilized for state administration.
- **2016 Contract with Fair Housing Council of Oregon.** OBDD-IFA entered into a contract with the Fair Housing Council of Oregon (FHCO) to promote equal access to housing by providing fair housing education, outreach, technical assistance and enforcement opportunities related to federal laws and related Oregon laws. The performance is reported in the 2016 PER

Civil Rights

The state is required to provide data on all applicants and beneficiaries in projects funded from each grant allocation. Information must be reported for each project activity and must indicate the number of persons benefiting by ethnicity and racial groups as defined by U.S. Census.

- **Applicant data**—The proposed applicant data is contained in Table II above.
- **Actual data**—The actual beneficiary data from FFY2013 CDBG funded projects that were administratively closed during 2013 is described and contained in Table VIII below.

Table VIII

RACE GROUP	Total from Grant	Total from Program Income	Combined Total
White not Hispanic	9,462		9,462
Hispanic	4,167		4,167
American Indian/Alaskan Native	293		293
Black not Hispanic	69		69
Asian and Pacific Islander	196		196
Two or more race	76		76
TOTAL	14,263	0	14,263

Ethnicity/Race data is tabulated for all administratively closed or closed projects in the non-entitlement areas of the state using FY 2013 funds. Two (2) projects awarded in 2013 were administratively closed during the reporting period. Creating a total of 9 projects funded with 2013 funds that are either administratively closed or closed. When 2013 funded projects are administratively closed, the ethnicity/race data will be reported in successive year's PERs 2013 Grant Year Activity Reports as indicated in the table above for each project and totaled for all projects funded with 2013 grant year funds.

Summary of State's Reviews of Recipient's Civil Rights Performance

The state reviews the civil rights performance of its 2013 recipients as part of its regular monitoring procedures. These include either an on-site review or an internal file/desk audit of all projects. A standardized monitoring checklist is used for this process. 2013 grant recipients monitored during the reporting period generally complied with the Civil Rights performance requirements for Community Development Block Grant recipients.

Summary of State and Recipient Actions to Use Minority- and Women-Owned Businesses in Carrying Out CDBG-Funded Activities

The state encourages grantees to make contracts awarded under CDBG grants available to minority- and women-owned businesses. Through the Grant Management Handbook and training given to recipients, the state describes the various ways that contracting opportunities can be made available to minority- and women-owned businesses. Some examples include dividing larger contracts into smaller portions that can be bid on by smaller firms, or directly soliciting proposals or bids from lists of certified minority- and women-owned businesses.

The current Grant Management Handbook (GMH) (revised February 2011 and April 2013) provides forms that grant recipients use to collect and report their efforts to the state. The updated 2013 GMH continues to contain information and new requirements for housing rehabilitation and off-site affordable housing projects in originally implemented in 2011. These two project types must meet the minimum acceptable outreach efforts/**standards** to minority- and women-owned businesses:

- A good faith, comprehensive and continuing endeavor;
- Supported by a statement of public policy and commitment published in the printed media of the widest local circulation;
- Supported by an office/or a key, ranking staff person with oversight responsibilities and access to the chief elected official; and
- Designed to utilize all available and appropriate public and private sector resources.

In addition to meeting the *standards* listed above, these grant recipients are encouraged to use the new **guidelines** contained in the GMH in implementing outreach programs to ensure the inclusion to the maximum extent feasible, of entities owned by minorities and women.

The state will report in future PERs, for each allocation, on the use of minority and women-owned businesses, and on Section 3 activities by its recipients. IFA's 2013 Section 3 Report was submitted to HUD on March 11, 2014.

Equal Employment Opportunity Data for Business Oregon

Business Oregon maintains the employment data required by the Equal Employment Opportunity Commission (EEOC) on an EEO-4 form. The form is not included in this report but is available from the department.

IDISPR28 Financial Summary Report Adjustments

- 1) The original IDIS generated report showed \$3,471.70 of program income had been retained by recipients (line 26). However, the IFA receipted \$3,471.70 in program income returned to the state. Adjustment is done to reflect that the PI has been redistributed.
- 2) Line 59 was adjusted to show the overall low- and moderate-income benefit period of 2012-2014.

IDISPR26 CDBG Financial Summary Report Adjustments

- 1) Line 23 was adjusted to show the overall low- and moderate- income benefit period of 2012-2014.
- 2) Line 24 was adjusted to show the cumulative net expenditures subject to low and moderate income benefit calculation for the 3 year reporting period, based upon the PER reports for 2012 and 2013 in this 2013 CAPER submission.
- 3) Line 25 was adjusted to the cumulative expenditures benefitting low and moderate income persons for the 3 year reporting period, based upon the PER reports for 2012 and 2013 in this 2013 CAPER submission.

PART II—NARRATIVE REQUIREMENTS

December 31, 2019

This addendum updates the FY 2013 Part II Narrative Requirements, by showing the actual 2013 fourth quarter awards made during 2014 for the 2013 applications received by December 31, 2013.

Describe the Investment of Available Resources

Amended table I below illustrates the investment of \$13,019,849.29 of CDBG funds more clearly, but in summary IFA obligated:

- 1) FY2013 annual grant \$11,712,875.00
- 2) FY 2012 unobligated annual grant \$627,606.96
- 3) FY2012 and prior year recaptured funds \$11,341,495.63
- 4) FY2012 and prior year program income \$3,471.70

After the fourth quarter awards, the state obligated its Program Year 2013 funds for activities in accordance, as much as possible, with the targets set in the *2013 Annual Action Plan for the Oregon Consolidated Plan*. The state exceeded the annual allocation funding targets in the following categories:

- Public Works: Target was 49% and during 2013 the state obligated 84.3%.

The state did not exceed the annual allocation funding targets in the following categories:

- Community Facilities: Target was 26% and during 2012 the state obligated 0%.
- Microenterprise Assistance: Target was 3% and during 2012 the state obligated 0.70%.
- Housing Rehabilitation: Target was 22% and during 2012 the state obligated 15.0%.

As of March 1, 2014, \$11,712,875.00 of the 2013 Program Year funds were obligated in accordance with the *2012 Method of Distribution* within the 15-month Timely Distribution period.

NOTE:

Part I-Narrative Requirements total obligated to recipients - The total of \$11,590,464.60 obligated to recipients includes \$11,543,789.79 of FY2012 funds and \$6,168.99 of 2012 program income and \$40,505.82 return grant recapture. The program income is shown under item 1 – Financial Status (A)(2) Program Income.

PR28 Report total obligated to recipients – The \$11,951,332.47 total obligated to recipients on the PR28 includes the FY2012 obligation of \$11,543,789.79, the set aside for technical assistance of \$120,039.43 (line 15) and the set aside for state administration (line 12) of \$340,078.00. An identified difference of \$52,574.75 would be noted and left intentionally to set off overdrawn within PY2006 by Project Canyonville with activity ID#17046. Since IDIS is putting all the funds before 2015 in an aggregate FIFO, the amount should balance at the end.

The total obligated in the PR28 does not include the state’s 2012 program income of \$6,168.99 (shown on lines 3 and 5), and the \$40,505.82 Return Grant Recaptured that was redistributed under LA account information. The PI information generated automatically by the PR28 report, which shows the \$6,168.99 in program income was redistributed.

PR57 Report total obligated to recipients – The \$11,491,215.04 (comprised of \$11,543,789.79 of FY 2012 funds that is deducted by \$52,574.75) on the PR57 is the FY2012 program funds that were obligated and does not include: 1) the 2012 program income of \$6,168.99 receipted and re-disbursed by the state; 2) recaptured grant repayment, tracked within LA account for \$40,505.82; and 3) the set aside for state administration of \$340,078.00. This total is automatically generated by IDIS.

IDIS shows the following:

\$ 340,078	for state Admin
\$ 120,039	for 1% set aside

PART II—NARRATIVE REQUIREMENTS

December 31, 2023

Describe the Resources Made Available

In 2012 IFA had \$21,886,549.87 in available CDBG resources to award to units of general local government. Table I below illustrates the information more clearly but a quick summary is provided below:

- 1) FY2012 annual grant (amount available for projects) \$11,543,790.00
- 2) FY2011 unobligated annual grant \$4,075,066.96
- 3) FY2011 and prior year recaptured funds \$6,261,523.92
- 4) FY2012 program income \$6,168.99

Describe the Investment of Available Resources

Table I below illustrates the investment of \$10,358,418.99 of CDBG funds more clearly.

Table I below also illustrates the projected investment of an additional \$6,167,256.00 of funds associated with 9 CDBG applications received by December 31, 2012, for funding consideration. In summary the pending applications, if funded, would be funded as follows:

- 1) FY2012 annual grant \$5,266,606.96
- 2) FY2011 and prior year recaptured funds \$900,649.04

The state obligated its Program Year 2012 funds for activities in accordance, as much as possible, with the targets set in the *2012 Annual Action Plan for the Oregon Consolidated Plan*. The state exceeded the annual allocation funding targets in the following categories:

- Public Works: Target was 49% and during 2012 the state obligated 60.61%.
- Community Facilities: Target was 26% and during 2012 the state obligated 31.38%.

The state did not exceed the annual allocation funding targets in the following categories:

- Microenterprise Assistance: Target was 3% and during 2012 the state obligated 0.29%.
- Housing Rehabilitation: Target was 22% and during 2012 the state obligated 7.72%.

