

### Grants Committee

# FIP Rulemaking Overview

June 2024

### FIP Program Overview

Addresses a **Board-Identified Priority** of significance to the state

Achieves clear and measurable **Ecological Outcomes** 

A "Focused Investment Partnership" is an OWEB investment that:

Uses integrated and results-orientated approaches as identified through a **Strategic Action Plan** 

Implemented by a High-Performing Partnership

### **OWEB's Focused Investment Partnership Program**

Funds a partnership initiative with an existing strategic action plan (SAP) that is ready for implementation by a high-performing partnership for a period of up to 6 years, and not exceeding \$12 million.

## Steps in FIP Rulemaking Process

At the January
2024
meeting, the
Board
initiated
rulemaking
for the FIP
program.

OWEB staff
have recruited
11 RAC
members who
have
experience
with the FIP
program.

Four RAC meetings have been scheduled beginning in June and ending in September 2024.

These meetings will be virtual, open to the public, and available for viewing on YouTube.

### **Example FIP Themes the RAC Will Discuss**

Evaluation Criteria for the Initiative Level OWEB grant applications

"Overlap Rule" between FIP and OWEB's Open Solicitation grant program

Tracking the required match at the Initiative level

Grant types in the FIP (i.e. engagement, tech assistance, resto, monitoring, land/water acquisition)

#### **FIP Rule Themes for Grant Committee Discussion**

**Funding Cap** 

**Ecological Priorities** 

## **Funding Cap Overview**

**Current state:** \$4 million funding cap in the FIP rules was established in **2015**.

Option for future state: Replace current cap with language that the board will determine the maximum amount each biennium with the adoption of their spending plan. The intent is for the board to align the funding cap with inflation (e.g. \$4 million in 2014 = \$5.15 million in 2023).

## **Ecological Priorities**

Background

FIP rules state that the board will adopt and review ecological priorities every five years.

The rules do not describe what the priorities are. Staff recommend keeping this language in rule.

The last time the board reviewed/approved priorities was in 2020.

### **Current OWEB Board-Identified FIP Priorities**

Oak Woodland and Prairie Habitat

Sagebrush / Sage-Steppe Habitat

Coho Habitat and Populations Along the Oregon Coast

Oregon Closed Lakes Basin Wetlands Habitat

Aquatic Habitat for Native Fish Species

Dry-Type Forest Habitat

Coastal Estuaries in Oregon

## **Ecological Priority Review Timeline**

Board considers adoption of FIP rule revisions

Solicitation for FIP Cohort 5 begins with **existing** ecological priorities

Process for reviewing ecological priorities is initiated. Will include robust engagement efforts to review and refine existing priorities and determine if new/additional ecological priorities are warranted.

Board approves Cohort 5 FIP initiatives (note, if we are able to get the solicitation out in late winter/early spring 2025, we could conceivably have this in January, 2026).

Board consideration of revised/new FIP ecological priorities.
