Grant funds may be awarded for amounts up to \$20,000. The State Historic Preservation Office attempts to fully fund grant requests. The funding is by reimbursement for work completed.

MATCH:

Grants must be matched 1:1 by the grantee.

- Match can be in the form of cash, in-kind donations and volunteer time.
- Rates for volunteer services may not exceed Oregon minimum wage, except in those instances in which the volunteer is using their professional skills for the grant assisted work. Then, documentation of their rate is required.
- Indirect costs (general operations costs associated with the grant funded project) or grant administration costs (staff time managing grant reporting and reimbursement) can be applied to the grant for funding or match, only one can be used in the same grant. Both indirect costs and grant administrations costs are limited to 6% of the award amount.

BUDGET INFORMATION:

Bids and estimates strengthen the grant request when applicable. If awarded the grant requires at least three estimates for work over \$25,000.

GRANT REPORTING AND PAYMENT:

Awarded projects will be the subject of binding agreements between the State and the grantee. Grant funds are dispersed on a reimbursable basis. Details of payment arrangements and grant reporting are included in the grant guidelines.

Grant Management

GRANT MANAGEMENT:

Because the Grant Agreement involves the use of public funds from the State of Oregon, you are expected to follow certain requirements for their use. These requirements will affect consultant or contractor selection, public notices, work plans, progress reports and reimbursement requests, project photographs, final reports and reimbursement requests, and recordkeeping.

Consultants/Contractors

Evidence of competition for direct negotiated professional services of under \$25,000 is not mandatory.

Services and materials that cost \$25,000 to \$75,000 must show evidence of competition, including soliciting proposals from at least three potential contractors. We must approve your selection prior to the consultant or contractor being hired. Please check the references of any contractor you review. To obtain approval please send the following to the Grants Coordinator through the online grants system, as a progress report:

- How contractor was solicited;
- Summary of experience and qualifications; and
- Why contractor was selected (references, quality, previous work, time frame, cost, etc.)

Work Plans

Work plans must be approved by Oregon Heritage before work begins. For approval submit the following to the Grants Coordinator:

If no changes have been made to the plan...

- An email indicating that the plan remains as proposed in the application.

If the plan is different than the one proposed in the application...

- Work description including materials, tools and processes to be used.
- Timeline

Staff Time

Documentation of staff time for grant funded work and for matching source work is required. Documentation must include the person, the tasks, hours, and rate for each employee.

Volunteer Time

Documentation of volunteer time for matching source work is required.

- Volunteer work may not be reimbursed by the grant.
- The volunteer rate is Oregon minimum wage.
- If a volunteer is using professional skills, the professional rate must be used. A document from that volunteer indicating the rate is required for each submission.
- Documentation must include the person, the tasks, hours, and rate for each employee.

Indirect Costs

Indirect costs are limited to 6% of the grant funds awarded for archaeology projects and are not allowed for National Register of Historic Places lists property rehabilitation projects.

Public Notice Requirement

It is in your best interest to spread the news about the grant award and the project progress.

Upon grant award, at key project points and upon completion you should do the following.

- Send a news release to local media
- Inform your members and interested parties
- Post on social media
- Inform your public officials (local, state and federal)
- Have celebratory and/or informational events (construction tour, ribbon cutting, etc.)

During the life of the project, place a sign in a prominent and readable location on your site, stating: “This project has been funded in part by the Oregon Heritage Commission, Oregon Parks and Recreation Department.” A simple temporary sign is acceptable; call the grant coordinator for suggestions. The sign may also include other project supporters. Include a photograph of the sign in place with your final report. Exhibits, documents, publications, and publicity about this project must also include this funding credit.

You may be asked to contribute to the [Oregon Heritage Exchange](#) blog following project completion.

THINGS TO KNOW:

- Interim reimbursements may be requested as work is completed.
- Match requirements should be met with each request.
- Full reimbursement is allowed when work is complete and the match requirements are met. OPRD may withhold up to 10% of the award amount until that time.

PAYMENT: Once complete progress reports and reimbursement requests are submitted, they will be reviewed by OPRD staff – program staff and finance staff. Reimbursements are in the form of a check. State agencies and universities are required to submit an invoice for electronic funds transfer. The process takes 2-4 weeks.