If the pending applications received by December 31, 2012, are awarded the projected obligations (including both the actual obligated by December 31, 2012, and the pending applications) would be:

The state exceeded the annual allocation funding targets in the following categories:

- Public Works: Target was 49% and during 2012 the state obligated 51.77%.
- Community Facilities: Target was 26% and during 2012 the state obligated 37.82%.

The state did not exceed the annual allocation funding targets in the following categories:

- Microenterprise Assistance: Target was 3% and during 2012 the state obligated 0.73%.
- Housing Rehabilitation: Target was 22% and during 2012 the state obligated 9.68%.

As of December 31, 2012, \$6,277,183.04 of the 2012 Program Year funds were obligated and the Department received applications totaling \$6,167,256 pending review. In total the projected obligation for the 2012 Program Year is \$16,525,674.99 and all the FY 2012 funds will be obligated by March 2013, in accordance with the *2012 Method of Distribution* within the 15-month Timely Distribution period.

NOTE: Attached to this report, is an addendum to the Part II Narrative Requirements, reflecting the 2012 Fourth Quarter awards made during 2013 for the applications received on December 31, 2012.

Actions Taken To Affirmatively Further Fair Housing, A Summary of Impediments and Actions Taken To Overcome the Effects of Impediments

Three state agencies administer programs that serve to further fair housing for Oregon's people. As result the Analysis of Impediments to Fair Housing Choice was a joint effort between the state agencies and the actions taken to overcome the impediments were also divided amongst the state agencies. For a complete description of the impediments found in the 2011–2015 Analysis of Impediments to Fair Housing Choice, the 2011–2015 Fair Housing Action Plan and a summary of all the state agency actions to overcome the identified impediments, please refer to the more detailed analysis included in the 2012 Consolidated Annual Performance Evaluation Report (CAPER). This CDBG Performance Evaluation Report (PER) narrative summarizes the actions taken by the IFA to address/overcome specific impediments.

Business Oregon, which administers Community Development Block Grant funds for the state's non-metropolitan cities and counties, educates its recipients about their fair housing responsibilities in several ways including: 1) presentations at workshops, 2) an updated comprehensive Grant Management Handbook, 3) provision of informational handouts, posters, brochures and individual technical assistance, as needed or requested, 4) sending recipients notices of workshops or conferences which address fair housing issues and 5) completed a new 2011-2015 statewide Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan which are made available to recipients to identify, plan for and remove impediments to fair housing choice.

The efforts of OBDD-IFA, identified below are addressing the following impediments identified in the 2011-2015 Analysis of Impediments to Fair Housing Choice:

- A(2) - Need to initiate communication with the Oregon Department of Land Use and Conservation Development (DLCD) to review land use laws in the non-entitlement areas of the Oregon to identify and attempt to overcome any impediments to fair housing choice created by these laws;
- B(1) – Lack of coordinated fair housing outreach and educational methods in the non-entitlement areas of Oregon;
- B(2) – Lack of understanding of fair housing laws and complaint system;
- B(3) - Establish a strategic communication plan to increase knowledge of fair housing laws in Oregon;

- C(1) – Refusal to allow reasonable accommodations. Enhance outreach and education activities to increase understanding of common discriminatory actions seen in the rental market;
- C(2) – Discrimination against Section 8 voucher holders;
- C(3) – Discriminatory terms and conditions in the market place. Enhance outreach and education activities to consumers to overcome the two types of discriminatory activities (refusal to allow reasonable accommodation and discrimination against Section 8 voucher holders) in the rental markets; and,
- C(4) – Discriminatory refusal to rent.

During 2012 the following occurred:

- a. The previous 2011 Grant Management Handbook (GMH) was under revision in 2012 and it is anticipated to be provided to all grant recipients in February 2013. The current 2011 and the new 2013 GMH contain accurate contact information and forms for processing fair housing complaints. The handbook includes additional requirements, references and information regarding:
 1. Additional Fair Housing Requirements and Activities.
 - i. Within 6 months prior to the first draw for non-construction funds, the grant recipient must not only publish the required fair housing resolution, they also must disseminate fair housing posters and brochures at City Hall, the County Courthouse, etc.; and
 - ii. Every grant recipient must undertake an additional fair housing activity for each grant they receive. The GMH contains a more detailed list of acceptable fair housing activities. The list of acceptable activities to affirmatively furthering fair housing was updated to that there are no paper compliance or meaningless action activities contained in the list.
 - a. One exception to this requirement was provided within the GMH. If a grant recipient has received more than one grant per program year, the grant recipient need only conduct one additional fair housing activity for both grants.
 2. New Limited English Proficiency Plan Requirements.
 - i. Starting in 2012 each grant recipient must prepare and submit a Limited English Proficiency Plan prior to the first draw for non-construction funds.
 - ii. The GMH includes the Limited English Proficiency Plan requirements and other informational resources.
- b. The state continues to convey fair housing information via the CDBG 'listserve' which was started in 2007. This listserve disseminates information to all interested persons and grant recipients.
- c. IFA staff participated in the new Interagency Council on Homelessness and Hunger that was formed as a direct result of House Bill 2073. This council will play a key role in

reviewing and implementing policy initiatives that will effectively move Oregon forward in reducing the problem of hunger and homelessness.

- d. In 2012 IFA continued the new requirement added to the *2010 Method of Distribution*, requiring the submission of reasonable accommodation policies when becoming a certified sub-grantee in the *2012 Method of Distribution*.

Existing Contracted Fair Housing Efforts that carried over into 2012

During 2011 Business Oregon entered into contracts with: 1) the Fair Housing Council of Oregon (FHCO); and 2) the Greater Eastern Oregon Development Corporation (GEODC) to assist the department in affirmatively further fair housing. Below is a brief description of the activities to be completed under each contract:

Fair Housing Council of Oregon (FHCO): The contract with the Fair Housing Council of Oregon was for \$55,000 and covers July 1, 2011 to December 31, 2012. The scope of work includes sixteen tasks. Below is a list of the tasks and the progress made at completing each task by December 31, 2012:

1. Organization meeting with IFA and assignment of FHCO of staff to project.

Progress – On-going communication under different contracts.

2. Conduct 4 mass media outreach activities.

Progress—To date 7 mass media outreach activities have been completed:

- A radio interview with the La Pantera (KWBY) in Woodburn, OR, on November 17, 2011;
- A fair housing program and discussion on cable television in Jackson and Josephine Counties;
- A Medford radio interview (KEHD) on March 8, 2012;
- A Resource Fair in Hood River with 150 attendees;
- A radio interview on KUMA radio, Am radio in Pendleton on August 20, 2012; and,
- A radio interview on Jefferson Radio/OPB Ashland on September 2012.

3. Development of a methodology to measure results of education and outreach activities.

Progress—Completed March 31, 2012.

4. Develop a strategic statewide communication plan to increase knowledge of fair housing laws in non-entitlement areas of Oregon.

Progress – Completed March 31, 2012. In addition the FHCO is currently scheduling meetings with local organizations in non-entitlement areas of the state to increase their capacity to perform outreach and education. The organizations that have been contacted so far include: St. Helens Rural Organizing Project; PICUN, farmworker advocacy in Woodburn; Siletz Tribe; Healthy Start advocacy groups statewide; National Alliance for the Mentally Ill (NAMI) chapters throughout the state; Monmouth Tenant Association; Oregon Action in Medford; Independent Living Resource centers in Medford, Roseburg and Cave Junction; and the CAUSA Latino advocacy group. Once the initial meetings are scheduled and conducted, the FHCO will set up trainings and follow-up meetings.

5. Obtain fair housing brochures for consumers, submit brochures for translation into Spanish.

Progress—Completed, prior to December 31, 2011 and revised and completed on April 16, 2012.

6. Develop two new outreach brochures for statewide distribution.

Progress—The FHCO completed two new brochures: 1) Fair Housing for Students; and Fair Housing for Real Estate Professionals.

7. Distribute 9,500 fair housing brochures to housing consumers, providers, government agency staff and the general public.

Progress—A total of 2,915 English and 100 Spanish brochures have been distributed, totaling 3,015.

8. Distribute 3,000 fair housing newsletters to expand knowledge, awareness and support of fair housing laws, enforcement avenues and protections for citizens of the state.

Progress—A total of 5,494 newsletters were distributed.

9. Develop curriculum/training materials, and agenda for fair housing workshops. Curriculum will include explanation of common discriminatory actions seen in the rental markets. Specifically overcoming denial of reasonable accommodations and discrimination against Section 8 voucher holders.

Progress –An extension was granted for this task. This work will be included in the scope of work for the 2013 contract, which is currently under development, between the FHCO and OBDD-IFA.

10. Conduct at least 6 fair housing workshops targeted to housing consumers, housing providers, social service providers and advocates. Workshops will include train the trainer for new partners described in task #11. Distribute 1,500 fair housing resource material packets to expand knowledge, awareness and support for fair housing laws.

Progress—Ten workshops have been held:

- August 22, 2011, Corvallis;
- August 25, 2011, La Grande;
- September 12, 2011, Jackson County;
- October 25, 2011, Salem;
- May 2, 2012 Tillamook and Hood River;
- June 21, 2012, St. Helens (Landlord) and St. Helens (Agencies/Jurisdictions);
- July 18, 2012, Madras, Oregon Child Development Corporation advocates; and,
- September 14, 2012, Roseburg, Neighborworks Umpqua, UCAN and HADCO.

Progress—A total of 1,192 resource material packets, in 8 different languages have been distributed.

11. Identification of partners to expand fair housing resources at the local level to increase capacity to perform education and outreach.

Progress—GEODC attended the Corvallis, La Grande and Salem workshops. This is an on-going task and the the FHCO is currently scheduling meetings with local organizations in non-entitlement areas of the state to increase their capacity to perform outreach and education. The organizations that have been contacted so far include: St. Helens Rural Organizing Project; PICUN, farmworker advocacy in Woodburn; Siletz Tribe; Healthy Start advocacy groups statewide; National Alliance for the Mentally Ill (NAMI) chapters throughout the state; Monmouth Tenant Association; Oregon Action in Medford; Independent Living Resource centers in Medford, Roseburg and Cave Junction; and the CAUSA Latino advocacy group. Once the initial meetings are scheduled and conducted, the FHCO will set up trainings and follow-up meetings.

12. Develop a strategy for outreach to Oregon Department of Land and Conservation (DLCD).

Progress – The first meeting was held on October 25, 2012 in Salem. An extension for this task was granted. This work will be included in the scope of work for the 2013 contract, which is currently under development, between the FHCO and OBDD-IFA.

13. Plan and hold 4 meetings to include representatives of FHCO, IFA, OHCS and DLCD to review land use laws within the non-entitlement areas of Oregon to identify and attempt to overcome any impediments to fair housing choice created by these laws.

Progress – An extension for this task was granted. This work will be included in the scope of work for the 2013 contract, which is currently under development, between the FHCO and OBDD-IFA.

14. Plan and hold 4 meetings to include representatives of Statewide Fair Housing Collaborative to review the state's Fair Housing Action Plan and progress on achieving goals of the plan.

Progress – An extension for this task was granted. This work will be included in the scope of work for the 2013 contract, which is currently under development, between the FHCO and OBDD-IFA.

15. Plan and hold 4 meetings to include representatives of the FHCO, IFA and OHCS to review FHCO's progress on the tasks under this contract.

Progress – Two meetings were held on October 25, 2012 and on November 15, 2012. An extension for this task was granted. This work will be included in the scope of work for the 2013 contract, which is currently under development, between the FHCO and OBDD-IFA.

16. Screen at least 375 clients from Oregon's non-entitlement jurisdictions with inquiries (calls/walk-ins/e-mails) and evaluate for fair housing issues and jurisdiction.

Progress—A total of 1,288 calls have been received from non-entitlement communities throughout the state.

Greater Eastern Oregon Development Corporation (GEODC): The Greater Eastern Oregon Development Corporation contract is for \$20,000 and covers July 1, 2011, to June 30, 2012. Below is a description of the approved scope of work and a description of the progress made at completing each task by June 30, 2012.

The scope of work includes providing training to all types of requesters, to promote equal access to housing. The primary training presentations is on the basics of fair housing with

an introduction and overview of federal, state and local fair housing laws. As the Eastern Oregon Fair Housing Representative, GEODC will attend meetings upon request to participate in discussion concerning fair housing and will field all calls in the region relating to fair housing matters. GEODC will provide technical assistance on fair housing matters, but also may refer matters to the Fair Housing Council of Oregon or Business Oregon that should receive a more in-depth response.

Business Oregon would like to help build more local capacity across the state with regards to understanding and sharing fair housing issues. The contract with GEODC is the state's first attempt at meeting the lack of capacity that is shared in rural Oregon. Business Oregon is actively searching for other organizations in other regions of the state that could take the work GEODC has done and replicate it elsewhere. Business Oregon believes that education and training is a very basic tool to affirmatively furthering fair housing across the state and by training other organizations to provide this assistance more work can be accomplished in a much more efficient way.

Progress— GEODC:

- Provided 3 trainings in Pendleton, La Grande and Wallowa with emphasis on tenant rights and landlord responsibility;
- Attended the La Grande, Pendleton and Corvallis FHCO workshops and met with FHCO staff numerous times;
- Conducted Fair Housing Workshops for Umatilla County on November 17, 2011, and Morrow County;
- Distributed Fair Housing information via GEODC newsletters, the Southwest Regional Alliance and at the Morrow County Commissioners meeting;
- Participated in a forum on housing issues in Pendleton;
- Responded to calls and e-mails on fair housing issues;
- Between the FHCO and GEODC, it is estimated, that there was a gain of an additional 500 clients based upon listserves, flyer distribution and training sessions. This gain is projected to be based upon the increased fair housing awareness through the efforts of GEODC in Eastern Oregon, under this contract.

New Contracted Fair Housing Efforts for 2012

During 2012 Business Oregon entered into new contracts with: 1) the Fair Housing Council of Oregon (FHCO); and 2) the Greater Eastern Oregon Development Corporation (GEODC) to assist the department in affirmatively further fair housing. Below is a brief description of the activities to be completed under each contract:

Fair Housing Council of Oregon (FHCO): The contract with the Fair Housing Council of Oregon was for \$8,000 and expires December 31, 2012. The scope of work included the provision of 3 fair housing workshops, which have been completed and are as follows:

- 1) Pendleton – August 20, 2012, where there were 8 attendees;
- 2) Medford – September 11, 2012, where there were 19 attendees; and,

- 3) Portland – October 2, 2012 (Includes a bus tour), where there were 28 attendees.

Greater Eastern Oregon Development Corporation (GEODC): The Greater Eastern Oregon Development Corporation contract is for \$32,000 and covers July 1, 2012, to June 30, 2014. Below is a description of the approved scope of work and the progress on activities as of December 31, 2012.

- Provide training to all interested parties to promote equal access to housing. The primary training presentation is on the basics of Fair Housing with an introduction and overview of federal, state and local fair housing laws.

Progress – Developed agenda, content, power points and handouts for the Tenant Rights and Responsibility of Landlords training in Vale on September 18, 2012.

- Provide an estimated 12-15 trainings over the period of two years.

Progress – A joint training between the FHCO and GEODC was held in Vale with 20 attendee's on September 18, 2012.

- Assist FHCO staff on additional trainings that may be presented in the 8 county region.

Progress – GEODC assisted the FHCO with the August 22, 2012 FH workshop in La Grande and the August 20, 2012 FH workshop in Pendleton.

- Attend training to further educate themselves regarding fair housing issues.

Progress – GEODC not only assisted with the FHCO with the August 22, 2012 FH workshop in La Grande and the August 20, 2012 FH workshop in Pendleton, they also participated in the training event to educate themselves on fair housing issues.

- Attend meetings upon request to participate in discussions concerning matters of fair housing.

Progress – GEODC:

- Is on the steering committee for housing issues in Pendleton;
- Has attended Morrow County Commissioners meetings;
- Has attended the Southeast Regional Alliance;
- Is working with local Educational Service Districts to develop new website;
- Is developing a flyer handout for meetings; and,
- Is developing new GEODC media and marketing materials and business cards to advertise that GEODC is the Easter Oregon Fair Housing Representative.

- Field calls from interested parties as they relate to fair housing matters.

Progress – This task is under development. GEODC is developing media and marketing materials and business cards to advertise that GEODC is the Eastern Oregon Fair Housing Representative to increase awareness of their role in fair housing issues.

- Give presentations as needed and handouts of fair housing materials to all 8 county commissions in the region and to the cities within the 8 county region.

Progress – GEODC attended a Morrow County Commission meeting.

- Create a traveling display for use at events throughout the 8 county region.

Progress – This task is under development.

- Work with FHCO to promote fair housing poster contest in the schools in the 8 county region.

Progress – This task is under development. GEODC is working with the FHCO to promote April fair housing month activities.

- Provide press releases and news articles for newspapers, newsletters and other marketing venues to raise awareness of fair housing.

Progress – GEODC has developed fair housing information for the GEODC and FHCO newsletters.

- Provide technical assistance on fair housing matters, but may refer matters to the FHCO that should receive a more in depth response.

Progress – GEODC is working with the FHCO to promote April fair housing month activities such as library/school readings, outreach to rental associations, and coordination with CAPECO.

- Schedule quarterly meetings with FHCO to report on progress and to receive fair housing updates/materials/information.

Progress – On-going.

Fair Housing Collaborative

Business Oregon continues to participate in this collaborative. In 2005, OHCS, Business Oregon, BOLI, FHCO and other private and other public sector participants formed a fair housing collaborative to address statewide fair housing issues and were a large part of the successful completion and development of the 2011-2015 Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan. This collaborative was meeting monthly during the development of these documents, and then quarterly thereafter to work on fair housing issues.

In 2012, the Fair Housing Collaborative meetings were increased to a monthly basis to assist in the development of the new 2011–2015 Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan.

Support of Local Fair Housing Efforts

Business Oregon continues to work closely with all of our CDBG recipients to ensure that each of their jurisdictions recognize their responsibilities in this area and know where the resources are to answer questions and provide necessary brochures, posters and presentations. Regional coordinators remain in contact with each recipient through the course of the CDBG-funded project and are able to assist them when necessary.