EXTENSIONS: Extensions are extremely rare due to state accounting requirements. Please communicate early in the grant period to discuss scope of work changes to avoid extension or cancellation.

AUDITS: A field or desk audit may be made after completion of the project to verify your expenditures. The auditor will contact you several days in advance to arrange a convenient time if a field audit is necessary. To expedite this audit, all supporting documents should be readily available.

GRANT REPORTING AND REIMBURSEMENT

RECORD KEEPING: Keep records of your grant management for five years. For details about accounting procedures see Appendix C.

RECOMMENDED ACCOUNTING PROCEDURES

In any program where reimbursement is requested for a portion of project costs, or matching share is claimed, adequate records are essential. There should be definite supporting evidence for EACH item of cost claimed, estimates are not sufficient. While these may not be required for reporting purposes, they are recommended for your record keeping in case of audit. The procedures below may not apply in every case, so look through them and identify and use those that are relevant to your project.

Contact Kuri Gill at Kuri.Gill@opr.d.oregon.gov, or phone 503-986-0685 if you have questions.

In order to promote a better understanding of the records required and to avoid the possibility of having costs disallowed at the time of audit, the following accounting procedures are suggested:

- Establish a separate account for each agreement project.
- Maintain the account so that it includes the project name, and lists payment for salaries and wages, contracts, equipment, materials and supplies, and other items that conform to categories listed on the grant reimbursement request.
- Each entry in the account must be cross-referenced to a voucher, payroll invoice or other supporting document. Each payment must be supported by a cancelled check or warrant, available in the grantee's records in the event of an audit. **DO NOT SUBMIT CANCELED CHECKS.**

The following paragraphs provide you information about the specific budget categories:

Professional Contractor or Consultant

Proper contractor or consultant selection procedures must be followed and proper documentation maintained for audit, or contract costs are subject to disallowal.

Payments made by the grantee should be supported by a statement or invoice from the consultant. The consultant hours do not need to be broken down if contracted in a lump sum, since the consultant agreement should state a total contracted amount. Payments made include fee for service, salary, per diem, payment for the travel, or other allowable services.

Employees

When a staff member is involved in a grant project, payrolls should be signed by an authorized person and wages paid should be supported by time and task tracking records for each employee.

Records (daily, weekly, or monthly) must show total daily hours for each project and description of work performed.

Fringe benefit rates should be developed using actual costs, and individual components should be identified.

Documentation should show how rate or cost was derived. This amount must be traceable through the grantee's records.

Travel

State guidelines require that all mileage rates do not exceed the maximum state rate, which is generally the same as the standard Internal Revenue Service rate. The reimbursement request must show the name of the individual, time of departure and return, dates, mileage (odometer readings or locations), meals claimed, and purpose. A copy of lodging receipts for overnight travel must be maintained. Contact Kuri Gill at Kuri.Gill@oregon.gov or (503)986-0685 for current rates.

Materials and Equipment

Value and Use of Owned Equipment

Equipment value (for owned equipment) should be supported by time records and by a schedule of hourly rates developed from actual historical costs, or in the event no previous cost data exists, from reasonable estimates of such factors as useful life, annual hours or use, insurance premiums, etc. These estimated rates must be adjusted each year based on the previous year's actual costs.

Equipment Rental (Outside)

Payments made by the grantee for equipment rented for specific project area are generally allowable under state regulations. Payments made by the grantee must be supported by a statement or invoice from the vendor that indicates the time period the equipment was rented.

Materials and Supplies

Supplies and materials charged to the project must be supported by supplier's invoices or receipts. The original or a photocopy of the cancelled checks must be available for a field audit. **DO NOT SUBMIT CANCELLED CHECKS IN YOUR REIMBURSEMENT REQUEST.**

Printing, Publication Design, etc.

If you make, design or print a publication as part of your project, include those costs here. The costs can only be paid if a statement recognizing the grant contribution is included.

Value of Contributed Goods and Services

Valuation of In Kind Contributions from Third Parties

The value of labor, materials, equipment usage, etc., donated by sources other than the grantee may be included on the Payment Request Form only if documented. Documentation can be a sheet with work done and hours worked recorded and signed by the project manager and the volunteer.

a. Valuation of volunteer service

- Volunteer services may be furnished by professional and technical personnel, consultants, and other skilled and unskilled labor. Volunteered services may be counted as matching share if they are a necessary part of the project.
- Rates for volunteer services may not exceed Oregon minimum wage, except in those instances in which the volunteer is using their professional skills for the grant assisted work. For example, if a carpenter or bookkeeper donates carpentry or bookkeeping services to the project, these services may be valued at the hourly rate the carpenter or bookkeeper would normally charge.

In such cases, the donor must sign a brief statement that notes the donor's usual occupation, intent to donate their usual services, and the date. These statements are then submitted with the reimbursement request.

b. Donated Materials Invoices, where applicable, must be marked "donated" and signed, and submitted with the reimbursement request.

c. Donated Equipment Invoices, where applicable, must be marked "donated" and signed, and submitted with the reimbursement request.

APPENDIX C

Grant Reporting & Reimbursement Checklist

OREGON HERITAGE, OREGON PARKS AND RECREATION DEPARTMENT

Grants awarded by Oregon Heritage, Oregon Parks and Recreation Department are reimbursement grants. In order to receive payment, grantees must submit a progress report demonstrating work completed and a reimbursement request documenting all project expenses including those supported by a match source.

Basics

Progress reports and reimbursement requests may be submitted as work is completed and are required at specific times. The required reporting dates are found in your grant agreement, in attachment B.

A progress report is always required with a reimbursement request to receive funds. A progress report can be submitted without a reimbursement request.

When to Submit

When to submit the progress report:

- When required per the grant agreement, this may be an updated timeline if no work has been completed.
- When submitting for reimbursement.
- When requesting a scope of work change.
- When submitting workplan specifications for approval.
- When submitting extension requests. NOTE: These are rare and, in some cases, not allowed.
- When the entire project is complete. Be sure to click the 'final report' check box on the progress report.

When to submit a reimbursement request:

- When required per the grant agreement.
- When a large portion of work is complete.
- When all project work is complete, be sure to check the 'final request' check box in the reimbursement request.

How to Submit

Submit both the progress report and reimbursement request using the [OPRD Grants Online system](#). This is the same program used to submit the application. If you are not the person in your organization you can use the reporting instructions below to create an account.

Tools to help you with the online system.

 - [How to submit a progress report](#)

- How to submit a reimbursement request

Tips & common challenges when submitting.

- Submit through the project, which is found in the project tab, not the application tab.
- Always click 'edit' at the top of the page when you want to start a report or request, or to enter information.
- The report and request are saved when you click 'save' and submitted when you click 'submit'. OPRD is only notified and can respond when submitted.
- Both the report and request must have at least one attachment uploaded in order to submit.

What to Submit

Progress Report

The progress report is evidence of the value, quality and type of work completed. Its purpose is to support that the terms of the agreement have been met. A description of the completed work is required in addition to uploaded supporting documents. Also, we frequently use these materials to share about good work in the state, develop resources, consider for awards, create conference sessions, and promote the value of the grant program. Please see the list below for suggested information and attachments to include based on the project type.

Reimbursement Request

The reimbursement request must include all of the costs associated with the grant funded project. Matching costs must be included.

What to attach:

- Staff time tracking – the document should include the staff person, task, hours and rate related to work on the project.
- Volunteer time tracking– the document should include the volunteer, task, hours and rate related to work on the project. It is best if this is signed by the volunteer. The rate is Oregon minimum wage for your region. If it is a professional doing their profession as an in-kind donation, you must submit a document from them indicating their rate.
- Invoices/receipts
 - **Items over \$500** – Proof of cost of project associated work is required. The invoice/receipt must list the work completed and the cost.
 - **Items under \$500** – You may compile a list or spreadsheet of small costs, it should include each item and its cost. The total from this document can be used as a project expense item in the online system.
- **DO NOT** submit copies of checks unless the account information is redacted.

Impact Survey

Once your final report and reimbursement request are submitted, be sure to complete the impact survey. You can find the link in your grant guidelines and on the website. The information provided helps demonstrate the value of the grant programs and supports their continuation.