Local fair housing efforts of state recipients using 2012 funds include but are not limited to: publicizing fair housing laws, participating in local fair housing events, displaying posters, distributing brochures and being a participating sponsor of the Fair Housing Council of Oregon display and training sessions.

Actions Taken to Remove Barriers to Affordable Housing

In addition to the activities described above, CDBG funds are used to extend publicly-owned infrastructure to new affordable low- and moderate-income housing, which assists in addressing the obstacle of funding for owner occupied single family housing. CDBG funds also are used by low- and moderate-income homeowners to rehabilitate the homes they occupy.

CDBG funds were used to foster affordable housing by funding supportive public infrastructure for housing projects. CDBG funds, through the housing rehab program, support maintenance of affordable housing that is owned and occupied by a low- and moderate-income homeowner.

The **Oregon Housing and Community Services Department (OHCS)** is active in the promotion of fair housing. They operate many programs, including HOME. Owners of projects assisted by OHCS are required to develop marketing plans that include outreach activities targeted to minorities and other protected classes. The first component of the fair housing planning process is to review impediments to fair housing choice in the public and private sectors.

The **Bureau of Labor and Industries Civil Rights Division (BOLI)** is responsible for investigation and resolution of fair housing complaints are handled in Oregon. BOLI processes all cases involving alleged discrimination based on race/color, religion, sex, physical or mental handicap, marital status and national origin. The agency does not investigate situations involving discrimination based on family status but does assist individuals to file complaints with HUD.

Other Actions Indicated in the Strategic Plan and the Action Plan and Including A Comparison of the Proposed Versus Actual Outcomes For Each Outcome Measure Submitted With the Consolidated Plan and Explain, If Applicable, Why Progress Was Not Made Toward Meeting Goals and Objectives.

2012 Outcome and Performance Goal Summary: Table III, summarizes the outcomes and performance measure requirements and the states progress towards meeting each requirement, by project type. This section of the 2012 PER conforms to the outcome and performance measure requirements identified in the 2011-2015 Consolidated Plan. In summary 28,948 Oregonians will benefit from the activities funded under the CDBG program in 2012 of which 21,261 (73.45%) will be low and moderate income. An abbreviated summary of the states achievements through December 31, 2012 are:

- The state met or exceeded the annual goals for Public Works; SL1 Community Facilities; DH1 Community Facilities; and Community Capacity Technical Assistance.
- The state did not meet the goals for Microenterprise Assistance; SL3 Community Facilities; Public Works Off-Site Infrastructure; and, Housing Rehabilitation.
- 12 microenterprises will be assisted.
- 12 water and wastewater systems were funded.
- 3 community facility projects were funded.
- 33 housing units will be rehabilitated.
- The CDBG program leveraged \$886,808.00 in matching funds.

- Three CDBG 1% assisted conferences were conducted where 360 persons benefitted.
- 8 beds were created under DH1 Community Facilities.

Five Year Outcome and Performance Goal Summary: Table III also, summarizes the outcomes and performance measure requirements and the states overall progress towards meeting each requirement, during the 5 year reporting period, by project type. This section conforms to the outcome and performance measure requirements identified in the 2011-2015 Consolidated Plan. In summary 45,018 Oregonians will benefit from the activities funded under the CDBG program during the 2011-2105 reporting period of which 32,304 (71.76%) will be low and moderate income. An abbreviated summary of the states achievements through December 31, 2012 are:

- The state is exceeding the anticipated five year goals for Public Works; SL1 Community Facilities; and Community Capacity Technical Assistance.
- The state is meeting the anticipated five year goals for Economic Development and SL3 Community Facilities.
- The state is not meeting the anticipated five year goals for Microenterprise Assistance; Publicly owned off-site infrastructure; DH1 Community Facilities; and Housing Rehabilitation. However, the state has 3 more years to achieve these goals.
- 144 microenterprises will be assisted.
- 21 water and wastewater systems were funded.
- 6 community facility projects were funded.
- 196 housing units will be rehabilitated.
- The CDBG program leveraged \$4,508,308 in matching funds.
- Seven CDBG 1% assisted conferences were conducted where 970 persons benefitted.
- 8 beds were created under DH1 Community Facilities.
- 35 jobs will be created.

Refer to the Table III for details.

Describe the Use of CDBG Funds During the Program Year and Assess the Relationship of That Use to the Priorities and Specific Objectives Identified Within the Plan With Special Attention to the Highest Priority Activities That Were Identified

This section of PER expands upon the prior section above and needs to be reviewed in its entirety.

CDBG activities have had a substantial impact on identified needs are the public works activities and community facility activities which were identified as high priority projects in the 2011-2015 Consolidated Plan. Sixty percent (60.61%) of the CDBG funds awarded in 2012 were for public works projects that will benefit 12,418 persons and thirty-one (31.38%) of the CDBG funds awarded in 2012 were for public/community facility projects that will benefit 16,419 persons. Refer to Table's I, III and IV for more details.

The indicators for CDBG need are identified by the type and number of applications received for funding in 2012. Based upon the number of applications received public works and community facilities are of the highest need. Oregon funded:

- 12 public works projects and received another 3 applications pending review ; and,
- 3 community facility projects and received another 2 applications pending review.

The state obligated its Program Year 2012 funds for activities in accordance, as much as possible, with the targets set in the *2012 Annual Action Plan for the Oregon Consolidated Plan*.

The state exceeded the annual allocation funding targets in the following categories:

- Public Works: Target was 49% and during 2012 the state obligated 60.61%.
- Community Facilities: Target was 26% and during 2012 the state obligated 31.38%.

The state did not exceed the annual allocation funding targets in the following categories:

- Microenterprise Assistance: Target was 3% and during 2012 the state obligated 0.29%.
- Housing Rehabilitation: Target was 22% and during 2012 the state obligated 7.72%.

If the pending applications received by December 31, 2012 are awarded the projected obligations (including both the actual obligated by December 31, 2012 and the pending applications) would be:

The state exceeded the annual allocation funding targets in the following categories:

- Public Works: Target was 49% and during 2012 the state obligated 51.77%.
- Community Facilities: Target was 26% and during 2012 the state obligated 37.82%.

The state did not exceed the annual allocation funding targets in the following categories:

- Microenterprise Assistance: Target was 3% and during 2012 the state obligated 0.73%.
- Housing Rehabilitation: Target was 22% and during 2012 the state obligated 9.68%.

The barrier that resulted in a negative impact to the program is not something that can be remedied by IFA. Cities and counties were reluctant to apply for funds for a project due to the fact they were unable to secure additional project funds due to the economy. Some communities due to budget cuts had to cut staff and have lost the capacity to administer the complex CDBG grants at the local level. Regardless of these barriers, in 2012 the state saw an increase in demand for the CDBG program.

Specify the Nature of and Reasons for any Changes in Program Objectives and Indicate How the State Would Change Its Programs As A Result of Its Experiences

IFA made a few adjustments to the CDBG strategies for 2013. A summary of the changes are identified below:

- 1) The quarterly competitive application process which was modified to a first come first served quarterly application process in 2012 was reverted back to a quarterly competitive application process for 2013.
- 2) The Downtown Revitalization category was eliminated.
- 3) A new Housing Rehabilitation Grant Fund was implemented.
- 4) A new age and expenditure requirement for housing rehabilitation sub-grantee's was implemented.
- 5) Overall, the program in 2012 met the state needs therefore only minor changes were considered to the program for 2013.

Evaluate the Extent To Which the Program Benefitted Low- And Moderate-Income Persons and Include the Number of Extremely Low-Income, and Moderate-Income Persons Served By Each Activity Where Information on Income By Family Size Is Required to Determine Eligibility of the Activity

For the selected benefit period (2012-2013-2014), 99.80% of the state's CDBG funds were obligated to activities benefiting low- and moderate-income persons. Of the funds obligated under the state's 2012 program, 99.99% of the project funds benefit low- and moderate-income persons.

The 2012 unobligated re-paid recaptured grant funds and unobligated FY2012 funds were not included in the calculation for overall program benefit to low and moderate income persons.

Of the CDBG awards made during the 2012 program year, the projects are proposed to benefit 28,948 persons of which 21,261 or 73.45% will be low and moderate income. Refer to Table III above and Table IV below for details.

Table IV

Evaluate Progress Toward Meeting The Goals of Providing Affordable Housing CDBG Funds, Including the Number and Types Of Households Served

During 2012 IFA funded housing rehabilitation projects that are proposed to benefit 33 households, of which 99 persons will benefit and 100% will be low and moderate income.

A Summary of Any Comments Concerning the Program That Have Been Received From Citizens

The public comment period concluded on March 27th 2013, and OBDD-IFA received no public comment regarding the 2012 CDBG PER reports.

A Summary of Activities and Results From Technical Assistance Funding

The state's 2012 program included the use of CDBG funds for the technical assistance allowed by Section 811 of the Housing and Community Development Act of 1992. As of December 31, 2016, all of the ~~\$120,039.00~~ Technical Assistance (1%) funds from the 2012 allocation had been expended.

Table III summarizes the CDBG 1% Technical Assistance awards that were made in Program Year 2012 for conference/workshop sponsorship, for local government capacity building associated with CDBG projects. The information below describes all the activities that were funded and the results from that activity.

- **Northwest Community Development Institute.** A grant was provided to the Northwest Community Development Institute for 2012 training and scholarships.

This effort helps to train rural community development professionals in Oregon, Idaho and Washington. A total of 60 persons benefitted from this training event.

- **Northwest Economic Development Sponsorship ad Course.** A grant was provided to the Washington State Community Trade and Economic Development Department for 2012 training scholarships. The scholarships are offered to rural Oregon community representatives who attend this training. A total of 45 persons benefitted from this training event.
- **2012 Oregon Brownfields Conference and Awards Scholarship Fund.** A small amount of technical assistance funds were used to help support the 2012 annual brownfields conference. People attend the meeting from many communities, particularly from rural areas. The conference offers useful information for communities trying to clean up contaminated sites in order to accommodate community development. A total of 200 persons benefitted from this training event.
- **Greater Eastern Oregon Development Corporation.** The FHCO has agreed to train the staff at Greater Eastern Oregon Development Corporation (GEODC) to enable them to become the fair housing representative in eastern Oregon. Contracting with the GEODC will enable help further fair housing and overcome existing impediments to fair housing in a more streamlined manner. A more detailed description of the results of this funding is described above in the section entitled *“actions taken to affirmatively further fair housing, a summary of impediments, and actions taken to overcome the effects of impediments”*
- **Fair Housing Council of Oregon.** IFA entered into a contract with the Fair Housing Council of Oregon (FHCO) to provide 3 fair housing workshops, in Pendleton, Medford and Portland. A total of 55 persons benefitted from these training events. A more detailed description of the results of this funding is described above in the section entitled *“actions taken to affirmatively further fair housing, a summary of impediments, and actions taken to overcome the effects of impediments”*
- **State Administration.** Starting in FY 2004, states may expend up to \$100,000 +3% of their annual allocation on state administrative costs. In 2006, the state reserved the right to use this flexibility. All CDBG 1% funds used for state administration will be matched 1:1 with funds from the department's Special Public Works Fund. During 2012 none of the CDBG 1% funds were utilized for state administration.
- **Fair Housing Council of Oregon.** IFA entered into a contract with the Fair Housing Council of Oregon (FHCO) to complete various activities in Furthering Fair Housing as identified in the 2016-2020 Analysis of Impediment to Furthering Fair Housing that are implementable through CDBG program. Detail accomplishment of this contract will be provided within 2016 PER report.

Civil Rights

The state is required to provide data on all applicants and beneficiaries in projects funded from each grant allocation. Information must be reported for each project activity and must indicate the number of persons benefiting by ethnicity and racial groups as defined by U.S. Census.

- **Applicant data**—The proposed applicant data is contained in Table II above.
- **Actual data**—The actual beneficiary data from FFY2012 CDBG funded projects that were administratively closed during 2012 is described and contained in Table V below.

Table V

RACE GROUP	Total from Grant	Total from Program Income	Combined Total
White not Hispanic	21,397		21,397
Hispanic	2,730		2,730
American Indian/Alaskan Native	734		734
Black not Hispanic	126		126
Asian and Pacific Islander	252		252
TOTAL	25,239	0	25,239

Ethnicity/Race data is tabulated for all administratively closed or closed projects in the non-entitlement areas of the state using FY 2012 funds. Five (5) projects awarded in 2012 was administratively closed during the reporting period. Creating a total of 22 project funded with 2012 funds that are either administratively closed or closed. When 2012 funded projects are administratively closed, the ethnicity/race data will be reported in successive year's PERs 2012 Grant Year Activity Reports as indicated in the table above for each project and totaled for all projects funded with 2012 grant year funds.

Summary of State's Reviews of Recipient's Civil Rights Performance

The state reviews the civil rights performance of its 2012 recipients as part of its regular monitoring procedures. These include either an on-site review or an internal file/desk audit of all projects. A standardized monitoring checklist is used for this process. 2012 grant recipients monitored during the reporting period generally complied with the Civil Rights performance requirements for Community Development Block Grant recipients.

Summary of State and Recipient Actions to Use Minority- and Women-Owned Businesses In Carrying Out CDBG-Funded Activities

The state encourages grantees to make contracts awarded under CDBG grants available to minority- and women-owned businesses. Through the Grant Management Handbook and training given to recipients, the state describes the various ways that contracting opportunities can be made available to minority- and women-owned businesses. Some examples include dividing larger contracts into smaller portions that can be bid on by smaller firms, or directly soliciting proposals or bids from lists of certified minority- and women-owned businesses.

The current Grant Management Handbook (GMH) (revised February 2011 and April 2013) provides forms that grant recipients use to collect and report their efforts to the state. The updated 2013 GMH contains the new information and continues to implement the new requirements for housing rehabilitation and off-site affordable housing projects originally implemented in 2011. These two project types must meet the minimum acceptable outreach efforts/**standards** to minority- and women-owned businesses:

- A good faith, comprehensive and continuing endeavor;
- Supported by a statement of public policy and commitment published in the printed media of the widest local circulation;
- Supported by an office/or a key, ranking staff person with oversight responsibilities and access to the chief elected official; and
- Designed to utilize all available and appropriate public and private sector resources.

In addition to meeting the *standards* listed above, these grant recipients are encouraged to use the new **guidelines** contained in the GMH in implementing outreach programs to ensure the inclusion to the maximum extent feasible, of entities owned by minorities and women.

The state will report in future PERs, for each allocation, on the use of minority and women-owned businesses, and on Section 3 activities by its recipients. IFA's 2012 Section 3 Report was submitted to HUD on March 28th, 2013.

Equal Employment Opportunity Data for Business Oregon

Business Oregon maintains the employment data required by the Equal Employment Opportunity Commission (EEOC) on an EEO-4 form. The form is not included in this report but is available from the department.

IDISPR28 Financial Summary Report Adjustments

- 1) The original IDIS generated report showed \$6,168.99 of program income had been retained by recipients (line 26). However, the IFA receipted \$6,168.99 in program income returned to the state that was redistributed to units of general local

government. Therefore an adjustment was made to show the program income in line 21 of the report.

- 2) Line 59 was adjusted to show the overall low- and moderate-income benefit period of 2012-2014.

IDISPR26 CDBG Financial Summary Report Adjustments

- 1) Line 23 was adjusted to show the overall low- and moderate- income benefit period of 2012-2014.
- 2) Line 24 was adjusted to show the cumulative net expenditures subject to low and moderate income benefit calculation for the 3 year reporting period, based upon the PER reports for 2012 and 2013 in this 2013 CAPER submission.
- 3) Line 25 was adjusted to the cumulative expenditures benefitting low and moderate income persons for the 3 year reporting period, based upon the PER reports for 2012 and 2013 in this 2013 CAPER submission.

PART II—NARRATIVE REQUIREMENTS

December 31, 2016

This addendum updates the FY 2012 Part II Narrative Requirements, by showing the actual 2012 fourth quarter awards made during 2013 for the 2012 applications received by December 31, 2012.

Describe the Investment of Available Resources

Amended table I below illustrates the investment of \$14,997,418.99 of CDBG funds more clearly, but in summary IFA obligated:

- 1) FY2012 annual grant \$10,916,183.04
- 2) FY 2011 unobligated annual grant \$4,075,066.96
- 3) FY2011 and prior year recaptured funds \$0
- 4) FY2011 and prior year program income \$6,168.99

After the fourth quarter awards, the state obligated its Program Year 2012 funds for activities in accordance, as much as possible, with the targets set in the *2012 Annual Action Plan for the Oregon Consolidated Plan*. The state exceeded the annual allocation funding targets in the following categories:

- Public Works: Target was 49% and during 2012 the state obligated 56.86%.
- Community Facilities: Target was 26% and during 2012 the state obligated 31.67%.

The state did not exceed the annual allocation funding targets in the following categories:

- Microenterprise Assistance: Target was 3% and during 2012 the state obligated 0.80%.
- Housing Rehabilitation: Target was 22% and during 2012 the state obligated 10.67%.

As of March 1, 2013, \$10,916,183.04 of the 2012 Program Year funds were obligated. The remaining unobligated 2012 Program Year funds of \$627,606.96 were obligated in 2013, in accordance with the *2012 Method of Distribution* within the 15-month Timely Distribution period.

NOTE:

Part I-Narrative Requirements total obligated to recipients - The total of \$12,717,934.68 obligated to recipients includes \$12,657,997.83 of FY2011 funds and \$20,493.14 of 2011 program income and \$39,443.71 of recaptured grant repayment. The program income is shown under item 1 – Financial Status (A)(2) Program Income.

PR28 Report total obligated to recipients – The \$13,152,574.40 total obligated to recipients on the PR28 the obligation of \$12,657,997.83 of FY2011 funds and the set aside for technical assistance (line 15) of \$131,525.07 state administration (line 12) of \$363,051.50. The total obligated in the PR28 does not include the state’s 2011 program income of \$20,493.14 (shown on lines 3 and 5), and is generated automatically by the PR28 report, even though (lines 38 and 40) the PR28 report shows the \$20,493.14 in program income was redistributed. The total obligated also does not include the state’s 2011 recapture grant repayment that has been logged into LA account within IDIS for \$39,443.71.

PR57 Report total obligated to recipients – The \$12,657,997.75 on the PR57 is only the FY2011 program funds that were obligated. It does not include the \$ \$39,443.71 of recapture grant repayment that has been re-obligated (tracked within IDIS LA account) and does not include: 1) the 2011 program income receipted and re-disbursed by the state of \$20,493.14; and 2) the set aside for state administration of \$363,051.50. This total is automatically generated by IDIS.

There were no changes to activities identified in the PY 2011 PER. PY2011 is currently in the process within HUD for Grant Year Closeout

PART II—NARRATIVE REQUIREMENTS

December 31, 2023

Describe the Resources Made Available

In 2011 IFA had \$23,861,495.67 in available CDBG resources to award to units of general local government. Table I below illustrates the information more clearly but a quick summary is provided below:

- 1) FY2011 annual grant (amount available for projects) \$12,657,997.75
- 2) FY2010 and prior year recaptured funds \$11,148,438.65
- 3) FY2011 and prior year program income \$55,059.27

Describe the Investment of Available Resources

Table I below illustrates the investment of \$12,348,153 of CDBG funds more clearly.

NOTE: The percent obligated for public works in last year's report was reported as 50% when it was actually 44.94%. Table I and the data below has been revised to reflect 44.94% obligated for public works.

The state obligated its Program Year 2011 funds for activities in accordance, as much as possible, with the targets set in the *2011 Annual Action Plan for the Oregon Consolidated Plan*. The state exceeded the annual allocation funding targets in the following categories:

- Public Works: Target was 45% and during 2011 the state obligated 44.94%.
- Community Facilities: Target was 25% and during 2011 the state obligated 27.33%.
- Economic Development: Target was 5% and during 2011 the state obligated 6.08%.

The state did not exceed the annual allocation funding targets in the following categories:

- Microenterprise Assistance: Target was 3% and during 2011 the state obligated 2.21%.
- Housing Rehabilitation: Target was 22% and during 2011 the state obligated 19.44%.

As of December 31, 2011, \$6,932,653.79 of the 2011 Program Year funds were obligated. Between December 31 and present an additional \$5,725,343.96 was obligated for a total of \$12,657,997.75. All 2011 funds have been obligated to projects or administrative activities.

Actions Taken To Affirmatively Further Fair Housing, A Summary of Impediments and Actions Taken To Overcome the Effects of Impediments

Three state agencies administer programs that serve to further fair housing for Oregon's people. As result the Analysis of Impediments to Fair Housing Choice was a joint effort between the state agencies and the actions taken to overcome the impediments were also divided amongst the state agencies. For a complete description of the impediments found in the 2011–2015 Analysis of Impediments to Fair Housing Choice, the 2011–2015 Fair Housing Action Plan and a summary of all the state agency actions to overcome the identified impediments, please refer to the more detailed analysis included in the 2011 Consolidated Annual Performance Evaluation Report (CAPER). This CDBG Performance Evaluation Report (PER) narrative summarizes the actions taken by the IFA to address/overcome specific impediments.

Business Oregon, which administers Community Development Block Grant funds for the state's non-metropolitan cities and counties, educates its recipients about their fair housing responsibilities in several ways including: 1) presentations at workshops, 2) an updated comprehensive Grant Management Handbook, 3) provision of informational handouts, posters, brochures and individual technical assistance, as needed or requested, 4) sending recipients notices of workshops or conferences which address fair housing issues and 5) completed a new 2011-2015 statewide Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan which are made available to recipients to identify, plan for and remove impediments to fair housing choice.

During 2011 the following occurred:

- a. The 2011 Grant Management Handbook (GMH) was updated and provided to all grant recipients in February 2011. This updated handbook contains accurate contact information and forms for processing fair housing complaints. The 2011 handbook includes additional requirements, references and information regarding:
 1. Additional Fair Housing Requirements and Activities.
 - i. Within 6 months prior to the first draw for non-construction funds, the grant recipient must not only publish the required fair housing resolution, they also must disseminate fair housing posters and brochures at City Hall, the County Courthouse, etc.; and
 - ii. Every grant recipient must undertake an additional fair housing activity for each grant they receive. The 2011 GMH contains a more detailed list of acceptable fair housing activities. The list of acceptable activities to affirmatively furthering fair housing was updated to that there are no paper compliance or meaningless action activities contained in the list.
 - a. One exception to this requirement was provided within the 2011 GMH. If a grant recipient has received more than one grant per program year, the

grant recipient need only conduct one additional fair housing activity for both grants.

2. New Limited English Proficiency Plan Requirements.
 - i. Starting in 2012 each grant recipient must prepare and submit a Limited English Proficiency Plan prior to the first draw for non-construction funds.
 - ii. The 2011 GMH was updated to include the Limited English Proficiency Plan requirements and other informational resources.
- b. The state continues to convey fair housing information via the CDBG 'listserve' which was started in 2007. This listserve disseminates information to all interested persons and grant recipients.
- c. IFA staff participated in the new Interagency Council on Homelessness and Hunger that was formed as a direct result of House Bill 2073. This council will play a key role in reviewing and implementing policy initiatives that will effectively move Oregon forward in reducing the problem of hunger and homelessness.
- d. In 2011 IFA continued the new requirement added to the *2010 Method of Distribution*, requiring the submission of reasonable accommodation policies when becoming a certified sub-grantee in the *2011 Method of Distribution*.

During 2011 Business Oregon entered into new contracts with: 1) the Fair Housing Council of Oregon (FHCO); and 2) the Greater Eastern Oregon Development Corporation (GEODC) to assist the department in affirmatively further fair housing. Below is a brief description of the activities to be completed under each contract:

Fair Housing Council of Oregon (FHCO): The contract with the Fair Housing Council of Oregon was for \$55,000 and covers July 1, 2011 to December 31, 2012. The scope of work includes sixteen tasks. Below is a list of the tasks and the progress made at completing each task by December 31, 2011:

1. Organization meeting with IFA and assignment of FHCO of staff to project.
2. Conduct 4 mass media outreach activities.
Progress—On November 7, 2011, the FHCO conducted a radio interview with the La Pantera (KWBY) in Woodburn, OR.
3. Development of a methodology to measure results of education and outreach activities.
Progress—Preliminary draft of the methodology was submitted to IFA for review on January 24, 2012.
4. Develop a strategic statewide communication plan to increase knowledge of fair housing laws in non-entitlement areas of Oregon.
5. Obtain fair housing brochures for consumers, submit brochures for translation into Spanish.
Progress—Task has been completed.
6. Develop two new outreach brochures for statewide distribution.
Progress—The FHCO is developing two new brochures: 1) Fair Housing for Students; and Fair Housing for Real Estate Professionals.

7. Distribute 9,500 fair housing brochures to housing consumers, providers, government agency staff and the general public.
Progress—A total of 519 brochures have been distributed.
8. Distribute 3,000 fair housing newsletters to expand knowledge, awareness and support of fair housing laws, enforcement avenues and protections for citizens of the state.
Progress—A total of 1,594 newsletters were distributed.
9. Develop curriculum/training materials, and agenda for fair housing workshops. Curriculum will include explanation of common discriminatory actions seen in the rental markets. Specifically overcoming denial of reasonable accommodations and discrimination against Section 8 voucher holders.
10. Conduct at least 6 fair housing workshops targeted to housing consumers, housing providers, social service providers and advocates. Workshops will include train the trainer for new partners described in task #11. Distribute 1,500 fair housing resource material packets to expand knowledge, awareness and support for fair housing laws.
Progress—Four workshops have been held: August 22, 2011, Corvallis; August 25, 2011, La Grande; September 12, 2011, Jackson County; October 25, 2011, Salem.
Progress—A total of 177 resource material packets have been distributed.
11. Identification of partners to expand fair housing resources at the local level to increase capacity to perform education and outreach.
Progress—GEODC attended the Corvallis, La Grande and Salem workshops.
12. Develop a strategy for outreach to Oregon Department of Land and Conservation (DLCD).
13. Plan and hold 4 meetings to include representatives of FHCO, IFA, OHCS and DLCD to review land use laws within the non-entitlement areas of Oregon to identify and attempt to overcome any impediments to fair housing choice created by these laws.
14. Plan and hold 4 meetings to include representatives of Statewide Fair Housing Collaborative to review the state's Fair Housing Action Plan and progress on achieving goals of the plan.
15. Plan and hold 4 meetings to include representatives of the FHCO, IFA and OHCS to review FHCO's progress on the tasks under this contract.
16. Screen at least 375 clients from Oregon's non-entitlement jurisdictions with inquiries (calls/walk-ins/e-mails) and evaluate for fair housing issues and jurisdiction.
Progress—A total of 439 calls have been received from non-entitlement communities throughout the state.

Greater Eastern Oregon Development Corporation (GEODC)

The Greater Eastern Oregon Development Corporation contract is for \$20,000 and covers July 1, 2011, to June 30, 2012. Below is a description of the approved scope of work and a description of the progress made at completing each task by December 31, 2011.

The scope of work includes providing training to all types of requesters, to promote equal access to housing. The primary training presentations is on the basics of fair housing with

an introduction and overview of federal, state and local fair housing laws. As the Eastern Oregon Fair Housing Representative, GEODC will attend meetings upon request to participate in discussion concerning fair housing and will field all calls in the region relating to fair housing matters. GEODC will provide technical assistance on fair housing matters, but also may refer matters to the Fair Housing Council of Oregon or Business Oregon that should receive a more in-depth response.

Business Oregon would like to help build more local capacity across the state with regards to understanding and sharing fair housing issues. The contract with GEODC is the state's first attempt at meeting the lack of capacity that is shared in rural Oregon. Business Oregon is actively searching for other organizations in other regions of the state that could take the work GEODC has done and replicate it elsewhere. Business Oregon believes that education and training is a very basic tool to affirmatively furthering fair housing across the state and by training other organizations to provide this assistance more work can be accomplished in a much more efficient way.

Progress—GEODC attended the La Grande, Pendleton and Corvallis FHCO workshops and met with FHCO staff numerous times. GEODC conducted Fair Housing Workshops for Umatilla County on November 17, 2011, and Morrow County. GEODC also distributed Fair Housing information via GEODC newsletters, the Southwest Regional Alliance and at the Morrow County Commissioners meeting.

Fair Housing Collaborative—Business Oregon continues to participate in this collaborative. In 2005, OHCS, Business Oregon, BOLI, FHCO and other private and other public sector participants formed a fair housing collaborative to address statewide fair housing issues and were a large part of the successful completion and development of the 2011-2015 Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan. This collaborative was meeting monthly during the development of these documents, and then quarterly thereafter to work on fair housing issues.

In 2011, the Fair Housing Collaborative meetings were increased to a monthly basis to assist in the development of the new 2011–2015 Analysis of Impediments to Fair Housing Choice and Fair Housing Action Plan.

Business Oregon continues to work closely with all of our CDBG recipients to ensure that each of their jurisdictions recognize their responsibilities in this area and know where the resources are to answer questions and provide necessary brochures, posters and presentations. Regional coordinators remain in contact with each recipient through the course of the CDBG-funded project and are able to assist them when necessary.

Local fair housing efforts of state recipients using 2011 funds include but are not limited to: publicizing fair housing laws, participating in local fair housing events, displaying posters, distributing brochures and being a participating sponsor of the Fair Housing Council of Oregon display and training sessions.

The **Oregon Housing and Community Services Department (OHCS)** is active in the promotion of fair housing. They operate many programs, including HOME. Owners of projects assisted by OHCS are required to develop marketing plans that include outreach activities targeted to minorities and other protected classes. The first component of the fair housing planning process is to review impediments to fair housing choice in the public and private sectors.

The **Bureau of Labor and Industries Civil Rights Division (BOLI)** is responsible for investigation and resolution of fair housing complaints are handled in Oregon. BOLI processes all cases involving alleged discrimination based on race/color, religion, sex, physical or mental handicap, marital status and national origin. The agency does not investigate situations involving discrimination based on family status but does assist individuals to file complaints with HUD.

Actions Taken to Remove Barriers to Affordable Housing

In addition to the activities described above, CDBG funds are used to extend publicly-owned infrastructure to new affordable low- and moderate-income housing, which assists in addressing the obstacle of funding for owner occupied single family housing. CDBG funds also are used by low- and moderate-income homeowners to rehabilitate the homes they occupy.

CDBG funds were used to foster affordable housing by funding supportive public infrastructure for housing projects. CDBG funds, through the housing rehab program, support maintenance of affordable housing that is owned and occupied by a low- and moderate-income homeowner.

Other Actions Indicated in the Strategic Plan and the Action Plan and Including A Comparison of the Proposed Versus Actual Outcomes For Each Outcome Measure Submitted With the Consolidated Plan and Explain, If Applicable, Why Progress Was Not Made Toward Meeting Goals and Objectives.

Table III below, summarizes the outcomes and performance measure requirements and the states progress towards meeting each requirement, by project type. This section of the 2011 PER conforms to the outcome and performance measure requirements identified in the 2011-2015 Consolidated Plan. In summary 16,070 Oregonians will benefit from the activities funded under the CDBG program in 2011 of which 11,043 (68.9%) will be low and moderate income. An abbreviated summary of the states achievements are:

- The state met or exceeded the annual goals for Economic Development; Public Works; SL1 Community Facilities; SL3 Community Facilities; Housing Rehabilitation; and Community Capacity Technical Assistance.
- The state did not meet the goals for Microenterprise Assistance; and, DH1 Community Facilities.
- The state has one more year to meet the goal for Public Works Off-Site Infrastructure projects.
- The economic development grant will create 35 jobs.

- 132 microenterprises will be assisted.
- 9 water and wastewater systems were funded.
- 3 community facility projects were funded.
- 163 housing units will be rehabilitated.
- The CDBG program leveraged \$3,621,500 in matching funds.
- Three CDBG 1% assisted conferences were conducted where 610 persons benefitted.

Refer to the table below for details.

Describe the Use of CDBG Funds During the Program Year and Assess the Relationship of That Use to the Priorities and Specific Objectives Identified Within the Plan With Special Attention to the Highest Priority Activities That Were Identified

This section of PER expands upon the prior section above and needs to be reviewed in its entirety.

CDBG activities have had a substantial impact on identified needs are the public works activities and community facility activities which were identified as high priority projects in the 2011-2015 Consolidated Plan. Fifty percent (50%) of the CDBG funds awarded in 2011 were for public works projects that will benefit 9,616 persons and twenty-seven percent (27%) of the CDBG funds awarded in 2011 were for public/community facility projects that will benefit 5,905 persons. Refer to Table's I, III and IV for more details.

The indicators for CDBG need are identified by the type and number of applications received for funding in 2011. Based upon the number of applications received public works and housing rehabilitation are of the highest need. Oregon funded 9 public works projects and 6 housing rehabilitation projects.

The CDBG five-year program goals/outcomes and the identified targets for funding are on track (Refer to Table III).

NOTE: The percent obligated for public works in last year's report was reported as 50% when it was actually 44.94%. Table I and the data below has been revised to reflect 44.94% obligated for public works.

The state obligated its Program Year 2011 funds for activities in accordance, as much as possible, with the targets set in the *2011 Annual Action Plan for the Oregon Consolidated Plan*.

The state exceeded the annual allocation funding targets in the following categories:

- Public Works: Target was 45% and during 2011 the state obligated 44.94%.
- Community Facilities: Target was 25% and during 2011 the state obligated 27.33%.
- Economic Development: Target was 5% and during 2011 the state obligated 6.08%.

The state did not exceed the annual allocation funding targets in the following categories:

- Microenterprise Assistance: Target was 3% and during 2011 the state obligated 2.21%.
- Housing Rehabilitation: Target was 22% and during 2011 the state obligated 19.44%.

The barrier that resulted in a negative impact to the program is not something that can be remedied by IFA. Cities and counties were reluctant to apply for funds for a project due to

the fact they were unable to secure additional project funds due to the economy. In addition, cities are hesitant to apply for public works projects if it will require a monthly user rate increase. Some communities due to budget cuts had to cut staff and have lost the capacity to administer CDBG grants at the local level.

Specify the Nature of and Reasons for any Changes in Program Objectives and Indicate How the State Would Change Its Programs As A Result of Its Experiences

IFA made a few adjustments to the CDBG strategies for 2012 to streamline application processing and make modifications to the program to protect grant recipients from high-risk projects such as economic development. A summary of the changes is included below:

- 1) The Economic Development Revolving Loan Fund category was eliminated.
- 2) The Economic Development Microenterprise Grant category was eliminated.
- 3) The quarterly competitive application process was modified to a first come first served application process, where awards will be made on a quarterly basis. Applications will only be competitively scored if the requested amount of the applications exceeds the available funding source per funding category, in a given quarter.
- 4) Overall, the program in 2011 met the state needs therefore only minor changes were considered to the program for 2012.

Evaluate the Extent to Which the Program Benefitted Low- And Moderate-Income Persons and Include the Number of Extremely Low-Income, and Moderate-Income Persons Served By Each Activity Where Information on Income by Family Size Is Required to Determine Eligibility of the Activity

For the selected benefit period (2009-2010-2011), 99.97% of the state's CDBG funds were obligated to activities benefiting low- and moderate-income persons. Of the funds obligated under the state's 2011 program, 100% of the project funds benefit low- and moderate-income persons.

The 2011 unobligated recaptured grant repayments were not included in the calculation for overall program benefit to low- and moderate-income persons.

Of the CDBG awards made during the 2011 program year, the projects are proposed to benefit 16,070 persons of which 11,043 or 68.9% will be low and moderate income. Refer to Table III above and Table IV below for details.

Table IV

Funding Category	Very Low Income	Low Income	Moderate Income and below	Total Benefitted Persons	% LMI

Evaluate Progress toward Meeting The Goals of Providing Affordable Housing CDBG Funds, Including the Number and Types Of Households Served

During 2011 IFA funded housing rehabilitation projects that are proposed to benefit 163 households, of which 382 persons will benefit and 100% will be low and moderate income.

A Summary of Any Comments Concerning the Program That Have Been Received From Citizens

Public comments regarding the 2011 PER reports were added to the document after the conclusion of the public comment period and before submission to HUD in 2012.

A Summary of Activities and Results from Technical Assistance Funding

The state's 2011 program included the use of CDBG funds for the technical assistance allowed by Section 811 of the Housing and Community Development Act of 1992. As of December 31, 2023, all of the 1% funds from the 2011 allocation had been fully obligated.

Table III summarizes the CDBG 1% Technical Assistance awards that were made in Program Year 2011 for conference/workshop sponsorship, for local government capacity building associated with CDBG projects. The information below describes all the activities that were funded and the results from that activity.

- **Northwest Community Development Institute.** A grant was provided to the Northwest Community Development Institute for 2011 training and scholarships. This effort helps to train rural community development professionals in Oregon, Idaho and Washington. A total of 53 persons benefitted from this training event.
- **Northwest Economic Development Sponsorship ad Course.** A grant was provided to the Washington State Community Trade and Economic Development Department for 2011 training scholarships. The scholarships are offered to rural Oregon community representatives who attend this training. A total of 57 persons benefitted from this training event.
- **Rural Development Initiatives.** A grant was provided to Rural Development Initiatives for 2011 training and scholarships. This training helps to train rural Oregon community development professionals, community development practices. A total of 500 persons benefitted from this training event.
- **2011 Oregon Brownfields Conference and Awards Scholarship Fund.** A small amount of technical assistance funds was used to help support the 2012 annual brownfields conference. People attend the meeting from many communities, particularly from rural areas. The conference offers useful information for communities trying to clean up contaminated sites to accommodate community development. This training event will be held in 2012, and the total number of persons to benefit from the training will be reported in the 2012 PER.
- **Greater Eastern Oregon Development Corporation.** For years IFA has contracted with the Fair Housing Council of Oregon (FHCO) to provide education and outreach throughout the state, but it is difficult for the FHCO to efficiently cover the entire state. The FHCO has agreed to train the staff at Greater Eastern Oregon Development Corporation (GEODC) to enable them to become the fair housing representative in eastern Oregon. Contracting with the GEODC will enable help further fair housing and overcome existing impediments to fair housing in a more streamlined manner. A more detailed description of the results of this funding is described above in the section entitled *“actions taken to affirmatively further fair housing, a summary of impediments, and actions taken to overcome the effects of impediments”*
- **Fair Housing Council of Oregon.** IFA entered a contract with the Fair Housing Council of Oregon (FHCO) to promote equal access to housing by providing fair housing education, outreach, technical assistance and enforcement opportunities related to federal laws and related Oregon laws. A more detailed description of the results of this funding is described above

in the section entitled *“actions taken to affirmatively further fair housing, a summary of impediments, and actions taken to overcome the effects of impediments”*

- **Oregon Rural Housing Services.** A grant was provided to Oregon Rural Housing Services to update the outdated housing rehabilitation manual for CDBG housing rehabilitation grantees. This manual will be utilized by all housing rehabilitation grantees to assist them in running a CDBG compliant housing rehabilitation program.
- **Northwest Community Development Institute.** A grant was provided to the Northwest Community Development Institute for 2015 training and scholarships. This effort helps to train rural community development professionals in Oregon, Idaho and Washington. A total of 45 persons benefitted from this training event and this ACCOMPLISHMENT IS REPORTED IN THE 2015 PER.
- **Northwest Economic Development Sponsorship ad Course.** A grant was provided to the Washington State Community Trade and Economic Development Department for 2015 training scholarships. The scholarships are offered to rural Oregon community representatives who attend this training. A total of 54 persons benefitted from this training event and this ACCOMPLISHMENT IS REPORTED IN THE 2015 PER.
- **2014 Oregon Brownfields Conference and Awards Scholarship Fund.** A small amount of technical assistance funds was used to help support the 2014 annual brownfields conference. People attend the meeting from many communities, particularly from rural areas. The conference offers useful information for communities trying to clean up contaminated sites in order to accommodate community development. A total of 306 persons benefitted from this training event and this ACCOMPLISHMENT IS REPORTED IN THE 2015 PER.
- **Fair Housing Council of Oregon.** OBDD-IFA entered a contract with the Fair Housing Council of Oregon (FHCO) to promote equal access to housing by providing fair housing education, outreach, technical assistance and enforcement opportunities related to federal laws and related Oregon laws. A more detailed description of the results of this funding is described in the 2015 PER report section entitled *“actions taken to affirmatively further fair housing, a summary of impediments, and actions taken to overcome the effects of impediments”*

- **BBC Research & consultant** - Analysis of Impediment of Furthering Fair Housing. OBDD-IFA entered a contract with BBC Research & Consultant who will research, analyze, and write documents regarding fair housing opportunities in Oregon, including an “Analysis of Impediments to Fair Housing” and a “Fair Housing Action Plan”. A more detailed description of the results of this funding is described in the 2014 PER
- **Lazar Inc** – Translation service OBDD-IFA entered into a contract with Lazar Inc. to complete translation of CDBG forms, notices and letters that will provide the Units of General Local Government (UGLG), and persons of limited English proficiency more accessibility to the program information. A more detailed description of the results of this funding is described in the 2014 PER
- **State Administration.** Starting in FY 2004, states may expend up to \$100,000 +3% of their annual allocation on state administrative costs. In 2006, the state reserved the right to use this flexibility. All CDBG 1% funds used for state administration will be matched 1:1 with funds from the department's Special Public Works Fund. During 2011 none of the CDBG 1% funds were utilized for state administration.

Civil Rights

The state is required to provide data on all applicants and beneficiaries in projects funded from each grant allocation. Information must be reported for each project activity and must indicate the number of persons benefiting by ethnicity and racial groups as defined by U.S. Census.

- **Applicant data**—The proposed applicant data is contained in Table II above.
- **Actual data**—The actual beneficiary data from FFY2011 CDBG funded projects that were administratively closed during 2011 is described and contained in Table V below.

Table V

RACE GROUP	Total from FY 2011 Grant	Total from Program Income	Combined Total
White not Hispanic	15,385		15,385
Hispanic	1,905		1,905
American Indian/Alaskan Native	409		409
Black not Hispanic	103		103
Asian and Pacific Islander	201		201
Two or more	4		4
TOTAL	18,007	0	18,007

Ethnicity/Race data is tabulated for all administratively closed or closed projects in the non-entitlement areas of the state using FY 2011 funds. One(1) projects awarded in 2011 were administratively closed during the reporting period. Creating a total of 28 projects funded with 2011 funds that are either administratively closed or closed. When additional 2011 funded projects are administratively closed, the ethnicity/race data will be reported in successive year's PERs 2011 Grant Year Activity Reports as indicated in the table above for each project and totaled for all projects funded with 2011 grant year funds.

Summary of State's Reviews of Recipient's Civil Rights Performance

The state reviews the civil rights performance of its 2011 recipients as part of its regular monitoring procedures. These include either an on-site review or an internal file/desk audit of all projects. A standardized monitoring checklist is used for this process. 2011 grant recipients monitored during the reporting period generally complied with the Civil Rights performance requirements for Community Development Block Grant recipients.

Summary of State and Recipient Actions to Use Minority- and Women-Owned Businesses In Carrying Out CDBG-Funded Activities

The state encourages grantees to make contracts awarded under CDBG grants available to minority- and women-owned businesses. Through the Grant Management Handbook and training given to recipients, the state describes the various ways that contracting opportunities can be made available to minority- and women-owned businesses. Some examples include dividing larger contracts

into smaller portions that can be bid on by smaller firms, or directly soliciting proposals or bids from lists of certified minorities- and women-owned businesses.

The Grant Management Handbook (GMH) (revised February 2011 and April 2013) provides forms that grant recipients use to collect and report their efforts to the state. The updated 2013 GMH continues to implement the new information and new requirements for housing rehabilitation and off-site affordable housing projects originally implemented in 2011. These two project types must meet the minimum acceptable outreach efforts/**standards** to minority- and women-owned businesses:

- A good faith, comprehensive and continuing endeavor:
- Supported by a statement of public policy and commitment published in the printed media of the widest local circulation.
- Supported by an office/or a key, ranking staff person with oversight responsibilities and access to the chief elected official; and
- Designed to utilize all available and appropriate public and private sector resources.

In addition to meeting the *standards* listed above, these grant recipients are encouraged to use the new **guidelines** contained in the 2013 GMH in implementing outreach programs to ensure the inclusion to the maximum extent feasible, of entities owned by minorities and women.

The state will report in future PERs, for each allocation, on the use of minority and women-owned businesses, and on Section 3 activities by its recipients. IFA's 2011 Section 3 report was submitted to HUD on March 27, 2012.

Equal Employment Opportunity Data for Business Oregon

Business Oregon maintains the employment data required by the Equal Employment Opportunity Commission (EEOC) on an EEO-4 form. The form is not included in this report but is available from the department.

IDISPR28 Financial Summary Report Adjustments

- 1) The original IDIS generated report showed \$20,493.14 of program income had been retained by recipients (line 26). However, the IFA receipted \$20,493.14 in program income returned to the state that was redistributed to units of general local government. Therefore, an adjustment was made to show the program income in line 21 of the report.
- 2) Line 59 was adjusted to show the overall low- and moderate-income benefit period of 2009-2011.

IDISPR26 CDBG Financial Summary Report Adjustments

- 1) Line 23 was adjusted to show the overall low- and moderate- income benefit period of 2009-2011.
- 2) Line 24 was adjusted to show the cumulative net expenditures subject to low- and moderate-income benefit calculation for the 3 year reporting period, based upon the PER reports for 2009-2011 in this 2019 CAPER submission.
- 3) Line 25 was adjusted to the cumulative expenditures benefitting low- and moderate-income persons for the 3 year reporting period, based upon the PER reports for 2009-2011 in this 2013 CAPER submission.
